Enduring partnership since 1867

Siemens has partnered India – from setting up the Indo-European telegraph line in 1867

Partnering India:

Integrated solutions for a sustainable future through Electrification, Automation and Digitalization

Our customer-oriented Division setup

Corporate Core and Corporate Services

Executive Management

Digital Factory Division

offers software products and automation technologies for industrial applications covering the entire life cycle, from product design and production to after-sales service for discrete manufacturing industries such as automotive, F&B

Our products and solutions

- Automation systems
- Industrial control
- Industrial communication
- LV and MV Drives
- Geared motors
- Motion control
- CNC solutions
- Low voltage switchgear for switching, protection and control
- PLM software and services

Process Industries and Drives

offers a comprehensive portfolio for industrial application and solutions in the field of automation and drives for process industries such as cement and steel

Our products and solutions

- Process automation
- Integrated Drive Systems (IDS)
- Sensor systems
- Plant engineering software
- LV motors (upto frame size 560)
- MV motors (upto frame size 630)
- Traction motors
- Mechanical drives
- Windmill generators (≤ 1875 MW)
- Gear boxes

Building Technologies Division

provides solutions for safe, secure and energy-efficient infrastructure and buildings

Our products and solutions

- Building automation systems
- HVAC products
- Building control
- Security systems
- Fire safety systems
- Energy efficiency systems
- Total Building Solutions
- Integrated systems and solutions for specific markets and industries such as data centers, utilities, airports, hospitals and hotels

Power and Gas Division

offers products and solutions for reliable, efficient and clean power generation from fossil fuels and for oil & gas applications

Our products and solutions

- Gas turbines (≤ 400 MW)
- Steam turbines (≤ 1900 MW)
- Generators (≤ 2235 MVA)
- Condensers
- Turbo compressors
- Instrumentation and control
- Electrical balance of plant
- Integrated power plant solutions
- **Energy solutions** : Power block, Power island, complete lumpsum turnkey power plants on EPC basis

Energy Management Division

is a supplier of products, solutions and services for the transmission and distribution of electrical energy

Our products and solutions

- Power transformers (≤ 750 MVA)
- Shunt reactors (≤ 125 MVA)
- Protection relays and devices
- AIS upto 800 kV
- GIS upto 800 kV
- Circuit breakers (≤ 800 kV)
- Disconnectors (≤ 765 kV)
- Instrument transformers
- Control and relay panel (≤ 765 kV)
- LV /MV switchboards (≤ 40 kV)

Mobility Division

supplies solutions for passenger and freight transportation, including rail vehicles, rail automation and rail electrification systems

Our products and solutions

- Propulsion systems
- Inverters
- Rail Signaling
- Rail electrification
- Rail automation
- Intelligent Traffic Management
- Light Rail
- Metro Rail
- Passenger coaches

Making it Happen

Key projects and locations, Siemens Limited

We make real what matters, by setting the benchmarks in the way we electrify, automate, and digitalize the world around us. Ingenuity drives us and what we create is yours. Together we deliver.

- A** Implementing electrification and digitalized system for control centre for Ahmedabad Metro
- B** Launched Sinacon PV a new generation of photovoltaic (PV) central inverters with an output up to 5,000 kVA
- C** Set-up a Medium Voltage (MV) Lab at INS Valsura as part of the modernization plans of the Indian Navy for ship propulsion
- D** Completed the supply, installation and commissioning of an 8.5 MW steam turbine, gear box and related control panels Shakambhari Ispat & Power Limited

- E** Innovation milestone with first 3D-printed oil sealing rings installed on SST-300 steam turbine of JSW Steel Ltd's at Salem
- F** Upgrading Supervisory Control and Data Acquisition / Energy Management System (SCADA/EMS) for Nepal Electricity Authority (NEA)
- G** Four Mindsphere Application Centers for Digital Innovations launched in Pune, Noida and Gurgaon (two)
- H** Commissioned the world's largest Static Synchronous Compensator (STATCOM) solution for Power Grid Corporation of India Ltd. (PGCIL) at PGCIL's Rourkela substation

Chairman's Statement

Dear Shareholders,

Financial Year 2017-18 was a challenging year and Siemens Limited operated in a mixed macro-economic environment. The pick-up in GDP growth is encouraging, with improvement evident in government investments and industrial production. The Company is well-positioned to exploit the opportunities that arise in a growing economy, utilizing its strengths in vertical domain expertise, digital solutions and services.

Driving business performance through digitalization

In Financial Year 2017-18, the Company achieved significant headway in digitalization. Customers across industries have evinced strong interest for digitalization solutions for enhancing energy efficiency, productivity, speed, quality and flexibility in their operations. The Company engaged with these customers with its co-creation approach, where Siemens experts work together with the customers to find solutions for business challenges.

Siemens Limited has created a clear differentiation in the market through new digital services, development of applications and business models in Power Generation, Transmission and Distribution, Smart Cities and numerous industry verticals such as Food & Beverage, Cement, Automotive and Pharmaceuticals. The Company is currently executing over 100 digital projects working together with 150 customers to deliver business value. The launch of the MindSphere Application Centers further boosts the Company's capabilities in this space.

Among the instances where customers experienced business benefits are: A power substation connected to the Cloud benefited from reduced footprint, lower maintenance cost and flexibility of expansion. In addition to improving the life of its turbine, a power plant can now increase its power output to balance the power grid, allowing ramp-up in 20 seconds. An automotive manufacturer reduced product development time by 50 percent, a pharmaceutical company improved batch quality while reducing batch cycle time by 15 percent and a cement plant - reduced power consumption by 8 percent whilst increasing mill feed by 20 tonnes per hour! These successes in helping customers improve business performance can be replicated across industries.

Driven by this continued thrust on digitalization and creating Smart Infrastructure, the Company is committed to continue its commitment to profitable growth.

Strong performance across businesses

The Company has partnered the industry and the government through technology solutions in electrification, automation and digitalization. In Financial Year 2017-18, Siemens Limited remained at the forefront of implementing world-class technologies.

The Company set an industry milestone in the area of Additive Manufacturing in the power generation industry with the Company's first replacement parts 3D-printed from metal for an industrial steam turbine. These parts are installed at JSW Steel Ltd.'s plant in Salem, Tamil Nadu. It also set a new milestone in the modernization plans of the Indian Navy by setting up the Medium Voltage Lab at INS Valsura, the Indian Navy's oldest training establishment. It commissioned the world's largest static synchronous compensator (STATCOM) solution, manufactured in the Company's Goa factory for Power Grid Corporation of India Limited. The technology is used for grid stabilization.

With an aim to boost technology adoption by small and medium enterprises in manufacturing, the Company flagged off 'Ingenuity Tour' during the Financial Year. The Ingenuity Tour demonstrates a comprehensive array of innovative products, solutions and services covering electrification, automation and digitalization for the manufacturing segment. The initiative will cover over 23 states and 120 cities across India over a period of two years.

Operationally, the Company performed well across businesses and most financial parameters. For the Financial Year ended 30th September 2018, Sales (excluding Other Operating Revenues) increased by 11.1 percent to ₹ 122,927 million, compared with ₹ 110,602 million in the previous year. The Company received New Orders valued at ₹ 127,404 million, compared to ₹ 135,030 million in the Financial Year ended 30th September 2017.

The Order Backlog as of 30th September, 2018 stood at ₹ 123,528 million compared with ₹ 122,627 million in the previous year. Profits from Operations stood at ₹ 11,194 million compared to ₹ 8,546 million in the previous year.

For the Financial Year ended 30th September 2018, the Company's Profit before Tax stood at ₹ 13,912 million compared to ₹ 11,016 million in the previous year (excluding Exceptional Income of ₹ 5,675 million). The Profit after Tax for the year was ₹ 8,939 million, compared to ₹ 7,051 million in the previous year (excluding Exceptional Income of ₹ 4,285 million).

The Board of Directors has recommended a dividend of ₹ 7/- per equity share of face value of ₹ 2/- each (350%) for the financial year ended 30th September 2018. In the previous year, the Company had declared a dividend of ₹ 7/- per equity share.

Business Responsibility – making real what matters

During the Financial Year 2017-18, Siemens Limited continued to ramp up its Corporate Social Responsibility (CSR) activities. The Company has made considerable progress in its contribution towards education (Science and Technology), social development (enhancing living condition) and environmental conservation (resource efficiency). As a responsible corporate citizen with a purpose to serve society, the Company has endeavored to deliver lasting benefits and create sustainable communities using the Company's core competencies.

Through the various interventions such as widening water channels and recharging ground water levels, over 110 million litres of water was made available to farmers. Other initiatives focused on the environment have led to around 1,760 tonnes of carbon dioxide reduction and approximately 805 kilowatt-hour of clean energy being produced daily. These resource efficiencies have been achieved by implementing the Company's technologies and solutions. Over two lakh women now have access to quality healthcare. More than 1,100 acres of agricultural land has been made available for farming, leading to higher income levels and lower migration.

The Company's Scholarship Program expanded to 49 colleges and 22 States, and now provides holistic development to 435 Scholars. These Scholars hail from the marginalized sections of society. Siemens Scholars who have graduated from this program have been placed in Siemens as well as leading companies in various sectors, turning into role models in the community. The Siemens Scholarship Program is for engineering students and is based on the German dual education pedagogy.

These projects are ongoing and will continue to contribute to the sustainable development of society, education and conservation of the environment using sustainable and inclusive technology that is scalable and replicable. The Company spent the two percent of the average net profits, computed as per the requirements of the Companies Act, 2013, on sustainable projects and programs creating long term impact.

People Excellence – towards making Siemens a great place to work

During the Financial Year, the Company continued to focus on nurturing its employees. Many initiatives have been undertaken by the Company to make Siemens a great place to work and the most preferred engineering company in India. These initiatives will continue to focus on learning and development, health management, environmental protection and safety. Considering the increased demand for digital transformation among customers, the Company invested efforts in enhancing the competence of its employees on digital technologies.

It is a matter of pride that the Company has been certified by the Great Place to Work Institute for the period September 2018 to August 2019. This is an outcome of the numerous initiatives undertaken within the Company and I commend the efforts of all employees in achieving this success.

Outlook

In the face of global economic volatility and risks driven by socio-political factors, India's macro-fundamentals are robust. While being one of the highest-growth economies in the world driven by domestic consumption, India still has high growth potential offering numerous investment opportunities.

The Company will continue to focus on sustaining profitable growth in new orders and maintain operational excellence. Together with digitalization, the Company will continue to focus on co-creating solutions together with customers to stabilize the grid, smart infrastructure, transmission and distribution systems, and delivering business benefits across industry verticals in the manufacturing segment.

With the Company's strengths and competence in electrification, automation and digitalization, I am confident that it can support the government's initiatives such as Make in India, 24/7 Power for All, Digital India and Smart Cities Mission and contribute to achieving various targets which is imperative for the nation's overall economic and social growth. With its expertise in Smart Infrastructure, the Company is committed to contribute to the development India's infrastructure to meet global standards.

In conclusion, I would like to sincerely thank our customers, the board, management, unions and most importantly, the dedicated employees for their constant support and commitment to Siemens Limited.

Deepak Parekh

Chairman

Item Nos. 8 to 10

The Members of the Company at the 57th Annual General Meeting (AGM) held on 30th January 2015 inter alia appointed Mr. Deepak S. Parekh, Mr. Yezdi H. Malegam and Mr. Darius C. Shroff as Independent Directors of the Company for a period of five consecutive years with effect from 30th January 2015.

As per new provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, which are effective from 1st April 2019 a person who has attained the age of seventy five years can continue as non-executive director in a listed company, provided approval of its Members by way of a special resolution is obtained.

Mr. Malegam has attained seventy five years of age and Mr. Parekh and Mr. Shroff would attain the age of seventy five years during their current term as Independent Directors in the Company which is upto 29th January 2020.

The profiles of Mr. Parekh, Mr. Malegam and Mr. Shroff are provided in the Annexure to this Notice.

In the opinion of the Board of Directors of the Company, Mr. Parekh, Mr. Malegam and Mr. Shroff are persons of high repute, integrity and have rich and varied experience and hence recommends Special Resolutions as set out at Item Nos. 8 to 10 of this Notice, for consideration and approval of the Members.

None of the Directors or Key Managerial Personnel of the Company or their relatives other than those mentioned in the respective resolutions and their relatives are in any way concerned or interested, financially or otherwise, in the resolutions as set out at Item Nos. 8 to 10 of this Notice.

Item No. 11

The Memorandum of Association ("MoA") of the Company was framed when the Company was incorporated under the Companies Act, 1956 and amendments were carried out from time to time.

It is now proposed to consolidate the objects covering business operations of the Company that it undertakes / may undertake. Accordingly, sub-clauses 1 to 9 under Clause III of existing MoA is proposed to be replaced by 3 (three) new sub-clauses as provided in Item No.11 of this Notice and remaining sub-clauses of the MoA to be correspondingly renumbered.

As per Section 13 of the Act, read with Companies (Incorporation) Rules, 2014, any alterations proposed to be made in the MoA of the Company requires the approval of the Members by way of a Special Resolution.

A copy of the proposed altered MoA of the Company is available for inspection by the Members of the Company at the Registered Office during business hours, on any working day (except Saturdays, Sundays and Holidays) of the Company, upto the date of the Annual General Meeting and will also be available for inspection at the venue of the AGM. The proposed draft MoA is also available on the Company's website www.siemens.co.in for perusal by the Members.

The Board of Directors recommends the Resolution as set out at Item No. 11 of the Notice for approval of the Members as a Special Resolution.

None of the Directors, Key Managerial Personnel or their relatives, are in any way concerned or interested, financially or otherwise in the Resolution as set out at Item No. 11 of this Notice.

Item No. 12

The Articles of Association ("AoA") of the Company are based on the Companies Act, 1956. The Companies Act, 2013 was notified in tranches and has since then also been amended from time to time. In view of the aforesaid and in order to bring the existing AoA of the Company in line with the provisions of the Companies Act, 2013 (viz. quorum of general meetings, concept of Independent Directors, Key Managerial Personnel, etc), it is recommended to adopt new set of AoA.

Considering that the changes to be made in the existing AoA are large in number, it is proposed to adopt a comprehensive new set of AoA in substitution of and to the entire exclusion of the existing AoA.

As per Section 14 of the Act, read with Companies (Incorporation) Rules, 2014, any alterations proposed to be made in the MoA of the Company requires the approval of the Members by way of a Special Resolution.

A copy of the proposed set of new AoA of the Company is available for inspection by the Members of the Company at the Registered Office during business hours, on any working day (except Saturdays, Sundays and Holidays) of the Company, upto the date of the Annual General Meeting and will also be available for inspection at the venue of the AGM. The proposed draft AoA is also available on the Company's website www.siemens.co.in for perusal by the Members.

The Board recommends the Resolution as set out at Item No. 12 of the Notice for approval of the Members as a Special Resolution.

None of the Directors or Key Managerial Personnel, or their relatives, are in any way concerned or interested, financially or otherwise, in the Resolution at Item No. 12 of this Notice.

Item No. 13

The Board of Directors of the Company, on the recommendation of the Audit Committee, has approved the appointment of Messrs R. Nanabhoy & Co., Cost Accountants (Firm Registration No. 000010), as the Cost Auditors to conduct the audit of the cost records of the Company for the financial year ending 30th September 2019.

In accordance with the provisions of Section 148 of the Companies Act, 2013 read with the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost Auditors has to be ratified by the Members of the Company. Accordingly, consent of the Members is sought by way of an Ordinary Resolution as set out at Item No. 13 of the Notice for ratification of the remuneration amounting to ₹ 18,00,000/- (Rupees Eighteen Lakh only) plus applicable tax and out of pocket expenses that may be incurred by the Cost Auditors for the financial year ending 30th September 2019.

The Board accordingly recommends the resolution at Item No. 13 of this Notice for the approval of the Members.

None of the Directors or Key Managerial Personnel or their relatives are in any way concerned or interested, financially or otherwise, in the Resolution as set out at Item No. 13 of this Notice.

The Company has Policy on Prevention of Sexual Harassment at Workplace in line with the requirements of the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 and Rules framed thereunder and Internal Complaints Committee has also been set up to redress complaints received regarding sexual harassment. During the year, one complaint with allegations of sexual harassment was received by the Company and the same was investigated and resolved.

25. Auditors

- i) Pursuant to provisions of Section 139 of the Act read with the Companies (Audit and Auditors) Rules, 2014 (as amended), Messrs S R B C & CO LLP, Chartered Accountants (Firm Registration No. 324982E/E300003) ("SRBC") were appointed as Statutory Auditors of the Company for a term of four years, to hold office from the conclusion of 57th AGM held on 30th January 2015, until the conclusion of forthcoming 61st AGM, subject to ratification of their appointment at every subsequent AGM.

Accordingly, SRBC ceases to be the Statutory Auditors of the Company on the conclusion of forthcoming 61st AGM of the Company to be held on 6th February 2019.

