Meta is now calling out Google over Apple's app privacy rules

BLOOMBERG
February 10

META PLATFORMS' REVENUE is taking a multibillion-dollar hit this year because its social networks can't gather as much data on iPhone users. The company spent last year attacking Apple for the change; now it's publicly calling out Google, too.

The Facebook owner is alleging Alphabet's Google, which also sells personalised ads on iPhones, has an unfair advantage under Apple's new policies. Apps including Facebook have to ask users if they consent to being tracked, but Google's search results and browser don't — causing some advertisers' budgets to shift to Google for more effective targeting.

Last year, Google said it wouldn't prompt consumers about data collection because, after Apple's change, it decided not to use any of the data on iPhones that would require permission.

Google also doesn't need the kind of data Facebook does from third parties in order to make its ads work. It runs its own mobile operating system, Android, and its own ad exchanges. When users make a search, their intention provides enough data to advertise to them effectively across Google-owned properties, which may incentivise marketers to move their ad budgets to Google as opposed to Facebook.

Meta only started critiquing other tech giants by name in recent years. The social media behemoth, now facing antitrust scrutiny around the world, stands to benefit from framing itself as an underdog, threatened by larger forces. Still, Meta told investors it expected to miss out on \$10 billion in ad revenue in 2022 because of Apple's changes, making it clear the company is more severely impacted than others. Facebook had relied on data from other apps and websites to make its ads effective. Without it, advertisers need to spend more money to achieve the same results.

Facebook ads are "still important, just costing a heck of a lot more," said Doug Zarkin, chief marketing officer of Pearle Vision, which relies on Facebook and Instagram to drive people to its eye-care website and stores. He estimated that campaigns are 15% to 30% more expensive than last year.

Apple said that it has a long history of helping users prevent unwanted tracking and that it started blocking cross-site tracking in its Safari browser in 2017. Those privacy protections extend to search in Safari, minimising the amount of data passed to third-party search engines. It also said it offers alternatives, such as DuckDuckGo, for search in Safari.

Apple's newer changes aren't just affecting Facebook. People are giving the average app permission to track their behaviour just 27% of the time, according to Branch, a company that analyses mobile app growth and deep linking. Those numbers have stayed consistent for months since Apple first started pushing the iOS update to users last summer, says Alex Bauer, head of product marketing at Branch.

But Facebook relied on the data more heavily than others, including smaller social media peers, such as Snap and Pinterest. Both of those companies reported strong sales, downplaying Apple's impact.

Because inhaled vaccines target the lungs and upper airways where respiratory viruses first enter the body, they are far more effective at inducing a protective immune response, the researchers said.

The study, which was conducted on animal models, has provided the critical proof of concept to enable a Phase 1 clinical trial that is currently under way to evaluate inhaled aerosol vaccines in healthy adults who had already received two doses of a Covid-19 mRNA vaccine.

The strategy was built upon a robust tuberculosis vaccine research programme established by Zhou Xing, a co-lead author of the study.

"What we have discovered from many years' research is that the vaccine delivered into the lung induces all-around protective respiratory mucosal immunity, a property that the injected vaccine is lacking," said Xing, professor at McMaster University.

"We wanted, first and foremost, to design a vaccine that would work well against any variant," added the study's co-lead author Matthew Miller, an associate professor at McMaster. Researchers compared two

New inhaled vaccine provides broad protection against Covid variants: Study

PRESS TRUST OF INDIA
Toronto, February 10

AN INHALED FORM of Covid-19 vaccine developed by scientists at McMaster University in Canada can provide broad, long-lasting protection against the SARS-CoV-2 variants of concern, a preclinical study has found.

Because inhaled vaccines target the lungs and upper airways where respiratory viruses first enter the body, they are far more effective at inducing a protective immune response, the researchers said.

