What are the five innocent mistakes made while styling your hair?

Ahmedabad, Styling your hair can be a fun and creative way to express yourself, but it can also be quite challenging when you don't have the right tools for your hair type. Whether it's straightening or just achieving a fresh blowout at home, styling can lead to a lot of wear and tear on your locks. Especially during the ongoing festive season, everyone wants to glam up and achieve their hairstyle to match their outfit. Catering to this consumer demand, Philips India has launched a festive season campaign, #HowIndiaCelebrates, which is a celebration of how different cultures come together showing their unique traditions, but united by one common desire - to look their best. Philips India's festive campaign aims to be the guiding light in this journey by showcasing how their range of products can be used to style different hair types, incorporating multiple styles. To help you achieve that flawless look, we've compiled a

list of five common, innocent styling errors and the correct ways to use your hair styling tools. **Overlooking Hair Type:** One size does not fit all when it comes to hair styling. Identify your hair type - whether it's curly, straight, or wavy - and choose styling tools and techniques that complement your natural texture. Philips India's diverse range caters to various hair types such as UV Protect Hair Straightener, ThermoProtect & Silk Procure technology offering tailored solutions for everyone. **Heat Protect Hair Tools:** Shielding your hair from heat is paramount. Always use products that offers limited or no heat damage to style your hair to minimize harm. Philips India's products are designed with advanced features, that adds an extra shield against heat-induced stress. **Smaller sections:** A lasting hairstyle: Haste can lead to uneven styling. Divide your hair into manageable sections, ensuring each strand

receives attention. Philips Hair Dryers and Straighteners come with features like wide plates and powerful airflow, making sectioning a breeze for a polished finish. **Temperature Precision:** A crucial factor in styling is using the right temperature. Tailor the settings on your Philips Keratin Straightener and Heated Straightening Brush according to your hair type. This ensures not only effective styling but also safeguards your hair from damage. **Maintain your tools:** Styling tools require care too. Keep your devices clean and well-maintained for optimal performance. Regularly check for any signs of wear and tear to avoid unexpected issues during your styling routine. **By heeding these suggestions and incorporating Philips India's beauty and grooming range into your routine, you not only avoid common mistakes but also elevate your hair styling experience, ensuring a flawless and festive look.
