Cement sector: Capacity addition the way forward

RAJESH KURUP
Mumbai, August 3

THE CEMENT SECTOR in the country is on a capacity-addition spree, banking mainly on the rise in infrastructure spend through both greenfield and brownfield expansions.

However, with nearly 25 million tonne per annum (MTPA) of stressed assets available, mergers and acquisitions could be the easy way out.

The acquisition of a 56.74% stake in Sanghi Industries (SIL) by Ambuja Cements (ACL), now part of the Adani Group, at an enterprise value of Rs 5,000 crore is just the start. Following the acquisition, Adani Cements' (Ambuja Cements and ACC) capacity will increase to 73.6 MTPA from the current 67.5 MTPA but it will not change the pecking order.

UltraTech Cement with a total capacity of 133 MTPA continues to top the chart, followed by Adani Cement (ACC & Ambuja Cements) at 67.5 MTPA. Shree Cement with 49.9 MTPA, Dalmia Cement (Bharat) with 43.7 MTPA, Nuvoco Vistas with (25 MTPA), JSW (19 MTPA) and India Cements (16 MTPA) are others in the list.

According to Adani Group chairman Gautam Adani,

CEMENT PRODUCTION CAPACITY

Million tonne per annum (MTPA)

using SIL's limestone reserves of a billion tonnes, ACL will increase cement capacity at Sanghipuram to 15 MTPA in the next two years. Further, with ongoing capacity additions of 14 MTPA and commissioning of 5.5 MTPA capacity at Dahej and Ametha, the Adani Group's capacity will be 101 MTPA by 2025.

ACL was planning increase to capacity to 140 MTPA by 2028, and with this acquisition it will be "achieved ahead of time", ACL director Karan Adani said.

India is the second-largest producer and consumer of cement after China, with a total capacity of 570 MT by the

end of FY22.

"We forecast a cement demand CAGR of 5% over FY24-26 against 3.8% over FY13-22. We expect the India cement industry to witness 8% y-y volume growth in FY24," a report by Nomura said, adding it estimates cement capacity to grow 7% over FY23-25 versus 5.6% over FY13-22.

On its part, UltraTech Cement has plans to increase installed capacity to 159 MTPA by FY25. The Aditya Birla group company plans to add 42 MTPA of capacity across the country along with grinding units and bulk terminals.

"This growth will solidify

our standing as the third-largest cement company globally, outside of China, and the unrivalled leader in India," Aditya Birla group chairman Kumar Mangalam Birla said in his address to shareholders in annual report.

"This year, we commissioned an additional 12.4 MTPA capacity of grey cement, and further inaugurated a 2.2 MTPA brownfield cement capacity at Patliputra in April 2023. Your company has already kick-started work on the next growth phase of 22.6 MTPA," he said.

Shree Cement was planning to expand capacity to 80 million tonnes by 2030 and the HM Bangur-led company will invest ₹5,500-6,000 crore across various projects.

Dalmia Cement (Bharat), Nuvoco Vistas and JSW are among others looking for capacity additions.

The industry has also seen a number of consolidations over the past decade such as Adani's acquisition of Ambuja Cements and ACC, Dalmia's buy of Jaiprakash Associates and Anjani Portland Cement's buy of majority stake in Bhavya Cements.

This could also be the way forward for Indian cement companies, an industry expert said.

Eicher Motors Q1 profit jumps 50% to ₹918 cr

SWARAJ BAGGONKAR
Mumbai, August 3

EICHER MOTORS—THE maker of trucks, buses and niche motorcycles—posted a higher-than-expected net profit for the June quarter on the back of robust growth in two-wheeler volumes.

The company posted a consolidated net profit of ₹918 crore for the reporting quarter, a growth of 50% year-on-year, beating the Bloomberg estimate of ₹848 crore.

Its revenue from operations, however, missed the estimates of ₹4,027 crore and closed at ₹3,986, a growth of 17% y-o-y. Margins also marked a growth to close at 25.6% in the reporting quarter as against 24.5% reported in the same quarter last year.

While Royal Enfield sold 225,368 motorcycles in the quarter, an increase of 21% y-o-y, VE Commercial Vehicles witnessed a growth of 12% y-o-y to 19,571 units during the same quarter.

Siddhartha Lal, managing director and CEO of Eicher Motors, said "We registered our best quarterly performance for the fourth consecutive quarter. We recorded the highest ever quarterly revenue, highest ever quarterly EBITDA and highest

Eicher Motors

Intra-day on BSE (₹), Aug 3

ever quarterly net profit."

Royal Enfield strengthened its global presence with the inauguration of its fifth CKD assembly unit outside India in Birgunj, Nepal. The commencement of operations of this exclusive assembly unit will give a significant boost to the company's business in the SAARC region, the company claimed.

Responding to queries on the twin launches by the combine of Bajaj-Triumph and Hero-Harley-Davidson in the heart of Royal Enfield's turf, Lal said it won't be easy for the competition to break into the company's market.