The study, which was conducted on animal models, has provided the critical proof of concept to enable a Phase 1 clinical trial that is currently under way to evaluate inhaled aerosol vaccines in healthy adults who had already received two doses of a Covid-19 mRNA vaccine.

The strategy was built upon a robust tuberculosis vaccine research programme established by Zhou Xing, a co-lead author of the study.

"What we have discovered from many years' research is that the vaccine delivered into the lung induces all-around protective respiratory mucosal immunity, a property that the injected vaccine is lacking," said Xing, professor at McMaster University.

Researchers compared two

One in three elderly develop new conditions after infection: Study

NEARLY A THIRD of older adults infected with Covid-19 in 2020 developed at least one new condition that required medical attention in the months after initial infection, according to an observational study published in The BMJ.

Researchers from Optum Labs and Harvard T H Chan School of Public Health in the US noted that conditions involved a range of major organs and systems, including the heart, kidneys, lungs and liver as well as mental health complications. They used health insurance plan records in the US to identify 133,366 individuals aged 65 or older in 2020 who were diagnosed with Covid-19 before April 1, 2020.

types of adenovirus platforms for the vaccine. The adenoviruses serve as vectors that can deliver vaccine directly to the lungs without causing illness themselves.

"We can remain ahead of the virus with our vaccine strategy. Current vaccines are limited because they will need to be updated and will always be chasing the virus," said Miller.

Both types of the new vaccine are effective against highly transmissible variants because they are designed to target three parts of the virus, including two that are highly conserved among coronaviruses and do not mutate as quickly as spike, the researchers said.

All Covid-19 vaccines currently approved target only the spike protein, which has shown a remarkable ability to mutate, they said. The SARS-CoV-2 virus uses the spike protein to enter and infect the human cells.

"This vaccine might also provide pre-emptive protection against a future pandemic, and that is really important because as we have seen during this pandemic — and as we saw in 2009 with the swine flu — even when we are able to rapidly make a vaccine for a pandemic virus, it's already way too late," said Miller.

"Millions of people died, even though we were able to make a vaccine in record time," he said.

The researchers found that besides neutralising antibodies and T cell immunity, the vaccine delivered into the lungs stimulates a unique form of immunity known as trained innate immunity.

This type of immunity is able to provide very broad protection against many lung pathogens besides SARS-CoV-2, they said.

In addition to being needle and pain-free, an inhaled vaccine is so efficient at targeting the lungs and upper airways that it can achieve maximum protection, the researchers said.

This protection can be achieved with a small fraction of the dose of current vaccines — possibly as little as 1 per cent — meaning a single batch of vaccine could go 100 times further, they said.

"This pandemic has shown us that vaccine supply can be a huge challenge," said associate professor Brian Lichty, who co-lead the preclinical study.

"Demonstrating that this alternative delivery method can significantly extend vaccine supply could be a game changer, particularly in a pandemic setting," Lichty added.

California accuses Tesla of racial discrimination in lawsuit

ASSOCIATED PRESS
Sacramento (US), Feb 10

CALIFORNIA SUED TESLA on Wednesday over allegations of discrimination and harassment of Black employees at its San Francisco Bay area factory.

The suit, filed in Alameda County Superior Court, was sparked by hundreds of worker complaints, said Kevin Kish, head of the state's Department of Fair Employment and Housing.

The department, which enforces state civil rights laws, "found evidence that Tesla's Fremont factory is a racially segregated workplace where Black workers are subjected to racial slurs and discriminated against in job assignments, discipline, pay, and promotion creating a hostile work environment," Kish said in a statement reported by the *Wall Street Journal* and *Bloomberg*.

Details of the lawsuit have yet to be released and Tesla didn't immediately issue a response to the lawsuit, which the electric carmaker had warned was coming several days earlier in an annual filing to the US Securities and Exchange Commission.

However, in a blog post before the filing, Tesla called the suit misguided and said the agency "has never once raised any concern" about its workplace practices following a three-year investigation.

