About the Cover

This cover 'Committed to Grow Responsibly', represents a micro view of a standalone entity that acts and will aggregate and circle up to the overarching goal of 'Being Responsive and Being Responsible' of the Group theme. The visual is of a pair of experienced hands, that have seen the test of time and understands the nuances of sowing the seeds with utmost care to reap its benefits later, a man planting a tree and being responsible for its growth is symbolic of its role as one of the most diversified and leading NBFCs in the Indian market and yet undeterred to charter newer territories for future organic growth but in a thought through manner and not abruptly.

Preface

The Securities and Exchange Board of India (SEBI), from FY2023, has mandated India's top 1,000 listed entities based on market capitalisation on BSE Ltd. and National Stock Exchange of India Ltd. (NSE Ltd.), to submit a Business Responsibility and Sustainability Report (BRSR/ Report) effective from 1 April 2022. This report is required to be in line with the 'National Guidelines on Responsible Business Conduct' (NGRBCs) released by the Ministry of Corporate Affairs (MCA) in 2019.

Bajaj Finance Limited ('BFL', 'Bajaj Finance', 'the Company') presents its BRSR for FY2022 (earlier known as 'Business Responsibility Report') in line with the NGRBCs and BRSR requirements under SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the "SEBI Listing Regulations"). BFL has early adopted the same on a voluntary basis from FY2022. This BRSR primarily provides information about the key initiatives undertaken by the Company, driven by the triple bottom line attributes viz. environmental, social and economic.

This BRSR also narrates initiatives undertaken by BFL towards environment, social and governance ('ESG') aspects. Additionally, initiatives and actions taken by its subsidiaries towards ESG objectives have also been provided throughout the Report wherever relevant. Further, certain other initiatives that are covered in the annual reports of the Company and its subsidiaries for FY2022 (available on Company's website - <https://www.bajajfinserv.in/finance-investor-relation-annual-reports>) have not necessarily been repeated here.

This report outlines the approach adopted by BFL and its subsidiaries ('BFL Group') towards

- Creating an employee-friendly workplace,
- Creating positive environmental and social outcomes through its business operations, conducted in a responsible, ethical and inclusive manner and
- Its commitment for enhancing customer experience.

Message from the Chairman and the Managing Director

In today's ever-changing world, ESG is a gateway to new frontiers of transformation. The transition from individual to community has prompted businesses to reconsider their business strategies, and the core of these strategies revolve around innovation, awareness, and sustainable processes. Hence, ESG has become the foundation of our sustainable and long-term growth charter.

Guided by the philanthropic spirit of Shri Jamnalalji Bajaj, our Group's founding father, and strengthened by the legacy of our Chairman Emeritus, Late Rahul Bajaj, this all-encompassing new value system has motivated us to

enhance the legacy of inclusive growth. We have mapped our business responsibility strategy towards the realisation of this vision, that inspires us to grow responsibly and commit towards effectively implementing our ESG goals.

We have embarked on a journey where the nation's sustainable development and its people's comprehensive growth is a big part of our responsibility framework. We remain committed to positively impacting the lives of our consumers and the community at large. As an organisation, we have been leveraging the boon of digital technologies to simplify and deliver easily accessible, affordable and

comprehensive financial services solutions to all segments of society. And, we continue to focus on balancing our goals of sustainable profitability and long-term value creation with our overarching commitment to responsible growth, as an organisation and as a responsible corporate citizen.

As a company, our constant endeavour is to identify and invest in areas that will help deliver a sustainable future for our consumers and the society at large. For instance, first-time borrowers and women borrowers is one such area that leads to inclusive development of the society and brings forth newer growth opportunities for the nation.

We remain committed to simplify financial services for all our consumers by bridging the gap between their emerging financial needs and making financial services available through our various omni-channel options. This also aligns with our vision of becoming an omnipresent financial services company.

In FY2022, we took big, bold steps to enhance our customer experience by forming teams to analyse root cause of customer concerns and create solutions to solve their problems. As a proactive measure, we constituted a Customer Service Committee of the Board with a view to enhance customer experience, engagement, and monitoring of service processes.

We understand the critical need of driving consumer awareness programmes to help them better understand financial products and services, and not be exposed to any kind of vulnerability, online or offline. Our 'Savdhaan Rahein. Safe Rahein.' campaign which started off as a proactive and preventive digital initiative in FY2021 has grown by leaps and bounds to spread awareness on various vulnerabilities which consumers may be exposed to.

