“We are pleased to report a strong performance for FY24, with revenues increasing by 14% year-over-year. This growth was driven by strong sectoral tailwinds, including the aspirational demand for vehicle ownership in the country, favourable government policies, and our focus on improving efficiencies. As a pioneer in automotive lighting solutions for decades, Lumax Industries remains the preferred choice for OEMs seeking innovative and advanced comprehensive lighting solutions due to our unwavering commitment to excellence.

On the operations front, we inaugurated Phase 1 of our Chakan plant in Q3FY24, which is witnessing strong capacity utilization driven by robust order flows, and we're confident of a swift ramp-up in the coming months. Additionally, we've announced for Phase 2 expansion of the plant, which is set to be commissioned by Q3FY25. Further, we're establishing a new manufacturing facility in Sanand to cater to strong demand for advanced lighting solutions from our OEM partners. This facility is poised to commence operations in the coming month.