The posting said the lawsuit appears to focus on accusations by production associates at the factory, who said misconduct took place between 2015 and 2019. The post also said it will ask the court to "pause the case and take other steps to ensure that facts and evidence will be heard."

US discusses North Korean threat with Japan, South Korea

REUTERS
Washington, February 10

US DEFENSE SECRETARY Lloyd Austin spoke on Wednesday with the defense ministers of South Korea and Japan about the threats posed by North Korea after missile launches by Pyongyang, the Pentagon said.

International tension has been rising over a series of North Korean ballistic missile tests, actions long banned by the UN Security Council. January was a record month of such tests, with at least seven launches including a new type of "hypersonic missile" able to maneuver at high speed.

"The leaders emphasized that the DPRK's ballistic missile launches are destabilising to regional security and a clear violation of multiple United Nations Security Council resolutions," Pentagon spokesman John Kirby said in a statement, using the acronym for North Korea's official name.

Photos indicate N.Korea may be preparing military parade

SATELLITE PHOTOS SHOW hundreds of people in formation at a training ground in North Korea's capital in a possible sign the country is preparing for a military parade amid heightened animosities over its recent missile tests.

The 38 North website, which specialises in North Korea studies, said Wednesday the February 5 imagery taken on the Mirim airfield in Pyongyang — where rehearsals for past military parades occurred — likely signals a forthcoming parade.

South Korean Defense Minister Suh Wook said the launches posed a "direct and serious threat", and vowed to bolster response capabilities based on the US alliance.

The three ministers agreed to hold an in-person meeting in the near future, his office said in a statement, without specifying the date.

North Korea boasted on Tuesday that it is one of only a handful of countries in the

Everyone lays claim to \$3.6 bn bitcoin bag from hack

BLOOMBERG
February 10

WHO WALKS AWAY with the \$3.6 billion in Bitcoin that the US recovered from the Bitfinex currency exchange hack has become the cryptosphere's favourite guessing game.

David Silver, a lawyer who specialises in financial and cryptocurrency-related fraud, said since the seizure was announced Tuesday he's received dozens of calls from individuals saying they lost money in the 2016 online heist and they want to get their coins back. Twitter has been whipped into a frenzy as well, with posters asking how to claim lost crypto. Justice Department officials said they plan to establish a court process for victims to reclaim the stolen digital assets, which have since surged in value.

Figuring out whom the crypto belongs to may not be simple, however. Bitfinex considers that it's made investors whole, and said in a statement that it will "follow appropriate legal processes to establish our rights to a return of the stolen

Bitcoin." If Bitfinex and users start off on a collision course, the legal battle would likely be protracted.

"The world has changed dramatically since 2016, and everyone is going to lay claim to this newfound bag of Bitcoins," Silver said.

Bitfinex, a unit of British Virgin Islands registered iFinex, declined comment.

At the heart of Bitfinex's argument is a long-ago token distribution. After the attack in August 2016, when a hacker made away with more than 119,000 Bitcoin, Bitfinex allocated losses of more than 30% to all customer accounts. It then created and credited BFX tokens to customers at a ratio of one for every \$1 lost.

Within eight months, all holders had those tokens redeemed, or had exchanged them for iFinex capital stock. During that time, Bitcoin's price had nearly doubled, according to *Bloomberg* data.

Bitfinex also created another coin named Recovery Right Token, or RRT, for holders that had converted their BFX tokens into iFinex shares.

In case the stolen Bitcoins were ever recouped, recovered funds would be distributed to RRT holders, at up to \$1 per RRT. There are currently 30 million RRT tokens outstanding, according to Bitfinex. That could lead to a reimbursement of up to \$30 million.

Bitfinex plans to use a portion of at least 80% of the recovered net funds to buy up and destroy another token called Leo it issued in 2019 to beef up its coffers. The tokens traded at about \$6.50 on Thursday after climbing as high as \$8 on February 8, according to CoinMarketCap pricing data.