We also understand the growing expectations of our consumers to access financial services in a personalised, intuitive and frictionless manner. We are deeply committed to make financial services easier and accessible for all our consumers, anytime anywhere. This aptly ties into our broader strategy of becoming an omnipresent financial services company to engage, transact and be serviced anytime, anywhere, across channels in a frictionless manner.

Our rural financial services initiative, which aims to bring the country's unbanked and under banked segments into the fold of organised financial services is well aligned to our focus of financial inclusion for all. To enhance local capabilities and create a virtuous economic cycle in

small towns and villages of India, we helped generate employment opportunities across the length and breadth of the country in FY2022. Towards that, even in a COVID-19 year, we added 516 new locations and increased our employee strength from 28,546 to 35,425.

We are focused on providing equal opportunities for the learning and development needs of all our employees in a non-discriminatory manner, and remain committed to conducting our business with the highest standards of integrity, going beyond the regulatory and legal necessities, and yet delivering sustainable and long-term value for all our stakeholders.

We, as an organisation, are more resolute than ever, to embed our ESG priorities into the DNA of our core operations across people, practices and processes because real sustainability for us lies in staying committed to responsible growth for all, for now and tomorrow.

Details of Our ESG Initiatives

Corporate Governance

Ensuring Responsible Growth through Robust Corporate Governance

At BFL, we believe integrity and ethical behaviour to be at the heart of a successful business. We have built the foundations of the organisation on these timeless principles. As a part of the Bajaj Group, whose roots go back to India's freedom struggle, we are imbued with its philosophy. The Bajaj Group's commitment to the highest standards of corporate governance practices predates the provisions of the SEBI Listing Regulations and Clause 49 of the erstwhile Listing Agreement.

We strive to combine the Bajaj Group’s historical values with modern best-in-class business practices. Led by the Bajaj Group’s ethos, BFL is imbued with the values of ethics, transparency, accountability and responsible business conduct. We committedly practice these values in our day-to-day operations. We strive proactively to adopt the highest standards of corporate governance, while adhering to all regulatory guidelines with transparent disclosures about our performance and business.

Pursuing a Philosophy Rooted in Ethics:

- ◆ A key driver of our corporate governance philosophy is our focus on ethics. Our Board approved “Code of Ethics and Personal Conduct” (CoEPC) encompasses a good working culture and integrity norms. It includes ‘disciplinary action policy’ and ‘whistle blower policy’, enabling its directors, employees, business/vendor partners, their employees or any other person including contractors, sub-contractors, consultants and any other third party to escalate grievances of any nature, including harassment, fraud, unethical behaviour and process/policy violation to the designated personnel in the Company and its subsidiaries.
- ◆ To ensure continuous monitoring of such ethical behaviour, we have constituted a ‘Disciplinary Action Committee’ (DAC), which reports substantial incidents to the Managing Director (MD) periodically. Among the important tenets of our CoEPC, are our unwavering commitment to health, safety and environment, along with focus on elimination of waste and conservation of resources, with zero tolerance towards non-compliance.
- ◆ For adherence to ethical norms and behaviour by the top leadership, we have a separate Code of Conduct (CoC) for Directors and Senior Management. The CoC provides that ‘Directors and Senior Management

shall observe the highest standards of ethical conduct and integrity and shall work to the best of their ability and judgement’. A declaration from the Directors, and the Senior Management’s affirmation to the said CoC, is communicated to all stakeholders by the MD, through the Annual Report.

- ◆ BFL and its subsidiaries have zero tolerance towards unethical business practices. We ensure strict compliance of CoEPC with respect to anti-bribery, conflict of interest, protecting assets and information of the Company including customer information and necessary policies with respect to human rights, prevention of insider trading, prevention of money laundering, prevention of sexual harassment at workplace, and related-party transactions.
- ◆ We ensure complete adherence to the Code of Practices and Procedures for Fair Disclosure of Unpublished Price Sensitive Information (UPS) at BFL and at our subsidiaries. Pursuant to SEBI (Prohibition of Insider Trading) Regulations, 2015, as amended, the CoC for regulation of trades by designated persons covers all concerned employees of BFL, its parent company, subsidiaries and other group companies. It protects an employee against victimisation in cases where insider trading is reported by him/her. Periodic review and updation of the policies is done, as required. The Board takes non-compliance seriously and initiates action commensurate with proven violations.
- ◆ In compliance with the provisions of the SEBI Listing Regulations, the Board through its Nomination and Remuneration Committee (NRC) has devised a policy on Board Diversity. The board comprises of adequate number of members with diverse experience and skills, such that it best serves the governance and strategic needs of the Company. The

