Encl: As above

Cerebra's E-Waste facility complies with the requirements of ISO 27001:2013, the first by any Indian Listed E-Waste Recycling Company for Information Security

We are pleased to announce that, Cerebra's E-Waste Recycling unit at Narasapura KIADB Industrial Area, Kolar near Bangalore India operates an ISO/IEC 27001:2013 which happens to be the only auditable International standard that defines the requirements of information security with the following scope;

Information Safety & Security in E-Waste Collection, Dismantling, Segregation, Recycling, Refurbishing and Data Wiping, Degaussing & Protection activities of Information Technology Electronics Waste (ITEW) and Consumer Electrical and Electronics Waste (CEEW) Items

This ISO 27001:2013 certification is accredited by a third-party certification body and verifies whether the companies' processes are set up for Information Security.

The most important asset of any company around the world would be its data. The stakeholders expect and demand for the proper disposal of End-Of-Life Assets with respect to confidentiality & data destruction; it would be an absolute disaster if any sensitive information was stolen more so when these End-Of-Life assets are disposed to Recycling Companies such as Cerebra.

Information security is even more vital for the internet of things era. ISO/IEC 27001:2013 is an Information security standard dealing with the information security for an organization.

Information Security Management Systems (ISMS) is a systematic and structured approach to securely handle company's EOL sensitive information. ISO/IEC 27001:2013 provide requirements for establishing, implementing, maintaining and continually improving an information security management system.

Advantages:

- Increase in business as customers / suppliers recognize a credible trusted partner
- Independently demonstrates that applicable laws and regulations are observed
- Business differentiator providing competitive advantage over similar organizations
- Compliance with Legislation
- Improved Management Control

Cerebra Integrated Technologies Limited

Benefits

- ISO/IEC 27001:2013 is the only auditable International standard that defines the requirements of information security
- ISO/IEC 27001:2013 Certification helps businesses expand in global markets. It demonstrates credibility when tendering for contracts.
- Protect and enhance organization's reputation by avoiding costly penalties and financial losses due to data / information breach
- ISMS improves company culture on understanding the 'infosec' [*information security*] risks and integrating the security controls into the organizational processes and thus, lowering the overall risk to the organization.

Cerebra is now certified for ISO 27001:2013, R2 Certification - Responsible Recycling©:2013, ISO 9001, ISO 45001 & ISO 14001 will make this as the only listed Company in Asia to have all the five certifications for E-Waste Recycling.

The certification further underlines the importance to Quality and Environmental policies that Cerebra has always considered important and has made it an inherent part of all its processes and policies. Cerebra has already won customers and contracts for its E-Waste Recycling division and this certification will further enable the Company to be registered as preferred vendors with major Indian and MNC Companies.
