(2) The Acquirer does not directly own any Equity Shares of the Target Company. The Acquirer indirectly owns 11,772,050 (eleven million seven hundred seventy-two thousand fifty) Equity Shares constituting 51.00% of the Voting Share Capital of the Target Company.

(3) PAC 1, PAC 2, PAC 3, PAC 4 and PAC 5 have an indirect interest in the Target Company via their direct or indirect ownership in the Acquirer, which indirectly owns 11,772,050 (eleven million seven hundred seventy-two thousand fifty) Equity Shares constituting 51.00% of the Voting Share Capital of the Target Company

(4) PAC 6 is indirectly held by PAC 1, PAC 2, PAC 4, and PAC 5.

(5) The total promoter and promoter group shareholding of the Target Company of 51.00% is bifurcated into (a) 33.20%, directly held by PAC 6; and (b) the remaining 17.80% held by Ebito Chemiebeteiligungen AG. In the course of the Underlying Transaction (defined below), the Acquirer has indirectly acquired 51.00% of the voting share capital of the Target Company, including 33.20% of the voting share capital of the Target Company held by PAC 6. The Acquirer entered into a share purchase agreement dated June 11, 2021, with PAC 2 (referred to as the "SPA"), pursuant to which the pigments business of PAC 2 has transferred to the Acquirer through a purchase of (a) all the shares in PAC 6 (and indirectly its subsidiaries), (b) all membership interests in Colorants Solutions USA, LLC, and (c) certain shareholder loans advanced by PAC 2. Concurrently with the execution of the SPA, the Acquirer, PAC 1, PAC 2, the Heubach Family (as defined below) and PAC 4 entered into a master investment agreement. As per the SPA and the master investment agreement, and as part of the Underlying Transaction (as defined below), PAC 2 acquired a 20% participation in a newly established holding company which is an indirect holding company of which PAC 1, PAC 2, PAC 4 and PAC 5 hold all the shares. In addition, the Acquirer, PAC 1, the Heubach Family and PAC 4 entered into a subscription and contribution agreement relating to the sale and transfer of the shares in PAC 3 and indirectly its subsidiaries, active in the business of the production, manufacturing and trading of corrosion protection pigments as well as organic and inorganic color pigments, hybrid pigments and pigment preparations, from the Heubach Family and PAC 4 and which is combined with the Acquirer (the above arrangements are collectively described as the "Underlying Transaction"). "Heubach Family" shall mean a collective reference to Johann Gabriel Heubach, Carlotta Benedikte Antonia Heubach, Marie Elisabeth Podda-Heubach, Kaspar Leonhard Heubach and Isabelle Franziska Sophie Prinzessin zu Leiningen.

Since the Acquirer along with PACs is entitled to exercise: (a) 51.00% of the voting share capital; and (b) control over the Target Company, the Underlying Transaction has resulted in an indirect acquisition of 11,772,050 Equity Shares constituting 51.00% of the voting share capital of the Target Company

- 8. The Acquirer and PACs and their respective directors accept full responsibility for the information contained in this Post Offer Advertisement and shall be jointly and severally responsible for the fulfillment of their obligations laid down in the SEBI (SAST) Regulations in respect of the Open Offer.

### BLACK SEA ROUTE CHOKED

# Govt exploring alternative routes for exports to CIS

**BANIKINKAR PATTANAYAK** New Delhi, March 20

WITH THE BLACK Sea route choked by the Russia-Ukraine conflict, India is weighing a raft of options - including trade through the strategically important Chabahar Port in Iran - to beat shipping snarls and export goods to the Commonwealth of Independent States (CIS). At stake are New Delhi's annual despatches of about \$4-4.5 billion to these nations.

Official and trade sources told *FE* that the government is considering two other options as well: trade by ship through China's Qingdao port and on to the CIS members from there by rail, and exports through the Georgia port.

The CIS countries include Russia, Ukraine, Azerbaijan, Armenia, Belarus, Kazakhstan, Kyrgyzstan, Moldova, Tajikistan, Turkmenistan and Uzbekistan. India's exports to the CIS countries grew 24% until January this fiscal from a year ago to about \$4 billion. Of this, Russia alone accounted for \$2.85 billion and Ukraine \$427 million.

"The Chabahar Port in Iran is probably the best option to supply to the CIS countries," said one of the sources. "If the war stretches on for a few months, supplying to the CIS members would be even harder. So, the government is considering the bestwayout of the supply nightmares," said another source.

Last year, the then shipping minister Mansukh Lal Man-

#### **SUPPLY DISRUPTION**

- Government is weighing a raft of options, including trade through the strategically important Chabahar Port in Iran, where India has been developing two terminals
- The shipment of goods to the CIS countries via Qingdao port is also being considered, the worry is that it's going to be crowded
- India's exports to the CIS countries grew 24% until January this fiscal from a year ago to about \$4 billion

daviya had said, with the development of the Chabahar Port, Indiawould trim logistics cost by a fifth in container transport to CIS countries, bypassing China or Europe. Currently, CIS countries could be reached only through China or Europe. The Chabahar port, located

in the Sistan-Balochistan province of Iran, lies outside the Persian Gulf and is easily accessed from India's western

coast, bypassing Pakistan. Chabahar is also exempt from American sanctions.

India has been developing two terminals at the Chabahar port and under an agreement signed with Iran, it would run the terminals for 10 years. "But the issue is that the development is not over, although the port has been handling some vessels," said an exporter. He, however, added that the latest

crisis is an opportunity for the government to complete the development fast.

While the shipment of goods to the CIS countries via Qingdao port is also being considered, the worry is that it's going to be crowded.

Moreover, certain European ports are already congested and any further disruptions will only exacerbate the container pileups. Exporters said European customs authorities are inspecting all goods to or from Russia transiting their ports to detect potentially-sanctioned cargo. This is aggravating a delay in the clearance of consignments.

Russian forces are report edly shutting off shipping routes following the war. Parts of the Black Sea and Sea of Azov are now considered too dangerous for ships to pass through, exporters said. Limited air capacity adds to the supply woes, as airspace over Ukraine is closed to civilian flights and airlines are avoiding the Russian airspace. Meanwhile, global crude oil prices and insurance costs have gone up sharply as well. Consequently, both shipping and air freight rates have shot up in the wake of the Ukraine crisis.

Already, the Federation of **Indian Export Organisations** (FIEO) has approached finance minister Nirmala Sitharaman to roll out a freight subsidy scheme for micro, small and medium enterprises (MSMEs), at least temporarily, to blunt the impact of the spike in shipping costs.

### Apr-Jan maize exports up 29% over last fiscal

**SANDIP DAS** New Delhi, March 20

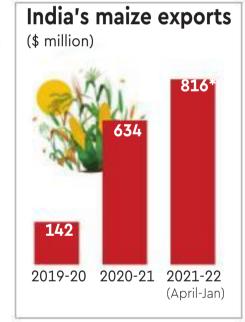

**INDIA'S EXPORTS OF cereals** are rising in an unprecedented manner. While rice and wheat exports have witnessed big jumps, exports of maize also have surged in the current year. According to commerce ministry data, the country's maize exports stood at \$816 million during April-January 2021-22, up 29% over shipments of \$634 million in the whole of last financial year.

India had exported \$148 million worth of maize in 2019-20.

Bangladesh (42%), Vietnam (30%), Nepal (16%) and Malaysia (7%) together had a share of more than 95% in the value of maize exports in the first 10 months of the current fiscal.

In volume terms, India has exported around 3 million tonne (MT) of maize in the current fiscal so far and shipments are likely to reach 3.5 MT at the end of 2021-22. India shipped 2.87 MT of maize, which is used as poultry feed as well as for human consumption in 2020-21. In 2019-20, India could export only 0.37 MT of maize. India exported a record \$

1.7 billion worth of wheat during April-January (2021-22), up 386% compared to same

period in the previous fiscal. India has been the world's largest rice exporter in the last decade – export earnings stood at a record \$8.7 billion in FY21 and could cross \$9 billion this fiscal (\$7.7 billion was netted in April-January). Maize production is esti-

mated to be at a record 32.42 MT in 2021-22 crop year (July-June), against 31.65 MT of output estimated in the previous year. Officials said that with

Ukraine being one of the biggest suppliers of maize with a share of around 13% in the global maize trade, India could boost exports in the next couple of months. The mandi prices of maize are ruling in the range of ₹1,900 to ₹2,100 per quintal against the minimum support price of ₹1.870 a quintal.

### Gap between 1st & 2nd Covishield doses may be cut by four weeks **FE BUREAU**

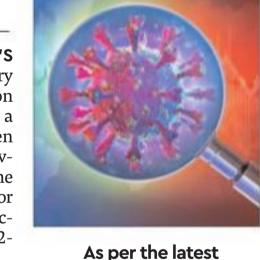

Pune, March 20

**GOVERNMENT'S** THE **NATIONAL** Technical Advisory Group on Immunisation (NTAGI) has recommended a reduction in the gap between the first and second dose of Covishield Covid-19 vaccine in the country. The dosage interval for Serum Institute of India's vaccine would be reduced from 12-16 weeks to 8-16 weeks.

This suggestion comes at a time when a second wave of Omicron has been reported globally with a surge in cases in Europe and South East Asia. Under the national Covid-19

vaccination programme, the second dose of the Covishield is currently being administered 12-16 weeks after the first dose. As per the latest recommendation, the second dose can now be administered eight weeks after the first dose. Total Covid-19 vaccination

in the country has crossed the 1.81 billion mark and Covishield accounted for 1.5 billion doses administered till date. The country has administered 971 million first doses of the vaccine, 819 million second doses and 20 million precautionary doses. States and Union territories

recommendation, the second dose can now be administered eight weeks after the first dose

have a stock of around 17 million unused vaccine doses.

The government has started the Covishield vaccination programme with a dosage interval of six to eight weeks. During the second surge of the pandemic in May 2021, this gape was increased by the government to 12-16 weeks.

Adar Poonawalla, CEO, Serum Institute of India, has also called for a reduction in the gap between the second dose and the third dose of the Covishield vaccine being administered in the country.

## Discounted Russian LNG may push up imports

**VIKAS SRIVASTAVA** Mumbai, March 20

**HIGHER SPOTLNG** prices have led to a decline in India's import of the commodity since January compared with the year-ago period. However, with the war in Ukraine and economic sanctions on Russia, the price of Russian natural gas has dropped by over \$10 per million metric British thermal unit (mmBtu) or about 29%, presenting a big opportunity for LNG importers and firms across sectors which use natural gas as feedstock or fuel.

Companies that FE spoke to see a possibility of imports from Russia going up in coming months given the competitively cheap gas available there. The Russian LNG has turned cheaper than spot rates in major hubs after US and UK banned both Russian crude oil and gas,