“ We strive to combine the Bajaj Group’s historical values with modern best-in-class business practices. ”

present composition broadly meets this objective. The directors are persons of eminence in areas such as profession, business, industry, finance, law, administration, research, banking, etc. and bring with them experience/skills which add value to the performance of the Board. The directors are selected purely based on merit with no discrimination on race, colour, religion, gender, or nationality. Core skills/expertise/competencies of the Board is available on the website of the Company at <https://www.bajajfinserv.in/finance-board-of-directors>.

The Company, through its Parent Company i.e. Bajaj Finserv Limited (BFS), has signed charters of Confederation of Indian Industry (‘CII’):

- i. Model code of conduct for ethical business practices,
- ii. Charter on fair and responsible workplace guidelines for collaborative employee relations, and
- iii. Charter on fair and responsible workplace guidelines for contract labour.

- ◆ During FY2022, all employee complaints linked to CoEPC (earlier CoC) adherence were suitably resolved, except for 4 complaints pending as on 31 March 2022, however these complaints have been suitably resolved subsequently.

Imbued with a Culture of Transparency

- ◆ At BFL Group, adherence to transparency and fairness in dealings with customers is maintained in letter as well as

in spirit. We ensure that none of our products withhold any relevant information needed by the customers to make informed choices. Information relating to products is disclosed as per the regulatory requirements, and the same is available on the website of BFL and its subsidiaries at bajajfinserv.in.

- ◆ With our focus on transparency, we pursue a transparent and detailed communication protocol with stakeholders. This, amongst others, includes investor presentations, quarterly and event-based update to stakeholders, publishing of earnings call transcripts, prompt dissemination of price sensitive information.
- ◆ We are focused on ensuring symmetry of information in line with the principles of fair and uniform disclosures. After each quarter, we voluntarily provide provisional key financial metrics pertaining to that quarter to the stock exchanges within seven days.
- ◆ The senior management at BFL conducts open townhall sessions, called 'Confluence', as forums to engage with all employees on a quarterly basis. Through these sessions, the management shares with the employees the financial performance of the Company, updates on business, as well as new initiatives undertaken in HR, operations, and technology, among other things. Employees are also encouraged to make suggestions, raise concerns, and seek direct response from the senior management on any queries/concerns.

Upholding the Spirit of Accountability

- ◆ With 'Accountable Empowerment' a core principle at BFL and its subsidiaries, we nurture a strong belief that empowerment and accountability go hand-in-hand.

- ◆ BFL and its subsidiaries are managed professionally by competent and qualified professionals, while being proficiently overseen by their respective Boards of Directors.
- ◆ We benchmark the remuneration of senior management with appropriate peer groups, and remunerate them through a mix of fixed pay, annual variable payout and long-term incentive in the form of stock options.
- ◆ All practices at BFL Group reflect an endeavour to maintain high standards of governance, which in certain cases extends beyond legal requirements. Examples of such endeavour include:
 - We have voluntarily constituted a CSCB, in line with the requirements applicable to banks, to strengthen the customer experience, engagement and monitoring process.
 - We hold more Board meetings than the minimum of four required by law.
 - We have panel of independent directors with outstanding track record and reputation.
 - We conduct bi-annual meetings between Independent Directors and senior management.

 - Half-yearly letter from the Chairman to all shareholders of the Company giving an update on the Company's performance.
 - The senior management team of the Company and its subsidiaries make presentation to familiarise the directors with key elements of each of the businesses.
 - Complete and detailed information provided to Board members in advance to enable them to review all matters carefully for meaningful discussions.

