RattanIndia's Revolt Motors starts latest batch of EV bike deliveries after good response to bookings

- Latest batch of deliveries after overwhelming response to its sales bookings

New Delhi July 11, 2021: RattanIndia's Revolt Motors, India's next gen-mobility company announced today the deliveries of its new batch of its AI enabled, cost-effective, performance oriented Revolt Electric Motorcycles to its customers in various parts of the country from its greenfield manufacturing plant in Manesar, Gurugram in Haryana. These first set of deliveries come in after the company received overwhelming response to its sales bookings.

Revolt Motors, one of the fastest growing electric motorcycle brand in India had recently opened bookings for its state of the art RV 400 model of electric motorcycle. The flagship model had received overwhelming response with bikes being sold out with few hours of opening its bookings. There has always been a huge demand for RV400 from buyers from the six operational cities including Delhi, Mumbai, Pune, Chennai, Ahmedabad and Hyderabad. The company has been working at a feverish pace to deliver on these bookings and this batch of RV400s has been dispatched for delivery to the eagerly waiting customers.

"Revolt is dispatching this batch of booking within a few days of bookings. The company is completely focused on delivering these state of the art bikes in shortest possible time to its customers. To promote ease for customers and provide them complete visibility of the deliveries, company is providing state of the art VOLT– Vehicle OnLine Tracking system for its customers who have booked Revolt ebikes" said Ms Anjali Rattan, Business Chairman, RattanIndia Enterprises

Due to the rising fuel prices, and updated FAME-II policy, there is a remarkable interest in electric vehicles across India. As a booster to promote EV usage, state governments are giving added benefits. For example, Gujarat recently announced added benefits for EV buyers. This has made the Revolt motorcycle buyers avail benefits of upto Rs 20,000 in the state. Similarly Delhi gives direct benefit of Rs. 16,400 for ebike buyers.

Mr. Rahul Sharma, MD of Revolt Motors said, "In view of overwhelming response to bookings, Revolt is delighted to handover the e-bikes to the customers in a short time. The company is working to expand its production capacities even further in order to reduce the booking to delivery time cycles. Revolt is deeply focused on providing unparalleled customer experience."

The RV400 comes with a 3.24 kWh Lithium-ion battery pack that offers 72 V power, a top range of 150 kms on a single charge while offering a top speed of 85 kmph. The battery pack comes in with a warranty of 8 years/1,50,000 kms and free maintenance for 3 years/30,000 kms along with product warranty for 5 years/75,000 kms. The Revolt RV300 has a 1.5 kW motor with a 2.7 kW battery pack. Its key features include internet and cloud connected features and MyRevolt App.

Revolt customers also gets the dedicated mobile app that offers features such as geo fencing, satellite navigation, bike locator, real time bike information and diagnostics.

Revolt Intellicorp

Revolt Intellicorp is the next-gen mobility company, created for the smart world. Revolt is working with a vision of democratizing clean commutes using next-gen mobility solutions and a mission to create a future of next-gen mobility with 100% accessibility and 0% fuel residue. With technology at its roots and class-apart products, Revolt has introduced India's first AI-enabled motorcycle without compromising on the performance or aesthetics of a regular ride.

Revolt Intellicorp commenced operations in 2019. The company offers two EV models in India currently, in addition to a full range of genuine parts and accessories available through its authorized dealerships.
