Gulf Oil Lubricants India Limited

Gulf Oil Lubricants India Limited: Ratings reaffirmed.

Mumbai, October 30, 2019: Gulf Oil Lubricants India Limited, a part of Hinduja Group Company, announced that ICRA has reaffirmed the long-term rating of [ICRA]AA (Positive) (pronounced ICRA double A positive) and the short-term rating of [ICRA]A1+ (pronounced ICRA A one plus) assigned to the bank limits of the Company aggregating to Rs. 492.00 crore.

Instrument	Type	Previous Rated Amount (Rs. Crore)	Current Rated Amount (Rs. Crore)	Rating Action	
Fund Based Limits	Long-Term	92.00	92.00	[ICRA]AA (Positive)	Reaffirmed
Non-Fund Based Limits	Short-Term	400.00	400.00	[ICRA]A1+	Reaffirmed
Total		492.00	492.00		

Extract from ICRA Rating Rationale:

The ratings take into account the company’s ability to maintain healthy profitability levels on the back of timely price revisions to mitigate the impact of base oil price movements as well as its improving market share in the domestic lubricants industry, driven by its strong marketing efforts, well-recognised “Gulf” brand and wide distribution network. The company is one of the fastest growing players in the domestic industry and has regularly posted higher-than-industry growth in its volume sales (25% YoY growth in FY2019). The ratings also take into account the company’s strong financial profile, characterised by healthy profitability levels and return indicators and a comfortable capital structure. Owing to the low financing requirements and healthy cash accruals being generated in the business (net cash accruals of Rs. 142.7 crore in FY2019), the company’s liquidity profile remains healthy with sizeable cash balances (which are in excess of the debt outstanding) and unutilised fund-based working capital limits. The ratings also positively factor in the strong parentage of the company, being a part of the Hinduja Group. The ratings also favourably consider the stabilisation of operations at company’s Chennai plant which was commissioned in December 2017 and formally commenced production in May 2018. The Chennai plant operated at ~60% utilisation in FY2019 and has reduced freight costs for sales in South India.