“ A key driver of our corporate governance philosophy is our focus on ethics. Our Board approved (CoEPC) encompasses a good working culture and integrity norms. ”

- The framework of succession planning for appointment of Board and management is placed before the Board for its review.
- Board of BFL comprises of more independent directors than required under the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.
- Chairman of the Audit Committee conducts quarterly pre-audit meeting with members of the Senior Management, and internal as well as statutory auditors, to review the financial performance and observations of auditors.
- Risk management policy of the Company includes sustainability (particularly, ESG related risks) assessment and risk minimisation procedures.
- A meeting of the Risk Management Committee is scheduled along with each Board meeting, and all directors participate in this meeting; the scope of risk management includes credit risk, operations risk, debt management services, investment risk, financial risk, technology risk, ESG risk, and legal and compliance risk.
- We follow a confidential Board evaluation process, where each Board member evaluates the performance of every Director, Committees of the Board, the Chairman of the Board as well as the Board.
- BFL has constituted an executive ESG committee led by Deputy CEO, and consisting of heads of finance, tax, legal, compliance, operations, information technology, risk, human

resource, secretarial functions, and a senior representative of the parent company, for implementing and monitoring ESG related aspects.

- Two meetings of ESG committee members were held during the year and a presentation to Board of directors of group companies was made on overall ESG strategy.
- BFL has implemented the Internal Ombudsman (IO) scheme within the organisation to deal with customer concerns and complaints. More recently, RBI introduced the Internal Ombudsman scheme extended to NBFCs on a selective basis in which the IO at the apex of the NBFC's shall independently review the resolution provided by the NBFC in the case of wholly or partially rejected complaints. BFL has appointed two IOs, who will independently review the resolution provided by the Company in the case of wholly or partially rejected complaints.
- On an ongoing basis, the Company through its familiarisation programme, endeavors to keep the Board including independent directors abreast with matters relating to the industry in which Company operates, its business model, risk metrics, its mitigation and management, governing regulations, information technology including cyber security, their roles, rights and responsibilities and major developments and updates on the Company and group, etc.

Full details of the Company's Corporate Governance practices and procedures are presented separately in the Corporate Governance section of the Annual Report.

Other Governance Practices

Internal Controls

- ◆ We have set up a robust internal controls system across all process, units and functions which are driven by various well-formulated procedures and policies that are reviewed and tested periodically. Our risk and credit teams have in-built

processes to identify and measure the existing and probable risks, and to mitigate the identified risks. Our various committees, including Risk Management Committee and the Asset and Liability Committee, review and oversee critical aspects of the Company's operations. The committees have members from various functions.

- ◆ Our internal controls mechanism consists of three lines of defence:
 - a. First Line of Defence - Internal Operation Management and Management Control.
 - b. Second Line of Defence - Risk and Compliance function; and
 - c. Third Line of Defence - Internal Audit function.

Risk Management

- ◆ We believe that the primary role of risk management is to protect customers, business, human capital, shareholders, and the communities that it serves, while ensuring support towards strategy and paving the path for sustainable growth.
- ◆ We use a comprehensive risk management framework across the organisation and across all risks. This outlines the key principles, policies, and practices for managing material risks, both financial and non-financial. The framework fosters continual monitoring, promotes risk awareness, and encourages sound operational and strategic decision making. It also ensures a consistent approach to identifying, assessing, managing, and reporting the risks we accept and incur in our activities.
- ◆ At the highest level, the Board of Directors have established a Risk Management Committee (RMC), which assists the Board in maintaining oversight and implementation of the Risk Management policy. The Risk Management Policy outlines the programme implemented by the Company to ensure appropriate risk management within its systems and culture. This is enabled by

robust risk measurement and review mechanisms, which include monthly reviews at senior management level and quarterly reviews at a higher level. The RMC met six times in FY2022.

Debt Management

- ◆ BFL actively focuses on a debt management strategy to ensure that its delinquent debt portfolio is kept at minimal levels. It accords debt management an important place in its portfolio management strategy; BFL continues to invest in its debt management service structure, service organisation, processes, training of employees and agencies, with strict adherence of compliance requirements and controllership by leveraging technology to follow a non-intrusive collection mechanism. We follow a strong governance model for debt management services' practices and ensure strict adherence to the regulatory and internal policies, code of conduct and fair practice code.
- ◆ In an endeavour to follow non-intrusive debt management practice, BFL collects an electronic clearing mandate from its customers. In case of dishonour of bank instrument, BFL provides customers with over 22 different payment options, such as NEFT, RTGS, Bharat Bill Payment Service (BBPS), Unified Payment Interface (UPI), CC Avenue, Wallets, Google Pay, Payment Banks etc. These digital channels, along with branch walk-ins, account for approximately 51% of our collections volume.

