THE RAMCO CEMENTS LIMITED

Even before de-carbonisation had become as imperative as it is today, we had begun our journey in harnessing green power as early as 1992-93 which has become a critical part of our organisation now. What began as 4 MW, has now reached a capacity of 166 MW, including our subsidiary. Our green power mix is more than 45% of the total captive power capacity.

Our investment in Wind Farms showcases our concern towards Environment protection and sustainability.

Kindly take the same on record.

Thanking you,

Yours faithfully,
For **THE RAMCO CEMENTS LIMITED,**