"Bitfinex doesn't owe me anything, they made me whole years ago," said Erik Voorhees,

an early crypto advocate who runs the ShapeShift cryptocurrency exchange.

Many customers disagree, particularly given Bitcoin's appreciation from less than \$600 in August 2016 to around \$44,700. The tokens were worth about \$71 million at the time of the hack, with the total amount now valued at about \$4.5 billion.

"I think that's ridiculous," Alan Aronoff, a 52-year-old San Francisco resident, said in an interview. "That's my Bitcoin that they took from my multisig wallet. I would like my Bitcoin back." Aronoff doesn't remember whether he signed away any rights to his stolen Bitcoin while accepting the Bitfinex reimbursement.

"They can have their equity back," said Aronoff, who claims to own about \$50,000 of "illiquid" Bitfinex stock. "I'll take my Bitcoin, thank you very much." Much will depend on what the user agreement Bitfinex had people sign in 2016 said, said Kyle Roche, of Roche Freedman LLP, which is involved in litigation against Bitfinex. He's already fielded

inquiries from about 10 people about how to claim funds.

Another difficulty may lie even in verifying customer identities. Even today, anyone with an email address can simply open an account on Bitfinex, without any further verification for most basic functions.

"I don't believe DoJ will turn \$3.6 billion to an organization that can't identify who this Bitcoin belongs to," Silver said. iFinex had previously settled with the New York Attorney General over false claims related to its Tether product, the world's most popular stablecoin.

Many observers point out that creditors of defunct crypto exchange Mt. Gox are still waiting to receive reimbursements under a plan that became final and binding in November. Mt. Gox closed in early 2014 after losing the coins of thousands of customers.

Who hacked the Bitfinex is still unclear as well, and could be pertinent to any distribution, Silver said. The married couple who were arrested on Feb. 8 were accused of money laundering, not stealing the coins.

Assuming the couple enters a guilty plea, the criminal process could take a year to play out, said Kellen Dwyer, former assistant U.S. Attorney who is now an Alston & Bird partner and co-leader of the firm's national security and digital crimes team. The determination of who is entitled to restitution and how much could take years, he said.

"That process could take the heck of a long time," Dwyer said. "It certainly could be multiple years before anybody sees any cash."

शून्य बदल पतधोरण

रिझर्व्ह बँकेकडून सलग दहाव्या बैठकीत व्याजदर स्थिर

लोकसत्ता व्यापार प्रतिनिधी

मुंबई : करोनाच्या उद्रेकामुळे अर्थव्यवस्थेपुढे उभे राहिलेले अनिश्चिततेचे आव्हान अजूनही टक्केले नाही, रिझर्व्ह बँकेने गुरुवारी व्याजाचे दर खालच्या स्तरावर टिकवून ठेवून अर्थव्यवस्थेला चालना देण्यासाठी 'समावेशी' भूमिकाही कायम राखणारे पतधोरण गुरुवारी जाहीर केले.

सहा सदस्य असणाऱ्या पतधोरण निर्धारण समितीच्या (एमपीसी) तीन दिवस चाललेल्या द्विमासिक आढावा बैठकीचा समारोप गुरुवारी झाला. समितीने पाच विरुद्ध एक अशा बहुमताने रेपो दर ४ टक्के पातळीवर कायम ठेवताना, रिझर्व्ह रेपो दरही त्यामुळे ३.३५ टक्के पातळीवर स्थिर ठेवण्याच्या बाजूने कौल दिले.

करोनाच्या धक्क्यातून अर्थव्यवस्था अजून पूर्णपणे सावरलेली नाही. करोनाचा नवीन अवतार असलेल्या ओमयक्रॉनचा वाढता प्रसार आणि त्यामुळे कायम ठेवताना, रिझर्व्ह रेपो दरही त्यामुळे ३.३५ टक्के पातळीवर स्थिर ठेवण्याच्या बाजूने कौल दिले.

