Shoolit Sarkar's Galabo Sitabo, which pre Shoot Sanda s Gaddo Shido, which premiered on *philabe* Prime Video on Friday, is expected to garner far more viewers and do better financially for producers on the over-the-top (OTT) platform than in cinema halls, said trade analysis track-

The movie had to take the OTT route first for release eather than the conventional theatrical release due to the lockdown induced by the coronavirus (Covid-19) pandemic.

"The movie is ordinary, but it will do much better on OTT, thanks to the hype built on the social media. Also, Amazon Prime has released the film in Stenguages in 200 countries, implying it is not looking for audiences in India alone," he said.

Amazon Prime has 17 mil-

Armazon Prime has I7 milianos ubscribers in India, according to estimates. Resedo a monthly active users, Jio and Hotstar have a share of 38.5 per cent, and 16.5 per cent.

STWA that speans the OTT market in India at over \$25 million users, saying it will touch \$50 million users in 2.7 sears. Digatal media expert Strenk Gandhi, who is contended of Mumbal-based White Rivers Media, said success of the film would depend on the number of paid subscribers on Prime.

"Typically, some content on an OTT platform is free. The question is from many ten paid to the speed on the passion is from the paid to the passion in the passion is free.

The question is how many users would be willing to switch
on free to paid to get access to content, such as the preticre of this film," he said. Amazon Prime declined to share
gues on the viewership of Grishlo Shabe on the first day of

res receive.

But experts said compared to movie goers of not more than 10-12 million in cinema halls, depending on an average tielset price of 850-100 per person, millions of viewers would watch Galabo Stabo on Princ.

The first movie to take the OTT mute instead of a theatrical release was Newazuddin Saldxqui's Choomizeu, which premiered on Zeefs on May 12.

It agreemed over 33 receives the production of the same contribution of the same co

cal release was Newsaukdin Sabdajuis (Monutezia, which premicred on Zee's on May 12.

It garnered over 25 per cent share of the 80 million monthjustice users on the platform, a clear indication of the trend
in Govd times, said esperts.

Cutation Stabo, according to analysis, was made with a
banger 16740-45 crose and Prime bought the streaming rights
for foli-65 crose, helping ponducers make over 250 crose.

Natha said liad the movie bean released in theaties, it
vould not have head a domestic bave offeace collection of over feld
come. This means the producers would have recovered only 530
crose, as 50 per cent of its collections would have to be shared
with the exhibitors.

That apart, producers would also have had to spend an
additional 310 crose in promotions. So, the total budget for the
movie would have been 550-55 crose, cating into portifs inflate.

However, because of its deal with Amazon, the makers of
Culabo Stabu not only make a neat upsace bout can also occasion.

However, because of its deal with Amazon, the makers of Calabo Statub no only make a new upside but can also oncoast the lacrative satellite rights separately. But, after an OTT launch, the value the producers may get from broadcosters for a TV premier is far lower, some experts have warned. The decision of Sarkar to go to an OTT plattern first, despite strong resistance from exhibitors some of whom have threatened "retributive measures", has already led to many others joining the bardwayon, said experts.

According to industry sources, at least 11 to 15 other movies opart from Shankontala Beristarring Villya Balan, and Tamil tim Penguiri in Hindi and various regional languages are in the final stages of signing up with OTT platforms by the end of the month.
