RateGain Named Among Deloitte India Technology Fast 50 for the Sixth Time

Noida, 12 December 2024: RateGain Travel Technologies Limited, a global leader in AI-powered SaaS solutions for travel and hospitality, today announced that it has been featured on the list of the Deloitte Technology Fast 50 India 2024. This marks the sixth time RateGain has been featured on the list, which recognizes India's 50 fastest-growing technology companies.

The Deloitte India Technology Fast 50 program, launched in 2005 by Deloitte Touche Tohmatsu India LLP, evaluates companies based on revenue growth over three years. As part of a broader Asia Pacific initiative, it celebrates dynamic technology businesses across sectors, including internet, biotechnology, and hardware. RateGain's consistent presence on the list highlights its ability to deliver innovative solutions that unify distribution, optimize pricing, and leverage real-time data to empower global travel and hospitality businesses. In FY24, RateGain achieved 69.3% growth in operating revenue, reaching INR 9,570.3 million. These results underscore the company's ability to drive growth through innovation, operational excellence, and a strong focus on delivering value to its clients.

Bhanu Chopra, Founder and Managing Director of RateGain, commented, *"This recognition by Deloitte is a testament to our team's relentless pursuit of innovation and excellence. In today's dynamic landscape, our mission remains steadfast—to empower our partners with advanced Gen AI technology that drives growth, enhances efficiency, and sets new industry standards. It inspires us to keep pushing boundaries and delivering meaningful change in the global travel ecosystem."*

This honor follows other recent accolades, including Best B2B Travel Technology Provider by The Economic Times Travel & Tourism Annual Awards and a Top 10 spot in the Forbes India and DGEMS Select 200. Earlier this year, RateGain's growth was also recognized by the NYU School of Professional Studies Jonathan M. Tisch Center of Hospitality as a case study for students exploring hospitality, technology, and marketing.

About RateGain

RateGain Travel Technologies Limited is a global provider of AI-powered SaaS solutions for travel and hospitality that works with 3,200+ customers and 700+ partners in 100+ countries helping them accelerate revenue generation through acquisition, retention, and wallet share expansion.