"We are no strangers to competition. We have had the global brands and local brands coming at us. This is a new wave with the coming together

of two brands but both as contract manufacturers. May be (they were) not able to compete (with us) directly, so both came as contract manufacturers for other brands," Lal said.

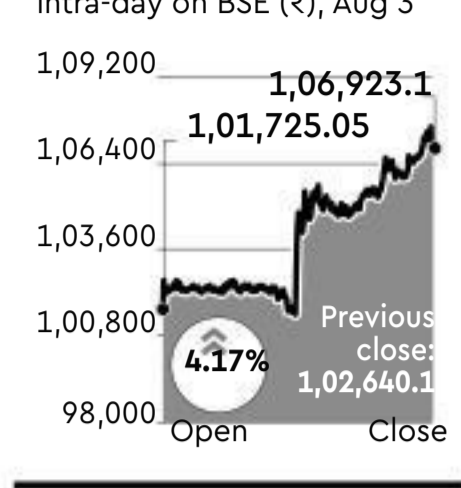

Bajaj Auto and Triumph launched a couple of 400cc motorcycles while Hero Moto-Corp and Harley-Davidson introduced a 440cc bike. Both models are the smallest for their respective brands globally and will be made by their partners in India for the local and global markets.

Royal Enfield has nearly 90% share of the segment which starts at 250cc going up to 800cc through a number of models starting at 350cc going up to 650cc. According to Lal, competitors have in the past tried to grab a piece of the burgeoning and high margin pie but failed to make a mark. Honda, Benelli, Jawa and Yezdi and also Bajaj Auto tried to create a space for themselves in this segment.

"When you have a 90% market share there is only way it can move. But even if it were to come down to 85%, we are okay with that. We don't cater to every single sub-niche segment so there is a little bit of a space for the competition to come and pick if they can," Lal added.

MRF stock at 52-week high as profit zooms 376%

UPWARD TRAJECTORY
Intra-day on BSE (₹), Aug 3

SAJAN C KUMAR
Chennai, August 3

TYRE MAJOR MRF LTD on Thursday reported consolidated net profit of ₹588.75 crore for the first quarter of FY24 as compared with ₹123.60 crore in the corresponding period last fiscal, registering a growth of 376%.

Revenue from operations was at ₹6,440.29 crore as compared to ₹5,695.93 crore, posting an increase of 13%. Taking the cue from the robust earnings, the shares of MRF hit the 52-week high of ₹1,07,500 on the BSE in Thursday's intra-day trade. MRF's board of directors has approved the re-appointment of KM Mammen as CMD of the company for a period of another five years with effect from February 8 next year.

Mammen has been on the board and management of MRF for over four decades. Since 2003, when he took over as the CMD of the company, he has been the driving force behind the growth of the company.

The board has also approved the re-appointment of Vimla Abraham as independent women director for a second term of five years commencing from February 5. Earlier, in a message to shareholders, Mammen said in FY23, the company had recorded an all-time high consolidated total income of ₹23,261 crore, which is an increase of ₹3,627 crore over the previous year.

GAIL close to finalising LNG deal with Qatar

REUTERS
New Delhi/London, Aug 3

GAIL (INDIA) LTD is close to finalising a long-term liquefied natural gas (LNG) import deal with Qatar to buy at least 1 million metric tons per year, potentially for more than 20 years, three industry sources said.

The deal would be part of GAIL's plans to lock in new supply contracts by 2030 to diversify its gas imports and hedge against supply disruptions like those seen after Russia's invasion of Ukraine last year, when LNG prices surged to a record high.

Neither state-controlled GAIL nor QatarEnergy responded to Reuters requests for comments.

GAIL, India's largest pipeline operator, will be the second local company to sign a deal with Qatar. Petronet LNG, part owned by GAIL, is also negotiating an extension to beyond 2028 of its long-term LNG deal, under which Qatar supplies 8.5 million tons per year (tpy) of LNG.

Go First can't fly lessors' aircraft as of now, says HC

PRESS TRUST OF INDIA
New Delhi, August 3

THE DELHI HIGH Court Thursday said scheduled maintenance cannot be understood to include flying of aircraft and restrained crisis-hit Go First airline to continue with maintenance flights.

The high court said the resolution professional (RP) appointed under the insolvency law to manage the airline has not been able to show any urgency or any grave imminent threat to the aircraft compelling the RP to fly them suddenly and without any prior notice.

Justice Tara Vitasta Ganju, who had on July 28 directed that status quo be maintained in respect of handling/non-revenue flights of the petitioner lessors' aircraft till August 3, extended the interim order till further orders.

The high court termed as "misconceived" the contention of the RP that two of the 10 aircraft have been flown by Go Airlines as these were handling flights forming part of the scheduled maintenance activity for an aircraft.

"The Respondent No.9/RP of Go Airlines has also not been able to show any urgency or any grave imminent threat to these aircraft to suddenly and without any prior notice, compel the respondent No.9 RP to fly these aircraft.