“Two meetings of ESG committee members were held during the year and a presentation to Board of directors of group companies was made on overall ESG strategy.”

Steering Sustainable Growth through Prudent Business Conduct

- ◆ The focus at Bajaj Group is on building long-term businesses, while ensuring sustainable growth and returns for its stakeholders. Aligning themselves to this approach, BFL and its subsidiaries have also made adoption and pursuance of high standards of governance, along with adoption of prudent business practices central to their value proposition. They believe such practices to be vital to ensuring that businesses are not exposed to undue risks.
- ◆ Drawing from its experience of FY2021 and the fact that lockdowns were curtailed in FY2022, the Company and its subsidiaries remained open for business with a nuanced strategy on acquisition and underwriting across all its businesses throughout the year.

◆ As a result, BFL recorded a 29% growth in AUM (core AUM growth is 26%) and 59% growth in profit after tax on a consolidated basis in FY2022 as against a 4% growth in AUM and 16% degrowth in profit after tax in FY2021. Return on average assets (ROAA) and return on average equity (ROAE) for FY2022 was 4.2% and 17.4% respectively on a consolidated basis. This performance was despite the continued disruption in business and debt management services in the first half of the year, elevated level of credit costs and higher liquidity buffers.

Some of the prudent business practices we follow include:

- ◆ BFL and its subsidiaries not just fulfil but often exceed the applicable norms and standards laid down by the financial regulator relating to the recognition and provisioning of non-performing assets, capital adequacy, statutory liquidity ratio, liquidity coverage ratio, etc. The table

below outlines BFL’s and BHFL’s prudent practices, detailing their performance ratios compared to the minimum requirements of the RBI:

“Our internal controls mechanism consists of three lines of defence:

- First Line of Defence – Internal Operation Management and Management Control.
- Second Line of Defence – Risk and Compliance function; and
- Third Line of Defence – Internal Audit function.”

#SAVEEARTH

#STOPPOLLUTION

Let us all come together to take the pledge to try and live a sustainable life. This planet will provide for everyone's needs but not everyone's greed. Climate change is real and the time to act is NOW!

BFL, being a NBFC, neither has a sizeable consumption of any raw material nor produces any tangible goods. Its activities are limited to providing financial solutions to serve the needs of the people. BFL Group nurtures a culture of conservation that emphasises meticulous monitoring of consumption of resources and encourages innovations that aid in reducing the dependence on natural resources.

BFL has Embarked Upon Four Major Areas in its Environment Awareness and Conservation:

- 1 Environment protection and Sustainability Awareness Campaigns
- 2 Products that preserve and protect the environment
3. Reducing paper consumption; and
- 4 Eco-friendly Practices.

These initiatives are detailed below:

1. Environment Protection and Sustainability Awareness Campaigns:

We believe that in order to achieve desired results, sustainable practices are a collective effort of the mankind and cannot be achieved by an individual or an organisation. Keeping this virtue in mind, we initiated awareness campaigns on sustainable practices for our employees and for the world at large leveraging our social media presence. Various creatives were used to promote the message of **#SaveEarth, #SaveWater, #SaveElectricity, #SaveTrees, #StopPollution, #ReducePlastics, etc.** under the campaign- **#LiveSustainably** across the Company through use of social media, internal employee device screen savers, displays across office spaces, etc. The campaign also promoted the members to take a pledge at the end for the above agenda messages.

“Through various such initiatives, BFL Group in the last three years, reduced consumption by approximately 900 million sheets of paper, saving approximately 1 lakh of trees.”

2. Products that Preserve and Protect the Environment:

Another important way of supporting the environment is providing financial offerings to our customers that assist in preservation and protection of environment. A few to mention include:

- ◆ Financing solar power generation facilities

to bring in environmental and social friendly practices in its system. In its commercial lending business, the Company commits not to extend funding to polluting industries unless the units have a valid clearance from pollution control authorities and have installed effluent treatment plants.

- ◆ BFL offers financing for e-Scooters, this enables customers to access environmentally friendly modes of transport. During the last

3 years, BFL financed more than 1,500 e-Scooters and disbursed approximately ₹ 15 crore.

