For immediate release

Gateway Distriparks Enhances Fleet with 32nd Container Train & 60 Trailers

Delhi, 15th December, 2023: Gateway Distriparks Limited (GDL), a leading integrated inter-modal logistics facilitator in India, announces the addition of one new high capacity container train which is making its first journey today, with 2 more trains being added by March 2024. With these additions, the company will have a total of 34 container trains by the end of this financial year. These steps are part of our unwavering commitment to growth, operational excellence, and environmental sustainability.

The new high-capacity trains are being added on a long-term lease basis, aligning with our goal to fully utilise the Western Dedicated Freight Corridor's (DFC) capabilities. This corridor allows for heavier loads and significantly faster transit times, essential for modern logistics operations. Gateway Distriparks is ideally positioned in North and West India to maximise the benefits of the DFC. Our network of container terminals is strategically located to utilise the corridor for the longest possible distances, implementing an efficient hub and spoke model. This approach ensures optimal use of our resources, enhancing our service delivery and operational efficiency.

Further demonstrating our dedication to growth, in a significant move towards green & sustainable logistics, we have introduced 60 new road trailers that comply with the BS6 emissions standards. In addition, the company continues the ongoing conversion of existing diesel vehicles to CNG and is exploring the integration of Electric Vehicles (EVs) in the near future as well. This initiative is a testament to our ongoing efforts to adopt greener and more sustainable logistics practices.

Prem Kishan Gupta, Chairman and Managing Director, commented, "At Gateway Distriparks, we continue to focus on sustainable growth and innovation, aiming to provide the best service to our clients. The expansion of our fleet and the strategic use of our network along with first & last mile connectivity, marks a significant step forward in our journey towards excellence."

About Gateway Distriparks Limited (GDL)

Gateway Distriparks Limited is an integrated inter-modal logistics service provider. It has a network of 10 container terminals strategically located across the country, operating a fleet of 32 trainsets along with 560+ trailers for transportation between its facilities and maritime ports, as well as first & last mile connectivity to provide end to end solutions to the EXIM industry. The company offers general & bonded warehousing, rail & road transportation, container

handling services and other value added services. Through Snowman Logistics Limited, its associate company, the company offers also cold chain logistics and 5PL distribution services across the country. For more information, please visit www.gatewaydistriparks.com.
