BOJ Loosens Tight Grip on Rates as Prices Rise

Keeps bond yield targets, allowance band unchanged

TOKYO: The Bank of Japan slowly shifted away from decades of massive monetary stimulus on Friday as inflation and economic growth picked up, allowing the country's interest rates to move more freely.

In what some analysts said could be a seismic shift for global financial markets, the BOJ made it was making its bond yield control policy more flexible and loosened its defence of a long-term interest rate cap after a two-day policy meeting.

Global markets saw the move as another small step towards Japan's coming in line with other major central banks—which have been aggressively raising rates in the past year to tackle inflation—after decades of aggressive Japanese stimulus which arguably did little to rekindle economic growth.

While the central bank kept interest rates at ultra-low levels and stressed the need to maintain support for the economy, it said the tweak to its bond yield curve control scheme (YCC) would allow it to respond "nimbly" to risks including rising price pressures in the world's third-largest economy.

However, BOJ Governor Kazu Ueda brushed aside the view that it was a step towards policy normalisation.

Most major central banks such as the U.S. Federal Reserve and the European Central Bank have been sharply hi-

Yen Swings After BOJ Policy Tweak

LONDON: The yen whipsawed in its most volatile trading session in months on Friday after the Bank of Japan made its yield curve control policy more flexible, which investors took as a step towards an eventual shift in its massive stimulus programme. Chopping and changing direction as traders digested the BOJ decision, the yen strengthened by as much as 1.2% to as much as 138.05 per dollar before weakening 1% on the day to 141.20. The Japanese currency was last at 138.97, up 0.4% against the dollar. **Reuters**

king interest rates over the past year to combat surging inflation, while the BOJ has stood pat, pressuring the yen.

BOJ policymakers have argued that a spike in inflation may be transitory, caused by external pressures such as high oil prices not strong domestic demand, though recent data have suggested domestic price pressures may be becoming more entrenched.

Ueda said the BOJ could take policy further if the likelihood of sustainably hitting the bank's 2% inflation target heightens. **Reuters**

'Second Lottery Round for H-1B Applicants to be Conducted This Yr'

Washington: A second round of random lottery selection for the much sought-after H-1B visas for fiscal 2024 will soon begin after it was determined that "additional registrations" need to be selected to reach the numerical allocations, the US federal immigration agency has announced, a decision that could benefit more Indian professionals. The US Citizenship and Immig-

ration Services (USCIS) said on Thursday that it will select the additional registrations from the previously submitted electronic registrations using a random selection process.

In March, the USCIS conducted an initial random selection of properly submitted electronic

registrations for the fiscal year (FY) 2024 H-1B cap, including for beneficiaries eligible for the advanced degree exemption.

Only those petitioners with selected registrations for FY 2024 are eligible to file H-1B cap-subject petitions. The initial filing period for those with selected registrations for FY 2024 was from April 1, 2023, through June 30, 2023. **PTI**