It has been an endeavor of BFL Group over last many years to keep reducing paper consumption across all its business operations. BFL Group has been increasingly focused on integrating digital applications across all aspects of its business operations which not

only helps to improve efficiency, lower cost and enhance customer experience, but also aids in environmental protection by reducing paper consumption.

INDEPENDENT GREENHOUSE GAS VERIFICATION STATEMENT

Introduction

DNV Business Assurance India Private Limited ('DNV') has been commissioned by the management of Bajaj Finance Limited ('the Company' or 'Bajaj Finance Limited', Corporate Identification Number: L65910MH1987PLC042961) to carry out an independent verification of Bajaj Finance Limited's Scope 1, Scope 2 and Scope 3 Greenhouse Gas Emissions (the 'GHG Emissions') data in spreadsheets and for its two (2) subsidiaries for the period 1st April 2020 – 31st March 2021 and 1st April 2021 – 31st March 2022. This verification has been carried out as part of the overall work of assurance of Bajaj Finance Limited's Business Responsibility and Sustainability Reporting for FY 2021-22 and other disclosures as applicable.

The Company has prepared its GHG emissions based on the requirements set out in Greenhouse Gas Protocol – A Corporate Accounting and Reporting Standard (Revised edition) published by World Business Council for Sustainable Development (WBCSD) and World Resources Institute (WRI) to calculate its GHG emissions and reported in the Business Responsibility and Sustainability Reporting as mandated under the SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015. The verification provides a limited level of customized engagement as per DNV's VeriSustain™1 protocol, which is based on our professional experience, international assurance best practice including International Standard on Assurance Engagements 3000 (ISAE 3000) Revised* for Defining Report Content and Quality. This verification applies a ±5% uncertainty threshold towards errors and omissions.

Bajaj Finance Limited is responsible for the collection, analysis, aggregation, preparation (conversion factors, assumptions, methodology, calculations) and presentation of GHG Emissions as part of its sustainability disclosures. Our responsibility of performing this work is to the management of Company and in accordance with terms of reference agreed with the Company. The verification engagement is based on the assumption that the data provided to us is complete, sufficient, true and free from material misstatements. DNV disclaims any liability or co-responsibility for any decision a person or entity would make based on this verification statement. The verification was carried out from March 2022 to May 2022 by a team of qualified sustainability and GHG assessors.

Scope, Boundary and Limitations of Verification

The scope of work agreed upon with Company includes verification of its GHG emissions as below:

- Scope 1 emissions arising from stationary and mobile combustion of fossil fuels – Diesel and Petrol. Fugitive emissions from the leakage of refrigerants
- Scope 2 emissions arising from consumption of purchased electricity from the grid.
- Scope 3 emissions arising from employee commute, business travel (air, train and road), shared diesel generators, freight goods and hotel stay.

The operational boundary selected for reporting and the consolidation approach is based on operational control criterion adopted by Bajaj Finance Limited and includes the following two subsidiaries in India:

- Bajaj Housing Finance Limited
- Bajaj Financial Securities Limited

We did not come across any limitations to the agreed scope of work except the use of default values to calculate GHG emissions.

Verification Methodology

The verification was conducted by DNV in accordance with the requirements as set out in VeriSustain for a limited level of verification while adopting a risk-based approach and selection of samples. We carried out the following activities:

- Desk review of the Company's emissions data for FY 2020-21 and FY 2021-22 provided in spreadsheets.
- Review of activity data and related evidence maintained in corresponding dashboard systems.
- Interaction with key managers and data owners to review data consolidation systems of the Company and sampled operational sites including reviews of emission factors and assumptions used for calculations.
- Remote verification of activity data and sample evidence related to the sampled offices of Bajaj Finance Limited (Consumer finance & Auto finance)
- Review of the consolidated GHG emissions data in order to calculate the total emission of Bajaj Finance Limited and its subsidiaries with the corresponding environment and sustainability teams.

Due to the outbreak of the COVID-19 pandemic and related travel restrictions, we carried out remote assessments following DNV's remote audit methodology, as one-to-one discussions and onsite location audits were not feasible.

Conclusion

On the basis of our verification methodology and scope of work agreed upon, nothing has come to our attention to believe that the GHG data (absolute emissions) as below are not a correct representation of Bajaj Finance Limited's and its subsidiaries GHG emissions profile during FY 2020-21 and FY 2021-2022:
