Dear valued customers and stakeholders,

We are pleased to announce that Vinny Overseas Limited has recently installed three state-of-the-art Epson machines for digital printing in textiles. The company has invested a significant amount of internal accruals and some debt from banks to meet the entire capex of these three machines.

With the installation of these machines, we are confident of achieving revenue of 12 crores per annum. These machines are designed to provide high-quality digital printing on textile materials with speed and efficiency. Our team is fully equipped to utilize these machines to deliver the best possible outcomes to our clients.

In addition to the Epson machines, we have also placed an order for two VEGA X1 Digital Ink Jet printing machines, which will be phased-wise installed in March and April. We are excited about the addition of these machines as they will enable us to further enhance our production capacity and deliver annual revenue of 18 crores, which translates to 1.5 crores per month.

We are committed to providing our clients with the best quality products and services. With the latest addition of these machines, we are confident of achieving new heights in our business and strengthening our position in the market.

Thank you for your continued support and trust in Vinny Overseas Limited.

For, Vinny Overseas Limited.

Authorized Signatory
