PRESS RELEASE

Escorts Construction Equipment unveils India's first Hybrid Pick-n-Carry Crane and Mono Chassis Safe Crane at EXCON 2022

- *Aims at creating a platform for cranes and product variants for different tonnage*
- *Identifies infrastructure push as a new growth driver for construction equipment*

Bengaluru, 17 May, 2022: Escorts Construction Equipment (ECE), business segment of Escorts Limited, today launched **NXT13DC CNG**, India's first Hybrid Pick-n-Carry Crane, with dual Fuel (Diesel & CNG) and **RC2522**, India's first Mono Chassis Safe Crane with 25T lift capacity at the EXCON 2022 in Bengaluru.

First in the series of Green Products, the newly launched **NXT13DC CNG Crane** in the 13-ton class has a 49.5 HP BSIII engine compatible with CNG and a robust straight axle backend. Developed with indigenous R&D, aligned with Make in India initiative, **NXT13DC CNG Crane** has a truck-like look and turning radius of just 6.3m along with standard features. Powered with Hybrid Engine, the crane offers a low operating cost and rear deck utility for the movement of material and manpower from one site to another. It has 3 parts fully powered boom with a maximum height of 13m and 14x24 heavy-duty rear tyres that ensure the machine's long life. Unparalleled in safety, the crane is equipped with front outriggers for stability and safety during erection or high height work.

Aimed at changing the way of craning in India, the newly launched **RC2522**, Mono Chassis Safe Crane with 25T lift capacity is equipped with anti-toppling features that provide enhanced safety on site and innovative technology that makes it superior to conventional machines. The **RC2522** crane offers the best-in-class durability, high capacity, stability, and versatility of operations. Powered with 110 HP Kirlosker Engine, the crane has automatic transmission and low turning radius of just 6.6m. Its ergonomically designed cabin offers best comfort for 2 persons and the front wheel drive provides high traction in rough terrain. Styled with a global look, the crane can be used as a Telehandler with a maximum capacity of 8T. It comes with a man carrying basket and a foldable fly jib. The boom and chassis of this crane is made from high structural strength material for better endurance.

Participating at EXCON 2022 in Bengaluru, Escorts also showcased its robust product portfolio in material handling, soil compaction and earth moving equipment across its Yellow Line and White Line series. The Yellow Line series is designed for all standard applications and appeals to wide customer base in Indian market. White Line series is targeted to address the higher performance demands of fleet owners and corporate customers.

The product line-up in cranes is comprising of newly introduced **F15 Fighter** equipped with 75 HP VECV engine, New added Pick & Carry Crane **Hydra 18** in 18-ton class, another new introduction in Pick & Carry Safe segment **F35** crane in 35T class.

In Backhoe segment, launch of new Backhoe Loader **JUNGLI HT** with reliable turbocharged high Torque Diesel engine and the trusted **XT 1610** that offers high performance, has bigger buckets and best in class dig depth and dump height.

In Road Machinery, Escorts is showcasing Whiteline Series Soil Compactor **5090 in 11 T class and Mini Roller 5030 and new launch of Motor Grader 585 in 10 Ton class.**

Safety is the key plank along with productivity and operating efficiency on which all construction and material handling equipment from the Escorts are based on. ECE is looking at creating platform for cranes and suitable product variants within that for different tonnage segments.

According to Sanjeev Bajaj, CE - Escorts Construction Equipment, *“Our USP is that we provide ‘Right products for the right customers’ by offering solutions through products equipped with varied features, lower fuel consumption that offer more economical operating costs to the customers. The ongoing push for infrastructure projects is expected to continue to increase the demand for stable, safer, advanced tech equipment and more productive solutions in construction and material handling equipment industry space and we at Escorts are already headed in that direction to aptly equip ourselves to cater to the demands of our customers. We are already into backhoe loaders, compactors and cranes segments and are now expanding our range by adding motor grader to complement our compactor segment. We are also working towards making our products more digitalized. Escorts is a proud partner of the government in the projects ranging across airport upgradation, Bharat Mala, Bullet trains, ports & bridges—and industries like steel, cement, mining and irrigation etc.*

He further added, *“Recognising the concerns of our customers around stability, safety, limitation in lifting capacities, reach, versatility and accessorization in the crane segment in general, we at Escorts intend to create a platform of cranes that will solve these issues and are not incremental to design changes”.*

ECE showcased the latest version of its existing products and new innovative equipment at EXCON.

Note for the Editor

The Escorts Group is among India's leading engineering conglomerates, operating in the high-growth sectors of Agri Machinery, Material Handling, Construction Equipment and Railway Equipment. The Group has earned the trust of over 5 million customers by way of product and process innovations over seven decades of its existence. Escorts endeavours to transform lives in rural and urban India by leading the revolution in agricultural mechanization, modernization of railway technology and transformation of Indian construction.