In accordance with the provisions of the Section 139 of the Act and Rules framed thereunder and in view of mandatory rotation of the Statutory Auditors, based on the recommendations of the Audit Committee, the Board of Directors has recommended the appointment of Messrs B S R & Co. LLP, Chartered Accountants (Firm Registration No. 101248W/W-100022) ("BSR") as the Statutory Auditors of the Company for a period of 5 years from the conclusion of 61st AGM until the conclusion of 66th AGM of the Company at a remuneration as may be agreed upon by the Board of Directors and the Auditors subject to the approval of the Members.

A resolution seeking their appointment forms part of the Notice convening the 61st AGM and the same is recommended for your approval.

The Auditors' Report dated 18th November 2018 issued by SRBC for FY 2017-18 does not contain any qualification, reservation, adverse remark or disclaimer.

Directors' Report

- ii) The Board of Directors, on recommendation of the Audit Committee, has re-appointed Messrs R. Nanabhoy & Co., Cost Accountants (Firm Registration No. 000010), as Cost Auditors of the Company, for the Financial Year ending 30th September 2019, at a remuneration as mentioned in the Notice convening the 61st AGM and same is recommended for your consideration and ratification.

The Company had filed the Cost Audit Report for FY 2016-17 on 16th February 2018, which is within the time limit prescribed under the Companies (Cost Records and Audit) Rules, 2014 (as amended).

As per the requirements of the Section 148 of the Act read with the Companies (Cost Records and Audit) Rules, 2014, the Company is required to maintain cost records and accordingly, such accounts are made and records has been maintained in respect of the applicable products for the year ended 30th September 2018.

- iii) Pursuant to provisions of Section 204 of the Act read with the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 (as amended), the Secretarial Audit Report for FY 2017-18 issued by Secretarial Auditors i.e. Messrs Parikh Parekh & Associates, Practicing Company Secretaries (Unique Code No. P1978MH01000) is provided as **Annexure XI** to this Report. The Secretarial Audit Report FY 2017-18 does not contain any qualification, reservation, adverse remark or disclaimer.
- iv) There have been no instances of fraud reported by abovementioned Auditors under Section 143(12) of the Act and Rules framed thereunder either to the Company or to the Central Government during FY 2017-18.

26. Compliance with Secretarial Standards

During FY 2017-18, the Company has complied with applicable Secretarial Standards issued by the Institute of the Company Secretaries of India.

27. Material changes and commitment, if any, affecting financial position of the Company from financial year end and till the date of this report

There have been no material changes and commitments, if any, affecting the financial position of the Company which have occurred between the end of the Financial Year of the Company to which the Financial Statements relate and the date of this Report.

28. Significant and Material Orders passed by the Regulators or Courts

There are no significant and material orders passed by the regulators or courts or tribunals impacting the going concern status and operations of the Company in future.

29. Acknowledgements

The Board of Directors takes this opportunity to thank Siemens AG - the Parent Company, customers, members, suppliers, bankers, business partners / associates and Central and State Governments for their consistent support and co-operation to the Company.

Annexure II to the Directors' Report

Conservation of Energy, Technology Absorption, Foreign Exchange Earnings and Outgo

(Pursuant to provisions of Section 134(3)(m) of the Companies Act, 2013 read with Rule 8(3) of the Companies (Accounts) Rules, 2014)

A. Conservation of Energy

I. Steps taken or impact on conservation of energy:

- i. Replacement of conventional office lighting and shop floor lighting into LED lighting across locations resulting in annual savings of 354 Mega Watt hour (Mwh).
- ii. Elimination of idle running of spindle blower motor in Computerised Numerik Control turning machines in Kharagpur factory resulted in savings of 2 Mwh.
- iii. Savings of electrical consumption of 48.5 Mwh by replacement of industrial fans with 1x High Volume Low Speed Fan at Kalwa Motors Factory.
- iv. Diesel forklift replaced by Battery operated forklift for material movement as well as loading and unloading of material in incoming and dispatch area of Energy Management factory at Goa resulted in savings of 45 GigaJoules.
- v. Installation of Variable Frequency Drives for Air Handling Units thereby reducing blower motor consumption and speed at Switchgear factory in Kalwa resulted in savings of 123.3 Mwh.
- vi. Motion sensor detecting man movement have been installed for wall mounted fans at Energy Management factory at Goa resulted in savings of 6 Mwh.
- vii. Separate light switch for gangway to avoid running of LED light of all shop floor in Switchboard factory at Kalwa resulted in saving of 70 Mwh.
- viii. Installation of Air Conditioners timers in Outdoor Vacuum Circuit Breakers clean room in Switchboard factory at Kalwa resulted in savings of 15 Mwh.
- ix. Installation of Variable Refrigerant Flow Air Conditioners by replacing of Split Air Conditioners in Kolkata office resulted in savings of 40 Mwh.
- x. Installation of capacitor Bank for Switchgear factory resulted in savings of 24 Mwh.
- xi. Replacement of old air compressors with new energy efficient compressors in Transformer factory in Kalwa resulted in savings of 25 Mwh.
- xii. Minimising consumption of electricity from the operation of Semi portal crane in Chennai factory resulted in savings of 12 Mwh.

II. Steps taken by the Company for utilizing alternate sources of energy:

- i. Utilization of natural daylight through daylight harvesting products.
- ii. Use of solar energy against conventional energy at Kalwa factories resulted in savings of 1,730 Mwh.

III. Capital investment on energy conservation equipments:

The Company made capital investment amounting to ₹ 171.7 million during the Financial Year 2017-18 on the energy conservation equipments.

B. Technology Absorption

I. Efforts made towards technology absorption:

- i. New Installation of 6.3 MW Wind test bench.
- ii. New 8 spindle high speed coil winding machine with motorized front attachment with encoder and state of art motorized high speed tensioners.

-
- iii. 2D optical measurement of parts using digitalization for measuring dimensions with predefined program.
 - iv. Bluetooth enabled measurement of parts using digital instruments for direct data entry into system.
 - v. PLC based label printing with mistake proofing for finished products packing.
 - vi. Commissioned less noise and energy efficient high volume low speed fans on factory shop floor.
 - vii. Inline tapping of progressive punched parts.
 - viii. Doubly Fed Induction Generator (power out from rotor and stator) for tapping the vagaries in input wind power driving the generator.
 - ix. Focus on development or improvement of Industrial Steam turbines in the range 0.1 MW – 200MW.
 - x. Dimensional restoration of turbine Rotors by Laser cladding process and repair of critical rotor.
 - xi. Localization of large steam turbine parts in India along with other product lines.
 - xii. 3D scanning and Faro inspection for reverse engineering.
 - xiii. Repair of compressor rotor with the developed Plasma tungsten inert gas welding process.
 - xiv. Photovoltaic Inverter production and localization in India.
 - xv. Manufacturing and localization of Cast Resin Transformers.
 - xvi. Manufacturing of online drying systems for transformers in India.
 - xvii. Release of IE4 efficiency motors for FS250 to FS315 which is highest frame size motors in low voltage motor range.
 - xviii. Established methodology of Single Stage Turbine rotors repair.
 - xix. Harmonization of best-in-class technology.

II. Benefits derived as a result of the above efforts:

- i. Cost optimization, reduced lead time of repair and competitiveness.
- ii. Restoration to original dimension of turbine rotor and ensuring interchangeability.
- iii. Low cost solution to customer.
- iv. Customized solution.
- v. Product improvement and cost reduction.

Annexure II to the Directors' Report

Conservation of Energy, Technology Absorption, Foreign Exchange Earnings and Outgo

III. Imported Technology:

Details of Technology Imported	Year of Import	Whether the technology been fully absorbed	If not fully absorbed, areas where this has not taken place, reasons there for
Mechanical based Test bench	2018	Yes	Not applicable
Enhanced Platform technology steam turbines (SST600-EP)	2017	Yes	Not applicable
Core and winding of Cast Resin Transformers	2018	No	Low volumes of total product
Drawings and process note of online drying systems for transformers	2018	Yes	Not applicable
5SV Residual current circuit breaker	2018	No	Low volumes of total product
SL5 DC curve Miniature circuit breaker	2018	Yes	Not applicable
5SL7C/D curve Miniature circuit breaker	2018	Yes	Not applicable

IV. Expenditure incurred on Research and Development: ₹ 147 million.

C. Foreign exchange earnings and outgo

Foreign Exchange Earnings and Outgo during the Financial Year 2017-18:

(₹ in million)

Foreign Exchange earned in terms of actual inflows	20,159.25
Foreign Exchange outgo in terms of actual outflows	46,177.07

Management's Discussion & Analysis

General Performance Review

The financial year 2018 was a year where Siemens Ltd continued to face headwinds resulting from a mixed macro-economic environment. While crude oil prices demonstrated an upward trend, the depreciation of the Indian Rupee impacted margins. Opportunities in Power Generation were restricted to Renewables though the demand for power from captive power plants across industries such as Fertilizer and Sugar grew. While large-scale Central Transmission projects were muted, the demand for improved distribution at the State level increased. Capital expenditure from the private sector continued to remain low but is growing in segments such as Automotive, Pharmaceuticals, Food and Beverages and Cement.

The Index of Industrial Production for manufacturing and infrastructure rebounded during the financial year. Capacity utilization, an indicator of manufacturing growth, improved reaching close to its long-term average. Retail inflation was lower in financial year 2018 compared to the previous year.

During financial year 2018, New Orders were down by 5.6 percent at ₹ 127,404 million, compared with ₹ 135,030 million in financial year 2017. Sales (excluding Other Operating Revenues) were up by 11.1 percent to ₹ 122,927 million, compared with ₹ 110,602 million in financial year 2017, while Profit after Tax (PAT) was at ₹ 8,939 million compared with ₹ 11,336 million in financial year 2017. During financial year 2018 there were no exceptional items, compared with ₹ 5,675 million in financial year 2017.

Operational Performance

POWER AND GAS

Power and Gas Division offers a broad spectrum of products and solutions for reliable, efficient and clean power for generation of electricity from fossil fuels and for the reliable generation of power for oil and gas as well as for industrial applications. The Division's customers are utilities, independent power producers and engineering, procurement and construction (EPC) companies as well as businesses in industries such as oil and gas, sugar and cement.

The Power and Gas Division continued to operate in challenging domestic market conditions. Order growth was mainly driven by industrial (small) steam turbines in domestic and export markets.

The Indian power sector witnessed surplus power equipment manufacturing capacities, with thermal power plants still operating at low plant load factors. The thermal-based power generation market (large gas and steam turbine) continued to face challenges due to various factors such as subdued demand, lower industrial growth, inadequate availability of gas and measures to increase renewable energy. It was also impacted by a shift toward smaller-scale projects and localization. The variable nature of renewables is forcing conventional energy producers to continue at base load and to become more flexible in their operations.

Among the highlights, the Division won several orders from industrial customers across chemicals, cement and metals segment. During the year, it achieved a milestone in Additive Manufacturing in the power generation industry with the

Company's first replacement parts 3D-printed from metal for an industrial steam turbine.

For financial year 2018, the New Orders were down by 7.1 percent to ₹ 17,135 million, Sales up by 4.1 percent to ₹ 14,807 million, while Profit from Operations was ₹ 2,460 million compared to ₹ 2,015 million in the previous year.

Outlook

The Power and Gas Division expects energy demand to grow in line with the projected GDP growth. Several policies and initiatives under implementation by the Government of India such as Power for All 24x7, reduction in emissions through green energy, flexibility in thermal power generation, smart cities and promotion of electric vehicles are expected to revive the power generation sector. Progress in implementation of policies such as Hydrocarbon Exploration and Licensing Policy (HELP), for instance, the Open Acreage Licensing Policy (OALP), are expected to benefit the oil and gas sector in the future. The Division continues to develop solutions to build on "Make in India" and "Power for All 24x7" programs. It will use local capabilities to provide engineering for global projects and manufacture steam turbines for India and export.

ENERGY MANAGEMENT

Energy Management Division provides solutions for the development of intelligent, digitally-managed power transmission and distribution infrastructure. Energy Management Division is a supplier of products, systems, solutions and services for transmission and distribution, management and control of electrical energy. Its electrification portfolio ranges from low voltage products for domestic electrification, through products, systems and solutions for electrification of medium voltage distribution and ultra high-voltage transmission grids. Its portfolio also covers automation and digitalization products and solutions for all elements of power value chain. Its customers are central and state utilities, private transmission and distribution system operators.

During the financial year 2018, the market for Energy Management solutions remained highly competitive with reduced investment from utilities. Industry investment increased due to projects shifting as a consequence of demonetization and GST impact.

Among the key highlights in financial year 2018, the Division won orders such as the first smart city order from Delhi Mumbai Industrial Corridor Project for 33/11kV power distribution air insulated switchgear (AIS) substations; renewable energy management order for western region from Power Grid Corporation of India Limited and meter data management system order from Tata Power Delhi Distribution Limited. The Division also won orders for AIS from Kerala State Electricity Board and Ceylon Electricity Board, and an order for gas insulated switchgear substations from Odisha Power Transmission Corporation Limited.

For financial year 2018, the New Orders were down by 24.9 percent to ₹ 45,096 million, Sales up by 18.7 percent to ₹ 51,598 million, while Profit from Operations was ₹ 4,203 million compared to ₹ 3,234 million in the previous year.

Management's Discussion & Analysis

Outlook

The Division expects the Government's focus on "Power for All", continued thrust on Renewables (targeting 227GW generation capacity by 2022), "Make in India," and infrastructure upgrade programs including smart cities, to result in investment in improving state-level transmission networks. This will also drive modernization and upgradation of distribution grids. These drivers will propel the market for electrification solutions as well as Smart Grid solutions to pare aggregate technical and commercial power losses. Digitalization solutions are expected to improve efficiency and performance of electrical assets of utility and industrial operators. The Division also expects growing demand from the government's vision of significant electric vehicle sales in 2030.

BUILDING TECHNOLOGIES

Building Technologies Division provides solutions for safe, secure, energy-efficient and eco-friendly buildings and infrastructures. It has solutions for applications such as fire safety, security, building automation, heating, ventilation, air conditioning and energy management.

The growth in demand for solutions from Building Technologies during financial year 2018 was due to investments by the government and corporates in technologies aimed at improving safety (fire and surveillance), comfort (building management system and HVAC) and energy efficiency. Major contributors to new orders continued to be commercial spaces, life sciences, data centers, IT/ITES and hospitality sectors. Among the highlights of the financial year, Building Technologies Division implemented its energy efficiency solution Demand Flow for many hospitality customers. This solution helped the customers reduce power consumption leading to lower energy cost and higher savings.

For financial year 2018, the New Orders were up by 26.3 percent to ₹ 5,942 million, Sales up by 15.7 percent to ₹ 4,907 million, while Profit from Operations was ₹ 444 million compared to ₹ 289 million in the previous year.

Outlook

The demand for Building Technologies solutions is expected to pick up, driven by increase in private investment and government-led infrastructure projects continued growth in commercial spaces, data centers and IT/ITES. Also growth areas are seen in digitalization and energy efficiency opportunities in hotels, airports and industries.

MOBILITY

Mobility Division provides solutions for Mainline and Metro Railways covering the entire gamut of Rail infrastructure comprising of signaling and electrification and Rolling stock components and systems. This is complimented by comprehensive customer services across all technologies as well as Turnkey Solutions.

The financial year 2018 witnessed major disruptions in the rail market such as 100% electrification policy of Indian Railways leading to phasing out of diesel electric locomotives and adopting European Train Control System Level 2 for rail signaling and safety instead of the planned Level 1. Both these developments impacted the Division's business.

The Division benefited from expansion of the Metro rail market as well as government initiatives to enhance capacity and improve rail safety which led to acquisition of various projects in both mainline and metro rail segments. The Mobility Division won an order for the electrification of the new double-track metro line and also provided a supervisory control and data acquisition (SCADA) system for monitoring and controlling the traction power for Metro Link Express for Gandhinagar and Ahmedabad (MEGA) Company. It also received orders for electronic interlocking of railway stations. For financial year 2018, the New Orders were up by 18.9 percent to ₹ 14,809 million, Sales down by 17.6 percent to ₹ 9,764 million, while Profit from Operations was ₹ 985 million compared to ₹ 903 million in the previous year.

Outlook

The outlook for the Mobility Division is intrinsically linked to the policies, initiatives and timelines of the Indian Railways as also the various local authorities responsible for implementing Metro initiatives in the States. The Government has announced initiatives in safety, infrastructure development, electrification and energy efficiency. The order position of the Company is therefore largely dependent on the timing when these opportunities are tendered.

DIGITAL FACTORY

Digital Factory Division offers a portfolio of industrial software and automation technologies for optimizing the manufacturing value chain, covering product design, production planning, engineering and execution, and after-sales services. The Division's 'Digital Enterprise Suite' offers flexibility and efficiency to various discrete industries, general engineering segments and original equipment manufacturers (OEMs) engaged in machine tools, printing, packaging and electrical panel manufacturing.