महागाईत उतार थाव्य

किरकोळ महागाई दर चालू वर्षातील ५.३ टक्क्यांवरून पुढील आर्थिक वर्षासाठी महागाईचा अंदाज कमी करत ४.५ टक्क्यांवर आणला. किरकोळ महागाईचा दर डिसेंबरमध्ये ५.५९ टक्क्यांच्या पातळीवरून उच्चांकावर पोहोचला, तर घाऊक किमतीवर आधारित महागाई दर ९३.५६ टक्क्यांपर्यंत खाली आला, मात्र सलग नऊ महिने तो दुहेरी अंकात कायम आहे.

जोवर अर्थव्यवस्था सुस्थितीत येत नाही तोवर परिस्थितीजन्य लवचीक व समावेशी धोरण पवित्रा कायम राहिल, असे रिझर्व्ह बँकेचे गव्हर्नर शक्तिकांत दास यांनी स्पष्ट केले.

आर्थिक वर्ष २०२२-२३ चा केंद्रीय अर्थसंकल्प सादर झाल्यानंतर

रिझर्व्ह बँकेच्या पतधोरण समितीची ही पहिलीच बैठक होती. दास यांच्या अध्यक्षतेखालील पतधोरण समितीने सलग दहाव्यांदा व्याजदर स्थिर ठेवण्याचा निर्णय घेतला आहे. रेपो दराबाबत यथास्थिती अपेक्षित असताना, काही अर्थतज्ज्ञांनी

बाजारातील तरलता कमी करण्यासाठी रिझर्व्ह रेपो दरामध्ये वाढीची अपेक्षा व्यक्त केली होती. अर्थसंकल्पात केंद्रीय अर्थमंत्री निर्मला सीतारामन यांनी अर्थव्यवस्थेत जलद गतीने सुधारणा होण्यासाठी भांडवली खर्चात वाढ करण्याचा निर्णय घेतला आहे. सरकारकडून मोठ्या प्रमाणावर करण्यात येणारा भांडवली खर्च आणि निर्यात केंद्रित उपाययोजनांमुळे उत्पादन क्षमता वाढेल आणि एकूण मागणी मजबूत होईल अशी अपेक्षा आहे. यामुळे खासगी गुंतवणूकीतही वाढ होण्याची शक्यता आहे, असा विश्वास दास यांनी व्यक्त केला.

आगामी आर्थिक वर्षासाठी (२०२२-२३) सकल राष्ट्रीय उत्पादन (जीडीपी) वाढीचे ७.८ टक्क्यांचे रिझर्व्ह बँकेचे अनुमान आहे. आर्थिक वर्ष २०२१-२२ मध्ये ते ९.२ टक्के राहिल या पूर्वी व्यक्त केलेल्या कयासावरही ती कायम आहे. मात्र जागतिक पातळीवर करोनाचा वाढत प्रसार आणि त्यामुळे जगभर वस्तूंच्या वाढलेल्या किमतीमुळे त्यात कपात करण्यात आली आहे.

व्याजदर वाढ जूनपर्यंत लांबणीवर?

मुंबई : पतधोरणाच्या अगोदर, अनेक निरीक्षकांनी रिझर्व्ह रेपो दरामध्ये वाढ होण्याची अपेक्षा व्यक्त होती. जेणेकरून जागतिक स्तरावर अन्य मध्यवर्ती बँकांच्या कृतीला अनुसरून, करोनाप्रश्नात सामान्यीकरणाची प्रक्रिया सुरू करत असल्याचा संकेत रिझर्व्ह बँकेकडून दिला जाईल आणि एप्रिलपासून संभाव्य रेपो दरात वाढही मग केली जाईल, असेही विश्लेषक सूचवत होते. विशेषतः खर्च विस्तारक

अर्थसंकल्प, तेलाच्या वाढत्या किमतींमुळे नजीकच्या भविष्यात चलनवाढीची चिंता हे घटक नमूद केले गेले होते. मात्र जोवर अर्थव्यवस्था सुस्थितीत येत नाही तोवर परिस्थितीजन्य लवचीक आणि समावेशी (अर्कामोडेरेटिव्ह) धोरण पवित्रा कायम राहिल, असे गव्हर्नर शक्तिकांत दास यांनी अधोरेखित केले. त्यामुळे व्याजदर वाढीची शक्यता ही जूनच्या मध्यापर्यंत तरी लांबणीवर टाकली गेली आहे.

