# FM says growth top priority for FY24 Budget

SEVERAL INDEPENDENT agencies have scaled down their FY23 growth projections for India in recent weeks after the June quarter lower-thanrecorded expected economic expansion of 13.5%, even on a favourable base amid growing external headwinds and tightening interest rates across the globe.

The International Monetary Fund has cut its FY23 growth prediction for the country by 60 basis points to 6.8%, while the World Bank has pegged it at 6.5%, the gloomiest forecast by any multilateral body for the current fiscal. The forecast by most others is in the range of 6.7-7.3%. Only the United Nations Conference on Trade and Development has predicted a lower 5.7% growth for Indiabut that is for calendar year 2022. The minister also said that India is talking to different countries to make Rupay acceptable outside the

Meanwhile, consumer price in flation inched up further in September to 7.41% (from 7% in August) and remained above the upper band of the central bank's medium-term target of 2-6% for the ninth straight month.

The minister indicated that the Budget proposals will hold the clue as to how India is "going to be able to balance the two" (growth and inflation) and make sure the economy grows at a healthy pace. Even multilateral institutions, which have recently trimmed their growth forecast for the country, have observed that "India cannot be weakened," she added.

"So, it will have to again be a very carefully structured Budget in which growth momentum will have to be sustained," she said.

India's growth momentum has been affected in recent months, as a demand slowdown in key markets hit its exports. Even industrial recovery has remained patchy. The escalating Ukraine war and the recent decision of Opec+ to reduce production from November to prop up oil prices pose freshrisks to the Indian economy. A weak rupee, too, has made imports more expensive. Of course, any sharp slowdown in global demand, thanks to the interest rate hikes, will ultimately weigh down commodity prices (most of them have already eased from their peaks this

Since the Narendra Modi government came to power in 2014, it has mobilised about ₹4 trillion through disinvestments. With the government stake in many large CPSEs, such as Indian Oil and NTPC is at around 51%, there is not much scope to further dilute minority stakes in these firms as it would like to retain a majority stake in some large companies in key sectors as per policy. Strategic disinvestment is also not turning out to be easy given all kinds of obstacles including legal challenges.

"There is many a slip between cup and lip," Pandey said referring to the withdrawal of the strategic sale process of fuel retailer-cumrefiner BPCL in May due to uncertainties in the petroleum sector. The Centre's 52.98% stake sale in BPCL could have fetched ₹40,000-50,000 crore, helping the government to easily exceed FY23 disinvestment target of ₹65,000 crore. Disinvest-