During the financial year 2018, Digital Factory Division witnessed order pick-up in the automotive, tyre, food & beverage and various infrastructure-related segments. The Division maintained steady growth amid continued lower capital expenditure by customers mainly in the private sector. Among key highlights, during the year the Division connected over 300 assets to MindSphere, Siemens' open IoT cloud platform. It also launched the Ingenuity Tour, a multi-city tour across India covering 120 cities over a period of two years. The tour demonstrates the Division's offerings for the manufacturing industry. On display are products, solutions and digitally-enabled services covering electrification, automation and digitalization.

For financial year 2018, the New Orders were up by 16.8 percent to ₹ 23,042 million, Sales up by 18.4 percent to ₹ 22,654 million, while Profit from Operations was ₹ 1,962 million compared to ₹ 1,230 million in the previous year.

Outlook

Manufacturing-led growth and greater adoption of digitalization and Industry 4.0 are expected to boost demand for factory automation, software and data analytics. The Division expects a growth in demand for applications based on MindSphere open IoT cloud platform to be driven by these segments. Private sector capital expenditure is expected to gradually gain momentum as they near their capacity utilization thresholds. It foresees demand to pick up, driven by

the increasing focus among customers on cost productivity, energy savings and regulatory compliance through retrofit and modernization of equipment.

PROCESS INDUSTRIES & DRIVES

Process Industries and Drives Division offers a comprehensive portfolio for industrial application and solutions in the field of automation and drives for process industries such as chemical, pharmaceuticals, food and beverages, water and waste water, cement, mining, oil & gas, paper and marine. The business environment in which the Division operates is primarily driven by core sector industries. Major investments by the Government in roads, highways, railways and irrigation projects helped improve capacity utilization.

Key highlights of the Division include winning an order from Indian Navy for setting up the first-ever technology induction project with the Medium Voltage (MV) Lab. The Lab is equipped with infrastructure for training crew, both hands-on and simulation, on MV electric propulsion. It also won an order from BHEL for the Government of Telangana's Kaleshwaram Lift Irrigation Project. The order includes the communication and instrumentation package for three pumping stations and SINAMICS GL150 static frequency converter to start up the some of the world's largest pumps. The Division saw a success in digitalization – for online monitoring of gearboxes.

The Board of Directors of the Company, at its meeting on February 21 2018, agreed in-principle to sell the Mechanical Drives business to Siemens AG or its subsidiary.

For financial year 2018, the New Orders were up by 8.8 percent to ₹ 21,379 million, Sales up by 8.6 percent to ₹ 19,192 million, while Profit from Operations was ₹ 769 million compared to ₹ 545 million in the previous year.

Outlook

An increasing number of customers in the process industries are seeking means to develop their company into a "Digital Enterprise". This will be a lever for growth for Siemens' digitalization initiatives. The Division also expects orders to come in from the defence segment, specially for diesel-electric propulsion of large ships, metals and mining, paper, food & beverage, pharmaceuticals and cement segments. The Division expects demand from these segments for its portfolio of digitalization solutions that offer 'integrated engineering to integrated operations' approach.

HUMAN RESOURCES

The Company enhanced its emphasis on the 'Customer First, People Always' motto, implementing several initiatives to nurture, care and sustain its dynamic workforce.

In line with the business growth and constantly changing market demands, the Company invested significantly in various training and development activities to better equip employees by enhancing their competencies. Twenty six employees were selected for its CORE two-year talent development program aimed at developing young talent. It also initiated a multi-city program to amplify its employer brand across over 40 offices and factories across India. In addition, to make the Company an 'employer of choice' and improve the Company's Ownership Culture, the Company undertook a program to train 750 people managers.

The Company continues to have a cordial relationship with its Unions.

As of September 30 2018, Siemens Limited had 9,452 employees compared to 9,551 as on September 30 2017.

COMPLIANCE

For Siemens, promoting integrity means acting in accordance with our values – responsible, excellent and innovative. The integrity of Siemens employees' decisions and actions is an essential part of it. A key element of integrity is compliance: adherence to the law and to our internal regulations.

The Company's rules are contained in the Business Conduct Guidelines ("BCG") which include the obligation to comply with applicable laws and the prohibition of corruption and other violations of the principles and rules of fair competition. They include the areas of anti-corruption, antitrust, anti-money laundering, data privacy and export control as well as overall human rights aspects. This dictates the way Siemens conducts business.

The Company has a 24/7 whistleblower hotline, "Tell Us" through which any compliance violations including potential cases can be notified. This is available for employees, Directors, as well as external stakeholders. It is operated by a provider that is independent of Siemens to enable receipt of anonymous as well as protected information to be passed on without any bias.

The Company continues to exhibit "zero tolerance" towards any non-compliant behavior and violations have attracted disciplinary consequences. (Details on compliance activities are included in the Business Responsibility Report available on www.siemens.co.in).

The Company continues its drive to create awareness about a corruption-free environment by addressing the topic of corporate corruption in various public forums as well as invites by other like-minded corporates and demonstrating by example the feasibility of combating corruption, a task that the corporate world has acknowledged. The Company aims at the creation of a level playing field for corporates to operate in a corruption free environment.

RISK & INTERNAL CONTROL

The Management of Siemens Limited is responsible for establishing and maintaining adequate internal control over financial reporting. The internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with applicable accounting principles and includes those policies and procedures that:

- Pertain to the maintenance of records that in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in

Annexure III to the Directors' Report

Management's Discussion & Analysis

accordance with authorizations of management and directors of the Company; and

- Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Siemens Limited's Management assessed the effectiveness of the Company's internal control over financial reporting as of September 30 2018. As a result of the evaluation, the Management has concluded that the Company's internal control over financial reporting was effective as of September 30 2018 with no significant deficiency.

During the year, Siemens Limited actively participated in industry forums of Enterprise Risk Managers. Siemens Enterprise Risk Register captures key points related to the risks that could impact the businesses and ensures that adequate mitigation measures are put in place and monitored.

SAFETY AND ENVIRONMENT

The Company's EHS performance is monitored regularly by the Board of Directors as well as the Heads of Business Divisions who actively propagate EHS through constant communications and business review meetings. During the financial year 2018, Siemens Limited increased its efforts in the direction of acting responsibly, collaborating and excelling towards the journey of Zero Harm Culture maturity level 4.

The Company undertook various measures to promote Zero Harm Culture, mainly focused on enhancement of competency levels, implementation of various EHS digitalization projects, workshops for vendors and contractors, best practice and knowledge exchange sessions among the factory and project teams. During the year, 50,074 hours of training were conducted. The Company also continuously engaged one-on-one with the top management of customers to ensure an overall improvement in the EHS performance.

In order to improve access to healthcare facilities for project employees located at remote sites, our medical officers regularly travel to these sites to conduct health awareness sessions, first aid trainings, health checkups and health risk assessments. In order to promote the EHS message among the various stakeholders, the Company presented papers on best practices at the National Conclave on 'Prevention of Accidents on Distribution and Power Transformers' organized by Central Board of Irrigation and Power and International Council on Large Electric Systems.

Among the key highlights, the Company's EHS initiatives were recognized by Europe's industry association VDMA (Verband Deutscher Maschinen und Anlagenbau - Mechanical Engineering Industry Association). The Company's Nashik factory achieved a milestone of 2,000 accident-free days. A solar PV plant capable of generating around 2.9 million kilowatt hour of power has been setup in the Kalwa factory complex using a variety of the Company's products such as low-voltage panels, combiner boxes and SCADA. Our Siemens

Kharghar office got the ASSOCHAM (Associated Chambers of Commerce) Green & Ecofriendly Movement (GEM) 4 rating award. The Company also received the award for Best performance in the "Construction Safety in Substation" category from Power Grid Corporation of India Limited (PGCIL) and an award for "Best Approach towards HSE implementation of the Project" by GlaxoSmithKline Pharmaceuticals Limited.

OUTLOOK

The Company's focus continues on digitalization initiatives. The Company has already witnessed a pickup in digitalization-related projects based on the Siemens Internet of Things platform MindSphere. This momentum is expected to continue as more customers in a wider range of industries experience productivity and efficiency-related benefits. The Company will remain focused on this area in the year ahead.

The Company's Management expects to maintain growth in line with the market in financial year 2019. A higher growth rate is dependent on increased investments by the government of India, public sector undertakings and state governments in infrastructure, industry and utility services. Sustained government investment in infrastructure is required to encourage capex investment and revival of private sector.

The focus of Siemens Limited continues to be on profitable growth and operational excellence. The Company is strengthening its go-to-market considering the emergence of digitalization and its impact on the industry.

Corporate Social Responsibility Report 2017-18

1. Brief outline of Company's Corporate Social Responsibility Policy, overview of proposed projects or programs and a reference to the web-link to the CSR policy, projects and programs

At Siemens we have an unrelenting drive and promise to sustainably improve living conditions for as many people as possible, worldwide. We deliver on this promise by combining our innovation with our know-how – in the areas of electrification and automation, enhanced by digitalization and by acting as a reliable and responsible partner.

Our mission is to make real what matters in the way we electrify, automate and digitalize the world around us. Ingenuity drives us and what we create is for society. Our company-wide Corporate Citizenship framework forms a part of the Sustainability & Citizenship priority area. The Company considers it as its economic, environmental and social responsibility to foster sustainable local development as well as add value to the local economy in which it operates. The Company derives its sustainability initiatives from these challenges. These initiatives, generally known as Corporate Social Responsibility (CSR), are referred to as Corporate Citizenship at Siemens. The Corporate Citizenship strategy is in line with the Company's goal and focuses on: Education & Science, Social and Environment. The strategy aims to address the challenges and needs that communities face by leveraging the Company's competencies and solutions. It is oriented towards the National Development agenda, UN Sustainable Development Goals and UN Global Compact principles.

The focus topics for Corporate Citizenship are:

- a. Promotion of science and technical education and skill development
- b. Enhancing living conditions through provision of water, healthcare, sanitation, education, energy, livelihood, etc.
- c. Primary Healthcare and Health Education
- d. Combating Climate Change through:
 - Energy Efficiency Program at Government Medical Institution
 - Rural Electrification of villages in Amravati
- e. Disaster Relief

Sustainable Development Goals (SDGs)

Siemens supports the SDGs and regards them as a key framework for sustainable development globally. Siemens impacts all SDGs directly or indirectly. Together with local communities, industries, government, institutions, Siemens is working towards the endeavor to shape the local development along the lines of 'The 2030 Agenda for Sustainable Development'.

CSR initiatives undertaken by the Company during the year are as follows:

a. Promotion of science and technical education and skill development

Siemens Scholarship Program

Siemens Scholarship program nurtures meritorious engineering students from economically-disadvantaged families to become industry-ready. It is an endeavor to support and promote technical education. 50% of the scholarships are offered to female candidates. Launched in 2013, it is a merit cum means scholarship to engineering students studying in Government Colleges. Through this program, Siemens India offers scholarships across four years to meritorious engineering students from economically-disadvantaged families in addition to a well-rounded holistic development plan. Based on the German model of Dual Education, Siemens provides hands-on exposure through internships, projects, advanced skilling platforms including Mechatronics & functional trainings, soft skills and mentorship apart from financial support in the form of tuition fees and education allowances.

The program develops employability skills, exposes the students to soft skills and to the present requirements of the industry. Siemens Scholars who have graduated from this program have turned role models in their communities, motivating many towards taking up engineering as a career. Two batches of Siemens Scholars who graduated – in 2017 and 2018 – have been placed in leading companies in various sectors such as engineering, banking and finance, IT services, infrastructure, automotive, consumer goods. In its sixth year, the program has 435 scholars from 49 Government engineering colleges across 22 States in India.

University Collaboration with Veermata Jijabai Technical Institute (VJTI)

Siemens is a leading provider of industry and infrastructure solutions in India and wishes to support Universities towards Industries 4.0. Siemens shares VJTI vision to spread the benefits of Research & Innovation, Skill & Infrastructure Up-gradation, Training of Trainers & Students and consistently strives to bridge the gaps across the need of skilled manpower for industries. In pursuance of the aforesaid, Siemens provided latest Equipments, both hardware and software to the VJTI that will help the training of the students of VJTI on technologies. These Equipments are state-of-art technology and will help bridge the gap between the Universities and the Industry requirement.

Dual Vocational Education & Training (VET) in Government Industrial Training Institutes (ITIs)

Currently, a huge gap exists between the need of the industry for an employable work force and the capacity of the skill development programs. In line with the focus area of "promotion of science and technical education" and to support Skill India initiative of the Government of India, Siemens Ltd. with Tata Strive partnered to support the up-skilling of trainees in the government training institutes for skill development by implementing the Dual VET pedagogy.

The German Dual VET is based on learning interlocked with theory and workshop, augmented with soft skills like communication skills, presentation techniques, public speaking skills, cost planning, project management, team work, decision-making ability, handling responsibility, conflict resolving & business games and creative technique to develop future oriented capable workforce geared to business and professional personal development.

The German Dual VET model focuses on the need of the Micro, Small and Medium Enterprises (MSMEs), industry practices and training of trainees. As compared to the traditional model of 2 years Craftsmen Training Scheme and 1 year Apprenticeship, the German Dual VET within the traditional model proposes 1 month of in-plant training in the first year, 2 months in the second year in addition with 9 months of paid apprenticeship in the third year for overall, holistic hands-on practical experience with theoretical knowledge.

MoU was signed with the Directorate of Training and Technical Education, Maharashtra to roll out the Dual VET program for 60-plus Govt. ITIs across 5 districts. Currently, the Company is implementing Electrician Trade in 13 ITIs in Delhi. A total 780 Students, 45 MSMEs and 65 Instructors were inducted in the program this year.

STEM (Science, Technology, Engineering and Maths) in schools

Curiosity based learning 'STEM' (Science, Technology, Engineering and Mathematics) has been introduced in six Ashram Schools of Mokhada that caters to around 4000 tribal students from 28 Gram Panchayats. Workshops for the teachers in these schools were also conducted on using the STEM kits within their academic calendar. All the six Ashramshalas have been upgraded by setting up computer labs and initiating digital learning.

STEM has been rolled out in Government schools of Mumbai, Navi Mumbai, Thane, Aurangabad, Delhi and Goa.

Machine Tool Operator Training

In the endeavour to advance skill training and to support the provision of highly skilled technicians for the Manufacturing Sector, Siemens has tied up with several Government ITIs and Advance Training Institutes (ATIs) in the country. Currently 21 such Institutes are being piloted for the project.

The project covers the following:

- Retrofitting old Computerized Numerical Control (CNC) machines at the above mentioned Institutes with the latest SINUMERIK controllers and Drive Systems
- Installations of SINUTRAIN (Computer based CNC Simulation) softwares at the Institutes. The trainees of these Vocational Institutes first extensively test CNC programs on SINUTRAIN before working on the actual CNC machines.
- Provision of SINUMERIK demo kits to mimic real life CNC programming
- Extensive training of the Instructors on CNC Operation

Scholarships - Dual Education for Management Students

Siemens launched a scholarship program to support Dual Education amongst meritorious less privileged management students to make them Industry Ready. Under this initiative, Siemens supports 24 students annually with Scholarships, Awards and Internships to students pursuing Post Graduate Programme in Business Administration (PGPBA) at Indo German Training Centres at Mumbai and Bengaluru. The program develops employability skills and exposes the students to the present requirements of the industry.

b. Enhancing living conditions

Project Asha

Project Asha aims at improving living conditions using inclusive and sustainable technology through integrated rural development. The project focused on improving lives in 32 villages of Mokhada, Palghar and 15 villages in Aurangabad Division in Maharashtra through interventions in education, healthcare, sanitation, water conservation, energy, livelihood and governance. The Project is implemented by two NGOs; AROEHAN and BAIF along-with CTARA-IITB as technology partner at Mokhada and Action Aid Association in Aurangabad Division.

Mokhada Block

The project focused on watershed development for ensuring drinking water available and water for irrigation. More than 46 million liters of water is made available by Rain water harvesting benefiting livelihood in 17 villages till date

Installation of water filters in 11 villages has provided access to clean drinking water which has helped in reduction of water borne diseases by 80%. Earlier the community relied on Paddy and Ragi crops, which was for mere consumption purpose. With the availability of water, vegetable cultivation in Kharif season has been introduced. A total of 628 acres of arable land is bought under irrigation. Under the newly selected 14 villages, various livelihood activities and engagement with SHGs have also been initiated*. Capacity building of farmers on improved farming techniques, consultation and agricultural support is done on a continuous basis. This has led to 73% farmers able to get cash money resource first time in their life. Similarly, the migration rates have also been going down considerably.

Curiosity-based learning 'STEM' (Science, Technology, Engineering and Mathematics) has been introduced in six Ashram Schools of Mokhada from this academic year that caters around 4000 students from 28 Gram Panchayats. Workshops for the teachers in these schools were also conducted on using the STEM kits within their academic calendar.