आर्थिक स्थिरतेसाठी 'क्रिप्टो' धोकादायक

मुंबई : खासगी कूटचलन (क्रिप्टो करन्सी) देशाच्या अर्थव्यवस्थेसाठी आणि तिच्या आर्थिक स्थिरतेसाठी धोकादायक आहे. क्रिप्टो मालमतेचे काहीही अंतर्निहित मूल्य नसून 'ट्यूब्लिप' इतकेदेखील त्याला मूल्य नाही. गुंतवणूकदार त्यांच्या जोखिमेवर क्रिप्टो करन्सीमध्ये गुंतवणूक करत असून त्यांना सावध कृत्य आमचे कर्तव्य आहे, असे सांगत दास यांनी क्रिप्टोतील गुंतवणूकदारांना सावध केले. अर्थव्यवस्थेला आर्थिक स्थिरता

देण्याची रिझर्व्ह बँकेची क्षमता त्यातून कमी केली जाईल, असा इशाराही दास यांनी दिला. 'ट्यूब्लिप मॉनिया' हे १७ व्या शतकातील आर्थिक बुडबुड्याचे उत्कृष्ट उदाहरण म्हणून उद्धृत केले जाते. दास यांनी त्याचा उल्लेख करून, एखाद्या गोष्टीची किंमत अंतर्निहित मूल्यामुळे नव्हे तर सड्डेबाज नफा मिळवू इच्छित असल्यामुळे फुगविले जाते, तसे सध्या 'क्रिप्टो' बाबत सुरू असल्याचे सांगितले.

अमेझॉन इंडियाकडून

नवउद्यमींना पाठबळ

मुंबई : अमेझॉन इंडियाने जगभरातील ग्राहकांपर्यंत भारतीय नवउद्यमींना पोहोचविण्याच्या उद्देशाने 'ग्लोबल सेलिंग प्रोपेल एक्सेलरेटर' कार्यक्रमाच्या दुसऱ्या हंगामाची बुधवारी घोषणा केली. या माध्यमातून सुरुवातीच्या टप्प्यातील नवउद्यमींना आंतरराष्ट्रीय बाजारपेठेत प्रवेश करण्यासाठी आणि जागतिक नाममुद्रा बनण्यासाठी आवश्यक मदत करण्यात येणार आहे.

अमेझॉन इंडियाचा या कार्यक्रमात सहभागी होणाऱ्या नवउद्यमींना अमेझॉनकडून १ लाख अमेरिकी

डॉलर म्हणजेच ७५ लाख रुपयांचे भांडवली अनुदान मिळणार आहे. त्याचबरोबर १०,००० डॉलर मूल्याची अमेझॉन वेब सर्व्हिसेसदेखील उपलब्ध करून देण्यात येईल. या कार्यक्रमात नवउद्यमींना एक्सल, डीएसजी कंझ्युमर पार्टनर्स, फायरसाइड व्हॅचेंस आणि सिक्वोया कॅपिटल इंडिया यांच्यासमोर त्यांच्या व्यवसाय योजना सादर करण्याची संधी मिळणार आहे. बॉलीवूड अभिनेता आणि गुंतवणूकदार कुणाल कपूर या कार्यक्रमात मार्गदर्शन करणार आहे.

