At MTAR, we continuously strive to achieve excellency in our products, process & quality offered to our diversified customers across industries."

### **Certificates**

## About MTAR Technologies Limited:

MTAR Technologies Limited is one of the leading precision engineering solutions company engaged in the manufacture of mission critical precision components with close tolerances (5-10 microns), and in critical assemblies, to serve projects of high national importance, through their precision machining, assembly, testing, quality control, and specialized fabrication competencies, some of which have been indigenously developed and manufactured. MTAR's offerings are served in the nuclear, space and defence, and clean energy sectors where they manufacture critical and differentiated engineered products with a healthy mix of developmental and volume-based production, customized to meet the specific requirements of the customers. The company has been serving customers in the nuclear sector for over 35 years, and have 16 years of established relationships with the Nuclear Power Corporation of India ("NPCIL"). The Company also have long-standing relationship of over three and four decades with customers such as the Indian Space Research Organization (ISRO) and the Defence Research and Development Organization (DRDO) and has supplied a variety of mission critical products. Over the years, MTAR has developed import substitutes such as ball screws and water lubricated bearings that are specialized and used in the niche sectors with high entry barriers. MTAR has 7 manufacturing units including an export-oriented unit with state-of-the-art facilities each based in Hyderabad, Telangana & is in the process of establishing an additional manufacturing facility at Adibatla in Hyderabad which is expected to be operational in Fiscal 2022.

**Safe Harbor:**

Any forward-looking statements about expected future events, financial and operating results of the Company are based on certain assumptions which the Company does not guarantee the fulfilment of. These statements are subject to risks and uncertainties. Actual results might differ substantially or materially from those expressed or implied. Important developments that could affect the Company's operations include a downtrend in the industry, global or domestic or both, significant changes in political and economic environment in India or key markets abroad, tax laws, litigation, labour relations, exchange rate fluctuations, technological changes, investment and business income, cash flow projections, interest and other costs. The Company does not undertake any obligation to update forward-looking statements to reflect events or circumstances after the date thereof.