To address the gaps of the Primary Health Centres (PHCs), Siemens has installed health care and other diagnostics equipments for upgrading the efficiency of the four Primary Health Centres which covers a population of 83,000. Awareness sessions with pregnant women have led to more than 100 women registering themselves with the Government PHCs to avail benefits and safe delivery of baby. Similarly, more than 73% of the adolescent girls are aware on health and its related schemes. Similarly, Installing Siemens Sonography machines in the Rural Hospitals (RH) have significantly reduced the Infant Mortality Rate (IMR) and Maternal Mortality Rate (MMR). Health awareness sessions amongst women and young adolescent girls have achieved successful passing of resolution against child marriage and alcoholism in the Gramsabhas.

Aurangabad Division

Siemens has established a long term commitment with ActionAid Association to support severely drought affected areas since 2013 in Badnapur taluka, Aurangabad division to 15 villages across Aurangabad and Jalna districts. The project aims to enhance living conditions of these villages through integrated development using sustainable & inclusive technology which is both scalable & replicable.

Watershed development and desilting of available water sources activities have made around 45 million liters of water storage made available for drinking and agricultural purpose. Additionally, due to water availability, More than 477 acres of land has been brought under cultivation. There is an increase in livelihood leading to 36% rise in income against previous year. Livelihood is made available under National Rural Employment Guarantee Act (NREGS) -2005, through farming, as farm labors and selling vegetables. This has reduced migration by 10%. Capacity building of famers with improved and effective farming techniques has increased crop production. The entire interventions have helped the crops sustain even during severe drought and have facilitated multi cropping too. Emphasis on livelihood diversification through Sericulture, goat rearing has increased the income levels.

Awareness campaigns on education have led to 100% enrollment rates in schools thereby showing significant reduction in dropout rates. Additionally, trainings are conducted for the panchayats to increase the knowledge and awareness on governance, public distribution system, watershed program to facilitate the access to basic entitlements during drought conditions. Similarly, water filters were installed at 5 different villages thereby providing clean drinking water to all.

Social Forestry activity is also being conducted across the Mokhada and Aurangabad. More than 25000 saplings have been planted in this year which has benefitted 216 farmers. The saplings provided are fruit bearing ones such as Mango, Cashew, Lemon, Drumstick, etc. These varieties are chosen in such a way whose mortality rate will be less in the specific climatic conditions and would also generate income for the farmers in the long run thereby preserving the green cover and also improve soil moisture.

c. Primary Healthcare Support and Health Education

Sanjeevan Mobile Clinic

Access to affordable, quality healthcare continues to be a challenge in the country. The reasons are multiple: lack of awareness, accessibility, affordability, etc. In alignment with the National Health Mission (NHM) to make quality healthcare both accessible and affordable, Siemens along with its implementing partner NGO SNEHA (Society for Nutrition, Education and Health Action) is improving access to preventive, promotive and curative primary healthcare services in unreached informal settlements over 120,000 individuals in Kalyan-Dombivali region on the outskirts of Mumbai through Sanjeevan Mobile Clinic fitted with Siemens' healthcare equipment. The objective is two-fold: instilling health seeking behavior and improving health indicators of the community where there is no health infrastructure. The Clinic is working towards delivering the NHM's goal of a comprehensive package of Reproductive, Maternal, Newborn, Child Health and Adolescent (RMNCH + A) services, Communicable Disease Control and Non Communicable Diseases programs.

Corporate Social Responsibility Report 2017-18

Siemens along with its implementing partners NGO SNEHA in Kalyan-Dombivali, Maharashtra are conducting daily OPDs, pathological tests, X-rays, ECGs and specialized camps on gynecology, pediatrics, etc. Till date more than 36200 patients have been treated of which more than 60% are women and children. This has led to an increase in communities accessing of healthcare especially in Maternal and Child Health services. Besides this, there are health education programs on health, hygiene and nutrition in communities on preventing diseases and improving health seeking behaviour. The project also supported formation of statutory Mahila Arogya Samiti (MAS)/ health committees in Kalyan – Dombivali to strengthen community governance of health and sanitation in the communities.

d. Climate Change action

Energy Efficiency Program at Government Medical Institution

With the aim of addressing the Climate Change action arising out of Sustainable Development Goals and the targets received for the country under Conference of the Parties 21 (Paris Agreement), Siemens aligned with the Government General Hospital, Chennai to help reduce the Hospital's Energy Consumption by implementing Facility Improvement Measures. Government General Hospital is the largest tertiary care Government Hospital in Chennai. Founded in 1664 and has 2722 bed capacity. A study was conducted to identify the challenges faced by the hospital. With mutual discussions with Hospital Authorities, Siemens identified, designed, developed and implemented the various facility improvement measures that include:

- Energy Optimization Program
- Replacement of 3 Nos Air Cooled chillers with efficient systems etc
- Air Handling Unit automation
- Central Monitoring system
- Fire alarm system
- Analog CCTV system

Rural Electrification at villages in Amravati

Energy is the dominant contributor to climate change, accounting for around 60% of total global greenhouse gas emissions. Our everyday lives depend on reliable and affordable energy services to function smoothly and to develop equitably. Lack of access to energy supplies and transformation systems is a constraint to human and economic development. - (SDG, Goal 7)

Siemens launched Solar based net-metering solution project in 10 villages of Amravati district spread in three blocks. The Project will, directly and indirectly, benefit 1976 households, school children, Primary Healthcare Centre's (PHC), Gram Panchayat Offices, Ashram Shala etc.in 10 villages (Januna,Timtala, Khirsana, Narsana, Adgaon, Sarmaspur, Jassapur, Rinmochan, Amala and NandedKhurd in 3 blocks – Nandgaon, Kandeshwar, Daryapur and Bhatkuli of Amravati District.) More than 15000 individuals shall benefit from the program, 3000 individuals (with special emphasis on the vulnerable group) will benefit indirectly, more than 3907 women (with special emphasis on the vulnerable group) will be addressed through Awareness programs leading towards better livelihood.

e. Disaster Relief

Disaster Relief – Assam and Kerala Flood Relief

Siemens as a socially-responsible company has always reached out to communities affected by natural calamities. Siemens responded to the communities affected during the Assam and Kerala floods by providing immediate relief through Oxfam India and Caritas India with its Catastrophe fund. In Assam, Siemens supported the worst affected district of Karimganj with Water, Sanitation and Hygiene (WASH) and shelter kits. In Kerala, Siemens supported tribal families in Wayanad district, the worst affected district with Water, Sanitation and Hygiene (WASH) and non- food items to contribute towards improving the living conditions of the affected communities.

Business Responsibility Report - Abstract

“Ingenuity for life” describes our unrelenting drive and promise to create value for customers, employees and societies.” For life” relates to our role in society: to make real what matters. We deliver on this promise by combining our innovation with our knowhow – in the areas of electrification and automation, enhanced by digitalization – aiming at improving the lives of people today and creating lasting value for future generations.

PEOPLE

- We contribute to the sustainable development of societies with our portfolio, local operations and thought leadership.
- We foster long-term relationships with local societies through Corporate Citizenship projects jointly with partners.
- We live a zero-harm culture and promote the health of our employees.
- We live a culture of leadership based on common values, innovation mindset, people orientation and diversity.

PLANET

- We enable our customers to increase energy efficiency, save resources and reduce carbon emissions.
- We develop our products, solutions and services based on a life-cycle perspective and sound eco-design standards.
- We minimize the environmental impacts of our own operations by applying environmental management programs.

PROFIT

- We contribute to our customers’ competitiveness with our products, solutions and services.
- We partner with our customers to identify and develop sustainability-related business opportunities.
- We operate an efficient and resilient supply chain through supplier code of conduct, risk management and capacity building.
- We proactively engage with our stakeholders to manage project and reputational risks and identify business-relevant trends.
- We adhere to the highest compliance and anti-corruption standards and promote integrity via the Siemens Integrity Initiative.

Sustainability at Siemens is a key enabler of our strategy program. We are guided by responsible business practices in our interactions with external and internal stakeholders. We are convinced that sustainability is a business opportunity, especially in the sense of energy and resource efficiency, and a key element for our aim to be the employer of choice. Responsible business practices are an essential part of corporate world.

The Siemens Business Responsibility Reporting (BRR) is the practice of setting standards, measuring, disclosing, and being accountable for organizational performance while working towards the goal of responsible and sustainable development. Siemens Limited is committed to acting responsibly to achieve economic, environmental and social progress and has policies against each principle which help achieve progress in business responsibility.

Our understanding of sustainability is fully based on our Company values – responsible, excellent and innovative. We define sustainable development as the means to achieve profitable and long-term growth. At Siemens we have a clear commitment to think and act in the interest of future generations, balancing People, Planet and Profit.

Ethics, Transparency and Accountability

Siemens holds the highest standards of integrity and behavior, ensuring compliance and adherence to the law and internal regulations through the Siemens Compliance System. Siemens has zero tolerance for corruption and violations of the principles of fair competition. Siemens has adopted the Business Conduct Guidelines (BCG), which details the minimum acceptable ethical and responsible business practices for employees, channel partners, suppliers, vendors, NGOs and contractors. The Company is committed to transparency and best practices which are also extended to suppliers through the Code of Conduct for suppliers.

This code warrants compliance with laws prohibiting child labour, taking responsibility for the health and safety of their employees and ensuring that suppliers act in accordance with applicable statutory and international standards regarding environmental protection. Similarly, all channel partners are covered through Code of Conduct for Channel Partners.

The communication of the code of conduct is done on a regular basis. TELL US, the whistleblower hotline, further demonstrates our commitment to compliance.

Sustainable Products and Services

Siemens’ technical expertise, comprehensive portfolio and long-standing experience are helping to pioneer a sustainable future across the globe. Advanced algorithms, high-powered computing, better connectivity and cloud storage all facilitate the emergence of smart systems. Knowing how to leverage the respective opportunities, however, requires a unique set of skills.

Siemens has the engineering, domain and digital know-how to generate performance improvements across the entire value chain, from design to production and operations to maintenance. Siemens through efforts such as strict Code of Conduct,

External Sustainability Audits (ESA) for Suppliers and an efficient Vendor Monitoring system, ensures sustainability throughout the value chain. 87% of materials are sourced from third party suppliers were procured within the boundary of India out of which 30% were sourced from micro, small and medium enterprises (MSMEs).

Among the highlights are three of our solutions that has led to reduction of use of resources during the operation: Boiler Combustion Optimization - Solution for Coal Power Plants; Demand Flow - Siemens Unique Patented Chiller plant automation technology and Hotel load convertor for WAG7 locomotives.

The digitalized factory that we inaugurated a year ago is proof of how adopting digitalization will help Indian industry, specially small and medium enterprises (SMEs), achieve manufacturing excellence. SMEs can utilize digitalization to address growing demands such as mastering increasing product and process complexity, reducing time to market, adapting to changing market requirements, deliver individualized products and secure continuous product improvement.

Wellbeing of Employees

Siemens being a responsible company is committed to wellbeing of its employees. Siemens Health Management provides occupational health services at its centres at all offices & sites across India, along with emergency medical services. As part of the Healthy@Siemens program, a need based, targeted, quarterly program "Fit4Life" has been launched to ensure a healthy work life balance. There are sensitization programs for employee delegations both coming in and going out from the country about the possible health hazards in the host countries and ways to address them.

Siemens supports collective bargaining. Through continual dialogue with associations the Company strives to maintain cordial relationships with employees and work towards their welfare. Siemens has a governance structure in place to address complaints related to child labour, forced labour, involuntary labour and discrimination or harassment of any kind. There is a separate committee to handle sexual harassment cases with sensitivity and confidentiality, which is headed by an independent non-governmental organization (NGO) representative.

Responsiveness to all Stakeholders

Siemens has mapped investors, employees, customers, suppliers, business partners and civil society organizations as stakeholders. The Company engages with permanent employees through engagement surveys and periodic worker settlement reviews. The external shareholders are engaged through defined activities such as customer events, supplier and channel partner meet and small and medium enterprise (SME) training.

The marginalized and disadvantaged communities whose welfare Siemens works towards include, tribal communities, less privileged youth, students from low-socio economic background, women who are underserved from healthcare facilities and future workers in the unorganized sector. Siemens's CSR portfolio effectively addresses these issues through its various projects.

Protection of Human Rights

Siemens respects human rights. The Business Conduct Guidelines are in line with the U.N Human Rights Declaration, European Human Rights Convention as well as ILO Principles. All suppliers, vendors, channel partners and other business partners associated with the Company have to commit to the Siemens Code of Conduct which incorporates principles of Human Rights.

Protection of Environment

Siemens' commitment towards clean technology and energy efficiency is not limited to the design of new products but extends to the manufacturing plants as well. The initiatives this year were mainly centered

At the Vadodara site in India, employees put the desire for sustainable water management into practice with a mix of commitment and ingeniously deployed technology.

Business Responsibility Report - Abstract

over Energy Conservation, Water Conservation and Waste Management. In addition to initiatives which continued from the last year, further new 43 initiatives were identified in Financial Year 2018 for Energy Conservation.

Public Policy Engagement

Siemens influences affirmative sustainability actions and enables technology through sharing of best practices. The Company is a member of various Technical Committees of BIS and is on the Executive / Subject Councils and is represented in trade and industry associations.

Inclusive Growth and Equitable Development

Siemens CSR policy is governed by the Corporate Citizenship Strategy which focuses on integrating community development issues with business strategies to leverage the Company's core competencies while addressing community needs. The policy has seven focus areas under three main pillars – Education, Environment and Social under which various initiatives are undertaken as responsibility to foster sustainable local development as well as add value to the local economy in which the Company operate.

Customer Satisfaction

As per well-established practice, Siemens measures customer satisfaction every year across all sectors based on uniform and harmonized Net Promoter Score (NPS) methodology. NPS is an internationally followed and recognized tool based on the commonly-applied managerial performance indicator. Our NPS score, which has tripled over the past four years, has been an important measure of success of the Customer First Program launched in 2014. In addition to the Annual Corporate Survey, customer feedback is gathered at the end of key customer interactions, during project management as well as service delivery. The input is critically analyzed for bringing about continual improvements as our responsibility to foster sustainable local development as well as add value to the local economy in which it operates.

INDEPENDENT AUDITOR'S REPORT

To the Members of Siemens Limited

Report on the Standalone Ind AS Financial Statements

We have audited the accompanying standalone Ind AS financial statements of Siemens Limited ("the Company"), which comprise the Balance Sheet as at September 30 2018, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act., read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial control that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India, as specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material

misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at September 30 2018, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure 1 a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - (c) The Balance Sheet, Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Accounting Standards specified under section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;

INDEPENDENT AUDITOR'S REPORT

To the Members of Siemens Limited

- (e) On the basis of written representations received from the directors as on September 30 2018, and taken on record by the Board of Directors, none of the directors is disqualified as on September 30 2018, from being appointed as a director in terms of section 164 (2) of the Act;
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report;
- (g) In our opinion, the managerial remuneration for the year ended September 30 2018 has been paid / provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act;

Re: Siemens Limited (“the Company”)

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) All fixed assets have not been physically verified by the management during the year but there is a regular programme of verification which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
- (c) According to the information and explanations given by the management, the title deeds of immovable properties included in property, plant and equipment are held in the name of the Company.
- (ii) The management has conducted physical verification of inventory at reasonable intervals during the year and no material discrepancies were noticed on such physical verification.
- (iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured, to companies, firms or other parties covered in the register maintained under section 189 of the Companies Act, 2013 (“the Act”). Accordingly, the provisions of clause 3(iii) (a), (b) and (c) of the Order are not applicable to the Company and hence not commented upon.
- (iv) In our opinion and according to the information and explanations given to us, there are no loans to directors including entities in which they are interested in respect of which provisions of section 185 are applicable and hence not commented upon. Further, in our opinion and according to the information and explanations given to us, provisions of section 186 in respect of loans given, investments made and guarantees given have been complied with by the Company. There are no advances and securities given in respect of which provisions of section 186 of the Act are applicable and hence not commented upon.
- (c) According to the records of the Company, the dues outstanding of income-tax, sales-tax, service tax, customs duty, excise duty and cess on account of any dispute, are as follows:
- (v) The Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under section 148(1) of the Act, for the period upto September 30 2018 and are of the opinion that prima facie, the specified accounts and records have been made and maintained. We have not, however, made a detailed examination of the same.
- (vii) (a) Undisputed statutory dues including investor education and protection fund, employees’ state insurance, service tax, income tax, sales-tax, duty of custom, duty of excise, goods and service tax, value added tax and cess have generally been regularly deposited with the appropriate authorities except for Tax Deducted at Source and Value Added Tax payable in one foreign location amounting to ₹ 46.56 million (excluding interest of ₹ 23.23 million) where there have been considerable delays in large number of cases. There were no arrears of such dues as at the balance sheet date.
- (b) According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, investor education and protection fund, employees’ state insurance, income-tax, service tax, sales-tax, duty of custom, duty of excise, goods and service tax, value added tax, cess and other material statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.

Annexure 2 to the Independent Auditor's Report of even date on the standalone Ind AS financial statements of Siemens Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Siemens Limited ("the Company") as of September 30 2018 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting with reference to these standalone financial statements.