एलआयसीच्या भागविक्री प्रस्तावाला 'इर्डा'कडून मंजूरी

लोकसत्ता व्यापार प्रतिनिधी

मुंबई : बहुप्रतीक्षित भारतीय आयुर्विमा महामंडळाच्या (एलआयसी) प्रारंभिक समभाग विक्रीसाठी शुक्रवारी (११ फेब्रुवारी) भांडवली बाजार नियंत्रक 'सेबी'कडे मसुदा प्रस्ताव अर्थात डीआरएचपी दाखल केले जाण्याची शक्यता आहे. त्या प्रक्रियेपूर्वी आवश्यक असलेली मंजूरी विमा नियामक 'इर्डा'कडून नुकतीच स्पष्ट झाले.

सूत्रांनी दिलेल्या माहितीनुसार एलआयसीच्या भागविक्रीसाठी

आवश्यक असलेल्या विमा नियामक 'इर्डा'कडून मंजूरीची मोहोर उमटली आहे. 'इर्डा'च्या बुधवारी झालेल्या बैठकीत एलआयसीच्या भागविक्री

प्रस्तावाला मान्यता देण्यात आली. 'इर्डा'कडून हिरवा कंदील मिळवल्यानंतर 'सेबी'कडे प्रारंभिक समभाग विक्रीसाठी मसुदा प्रस्ताव सादर करण्यात येणार असून त्यामध्ये भागविक्रीचे आकारमान जाहीर करण्यात येईल. केंद्र सरकार एलआयसीच्या प्रारंभिक समभाग विक्रीच्या माध्यमातून ५ टक्के हिस्सेदारी विकण्याची शक्यता असून मार्च महिनाअखेर एलआयसीचा समभाग भांडवली बाजारत सूचिबद्ध होणे अपेक्षित आहे.

अर्थमंत्री निर्मला सीतारामन यांनीही एलआयसीची भागविक्री

लवकरच अपेक्षित असल्याचे विधान अर्थसंकल्पीय भाषणादरम्यान केले होते.

केंद्र सरकारने आतापर्यंत एअर इंडियाचे खासगीकरण आणि इतर सार्वजनिक क्षेत्रातील कंपन्यांतील हिस्सेदारीच्या विक्रीतून सुमारे १२,००० कोटी रुपये उभे केले आहेत. चालू आर्थिक वर्षात केंद्र सरकारला निर्गुंतवणूकीच्या माध्यमातून ७८,००० कोटी रुपयांच्या सुधारित महसुलाच्या उभारणीचे अर्थसंकल्पीय लक्ष्य गाठावयाचे असून, एलआयसीच्या भागविक्रीचा त्यात मोठा वाटा असेल.

'महाबँके'कडून डिजिटल योजनांचे अनावरण

पुणे : सार्वजनिक क्षेत्रातील बँक ऑफ महाराष्ट्रने (महाबँक) ८७ वा व्यवसाय आरंभदिवस, पुणे येथील मुख्यालयात साजरा करताना अनेक नव्या डिजिटल योजना आणि सेवांचे अनावरण केले.

बँकेच्या मुख्यालयात दूरस्थ पध्दतीने झालेल्या कार्यक्रमात बँकेचे व्यवस्थापकीय संचालक आणि मुख्य कार्यकारी अधिकारी ए. एस. राजीव, कार्यकारी संचालक ए. बी. विजयकुमार आणि आशीष पाण्डेय यांच्यासह बँकेचे देशभरातील चाळीस

क्षेत्रीय व्यवस्थापक सहभागी झाले होते.

डिजिटल बँकिंग आणि हॅपिनेस इंडेक्स याबाबत क्रमांक एकवर असलेल्या महाबँकेने या निमित्ताने अनेक डिजिटल उत्पादने प्रस्तुत केली ज्यात ऑनलाईन लॉकर ऑप्लिकेशन, इन्शुरन्स क्लेम सेटलमेंट पोर्टल, बीओएमवाय चॅटबॉट सुविधा सुरू केली गेली. बहुभाषिक व्हॉट्सअप बँकिंग, विविध प्रकारच्या कर्ज योजनांचे डिजिटल ऑन-बोर्डिंग केले.

