EYE ON LONG-TERM GROWTH

CIL's capex up 33% to ₹7k cr in April-Sept

Focus on setting up of coal handling plants and railway lines

FE BUREAU
New Delhi, November 9

COAL INDIA'S (CIL) capex rose 33% on year to ₹7,027 crore in the first half of the current fiscal year as it accelerated coal evacuation infrastructure.

The two coal evacuation infrastructure heads, setting up of coal handling plants (CHP)/silos and railway lines, combined, accounted for 36% or ₹2,547 crore of CIL's total capex in H1FY23.

"Capex push is essential for long-term growth prospects. To align the increasing production with robust transportation logistics CIL is fast-tracking the development of its coal evacuation system. This would help in handling the seamless movement of coal in future," said a senior executive of CIL. During the referred period, capital expenditure on coal evacuation projects picked the heads of land acquisition and procurement of

heavy earth moving machinery (HEMM) which conventionally comprises the bulk of the capex.

Construction of CHPs/silos under first-mile connectivity was the major capex head at ₹1,489 crore in H1FY23 with an increase of 2.4 times compared to ₹614 crore in the corresponding period a year ago. This underscores CIL's intent to put in place a strong coal transportation infrastructure to move greater quantities of coal in future. Most of the expenditure was incurred by CIL's three subsidiaries MCI, NCL and SECL. Laying rails corridors and rail sidings was the next major head where the capital expenditure rose 33% on year to ₹1,058 crore.

CIL has set a capex target of ₹16,500 crore for FY23, which it is expected to achieve.

Coal will play an important role in India until at least 2040: Minister

COAL WILL PLAY an important role in India until at least 2040, the nation's coal minister said on Wednesday, even as calls for countries to switch to

cleaner forms of fuel intensify at UN climate talks taking place in Egypt. Addressing a parliamentary committee, coal minister Pralhad Joshi said the fuel

was an affordable source of energy and demand for it had yet to peak in India. "Thus, no transition away from coal is happening in the foreseeable fu-

ture in India," Joshi said, adding it would have a big role until 2040 and beyond. At the COP27 talks taking place until Nov. 18 in Egypt, UN Secretary

General Antonio Guterres has called for urgent action to cut emissions, including phasing out coal by 2040, globally. India has long resisted renounc-

ing coal and manoeuvred with China at last year's COP26 talks, hosted by Britain, to block stronger commitments to quitting it. **-REUTERS**
