TCS Selected as JLR's Transformation Partner to Build Future-Ready Digital Services for their Clients

Tata Consultancy Services will Help the Luxury Carmaker Accelerate the Modernisation of its IT Estate and Build a New Technology Architecture that will Support its 'Reimagine' Strategy

LONDON | MUMBAI, September 6, 2023: Tata Consultancy Services (TCS) (BSE: 532540, NSE: TCS) announced that it has entered into a strategic partnership with the Digital unit of JLR to transform, simplify, and help manage its Digital estate, and build a new future-ready, strategic technology architecture that will support the latter's *Reimagine* strategy.

TCS has had a longstanding relationship with JLR Digital, spanning over a decade, helping the luxury automaker optimise as well as pursue its growth and innovation agenda. The new partnership, valued at £800 million over the next five years, builds on this relationship, expanding and deepening it further.

TCS will leverage its contextual knowledge, deep domain expertise, proprietary platforms, vast partner ecosystem and future-ready talent pool to help JLR enhance its digital capacity; transform, simplify, and manage its Digital estate; and build a new, future-ready digital core that will support its business transformation.

As a part of the new partnership, TCS will deliver a broad range of services spanning application development & maintenance, enterprise infrastructure management, cloud migration, cybersecurity and data services.

By leveraging new technologies to transform core IT operations and adopting new ways of working, TCS will enable a leaner, more agile and scalable operating model. Through synergies and economies of scale with suppliers, this partnership will deliver substantial savings for JLR over the next five years, unlocking free cash flow to reinvest into the future.

Outside of the new contract, TCS is partnering with JLR to help accelerate its vision of modern luxury client experience tailored to different markets globally.

"We are pleased to be selected by JLR as their strategic partner to help manage and transform their Digital estate and build a new, future-ready digital core that will support their Reimagine strategy and electrification plans. This is a truly bi-modal partnership where the efficiencies from leaner operations will help fund the new digital core, while our contextual knowledge and expertise will de-risk and accelerate that transformation," said **Anupam Singhal, Business Group Head - Manufacturing, TCS.**

Nigel Blenkinsop, Executive Director, Enterprise Performance & Quality, JLR said: *"Building world class partnerships and maximising the benefits of being part of the Tata Group is a key part of our Reimagine strategy. Consistent with this, we are pleased to expand our long-term relationship with TCS to accelerate our digital transformation. Their breadth of capabilities and deep understanding of our business will further enhance our ability to transform and simplify our Digital estate at pace, ensuring we can deliver a modern luxury experience for our clients."*

TCS has operated in the UK for more than 45 years and works with over 200 of the nation's best-known and most-loved businesses. TCS is the leading supplier of software and IT services to the UK market, by revenue. It currently employs more than 23,000 people in the UK and Ireland, making it among the region's biggest IT employers. TCS has been ranked the number one IT service provider for customer satisfaction in the UK in an independent survey of CIOs from the largest IT spending organizations in the country.

About Tata Consultancy Services

Tata Consultancy Services is an IT services, consulting and business solutions organization that has been partnering with many of the world's largest businesses in their transformation journeys for over 55 years. Its consulting-led, cognitive powered, portfolio of business, technology and engineering services and solutions is delivered through its unique Location Independent Agile™ delivery model, recognized as a benchmark of excellence in software development.

A part of the Tata group, India's largest multinational business group, TCS has over 614,000 of the world's best-trained consultants in 55 countries. The company generated consolidated revenues of US \$27.9 billion in the fiscal year ended March 31, 2023, and is listed on the BSE and the NSE in India. TCS' proactive stance on climate change and award-winning work with communities across the world have earned it a place in leading sustainability indices such as the MSCI Global Sustainability Index and the FTSE4Good Emerging Index.