Meaning of Internal Financial Controls Over Financial Reporting With Reference to these Financial Statements

A company's internal financial control over financial reporting with reference to these standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting With Reference to these Standalone Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting with reference to these standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls over financial reporting with reference to these standalone financial statements and such internal financial controls over financial reporting with reference to these standalone financial statements were operating effectively as at September 30 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the Institute of Chartered Accountants of India.

The financial statements were authorised for issue in accordance with a resolution of Board of directors on 18 November 2018.

1.2 Current versus non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle. Based on the nature of business and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

1.3 Property, plant and equipment

Property, plant and equipment are stated at cost of acquisition less accumulated depreciation and impairment losses, if any. The cost includes taxes, duties, freight and other incidental expenses related to the acquisition and installation of the respective assets. Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future economic benefits from the existing assets beyond its previously assessed standard of performance.

Depreciation on property, plant and equipment is provided on a straight-line basis over the useful lives of assets estimated by the management, taking into account the nature of the asset on technical evaluation of the useful life, which may not necessarily be in alignment with the indicative useful lives prescribed by Schedule II to the Companies Act, 2013. The following useful lives are assumed:

Assets	Estimated useful lives
Land	
- Freehold	-
- Leasehold	Over the lease period
Buildings	
- Factory buildings	30 years
- Other buildings	50 years
- Roads	10 years
- Leasehold improvements	Over the lease period

1.3 Property, plant and equipment (Continued)

Plant and equipment	3 – 20 years
Furniture and fixtures	5 years
Office equipment	
- Computers	3 years
- Hardware, mainframes and servers	5 years
- Other office equipment	3 - 5 years
Vehicles	4 years

Items of property, plant and equipment that have been retired from active use and are held for disposal are stated at the lower of their carrying value and estimated net realizable value and are disclosed separately in the financial statements.

Capital work-in-progress includes the cost of property, plant and equipment that are not ready for intended use at the balance sheet date.

1.4 Intangible assets

Intangible assets comprises of software and technical know-how. Intangible assets are stated at cost of acquisition less accumulated amortisation and impairment losses, if any. These intangible assets are amortised on straight-line basis based on the following useful lives, which in management's estimate represents the period during which economic benefits will be derived from their use:

Assets	Estimated useful lives
Software	3 - 5 years
Technical know-how	5 - 10 years

1.5 Investment property

Investments in land or buildings (including property under construction) which are held to earn rentals and/or for capital appreciation are classified as investment property. Investment properties are initially measured at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.

The cost comprises purchase price and borrowing costs, if capitalisation criteria are met and directly attributable cost of bringing the investment property to its working condition for the intended use.

Depreciation on investment property is provided on a straight-line basis over the useful lives of assets estimated by the management. Such classes of investment properties and their estimated useful lives are as under:

Assets	Estimated useful lives
Land	
- Freehold land	-
- Leasehold land	Over the lease period
Factory Buildings	30 years

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. On disposal of an investment property, the difference between its carrying amount and net disposal proceeds is recognised in the Statement of Profit and Loss.

1.6 Revenue recognition

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment. Revenue are stated exclusive of sales tax, value added tax, goods and service tax and net of trade and quantity discount.

Revenue from sale of products is recognised on transfer of significant risk and rewards of ownership of the products to the customers, which is usually on dispatch of goods.

Notes to the Financial Statements (*Continued*) for the year ended 30 September 2018 (Currency: Indian rupees millions)

1.6 Revenue recognition (*Continued*)

When the outcome of a construction contract can be estimated reliably, revenue from construction contracts are recognized under the percentage-of-completion method, based on the percentage of costs incurred to date compared to the total estimated contract costs. An expected loss on the construction contract is recognized as an expense immediately. Contract revenue earned in excess of billing has been reflected as "Project excess cost" under "Other financial assets" and "Billing in excess" of contract revenue has been reflected under "Other current liabilities" in the balance sheet.

Revenue from services represents service income other than from services which are incidental to sale of products and projects. Revenue from services is recognised as per the terms of the contract with the customer using the proportionate completion method.

Commission income is recognised when proof of shipment is received from the supplier.

Export incentives receivable are accrued for, when the right to receive the credit is established and there is no significant uncertainty regarding the realisability of the incentive.

Rental income arising from operating leases is accounted on a straight-line basis over the lease terms and is included in revenue in the Statement of Profit and Loss due to its operating nature.

1.7 Inventories

Inventories comprise all costs of purchase, conversion and other costs incurred in bringing the inventories to their present location and condition.

Raw materials, work-in-progress, finished goods and traded goods are carried at the lower of cost and net realisable value. Cost is determined on the basis of the weighted average method.

The net realisable value of work-in-progress is determined with reference to the estimated selling price less estimated cost of completion and estimated costs necessary to make the sale of related finished goods. Raw materials held for the production of finished goods are not written down below cost except in case where material prices have declined and it is estimated that the cost of the finished product will exceed its net realisable value.

1.8 Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of the specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in arrangement.

Where the Company is the lessee:

Leases where the lessor effectively retains substantially all the risk and benefits of ownership of the leased items are classified as operating leases. Lease payments under an operating lease, are recognised as an expense in the Statement of Profit and Loss on a straight line basis over the lease term. Contingent rentals are recognised as an expense in the period which they are incurred.

Where the Company is the lessor:

Assets subject to operating leases are included in property, plant and equipment and investment property. Lease income is recognised in the Statement of Profit and Loss on a straight-line basis over the lease term. Costs, including depreciation are recognised as an expense in the Statement of Profit and Loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognised immediately in the Statement of Profit and Loss.

1.9 Employee benefits

(a) Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages and short term compensated absences, etc. and the expected cost of ex-gratia are recognised in the period in which the employee renders the related service.

(b) Post-employment and other long-term benefits

(i) **Defined Contribution Plans:** The Company's approved superannuation scheme and employee state insurance scheme are defined contribution plans. The Company's contribution payable under the schemes is recognised as expense in the Statement of Profit and Loss during the period in which the employee renders the related service.

1.9 Employee benefits (Continued)

- (ii) **Defined Benefit Plans and other Long Term Benefits:** The Company's gratuity, pension and medical benefit schemes are defined benefit plans. Leave wages, retention bonus, silver jubilee and star awards are other long term benefits. The present value of the obligation under such defined benefit plans and other long term benefits are determined based on actuarial valuation using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. In case of funded plans, the fair value of the plan assets is reduced from the gross obligation under the defined benefit plans to recognize the obligation on a net basis.

Provident fund has been considered as a defined benefit plan since any additional obligations on account of investment risk and interest rate risk are required to be met by the Company.

In case of defined benefit plans, remeasurement comprising of actuarial gains and losses, the return on plan assets (excluding amounts included in net interest on the net defined benefit liability or asset) and any change in the effect of asset ceiling (wherever applicable) is recognized in other comprehensive income (OCI) and is reflected in retained earnings and is not eligible to be reclassified to profit or loss. In case of other long term benefits, all remeasurements including actuarial gain or loss are charged to Statement of Profit and Loss.

The Company recognises following items in the net defined benefit obligation as an expense in Statement of Profit and Loss:

- Service cost including current service cost, past service cost and gains and losses on curtailments and settlements; and
- Net interest expense or income.

Provision for leave wages, pension, medical benefit, retention bonus, silver jubilee and star awards which is expected to be utilized within the next 12 months is treated as short term employee benefits and beyond 12 months as long term employee benefits. For the purpose of presentation, the allocation between short and long term provisions has been made as determined by an actuary.

The contribution to gratuity trust is expected to be made within next 12 months. Accordingly the provision for gratuity is classified as current.

1.10 Share-based payments

Share-based payment consists of share awards of the Holding Company i.e. Share matching plan (SMP) and Siemens Stock Awards (SSA) to the employees of the Company. These awards are predominantly designed as cash-settled transactions. The fair value of the amount payable is remeasured at the end of each reporting period upto the settlement date, with the changes in the fair value recognised as employee benefits expenses with a corresponding increase in liabilities.

1.11 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets other than investment in subsidiary are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit and loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in the below categories:

- (a) Financial assets at amortised cost
- (b) Financial assets including derivatives at fair value through profit or loss (FVTPL)
- (c) Financial assets at fair value through other comprehensive income (FVTOCI)
- (d) Equity instruments

Notes to the Financial Statements (*Continued*) for the year ended 30 September 2018 (Currency: Indian rupees millions)

1.11 Financial instruments (*Continued*)

(a) Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business where the objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the EIR method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Statement of Profit and Loss. The losses arising from impairment are recognised in the Statement of Profit and Loss. This category generally applies to trade and other receivables, loans and other financial assets.

(b) Financial Assets including derivatives at fair value through profit or loss (FVTPL)

Financial assets are measured at fair value through profit and loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets at fair value through profit and loss are immediately recognised in the Statement of Profit and Loss.

(c) Financial Assets at fair value through other comprehensive income (FVTOCI)

Derivative instruments included in FVTOCI category are measured initially as well as at each reporting date at fair value. Movement in fair value is recognised in OCI.

(d) Equity instruments

Equity investment in subsidiary is measured at cost

Derecognition

A financial asset is primarily derecognised when:

- (a) the right to receive cash flows from the asset has expired, or
- (b) the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement; and a) the Company has transferred substantially all the risks and rewards of the asset, or b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety, the differences between the carrying amounts measured at the date of derecognition and the consideration received is recognised in the Statement of Profit and Loss.

Impairment of financial assets

The Company applies the expected credit loss (ECL) model for measurement and recognition of impairment losses on the following financial assets and credit risk exposure:

- (a) Financial assets that are measured at amortised cost e.g. deposits
- (b) Trade receivables, project excess cost or any another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18.

The Company follows the simplified approach for recognition of impairment loss allowance on trade receivables (net of billing in excess) and project excess cost. The application of the simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, twelve-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on twelve-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The twelve-month ECL is a portion of the lifetime ECL which results from default events that are possible within twelve months after the reporting date.

1.11 *Financial instruments (Continued)*

Impairment of financial assets (Continued)

ECL is the difference between net of all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR.

When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on trade receivables (net of billing in excess) and project excess cost.

The Company does not have any purchased or originated credit-impaired financial assets, i.e., financial assets which are credit impaired on purchase/origination.

ECL impairment loss allowance (or reversal) recognized during the period is recognized in the Statement of Profit and Loss. This amount is reflected under the head 'other expenses' in the Statement of Profit and Loss.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss (FVTPL), payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and in the case of payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables and derivative financial instruments.

Subsequent measurement

Financial liabilities, including derivatives and embedded derivatives, which are designated for measurement at FVTPL are subsequently measured at fair value. All other financial liabilities such as deposits are measured at amortised cost using EIR method.

For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value is used due to the short maturity of these instruments.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

1.12 *Foreign currency transactions*

The Company is exposed to currency fluctuations on foreign currency transactions. Transactions denominated in foreign currency are recorded at the exchange rate prevailing on the date of transactions.

Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss of the year.

Translation

Monetary assets and liabilities in foreign currency, which are outstanding as at the year-end, are translated at the year-end at the closing exchange rate and the resultant exchange differences are recognized in the Statement of Profit and Loss. Non monetary items are stated in the balance sheet using the exchange rate at the date of the transaction.

Notes to the Financial Statements (*Continued*) for the year ended 30 September 2018 (Currency: Indian rupees millions)

1.12 *Foreign currency transactions (Continued)*

Derivative instruments and hedge accounting

The Company's exposure to foreign currency fluctuations relates to foreign currency assets, liabilities and forecasted cash flows. The Company limits the effects of foreign exchange rate fluctuations by following established risk management policies including the use of derivatives like forward contracts and options. The Company enters into forward exchange contracts and options, where the counterparty is a bank. The hedging strategy is used for mitigating the currency fluctuation risk and the Company does not use the forward exchange and options contracts for trading or speculative purpose.

The forward exchange and options contracts are re-measured at fair value at each reporting date with the resultant gains/losses thereon being recorded in Statement of Profit and Loss.

Commodity risk is mitigated by entering into future contracts to hedge against fluctuation in commodity prices

The Company designates some of the forward contracts in a cash flow hedging relationship by applying the hedge accounting principles.

These forward contracts are stated at fair value at each reporting date. Changes in the fair value of these forward contracts that are designated as hedges for future cash flows are recognised in OCI and reflected in the cash flow hedge reserve, net of applicable deferred income taxes. The ineffective portion is recognised immediately in the Statement of Profit and Loss.

Amounts accumulated in cash flow hedge reserve are reclassified to profit and loss in the period during which the forecasted transaction materialises.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. For forecasted transactions, any cumulative gain or loss on the hedging instrument recognised in cash flow hedge reserve is retained there until the forecasted transaction occurs.

If the forecasted transaction is no longer expected to occur, the net cumulative gain or loss recognised in cash flow hedge reserve is immediately transferred to the Statement of Profit and Loss for the period.

1.13 *Fair value measurement*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value includes discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result from general approximation of value and the same may differ from the actual realised value.

1.14 *Taxation*

Income-tax expense comprises current tax (i.e. amount of tax for the year determined in accordance with the income-tax law) and deferred tax charge or credit (reflecting the tax effect of temporary differences between accounting income and taxable income for the year) computed in accordance with the relevant provisions of the Income Tax Act, 1961. Current tax and deferred tax are recognised in the Statement of Profit and Loss, except when they relate to items that are recognised in OCI or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

1.14 Taxation (Continued)

The current tax payable is based on taxable profit for the year. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted, by the end of the reporting period. Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant taxpaying units intend to settle the asset and liability on a net basis.

Deferred tax is provided using the balance sheet method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are generally recognised for all deductible temporary differences to the extent it is probable that taxable profits will be available against those deductible temporary differences can be realised. Deferred tax assets are reviewed as at each balance sheet date and written down to the extent it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

1.15 Earnings per share

Basic earnings per share are computed by dividing the net profit attributable to equity shareholders for the year, by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

1.16 Provisions and contingencies

Provisions are recognized when the Company recognises it has a present obligation (legal or constructive) as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect is material, provisions are recognised at present value by discounting the expected future cash flows at a pretax rate that reflects current market assessments of the time value of money. When a contract becomes onerous, the present obligation under the contract is recognized as a provision. These are reviewed at each balance sheet date and adjusted to reflect current best estimates.

Disclosures for contingent liability are made when there is a possible and present obligation that arises from past events which is not recognised since it is not probable that there will be an outflow of resources. When there is a possible and present obligation in respect of which the likelihood of outflow of resources is remote, no disclosure is made.

Loss contingencies arising from claims, litigation, assessment, fines, penalties, etc. are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated.

Provisions for warranty related cost are recognised when the product is sold or service is provided to the customer. Initial recognition is based on past experience.

Contingent assets are not recognized in the financial statements.

1.17 Cash and Cash equivalents

Cash and cash equivalents include cash, cheques in hand, cash at bank and deposits with banks having maturity of three months or less. Bank deposits with original maturity of up to three months are classified as 'Cash and cash equivalents' and with original maturity of more than three months are classified as 'Other bank balances'.

1.18 Government grants and subsidies

Grants and subsidies from the government are recognized when there is reasonable assurance that (i) the company will comply with the conditions attached to them, and (ii) the grant/subsidy will be received.

When the grant or subsidy relates to revenue, it is recognized as income on a systematic basis in the Statement of Profit and Loss over the periods necessary to match them with the related costs for which they are intended to compensate. Where the grant relates to an asset, the same is presented in the balance sheet by deducting the grant in arriving at the carrying amount of the asset.

Notes to the Financial Statements (*Continued*) for the year ended 30 September 2018 (Currency: Indian rupees millions)

2. *Significant accounting judgments, estimates and assumptions*

The preparation of financial statements in conformity with Ind AS requires management to make estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively.

The key assumptions concerning the future and other key sources of estimating uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company has based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

2.1 *Project revenue and costs*

The percentage-of-completion (POC) method places considerable importance on accurate estimates to the extent of progress towards completion and may involve estimates on the scope of deliveries and services required for fulfilling the contractually defined obligations. These significant estimates include total contract costs, total contract revenues, contract risks, including technical, political and regulatory risks, and other judgments. The Company re-assesses these estimates on periodic basis and makes appropriate revisions accordingly.

2.2 *Taxes*

Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

2.3 *Property, plant and equipment and intangible assets*

The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of the Company's assets are determined by management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

2.4 *Impairment of non-financial assets*

The Company assesses at each balance sheet date whether there is any indication that an asset or a group of assets (cash generating unit) may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset or cash generating unit.

The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to the present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. If such recoverable amount of the asset or the recoverable amount of the cash-generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the Statement of Profit and Loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciable historical cost, had no impairment been recognised.

2.5 *Employee benefits*

The Company's obligation for employee benefits is determined based on actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Refer note 43 for details of the key assumptions used in determining the accounting of these plans.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the Actuary considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries.

2.6 *Impairment of financial assets*

The Company assesses impairment on financial assets based on Expected Credit Loss (ECL) model. The provision matrix is based on its historically observed default rates over the expected life of the financial assets and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in forward looking estimates are analysed.

2.7 *Provisions*

Significant estimates are involved in the determination of provisions related to liquidated damages, onerous contracts, warranty costs, asset retirement obligations, legal and regulatory proceedings (Legal Proceedings). The Company records a provision for onerous sales contracts when current estimates of total contract costs exceed expected contract revenue. The provision for warranty, liquidated damages onerous contracts is based on the best estimate required to settle the present obligation at the end of reporting period.

Legal Proceedings often involve complex legal issues and are subject to substantial uncertainties. Accordingly, considerable judgment is part of determining whether it is probable that there is a present obligation as a result of a past event at the end of the reporting period, whether it is probable that such a Legal Proceeding will result in an outflow of resources and whether the amount of the obligation can be reliably estimated. Internal and external counsels are generally part of the determination process.

All the estimates are revised periodically.

Standard issued that are not yet effective

Ministry of Corporate Affairs (“MCA”) through Companies (Indian Accounting Standards) Amendment Rules, 2018 has notified the following new and amendments to Ind ASs which the Company has not applied as they are effective for annual periods beginning on or after April 1 2018:

Ind AS 115 - Revenue from Contracts with Customers

The new standard replaces existing revenue recognition standards Ind AS 11, Construction contracts and Ind AS 18, Revenue. The core principle of the new standard is that revenue should be recognized when (or as) an entity transfers control of goods or services to a customer at the amount to which the entity expects to be entitled.

Essential concepts in Ind AS 115 have been analysed on revenue stream level. The Company's revenue streams mainly consist of revenue from projects, products and services arising from varied segments. Existing revenue recognition in case of revenue from projects is based on percentage-of-completion method including any adjustments arising of variable considerations and penalties, revenue from sale of products is based on transfer of risks and rewards to customer and revenue from services is as per proportionate completion method.

Ind AS 40 - Transfers of Investment Property

The amendments clarify when an entity should transfer property, including property under construction or development into, or out of investment property. The amendments state that a change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. A mere change in management's intentions for the use of a property does not provide evidence of a change in use.

Ind AS 21 - The Effect of Changes in Foreign Exchange Rates

The Appendix B clarifies that, in determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which an entity initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, then the entity must determine the transaction date for each payment or receipt of advance consideration.

While an initial assessment of the above standards does not indicate a significant impact, except for the disclosure requirements of Ind AS 115 - Revenue from Contracts with Customers, a reliable estimate of the impact can be concluded only upon completion of the ongoing evaluation process. The Company does not expect any material effect on its financial statements.

21 Other equity

Nature and purpose of reserve

- Capital reserve was created on account of merger of group companies in earlier years.
- Amalgamation reserve pertains to amalgamation of Siemens VDO Automotive Limited in 2006.
- Capital redemption reserve pertains to entity accounted as business combination under common control.
- Securities premium account represents the surplus of proceeds received over the face value of shares, at the time of issue of shares.
- General reserve is created out of profits earned by the Company by way of transfer from surplus in the statement of profit and loss. The Company can use this reserve for payment of dividend and issue of fully paid-up shares. As General reserve is created by transfer on one component of equity to another and is not an item of other comprehensive income, items included in the General reserve will not be subsequently reclassified to statement of profit and loss.
- Cash flow hedge reserve represents mark-to-market valuation of effective hedges as required by Ind AS 109.
- Retained earnings are the profits that the Company has earned till date, less any transfers to General reserve and payment of dividend.

The above reserves will be utilised in accordance with the provision of the Companies Act, 2013.

38 Disclosure relating to Provisions

Provision for warranty

Warranty costs are provided based on a technical estimate of the costs required to be incurred for repairs, replacement, material cost, servicing and past experience in respect of warranty costs. It is expected that this expenditure will be incurred over the contractual warranty period.

Provision for liquidated damages

Liquidated damages are provided based on contractual terms when the delivery/ commissioning dates of an individual project have exceeded or are likely to exceed the delivery/ commissioning dates as per the respective contracts. This expenditure is expected to be incurred over the respective contractual terms up to closure of the contract (including warranty period).

Provision for loss orders

A provision for expected loss on construction contracts is recognised when it is probable that the contract costs will exceed total contract revenue. For all other contracts, loss order provisions are made when the unavoidable costs of meeting the obligation under the contract exceed the currently estimated economic benefits.

Provision for other matters

The Company has made provisions for known contractual risks, litigation cases and pending assessments in respect of taxes, duties and other levies, the outflow of which would depend on the cessation of the respective events.

41 (iv) Other disclosures :

- The Chief Operating Decision Maker ("CODM") evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by operating segments. The CODM reviews revenue and profit from operations as the performance indicator for all of the operating segments. The Chief Executive Officer, Chief Financial Officer and Division CEO & CFO's are the CODM of the Company.
- Inter-segment prices are normally negotiated amongst the segments with reference to the costs, market price and business risks. Transfer prices between operating segments are on arm's length basis in a manner similar to the transactions with third parties.
- No operating segments have been aggregated to form the above reportable operating segments.
- Finance income and costs are not allocated to individual segments as the underlying instruments are managed on a group basis.
- Current taxes, deferred taxes and certain financial assets and liabilities are not allocated to those segments as they are also managed on a group basis.
- Capital expenditure consists of additions of property, plant and equipment, intangible assets and investment properties including assets from the acquisition of subsidiaries.
- Profits / losses on inter segment transfers are eliminated at the Company level.

(v) Segment information :

Business Segments: The business of the Company is divided into seven segments. These segments are the basis for management control and hence, form the basis for reporting. The business of each segment comprises of :

- **Power and Gas :-** Provides products and solutions for generation of electricity from fossil and renewable fuels for utilities, independent power producers and engineering, procurement and construction (EPC) companies and the reliable transport of oil and natural gas.
- **Energy Management :-** Supplier of products, systems, solutions and services for transmission and distribution of electrical energy for power utilities and industrial companies. Portfolio ranges from systems for low-voltage grids and distribution grids to solutions for smart grids and energy automation systems to power supply systems for industrial plants and high-voltage transmission systems.
- **Building Technologies :-** Provider of safe, secure, energy-efficient and eco-friendly building infrastructures. As a technology partner, consultant, service provider, systems integrator and product vendor, offerings range from fire safety, security, building automation, heating, ventilation, air conditioning and energy management.
- **Mobility :-** Supplier of solutions for passenger and freight transportation—including rail vehicles, rail automation systems, rail electrification systems, road traffic technology and IT solutions.
- **Digital Factory :-** Contains portfolio of leading edge software solutions and automation technologies covering the complete life cycle from product design and production execution to services for manufacturing companies.
- **Process Industries and Drives :-** Provides products, systems, solutions and services across entire life cycles for all industry sectors.
- **Others :-** Services provided to other group companies and lease rentals have been classified as "Others".

Geographical Areas: The business is organised in two geographical areas i.e. within India and outside India.

Allocation of common costs

Common allocable costs are allocated to each segment according to the relative contribution of each segment to the total common costs.

Unallocated corporate items

Unallocated items include general corporate items which are not allocated to any business segment.

(ii) Defined Benefit Plans *(Continued)*

- b) The sensitivity analysis above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting year 2017-18 and the method of assumption used in preparing sensitivity analysis did not change compared to previous year.
- c) The fund formed by the Company manages the investments of the Gratuity fund. Expected rate of return on investments is determined based on the assessment made by the Company at the beginning of the year on the return expected on its existing portfolio, along with the estimated incremental investments to be made during the year. Yield on portfolio is calculated based on a suitable mark-up over the benchmark Government securities of similar maturities. The Company expects to contribute ₹125 (2017: ₹ 208) to gratuity fund in 2018-19.

The investment strategy in respect of its funded plans is implemented within the framework of the applicable statutory requirements. Each year, the Board of Trustees reviews the level of funding in the gratuity plan. Such a review includes the asset liability matching strategy and investment risk management policy. This includes employing the use of annuities and longevity swaps to manage the risks. The Board of Trustees decides its contribution based on the results of this annual review. Generally it aims to have a portfolio mix of equity instruments and debt instruments to minimize the risk exposed to investment.

- d) The estimates of future salary increases, considered in actuarial valuation, take in to account inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.
- e) The Company has contributed ₹ 556 (2017: ₹ 475) towards provident fund during the year ended 30 September 2018. The Guidance note issued by the Institute of Actuaries of India states that benefits involving employer established provident funds, which require interest shortfalls to be recompensed are to be considered as defined benefit plans. The Actuary has accordingly provided a valuation and based on the assumptions provided below there is no shortfall as at 30 September 2018.

The details of the fund and plan asset position as at 30 September are as follows:

	Sept 2018	Sept 2017
Present value of benefit obligation at year end	10,451	9,785
Fair value of plan assets at year end	10,874	10,406
Shortfall / (Surplus)	(423)	(621)
Effect due to Asset Ceiling	423	621

Assumptions used in determining the present value obligation of the interest rate guarantee under the Deterministic Approach:

	Sept 2018	Sept 2017
Government of India securities (GOI) bond yield	8.51%	7.24%
Remaining term of maturity (in years)	14.45	14.23
Expected guaranteed interest rate	8.55%	8.65%

(iii) General descriptions of significant defined plans

I Gratuity Plan

Gratuity is payable to all eligible employees of the Company on superannuation, death and permanent disablement, in terms of the provisions of the Payment of Gratuity Act, 1972 or as per the Company's Scheme whichever is more beneficial. Under the act, employee who has completed five years of service is entitled to the benefit. The level of benefits provided depends on the members length of service and salary at retirement age.

II Medical

Post retirement medical benefit is paid to the retired employees and their spouse till their survival and after their death, benefits are available to the employee's spouse. It consists of 3 components, which is health insurance, Domiciliary medical allowance and Company support in case the expenses incurred are more than the health insurance coverage subject to the ceiling limit as per the grades.

50 Financial Risk Management

The Company's principal financial liabilities comprise of trade payable, security deposits and other financial liabilities. The Company's principal financial assets include trade and other receivables, cash and cash equivalents and other financial assets that arise from its operations. The Company also enters into hedging transactions to cover foreign exchange exposure risk.

The Company's operating business is exposed to market risk, credit risk and liquidity risk. In order to optimize the allocation of the financial resources across the segments, as well as to achieve its aims, the Company identifies, analyses and manages the associated market risks. The Company seeks to manage and control these risks primarily through its regular operating activities and uses derivative financial instruments when deemed appropriate. All derivative activities for risk management purposes are carried out by teams that have the appropriate skills, experience and supervision. The Company has a Risk Management Committee, which ensures that the Company's financial risk taking activities are governed by appropriate policies and procedures and that financial risks are identified, measured and mitigated in accordance with the Company's policies and overall risk appetite.

A Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of currency rate risk and interest rate risk. Financial instrument affected by market risks includes deposits, derivative financial instruments, trade receivables, trade payables and other financial assets.

Foreign Currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes on foreign exchange rate. The Company operates internationally and transacts in several currencies and has foreign currency trade receivables and trade payables. Hence, the Company is exposed to foreign exchange risk. The Company holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures.

Foreign currency sensitivity

The following table demonstrate the sensitivity to a reasonably possible change in major currencies like US Dollar and Euro with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities including foreign currency derivatives. The Company's exposure to foreign currency changes for all other currencies is not material.

Particulars		Effect on profit before tax		Effect on equity (net of tax)	
		Sept 2018	Sept 2017	Sept 2018	Sept 2017
US Dollar	+ 5%	437	714	-	-
	- 5%	(437)	(714)	-	-
Euro	+ 5%	64	25	*	*
	- 5%	(64)	(25)	*	*

* denotes figures less than a million

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Consequently, could have unforeseen impact on Company's cost of borrowing or returns thus impacting the profit and loss.

The Company does not have any borrowings. Surplus funds are invested in deposits at fixed interest rates. The tenure of the deposits is managed to match with the liquidity profile of the Company.

B Credit risk

Credit risk is defined as an unexpected loss in financial instruments if the contractual partner is failing to discharge its obligations in full and on time. The Company is exposed to credit risk from its operating and financing activities like trade receivables, deposits with banks, foreign exchange transactions and other financial instruments.

50 Financial Risk Management (Continued)

Receivables

The major exposure to credit risk at the reporting date is primarily from receivables comprising of trade and project unbilled receivables (net).

Credit risk on receivables is limited due to the Company's large and diverse customer base which includes public sector enterprises, state owned companies and private corporates. The effective monitoring and controlling of credit risk through credit evaluations and ratings is a core competency of the Company's risk management system.

For receivables, as a practical expedient, the Company computes expected credit loss allowance based on a provision matrix. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables and is adjusted for forward-looking estimates.

The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The ECL is calculated on rating and default probability percentage arrived from the historic default trend. In order to determine the default probability percentage, a simple average of customer wise specific allowances or actual bad debts incurred in succeeding year (derived rates) (whichever is higher) for the preceding three years is considered as a percentage of gross receivables positions for each grading i.e. rating and division of each customer as at reporting date.

The reconciliation of ECL is as follows:

Particulars	Sept 2018	Sept 2017
Balance at the beginning of the year	2,095	1,902
Loss allowance based on ECL	(305)	193
Balance at the year end	<u>1,790</u>	<u>2,095</u>

Other financial assets

Credit risk from cash and cash equivalents, term deposits and derivative financial instruments is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds, temporarily, are made only with approved counter parties and within credit limits assigned to each counterparty. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets.

C Liquidity risk

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company regularly monitors the rolling forecasts and actual cashflows, to ensure it has sufficient funds to meet the operational needs.

The table below summarise the maturity profile of the Company's financial liabilities based on contractually agreed undiscounted cash flows :

Particulars	Notes	Total	Payable within 1 year	More than 1 year

Annexure 1 to the Independent Auditor's Report of even date on the Consolidated Ind AS Financial Statements of Siemens Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated Ind AS financial statements of Siemens Limited as of and for the year ended September 30 2018, we have audited the internal financial controls over financial reporting of Siemens Limited (hereinafter referred to as the "Holding Company") and its subsidiary company, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiary company, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, both, issued by Institute of Chartered Accountants of India, and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting with reference to these consolidated Ind AS financial statements.

Meaning of Internal Financial Controls Over Financial Reporting with reference to these consolidated Ind AS financial statements

A company's internal financial control over financial reporting with reference to these consolidated Ind AS financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these consolidated Ind AS financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting with reference to these consolidated Ind AS financial statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting with reference to these consolidated Ind AS financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary company have, maintained in all material respects, an adequate internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements and such internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements were operating effectively as at September 30 2018, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the Consolidated Financial Statements for the year ended 30 September 2018 (Currency: Indian rupees millions)

Corporate information

Siemens Limited ("The Company") is a public company domiciled in India with its registered office at Birla Aurora, Level 21, Plot No. 1080 Dr. Annie Besant Road, Worli Mumbai – 400030. The Company is listed on National Stock Exchange of India Limited (NSE) and Bombay Stock Exchange Limited (BSE).

The Group offers products integrated solutions for industrial applications for manufacturing industries, drives for process industries, intelligent infrastructure and buildings, efficient and clean power generation from fossil fuels and oil and gas applications, transmission and distribution of electrical energy and for passenger and freight transportation, including rail vehicles, rail automation and rail electrification systems.

1. Significant accounting policies

1.1 Basis of preparation of Consolidated Financial Statements

The Consolidated Financial Statements of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) notified pursuant to section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time).

The Consolidated Financial Statements have been prepared and presented under the historical cost convention, except for derivative instruments and certain other financial assets and liabilities which have been measured at fair value (refer accounting policy regarding financial instruments).

The accounting policies adopted in the preparation of Consolidated Financial Statements are consistent for all the periods presented.

The Consolidated Financial Statements are presented in INR, which is the functional currency and all values are rounded to the nearest millions (INR 1,000,000), except when otherwise indicated.

The Consolidated Financial Statements were authorised for issue in accordance with a resolution of Board of directors on 18 November 2018.

Principles of consolidation

The Consolidated Financial Statements comprise the financial statements of Siemens Limited ('the Company') or ('the parent company') and its wholly owned subsidiary, Siemens Rail Automation Private Ltd ('the subsidiary'). The Company and the subsidiary constitute the Siemens Group ('the Group').

The list of subsidiary is set out below:

Entity	Country of incorporation	% Holding 2018	% Holding 2017
Siemens Rail Automation Private Ltd.	India	100%	100%

The Consolidated Financial Statements comprise the financial statements of Siemens Ltd ('The Company') and its subsidiaries as at September 30 2018. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

Subsidiary is consolidated from the date on which effective control is transferred to the Company and is no longer consolidated from the date of disposal.

Minority interest's share of net profit is adjusted against the income to arrive at the net income attributable to owners of the parent. Minority interest's share of net assets is presented separately in the balance sheet.

Consolidated Financial Statements are prepared using uniform accounting policies for transactions and other events in similar circumstance.

The excess/deficit of cost to the parent company of its investment in the subsidiary over its portion of equity in the subsidiary at the respective dates on which investment in such subsidiary was made is recognised in the Consolidated Financial Statements as goodwill/capital reserve. The parent company's portion of equity in such subsidiary is determined

1.1 Basis of preparation of Consolidated Financial Statements (Continued)

Principles of consolidation (Continued)

on the basis of book values of assets and liabilities as per the financial statements of the subsidiary as on the date of investment and if not available, the financial statements for the immediately preceding period adjusted for the effects of significant transactions. Goodwill is tested for impairment annually.

The Consolidated Financial Statements have been prepared on the following basis:

Consolidation procedure:

- (a) Items of assets, liabilities, equity, income, expenses and cash flows of the parent are combined with those of its subsidiaries on a line basis. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the financial statements at the acquisition date.
- (b) The carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary are eliminated.
- (c) Intracompany assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the Group are eliminated in full (profits or losses resulting from intra Group transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intra Group losses may indicate an impairment that requires recognition in the Consolidated Financial Statements. Ind AS12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intracompany transactions.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary
- Recognises the fair value of the consideration received
- Recognises the fair value of any investment retained
- Recognises any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognised in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

1.2 Current versus non-current classification

All assets and liabilities have been classified as current or non-current as per the Group's operating cycle. Based on the nature of business and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

1.3 Property, plant and equipment

Property, plant and equipment are stated at cost of acquisition less accumulated depreciation and impairment losses, if any. The cost includes taxes, duties, freight and other incidental expenses related to the acquisition and installation of the respective assets. Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future economic benefits from the existing assets beyond its previously assessed standard of performance.

Depreciation on property, plant and equipment is provided on a straight-line basis over the useful lives of assets estimated by the management, taking into account the nature of the asset on technical evaluation of the useful life, which may not necessarily be in alignment with the indicative useful lives prescribed by Schedule II to the Companies Act, 2013. The following useful lives are assumed:

Assets	Estimated useful lives
Land	
- Freehold	-
- Leasehold	Over the lease period
Buildings	
- Factory buildings	30 years

Notes to the Consolidated Financial Statements (*Continued*) for the year ended 30 September 2018 (Currency: Indian rupees millions)

1.3 Property, plant and equipment (*Continued*)

- Other buildings	50 years
- Roads	10 years
- Leasehold improvements	Over the lease period
Plant and equipment	3 – 20 years
Furniture and fixtures	5 years
Office equipment	
- Computers	3 years
- Hardware, mainframes and servers	5 years
- Other office equipment	3 - 5 years
Vehicles	4 years

Items of property, plant and equipment that have been retired from active use and are held for disposal are stated at the lower of their carrying value and estimated net realizable value and are disclosed separately in the Consolidated Financial Statements.

Capital work-in-progress includes the cost of property, plant and equipment that are not ready for intended use at the balance sheet date.

1.4 Intangible assets

Intangible assets comprises of software and technical know-how. Intangible assets are stated at cost of acquisition less accumulated amortisation and impairment losses, if any. These intangible assets are amortised on straight-line basis based on the following useful lives, which in management's estimate represents the period during which economic benefits will be derived from their use:

Assets	Estimated useful lives
Software	3 - 5 years
Technical know-how	5 - 10 years

1.5 Investment property

Investments in land or buildings (including property under construction) which are held to earn rentals and/or for capital appreciation are classified as investment property. Investment properties are initially measured at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.

The cost comprises purchase price and borrowing costs, if capitalisation criteria are met and directly attributable cost of bringing the investment property to its working condition for the intended use.

Depreciation on investment property is provided on a straight-line basis over the useful lives of assets estimated by the management. Such classes of investment properties and their estimated useful lives are as under:

Assets	Estimated useful lives
Land	
- Freehold land	-
- Leasehold land	Over the lease period
Factory Buildings	30 years

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. On disposal of an investment property, the difference between its carrying amount and net disposal proceeds is recognised in the Statement of Profit and Loss.

1.6 Revenue recognition

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, taking into

1.6 Revenue recognition (*Continued*)

account contractually defined terms of payment. Revenue are stated exclusive of sales tax, value added tax, goods and service tax and net of trade and quantity discount.

Revenue from sale of products is recognised on transfer of significant risk and rewards of ownership of the products to the customers, which is usually on dispatch of goods.

When the outcome of a construction contract can be estimated reliably, revenue from construction contracts are recognized under the percentage-of-completion method, based on the percentage of costs incurred to date compared to the total estimated contract costs. An expected loss on the construction contract is recognized as an expense immediately. Contract revenue earned in excess of billing has been reflected as "Project excess cost" under "Other financial assets" and "Billing in excess" of contract revenue has been reflected under "Other current liabilities" in the balance sheet.

Revenue from services represents service income other than from services which are incidental to sale of products and projects. Revenue from services is recognised as per the terms of the contract with the customer using the proportionate completion method.

Export incentives receivable are accrued for, when the right to receive the credit is established and there is no significant uncertainty regarding the realisability of the incentives.

Commission income is recognised when proof of shipment is received from the supplier.

Rental income arising from operating leases is accounted on a straight-line basis over the lease terms and is included in revenue in the Statement of Profit and Loss due to its operating nature.

1.7 Inventories

Inventories comprise all costs of purchase, conversion and other costs incurred in bringing the inventories to their present location and condition.

Raw materials, work-in-progress, finished goods and traded goods are carried at the lower of cost and net realisable value. Cost is determined on the basis of the weighted average method.

The net realisable value of work-in-progress is determined with reference to the estimated selling price less estimated cost of completion and estimated costs necessary to make the sale of related finished goods. Raw materials held for the production of finished goods are not written down below cost except in case where material prices have declined and it is estimated that the cost of the finished product will exceed its net realisable value.

1.8 Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of the specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in arrangement.

Where the Group is the lessee:

Leases where the lessor effectively retains substantially all the risk and benefits of ownership of the leased items are classified as operating leases. Lease payments under an operating lease, are recognised as an expense in the Statement of Profit and Loss on a straight line basis over the lease term. Contingent rentals are recognised as an expense in the period which they are incurred.

Where the Group is the lessor:

Assets subject to operating leases are included in property, plant and equipment and investment property. Lease income is recognised in the Statement of Profit and Loss on a straight-line basis over the lease term. Costs, including depreciation are recognised as an expense in the Statement of Profit and Loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognised immediately in the Statement of Profit and Loss.

1.9 Employee benefits

(a) Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages and short term compensated absences, etc. and the expected cost of ex-gratia are recognised in the period in which the employee renders the related service.

Notes to the Consolidated Financial Statements (*Continued*) for the year ended 30 September 2018 (Currency: Indian rupees millions)

1.9 Employee benefits (*Continued*)

(b) Post-employment and other long-term benefits

- (i) **Defined Contribution Plans:** The Group's approved superannuation scheme and employee state insurance scheme are defined contribution plans. The Group's contribution payable under the schemes is recognised as expense in the Statement of Profit and Loss during the period in which the employee renders the related service.
- (ii) **Defined Benefit Plans and other Long Term Benefits:** The Group's gratuity, pension and medical benefit schemes are defined benefit plans. Leave wages, retention bonus, silver jubilee and star awards are other long term benefits. The present value of the obligation under such defined benefit plans and other long term benefits are determined based on actuarial valuation using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. In case of funded plans, the fair value of the plan assets is reduced from the gross obligation under the defined benefit plans to recognize the obligation on a net basis.

Provident fund has been considered as a defined benefit plan since any additional obligations on account of investment risk and interest rate risk are required to be met by the Group.

In case of defined benefit plans, remeasurement comprising of actuarial gains and losses, the return on plan assets (excluding amounts included in net interest on the net defined benefit liability or asset) and any change in the effect of asset ceiling (wherever applicable) is recognized in other comprehensive income (OCI) and is reflected in retained earnings and is not eligible to be reclassified to profit or loss. In case of other long term benefits, all remeasurements including actuarial gain or loss are charged to Statement of Profit and Loss.

The Group recognises following items in the net defined benefit obligation as an expense in Statement of Profit and Loss:

- Service cost including current service cost, past service cost and gains and losses on curtailments and settlements; and
- Net interest expense or income.

Provision for leave wages, pension, medical benefit, retention bonus, silver jubilee and star awards which is expected to be utilized within the next 12 months is treated as Short term employee benefits and beyond 12 months as long term employee benefits. For the purpose of presentation, the allocation between short and long term provisions has been made as determined by an actuary.

The contribution to gratuity trust is expected to be made within next 12 months. Accordingly the provision for gratuity is classified as current.

1.10 Share-based payments

Share-based payments consists of share awards of the holding company i.e. Share matching plan (SMP) and Siemens Stock Award (SSA) to the employees of the group. These awards are predominantly designed as cash-settled transactions. The employees of the Group are eligible for the Holding Company's share awards, i.e. SMP and SSA. The fair value of the amount payable is remeasured at the end of each reporting period upto the settlement date, with the changes in the fair value recognised as employee benefits expenses with a corresponding increase in liabilities.

1.11 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit and loss, transaction costs that are attributable to the acquisition of the financial asset.

1.11 Financial instruments (Continued)

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in the below categories:

- a) Financial assets at amortised cost
- b) Financial assets including derivatives at fair value through profit or loss (FVTPL)
- c) Financial assets at fair value through other comprehensive income (FVTOCI)

(a) Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business where the objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the EIR method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Statement of Profit and Loss. The losses arising from impairment are recognised in the Statement of Profit and Loss. This category generally applies to trade and other receivables, loans and other financial assets.

(b) Financial Assets including derivatives at fair value through profit or loss (FVTPL)

Financial assets are measured at fair value through profit and loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets at fair value through profit and loss are immediately recognised in the Statement of Profit and Loss.

(c) Financial Assets at fair value through other comprehensive income (FVTOCI)

Derivative instruments included in FVTOCI category are measured initially as well as at each reporting date at fair value. Movement in fair value is recognised in OCI.

Derecognition

A financial asset is primarily derecognised when:

- (a) the right to receive cash flows from the asset has expired, or
- (b) the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement; and a) the Group has transferred substantially all the risks and rewards of the asset, or b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety, the differences between the carrying amounts measured at the date of derecognition and the consideration received is recognised in the Statement of Profit and Loss.

Impairment of financial assets

The Group applies the expected credit loss (ECL) model for measurement and recognition of impairment losses on the following financial assets and credit risk exposure:

- (a) Financial assets that are measured at amortised cost e.g. deposits
- (b) Trade receivables, project excess cost or any another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18.

The Group follows the simplified approach for recognition of impairment loss allowance on trade receivables (net of billing in excess) and project excess cost. The application of the simplified approach does not require the Group to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Group determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, twelve-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on twelve-month ECL.

Notes to the Consolidated Financial Statements (*Continued*) for the year ended 30 September 2018 (Currency: Indian rupees millions)

1.11 Financial instruments (*Continued*)

Impairment of financial assets (*Continued*)

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The twelve-month ECL is a portion of the lifetime ECL which results from default events that are possible within twelve months after the reporting date.

ECL is the difference between net of all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all cash shortfalls), discounted at the original EIR.

When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

As a practical expedient, the Group uses a provision matrix to determine impairment loss allowance on trade receivables (net of billing in excess) and project excess cost.

The Group does not have any purchased or originated credit-impaired financial assets, i.e., financial assets which are credit impaired on purchase/origination.

ECL impairment loss allowance (or reversal) recognized during the period is recognized in the Statement of Profit and Loss. This amount is reflected under the head 'other expenses' in the Statement of Profit and Loss.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss (FVTPL), payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and in the case of payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables and derivative financial instruments.

Subsequent measurement

Financial liabilities, including derivatives and embedded derivatives, which are designated for measurement at FVTPL are subsequently measured at fair value. All other financial liabilities such as deposits are measured at amortised cost using EIR method.

For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value is used due to the short maturity of these instruments.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

1.12 Foreign currency transactions

The Group is exposed to currency fluctuations on foreign currency transactions. Transactions denominated in foreign currency are recorded at the exchange rate prevailing on the date of transactions.

Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss of the year.

1.12 Foreign currency transactions (*Continued*)

Translation

Monetary assets and liabilities in foreign currency, which are outstanding as at the year-end, are translated at the year-end at the closing exchange rate and the resultant exchange differences are recognized in the Statement of Profit and Loss. Non-monetary items are stated in the balance sheet using the exchange rate at the date of the transaction.

Derivative instruments and hedge accounting

The Group's exposure to foreign currency fluctuations relates to foreign currency assets, liabilities and forecasted cash flows. The Group limits the effects of foreign exchange rate fluctuations by following established risk management policies including the use of derivatives like forward contracts and options. The Group enters into forward exchange contracts and options, where the counterparty is a bank. The hedging strategy is used for mitigating the currency fluctuation risk and the Group does not use the forward exchange and options contracts for trading or speculative purpose.

The forward exchange and options contracts are re-measured at fair value at each reporting date with the resultant gains/losses thereon being recorded in Statement of Profit and Loss.

Commodity risk is mitigated by entering into future contracts to hedge against fluctuation in commodity prices

The Group designates some of the forward contracts in a cash flow hedging relationship by applying the hedge accounting principles.

These forward contracts are stated at fair value at each reporting date. Changes in the fair value of these forward contracts that are designated as hedges for future cash flows are recognised in OCI and reflected in the cash flow hedge reserve net of applicable deferred income taxes. The ineffective portion is recognised immediately in the Statement of Profit and Loss.

Amounts accumulated in cash flow hedge reserve are reclassified to profit and loss in the period during which the forecasted transaction materialises.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. For forecasted transactions, any cumulative gain or loss on the hedging instrument recognised in cash flow hedge reserve is retained there until the forecasted transaction occurs.

If the forecasted transaction is no longer expected to occur, the net cumulative gain or loss recognised in cash flow hedge reserve is immediately transferred to the Statement of Profit and Loss for the period.

1.13 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

All assets and liabilities for which fair value is measured or disclosed in the Consolidated Financial Statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the Consolidated Financial Statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

In determining the fair value of its financial instruments, the Group uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value includes discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result from general approximation of value and the same may differ from the actual realised value.

Notes to the Consolidated Financial Statements (*Continued*) for the year ended 30 September 2018 (Currency: Indian rupees millions)

1.14 Taxation

Income-tax expense comprises current tax (i.e. amount of tax for the year determined in accordance with the income-tax law) and deferred tax charge or credit (reflecting the tax effect of temporary differences between accounting income and taxable income for the year) computed in accordance with the relevant provisions of the Income Tax Act, 1961. Current tax and deferred tax are recognised in the Statement of Profit and Loss, except when they relate to items that are recognised in OCI or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

The current tax payable is based on taxable profit for the year. The Group's current tax is calculated using tax rates that have been enacted or substantively enacted, by the end of the reporting period. Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant taxpaying units intend to settle the asset and liability on a net basis.

Deferred tax is provided using the balance sheet method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are generally recognised for all deductible temporary differences to the extent it is probable that taxable profits will be available against those deductible temporary differences can be realised. Deferred tax assets are reviewed as at each balance sheet date and written down to the extent it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

1.15 Earnings per share

Basic earnings per share are computed by dividing the net profit attributable to equity shareholders for the year, by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

1.16 Provisions and contingencies

Provisions are recognized when the Group recognises it has a present obligation (legal or constructive) as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect is material, provisions are recognised at present value by discounting the expected future cash flows at a pretax rate that reflects current market assessments of the time value of money. When a contract becomes onerous, the present obligation under the contract is recognized as a provision. These are reviewed at each balance sheet date and adjusted to reflect current best estimates.

Disclosures for contingent liability are made when there is a possible and present obligation that arises from past events which is not recognised since it is not probable that there will be an outflow of resources. When there is a possible and present obligation in respect of which the likelihood of outflow of resources is remote, no disclosure is made.

Loss contingencies arising from claims, litigation, assessment, fines, penalties, etc. are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated.

Provisions for warranty related cost are recognised when the product is sold or service is provided to the customer. Initial recognition is based on past experience.

Contingent assets are not recognised in the Consolidated Financial Statements.

1.17 Cash and Cash equivalents

Cash and cash equivalents include cash, cheques in hand, cash at bank and deposits with banks having maturity of three months or less. Bank deposits with original maturity of up to three months are classified as 'Cash and cash equivalents' and with original maturity of more than three months are classified as 'Other bank balances'.

1.18 Government grants and subsidies

Grants and subsidies from the government are recognized when there is reasonable assurance that (i) the Group will comply with the conditions attached to them, and (ii) the grant/subsidy will be received.

When the grant or subsidy relates to revenue, it is recognized as income on a systematic basis in the Statement of Profit and Loss over the periods necessary to match them with the related costs for which they are intended to compensate. Where the grant relates to an asset, the same is presented in the balance sheet by deducting the grant in arriving at the carrying amount of the asset.

2. Significant accounting judgements, estimates and assumptions

The preparation of Consolidated Financial Statements in conformity with Ind AS requires management to make estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively.

