Ramco Systems announces the launch of Aviation Suite V5.9.6

Ground-breaking product release aimed at driving efficiency through improved usability and enhanced digital capabilities

Chennai, INDIA – July 24, 2023 – Ramco Systems, a leading enterprise aviation software provider, announced the release of version 5.9.6 of its Aviation Suite - a game-changing product release designed to improve usability and enhance efficiency for MROs and Operators. With major enhancements across various business models, this release delivers one of the most comprehensive toolsets aimed at driving digital transformation for Aviation Enterprises.

Ramco Aviation Suite V5.9.6 offers customers unparalleled benefits, including the ability to realize true paperless maintenance operations with the enhanced content management module – ePublications, which is seamlessly integrated with Ramco's full-function and native mobile "Anywhere" apps. The solution simplifies complex assembly maintenance with comprehensive improvements in work planning, execution, and closure functions, enabling the complete management of complex assembly maintenance processes within the system. Enhancements in the solution's Material Requirement Planning (MRP) and Work Order Scheduling modules will enable organizations to optimize their existing labor, capacity and material resources. On the MRO Sales front, the solution enables customers to model over 150 variants of contracts across various MRO business segments. Ramco's Customer Portal will serve as a centralized location for customers to access information, perform approvals, raise service requests, communicate with the MRO and much more. Thus, helping them improve customer satisfaction, streamline operations, and increase revenue.

Ramco Aviation Suite V5.9.6 focuses on five key pillars, namely:

- **Digitization of OEM** technical data footprint
- Enhanced **Enterprise system capabilities** to on-board and support micro technical functions of a business process besides digitizing complex functions and sub-processes
- **Process automation**, system driven process optimization & decision support
- Expanding **system accessibility** at real-time usage levels through usability focus and multi-modal system delivery options
- **Process governance** with key regulatory and contractual compliance, and internal controls, burnt in

Manoj Kumar Singh, Chief Customer Officer – Aviation, Aerospace & Defense, Ramco Systems, said, "We are thrilled to introduce the latest version of Ramco Aviation Suite, which further solidifies our presence in the industry as one of the true enterprise applications. It's a significant milestone in our commitment to helping companies in the industry digitally transform their business. With its powerful new features and comprehensive toolset, Ramco Aviation Suite empowers organizations to drive efficiency and growth, thereby enabling them to stay ahead in today's competitive landscape. We are excited to witness the positive impact Ramco Aviation Suite will have on businesses, as they leverage its capabilities to unlock their true potential."

Ramco Aviation Suite is trusted by 24,000+ users to manage 4,000+ aircraft globally. With 90+ Aviation organizations onboard, Ramco is the solution of choice for top Airlines, 3rd party MROs, large Heli-Operators, leading Defense organizations, and major Urban Air Mobility companies around the world. Available on cloud, Ramco Aviation Suite provides accessibility with 'Anywhere Apps', significantly accelerating organizational efficiency and agility. Ramco is changing the paradigm of enterprise software with Artificial Intelligence based solutions, intelligent voice enabled user experience, and advanced features such as digital task cards, offline maintenance capability, conversational chatbots, HUBs and cognitive solutions.

About Ramco Systems:
Ramco is a next-gen enterprise software player disrupting the market with its multi-tenant cloud and mobile-based enterprise software in HR and Global Payroll, ERP and M&E MRO for Aviation. Part of the USD 1 billion Ramco Group, Ramco Systems

focuses on Innovation and Culture to differentiate itself in the marketplace. On the Innovation front, Ramco has been focusing on moving towards Active ERP leveraging Artificial Intelligence and Machine Learning by building features such as Talk It - which allows transactions to be carried out by simple voice commands, Bot it – which allows users to complete transactions using natural conversations; Mail It – transact with the application by just sending an email; HUB It - a one screen does it all concept built to address all activities of a user; Thumb It – mobility where the system presents users with option to choose rather than type values and Prompt It – a cognitive ability which will let the system complete the transaction and prompts the user for approval.

With 1800+ employees spread across 30 offices, globally, Ramco follows a flat and open culture where employees are encouraged to share knowledge and grow. No Hierarchies, Cabin-less Offices, Respect work and not titles, among others are what makes the team say, Thank God it's Monday!
