**PRESS RELEASE**

**FOR IMMEDIATE RELEASE 26 SEPTEMBER 2019**

***GETS GLOBAL AND KPIT TECHNOLOGIES PTE. LIMITED  
TO ESTABLISH AN E-MOBILITY CENTRE  
TO ADDRESS REGIONAL GROWTH OPPORTUNITIES***

**PUTRAJAYA, 26 SEPTEMBER 2019** – GETS Global Berhad and KPIT Technologies Pte. Limited (A Global Technology partner for the Mobility Industry) have agreed to establish, a Special Purpose Vehicle (SPV) - an E-Mobility Centre to pursue selective opportunities in the Malaysian and other ASEAN countries.

The SPV Company is to primarily strengthen, promote and develop sustainable electro mobility projects in support of green development by developing Electric Vehicles for commercialization.

GETS Global and KPIT Technologies have executed a Memorandum of Understanding (MoU) dated 2 April 2019 to govern and regulate their relationship.

On 26 September 2019, GETS Global has entered into a Shareholding agreement with KPIT Technologies Pte. Limited whereby the parties will be shareholders of a new 'Special Purpose Vehicle' known as GETS E-Mobility Solutions Sdn Bhd (GEMS), with GETS Global to hold a majority stake of 80 percent.

KPIT with more than two decades of experience in building technology solutions for Mobility industry specially in the areas of Vehicle Electrification, Autonomous Driving and Connected Vehicles will bring deep technical know-how to this E-Mobility Centre.

GEMS is established with the primary objective of carrying out the projects within the region that includes all the major ASEAN countries.

According to Managing Director of GETS Global, Datuk Che Azizuddin Che Ismail, the JV is expected to open up market opportunities starting from ASEAN prime mover smart cities such as Kuala Lumpur/Putrajaya, Jakarta and Bangkok, towards becoming global smart cities.

*“The recent spate of technological advancements and innovations driven by the fourth industrial revolution has really changed the mobility industries. These major technological developments, including big data, artificial intelligence (AI), the Internet of Things (IoT) and the emergence of new, compact forms of energy, have thrown up a range of new mobility options”.*

*“Through GEMS, we will strengthen, promote and develop sustainable electro mobility projects in support of green sustainable mobility”.*

*“KPIT and GETS will combine the resources and expertise to pursue business opportunities in Malaysia and international markets”.*
