Siemens to acquire 18% in India JV for €2.1 billion

Purchase price shows a discount of 15%

RAJESH KURUP Mumbai, November 15

GERMANY'S SIEMENS AG said on Wednesday it intends to enter into a share purchase agreement to acquire an 18% stake in its Indian joint venture, Siemens India, for €2.1 billion (₹18,949 crore) in cash from Siemens Energy, a group company.

Shares of Siemens closed up 2.26% at ₹3,495.35 on the BSE.

On the execution of the deal, Siemens' stake in the listed firm Siemens India would rise to 69%, from the present 51%, while that of Siemens Energy would fall to 6% from 24%.

With the acquisition, Siemens and Siemens Energy intend to accelerate the demerger of its Indian subsidiaries' business activities, it said in an exchange notice.

The purchase price reflects a customary discount of 15% on the five-trading days' volumeROLAND BUSCH, PRESIDENT AND CEO, SIEMENS AG

weighted average price before the day of signing, it said.

"Together, we shaped a solution that is in the best possible interests of all parties and accelerates the separation of Siemens and Siemens Energy in India. Besides the immediate cash inflow, we are also enabling an additional line for customer guarantees, making a strong overall contribution to the future stability and growth

of Siemens Energy," Siemens AG president and CEO Roland Busch said.

"For our shareholders, the accelerated demerger of Siemens India's energy activities will further sharpen the portfolio focus of Siemens. It also simplifies and strengthens our corporate structure in India, a fast-growing and strategically important market," he added.

Earlier in 2020, Siemens

and Siemens Energy had proposed to separate their businesses in India, which did not take place as it was not "feasible at that time".

As the next step, Siemens and Siemens Energy will propose the demerger of its energy business Siemens India's board, following which Siemens Energy will acquire a controlling stake in the demerged energy business. The demerger is expected to be completed in 2025, earlier than previously planned.

Siemens has agreed to provide indirect financial measures of 1 billion euros to allow third parties to arrange guarantees for Siemens Energy. For this, Siemens Energy would use its 5% shareholding in Siemens Indiaworth €750 million as collateral for guarantees.

If the collateral is drawn, Siemens has committed to buy up to 5% of shares in Siemens India for €750 million.

Secondly, Siemens grants payment deferrals at market conditions in the amount of €250 million, also to be used as collateral for guarantees, the company added.

Sonata Software aims to get 25% of its revenue from AI solutions in 2-3 years

SAMEER RANJAN BAKSHI Bengaluru, November 15

SONATA SOFTWARE AIMS to get 25% of its revenue from AI solutions in the next two-three years, said Anthony Lange, chief revenue and global partner officer, told *FE* in an interaction. The company seeks to leverage its investments in artificial intelligence and its responsible-first AI platform — Harmoni.AI — to achieve the target.

"Sonata has made significant investment in AI and has introduced responsible-first AI platform, Harmoni.AI, revolutionising and modernising the way our clients carry out their business operations. It is seamlessly integrated into various aspects of our customer-centric initiatives," Lange said.

Explaining the AI potential in the US, Lange added: "People are excited about the opportu-

serve,"Lange said.

He explained that opportunities are coming in two flavours. One is the implementation application of AI through Microsoft co-pilots, which sits everywhere and supporting someone's work. The second is Microsoft taking market share from its primary competitor and their aggressive approach to the market based on the inte-

gration. "So, that's really a significant driver for us," Lange said.

The company aims to double its international business to \$500 million in next three years from its current topline that is around \$240 million.

Sonata's total business currently stands around \$920 million, including both international IT services business and domestic product and services business. It has also laid out its plan to achieve a revenue of \$1.5 billion by the end of FY26.

Asked on whether the slowing US market will lead to Europe emerging as their top geographical region, Lange said, "Our biggest partner is Microsoft. Half of Microsoft's revenue is done in the US. The other half is done in the rest of the world. So, if you just look at that from a data point perspective, we are going to continue growing our business in the US."
