**Commenting on the results, Mr. C.S. Nopany, Chairperson, Magadh Sugar & Energy Ltd said:**

*“The sugar season 2019-20 is expected to have a much lower quantum of sugar produced - the latest estimates being 26 million tonnes. Primarily, lower output from Maharashtra, Karnataka and Tamil Nadu has contributed to the reduction in the glut and a welcome diversion of sugarcane into the production of ethanol from B – Heavy molasses. These have resulted in prices remaining stable as the surplus inventory is being exported due to a proactive and pragmatic policy of the Central Government.”*