The key assumptions concerning the future and other key sources of estimating uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group has based its assumptions and estimates on parameters available when the Consolidated Financial Statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

2.1 Project revenue and costs

The percentage-of-completion (POC) method places considerable importance on accurate estimates to the extent of progress towards completion and may involve estimates on the scope of deliveries and services required for fulfilling the contractually defined obligations. These significant estimates include total contract costs, total contract revenues, contract risks, including technical, political and regulatory risks, and other judgments. The Group re-assesses these estimates on periodic basis and makes appropriate revisions accordingly.

2.2 Taxes

Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

2.3 Property, plant and equipment and intangible assets

The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of the Group's assets are determined by management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

2.4 Impairment of non-financial assets

The Group assesses at each balance sheet date whether there is any indication that an asset or a group of assets (cash generating unit) may be impaired. If any such indication exists, the Group estimates the recoverable amount of the asset or cash generating unit.

The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to the present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. If such recoverable amount of the asset or the recoverable amount of the cash-generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the Statement of Profit and Loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciable historical cost, had no impairment been recognised.

2.5 Employee benefits

The Group's obligation for employee benefits is determined based on actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Refer note 42 for details of the key assumptions used in determining the accounting of these plans.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the Actuary considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

Notes to the Consolidated Financial Statements (*Continued*) for the year ended 30 September 2018 (Currency: Indian rupees millions)

2.5 Employee benefits (*Continued*)

The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries.

2.6 Impairment of financial assets

The Group assesses impairment on financial assets based on Expected Credit Loss (ECL) model. The provision matrix is based on its historically observed default rates over the expected life of the financial assets and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in forward looking estimates are analysed.

2.7 Provisions

Significant estimates are involved in the determination of provisions related to liquidated damages, onerous contracts, warranty costs, asset retirement obligations, legal and regulatory proceedings (Legal Proceedings). The Group records a provision for onerous sales contracts when current estimates of total contract costs exceed expected contract revenue. The provision for warranty, liquidated damages onerous contracts is based on the best estimate required to settle the present obligation at the end of reporting period.

Legal Proceedings often involve complex legal issues and are subject to substantial uncertainties. Accordingly, considerable judgment is part of determining whether it is probable that there is a present obligation as a result of a past event at the end of the reporting period, whether it is probable that such a Legal Proceeding will result in an outflow of resources and whether the amount of the obligation can be reliably estimated. Internal and external counsels are generally part of the determination process.

All the estimates are revised periodically.

Standard issued that are not yet effective

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2018 has notified the following new and amendments to Ind ASs which the Group has not applied as they are effective for annual periods beginning on or after April 1 2018:

Ind AS 115 - Revenue from Contracts with Customers

The new standard replaces existing revenue recognition standards Ind AS 11, Construction contracts and Ind AS 18, Revenue. The core principle of the new standard is that revenue should be recognized when (or as) an entity transfers control of goods or services to a customer at the amount to which the entity expects to be entitled.

Essential concepts in Ind AS 115 have been analysed on revenue stream level. The Group's revenue streams mainly consist of revenue from projects, products and services arising from varied segments. Existing revenue recognition in case of revenue from projects is based on percentage-of-completion method including any adjustments arising of variable considerations and penalties, revenue from sale of products is based on transfer of risks and rewards to customer and revenue from services is as per proportionate completion method.

Ind AS 40 - Transfers of Investment Property

The amendments clarify when an entity should transfer property, including property under construction or development into, or out of investment property. The amendments state that a change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. A mere change in management's intentions for the use of a property does not provide evidence of a change in use.

Ind AS 21 - The Effect of Changes in Foreign Exchange Rates

The Appendix B clarifies that, in determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which an entity initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, then the entity must determine the transaction date for each payment or receipt of advance consideration.

While an initial assessment of the above standards does not indicate a significant impact, except for the disclosure requirements of IND AS 115- Revenue from Contracts with Customers, a reliable estimate of the impact can be concluded only upon completion of the ongoing evaluation process. The Group does not expect any material effect on its Consolidated Financial Statements.

The valuation of certain investment properties is in accordance with the Ready Reckoner rates prescribed by for the purpose of levying stamp duty. The Group has referred to the publications and government website for Ready Reckoner rates. Further, the fair value of certain investment property has been determined with the help of Independent valuer. Fair value of property is based on Direct Comparison Approach and Depreciated Replacement Cost Approach.

- iii) The Group has elected to continue with the carrying value for all of its investment property as recognised in the financial statements on transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition.

In the event of liquidation of the Company, the holder of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts (if any). The distribution will be in proportion to the number of equity shares held by the shareholders.

20 Other equity

Nature and purpose of reserve

- Capital reserve was created on account of merger of group companies in earlier years.
- Amalgamation reserve pertains to amalgamation of Siemens VDO Automotive Limited in 2006.
- Capital redemption reserve pertains to entity accounted as business combination under common control.
- Securities premium account represents the surplus of proceeds received over the face value of shares, at the time of issue of shares.
- General reserve is created out of profits earned by the Group by way of transfer from surplus in the Statement of Profit and Loss. The Group can use this reserve for payment of dividend and issue of fully paid-up shares. As General reserve is created by transfer on one component of equity to another and is not an item of other comprehensive income, items included in the General reserve will not be subsequently reclassified to Statement of Profit and Loss.
- Cash flow hedge reserve represents mark-to-market valuation of effective hedges as required by Ind AS 109.
- Retained earnings are the profits that the Group has earned till date, less any transfers to General reserve and payment of dividend.

The above reserves will be utilised in accordance with the provision of the Companies Act, 2013.

37 Disclosure relating to Provisions

Provision for warranty

Warranty costs are provided based on a technical estimate of the costs required to be incurred for repairs, replacement, material cost, servicing and past experience in respect of warranty costs. It is expected that this expenditure will be incurred over the contractual warranty period.

Provision for liquidated damages

Liquidated damages are provided based on contractual terms when the delivery/ commissioning dates of an individual project have exceeded or are likely to exceed the delivery/ commissioning dates as per the respective contracts. This expenditure is expected to be incurred over the respective contractual terms upto closure of the contract (including warranty period).

Provision for loss orders

A provision for expected loss on construction contracts is recognised when it is probable that the contract costs will exceed total contract revenue. For all other contracts, loss order provisions are made when the unavoidable costs of meeting the obligation under the contract exceed the currently estimated economic benefits.

Provision for other matters

The Group has made provisions for known contractual risks, litigation cases and pending assessments in respect of taxes, duties and other levies, the outflow of which would depend on the cessation of the respective events.

40 (iii) **Revenue from major customers:**

During current year, revenue from one of the customer is more than 10% of the total revenue. The same is forming part of Energy Management, Building Technologies, Digital Factory and Process Industries and Drives segment.

(iv) **Other disclosures :**

- The Chief Operating Decision Maker (“CODM”) evaluates the Group’s performance and allocates resources based on an analysis of various performance indicators by operating segments. The CODM reviews revenue and profit from operations as the performance indicator for all of the operating segments. The Chief Executive Officer, Chief Financial Officer and Division CEO & CFO’s are the CODM of the Company.
- Inter-segment prices are normally negotiated amongst the segments with reference to the costs, market price and business risks. Transfer prices between operating segments are on arm’s length basis in a manner similar to the transactions with third parties.
- No operating segments have been aggregated to form the above reportable operating segments.
- Finance income and costs are not allocated to individual segments as the underlying instruments are managed on a group basis.
- Current taxes, deferred taxes and certain financial assets and liabilities are not allocated to those segments as they are also managed on a group basis.
- Capital expenditure consists of additions of property, plant and equipment, intangible assets and investment properties including assets from the acquisition of subsidiaries.
- Profits / losses on inter segment transfers are eliminated at the Group level.

(v) **Segment information :**

Business Segments: The business of the Group is divided into seven segments. These segments are the basis for management control and hence, form the basis for reporting. The business of each segment comprises of :

- **Power and Gas :-** Provides products and solutions for generation of electricity from fossil and renewable fuels for utilities, independent power producers and engineering, procurement and construction (EPC) companies and the reliable transport of oil and natural gas.
- **Energy Management :-** Supplier of products, systems, solutions and services for transmission and distribution of electrical energy for power utilities and industrial companies. Portfolio ranges from systems for low-voltage grids and distribution grids to solutions for smart grids and energy automation systems to power supply systems for industrial plants and high-voltage transmission systems.
- **Building Technologies :-** Provider of safe, secure, energy-efficient and eco-friendly building infrastructures. As a technology partner, consultant, service provider, systems integrator and product vendor, offerings range from fire safety, security, building automation, heating, ventilation, air conditioning and energy management.
- **Mobility :-** Supplier of solutions for passenger and freight transportation—including rail vehicles, rail automation systems, rail electrification systems, road traffic technology and IT solutions.
- **Digital Factory :-** Contains portfolio of leading edge software solutions and automation technologies covering the complete life cycle from product design and production execution to services for manufacturing companies.
- **Process Industries and Drives :-** Provides products, systems, solutions and services across entire life cycles for all industry sectors.
- **Others :-** Services provided to other group companies and lease rentals have been classified as “Others”.

Geographical areas: The business is organised in two geographical areas i.e. within India and outside India.

Allocation of common costs

Common allocable costs are allocated to each segment according to the relative contribution of each segment to the total common costs.

Unallocated corporate items

Unallocated items include general corporate items which are not allocated to any business segment.

(ii) Defined Benefit Plans *(Continued)*

b) The sensitivity analysis above have been determined based on a method that extrapolates the impact on defined benefit obligations a result of reasonable changes in key assumptions occurring at the end of the reporting year 2017-18 and the method of assumption used in preparing sensitivity analysis did not change compared to previous year.

c) The fund formed by the Group manages the investments of the Gratuity fund. Expected rate of return on investments is determined based on the assessment made by the Group at the beginning of the year on the return expected on its existing portfolio, along with the estimated incremental investments to be made during the year. Yield on portfolio is calculated based on a suitable mark-up over the benchmark Government securities of similar maturities. Group expects to contribute ₹ 125 (2017: ₹ 208) to gratuity fund in 2018-19.

The investment strategy in respect of its funded plans is implemented within the framework of the applicable statutory requirements. Each year, the Board of Trustees reviews the level of funding in the gratuity plan. Such a review includes the asset liability matching strategy and investment risk management policy. This includes employing the use of annuities and longevity swaps to manage the risks. The Board of Trustees decides its contribution based on the results of this annual review. Generally it aims to have a portfolio mix of equity instruments and debt instruments to minimise the risk exposed to investment.

d) The estimates of future salary increases, considered in actuarial valuation, take in to account inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

e) The Group has contributed ₹ 556 (2017: ₹ 475) towards provident fund during the year ended 30 September 2018. The Guidance note issued by the Institute of Actuaries of India states that benefits involving employer established provident funds, which require interest shortfalls to be recompensed are to be considered as defined benefit plans. The Actuary has accordingly provided a valuation and based on the assumptions provided below there is no shortfall as at 30 September 2018.

The details of the fund and plan asset position as at 30 September are as follows:

	Sept 2018	Sept 2017
Present value of benefit obligation at year end	10,451	9,785
Fair value of plan assets at year end	10,874	10,406
Shortfall / (Surplus)	(423)	(621)
Effect due to Asset Ceiling	423	621

Assumptions used in determining the present value obligation of the interest rate guarantee under the Deterministic Approach:

	Sept 2018	Sept 2017
Government of India securities (GOI) bond yield	8.51%	7.24%
Remaining term of maturity (in years)	14.45	14.23
Expected guaranteed interest rate	8.55%	8.65%

(iii) General descriptions of significant defined plans

I Gratuity Plan

Gratuity is payable to all eligible employees of the Group on superannuation, death and permanent disablement, in terms of the provisions of the Payment of Gratuity Act, 1972 or as per the Group's Scheme whichever is more beneficial. Under the act, employee who has completed five years of service is entitled to the benefit. The level of benefits provided depends on the members length of service and salary at retirement age.

II Medical

49 Financial Risk Management

The Group's principal financial liabilities comprise of trade payable, security deposits and other financial liabilities. The Group's principal financial assets include trade and other receivables, cash and cash equivalents and other financial assets that arise from its operations. The Group also enters into hedging transactions to cover foreign exchange exposure risk.

The Group's operating business is exposed to market risk, credit risk and liquidity risk. In order to optimize the allocation of the financial resources across the segments, as well as to achieve its aims, the Group identifies, analyses and manages the associated market risks. The Group seeks to manage and control these risks primarily through its regular operating activities and uses derivative financial instruments when deemed appropriate. All derivative activities for risk management purposes are carried out by teams that have the appropriate skills, experience and supervision. The Group has a Risk Management Committee, which ensures that the Group's financial risk taking activities are governed by appropriate policies and procedures and that financial risks are identified, measured and mitigated in accordance with the Group's policies and overall risk appetite.

A Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of currency rate risk and interest rate risk. Financial instrument affected by market risks includes deposits, derivative financial instruments, trade receivables, trade payables and other financials assets.

Foreign Currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes on foreign exchange rate. The Group operates internationally and transacts in several currencies and has foreign currency trade receivables and trade payables. Hence, the Group is exposed to foreign exchange risk. The Group holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures.

Foreign currency sensitivity

The following table demonstrate the sensitivity to a reasonably possible change in major currencies like US Dollar and Euro with all other variables held constant. The impact on the Group's profit before tax is due to changes in the fair value of monetary assets and liabilities including foreign currency derivatives. The Group's exposure to foreign currency changes for all other currencies is not material.

Particulars		Effect on profit before tax		Effect on equity (net of tax)	
		Sept 2018	Sept 2017	Sept 2018	Sept 2017
US Dollar	+ 5%	437	714	-	-
	- 5%	(437)	(714)	-	-
Euro	+ 5%	64	25	*	*
	- 5%	(64)	(25)	*	*

49 Financial Risk Management (Continued)

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Consequently, could have unforeseen impact on Group's cost of borrowing or returns thus impacting the profit and loss.

Surplus funds are invested in deposits at fixed interest rates. The tenure of the deposits is managed to match with the liquidity profile of the Group.

B Credit risk

Credit risk is defined as an unexpected loss in financial instruments if the contractual partner is failing to discharge its obligations in full and on time. The Group is exposed to credit risk from its operating and financing activities like trade receivables, deposits with banks, foreign exchange transactions and other financial instruments.

Receivables

The major exposure to credit risk at the reporting date is primarily from receivables comprising of trade and project unbilled receivables (net).

Credit risk on receivables is limited due to the Group's large and diverse customer base which includes public sector enterprises, state owned companies and private corporates. The effective monitoring and controlling of credit risk through credit evaluations and ratings is a core competency of the Group's risk management system.

For receivables, as a practical expedient, the Group computes expected credit loss allowance based on a provision matrix. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables and is adjusted for forward-looking estimates.

The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The ECL is calculated on rating and default probability percentage arrived from the historic default trend. In order to determine the default probability percentage, a simple average of customer wise specific allowances or actual bad debts incurred in succeeding year (derived rates) (whichever is higher) for the preceding three years is considered as a percentage of gross receivables positions for each grading i.e. rating and division of each customer as at reporting date.

The reconciliation of ECL is as follows:

Particulars	Sept 2018	Sept 2017
Balance at the beginning of the year	(2,133)	(1,930)
Loss allowance based on ECL	303	(203)
Balance at the year end	<u>(1,830)</u>	<u>(2,133)</u>

Other financial assets

Credit risk from cash and cash equivalents, term deposits and derivative financial instruments is managed by the Group's treasury department in accordance with the Group's policy. Investments of surplus funds, temporarily, are made only with approved counter parties and within credit limits assigned to each counterparty. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets.

Dear Member(s),

Sub.: Green Initiative - Electronic mode of service of documents

The Ministry of Corporate Affairs (MCA) has allowed paperless compliances by companies through electronic mode by providing the same under the Companies Act, 2013 and rules framed there under. The Members can receive various notices and correspondences including Annual Reports i.e. Audited Financial Statements, Directors' Report, Auditors' Report, etc., through electronic mode (e-mail). The initiative taken by the MCA is a welcome move for the society at large, as this will reduce paper consumption to a great extent, ensure prompt receipt of communication and avoid loss of document in postal transit.

We are sure that you will whole-heartedly support this initiative for a greener environment and co-operate with the Company to make it a success. We therefore request you to fill up the E-communication Registration Form below, for registering your e-mail ID and send it:

- i) In respect of shares held in physical form, to the Registrar and Share Transfer Agent (RTA), TSR Darashaw Limited at csg-annualreports@tsrdarashaw.com, or to the Company at Corporate-Secretariat.in@siemens.com; and
- ii) In respect of shares held in demat mode, to your respective Depository Participant(s).

Please note that the E-Communication Registration Form should be signed by the sole / first named Member as per the specimen signature recorded with the RTA. Even after registering for E-communication, the Members are entitled to receive such communication in physical form, upon request. These documents will also be available on the Company's website www.siemens.co.in for your ready reference under the Investor Relations section.

Let's be part of this 'Green Initiative'.

Thanking You,
Yours faithfully,

For **Siemens Limited**