Prima facie, the term-scheduled maintenance--cannot be understood to include flying the aircraft even if it is a non-commercial flight. Thus, Respondent No.9/RP of Go Airlines cannot be permitted at this stage, to continue with these handling/maintenance flights," Justice Ganju said.

The interim order was passed on an application filed by SMBC Aviation Capital Limited, one of the lessors of aircraft, submitting that disregarding the earlier directions of

the court, the RP has flown two aircraft owned by the petitioners without the court's permission.

The plea said in the July 5 order, the court had passed directions that once the process of the deregistration of aircraft has begun, the planes cannot be flown.

The counsel for the RP submitted that there was urgency to enable the aircraft to be flight ready in terms of the resumption plan as approved by the DGCA on July 21 and the Directorate General of Civil Aviation (DGCA) also required the airline to undertake handling or maintenance flights satisfactorily.

In an interim order passed on July 5, the single judge had allowed the lessors to inspect their aircraft at least twice a month and carry out the maintenance work.

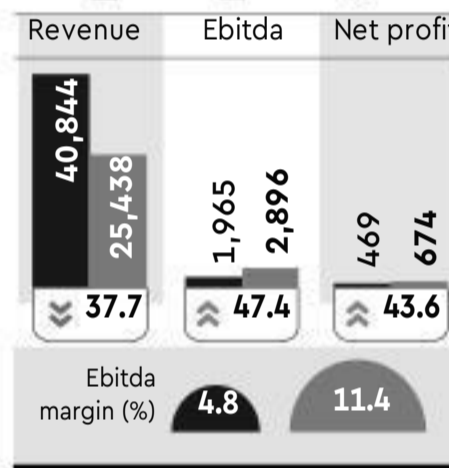

The order by the single judge was passed on petitions by several lessors seeking deregistration of their planes by aviation regulator DGCA so they could take them back from the airline. The July 5 order was challenged by the RP before the division bench which had permitted the airline to carry out maintenance of aircraft leased to it while allowing the lessors to inspect the planes periodically.

AEL profit rises 43.6% to ₹674 cr

REPORT CARD

Adani Enterprises (consolidated)

(₹ cr) Q1FY23 Q1FY24 % Chg

RAJESH KURUP
Mumbai, August 3

ADANI ENTERPRISES (AEL) has posted a 43.6% rise in consolidated net profit at ₹674 crore, led by an overall growth across sectors and new businesses. The company had posted a net profit of ₹469 crore for the same period a year ago.

The company's revenue for the quarter under review fell 37.7% to ₹25,438 crore from ₹40,844 crore, while Ebitda rose 47.4% to ₹2,896 crore.

Adani Group chairman Gautam Adani said, "These outcomes, led by our incubating business of Adani Airports, Adani New Industries, data centre and Adani Roads, not only underscore our history of creating and nurturing new and vital infrastructure businesses but also emphasise the future value and growth potential."

Sun Pharma net falls by 2%

SUN PHARMACEUTICAL Industries on Thursday reported a 2% decline in its consolidated net profit at ₹2,022 crore for the first quarter ended June 30, 2023.

The drug major had reported a net profit of ₹2,061 crore in the April-June period a year ago.

The company said its adjusted net profit (excluding the exceptional items) for the June quarter stood at ₹2,345 crore, up 14%

over the same period last year.

Total income rose to ₹12,145 crore in the first quarter as against ₹10,764 crore in the year-ago period, Sun Pharma said in a regulatory filing.

"All our businesses continued to have growth this quarter and we are well positioned to meet our growth guidance for FY24," Sun Pharma Managing Director Dilip Shanghvi said. —PTI

Dabur Q1 net rises 5%, revenue grows 11%

VIVEAT SUSAN PINTO
Mumbai, August 3

CONSUMER GOODS MAJOR Dabur India on Thursday reported a 5.4% year-on-year rise in June quarter profit to ₹464 crore as easing inflation helped demand, especially in rural areas. Net profit was in line with Bloomberg consensus estimates which had pegged bottomline for the period at ₹462 crore.

Dabur's rural growth, it said, saw a bounceback to high single digits after nearly three quarters, but it continues to lag urban demand. The company's revenue in April-June rose nearly 11% year-on-year to ₹3,130 crore, led largely by growth in its con-

REPORT CARD

(₹ cr) Q1FY23 Q1FY24

sumer care business which includes products such as hair oil and toothpaste. Topline compares favourably

with Bloomberg's consensus estimates of ₹3,119 crore for the period.

Earnings before interest tax depreciation and amortisation (Ebitda) grew nearly 11.2% versus last year to ₹605 crore.

"We continue to see strong consumer engagement with our brands, helping them grow significantly ahead of the market and report share gains across 90% of the portfolio," Mohit Malhotra, chief executive officer, Dabur India, said.

The company's international business saw a growth of 20.6% in constant currency terms, with Turkey, Egypt, Sub-Saharan Africa and MENA regions growing 51.2%, 45.7%, 13% and 10.2% each versus last year.