किरकोळ गुंतवणूकदारांचा राष्ट्रीय शेअर बाजारातील टक्का वाढला!

लोकसत्ता व्यापार प्रतिनिधी

मुंबई : राष्ट्रीय शेअर बाजारावर (एनएसई) सूचिबद्ध कंपन्यांमधील किरकोळ वैयक्तिक गुंतवणूकदारांची हिस्सेदारी वाढली आहे. ती डिसेंबर २०२१ मध्ये ७.३१ टक्क्यांच्या ऐतिहासिक उच्चांकावर पोहोचल्याचे 'प्राइम डेटाबेस'ने गुरुवारी प्रसिद्ध केलेल्या अहवालातून स्पष्ट झाले.

प्राइम डेटाबेसने संकलित केलेल्या माहितीनुसार, किरकोळ गुंतवणूकदारांनी धारण केलेल्या समभागांचे मूल्य १८.८ लाख कोटी रुपयांच्या विक्रमी उच्चांकावर पोहोचले आहे. जे सप्टेंबरमध्ये १८.१६ लाख कोटी रुपये होते. किरकोळ गुंतवणूकदारांनी धारण केलेल्या समभागांच्या मूल्यात

सप्टेंबर २०२१ च्या तुलनेत ४.५४ टक्क्यांची वाढ झाली आहे. भांडवली बाजारातील प्रमुख निर्देशांक सेन्सेक्स आणि निफ्टीमध्ये डिसेंबरमध्ये अनुक्रमे १.४८ आणि १.५० टक्क्यांनी घसरण होऊनही किरकोळ गुंतवणूकदारांच्या समभाग मूल्यात वाढ झाली आहे, अशी माहिती प्राइम डेटाबेस समूहाचे व्यवस्थापकीय संचालक प्रणव हल्लिया यांनी दिली.

अमेरिकेने व्याजदर वाढीचे संकेत दिल्यानंतर देशांतर्गत भांडवली बाजारात परदेशी संस्थात्मक गुंतवणूकदारांनी नफावसुलीला प्रधान्य देत निधीचे निर्गुंतवणूक सुरू केल्याचे दिसते आहे. चालू तिमाहीत आतापर्यंत ३८.५२१ कोटी रुपयांचा निधी काढून घेण्यात आला आहे. परिणामी, त्यांच्याकडील समभाग

हिस्सा घटल्याने तो २१.४६ टक्क्यांवरून कमी होत २०.७४ टक्क्यांवर आला आहे. त्याने नऊ वर्षांचा तळ गाठला गेला आहे.

राष्ट्रीय शेअर बाजारातील १,७६८ नोंदणीकृत कंपन्यांपैकी, १,७१४ कंपन्यांमधील भागभांडवली हिस्सेदारीचा प्राइम डेटाबेसने अभ्यास केला आहे. देशांतर्गत म्युच्युअल फंडाकडूनदेखील भांडवली बाजारात गुंतवणूकीचा ओघ कायम असून डिसेंबरमध्ये ५१,९०९ कोटी रुपयांची गुंतवणूक करण्यात आली आहे. त्यामध्ये डिसेंबर महिन्यात ७.४७ टक्क्यांची वाढ नोंदवण्यात आली असून एकूण गुंतवणूक १९.३६ लाख कोटीवर पोहोचली आहे, जी सप्टेंबर २०२१ मध्ये १८.७५ लाख कोटी रुपये होती.

महिला नेतृत्वाचा जागतिक डंका!

लोकसत्ता व्यापार प्रतिनिधी

मुंबई : देशातील उद्योग जगतातील महत्त्वाच्या पदांवर महिलांची संख्या वाढली आहे, मात्र संचालक मंडळांच्या अध्यक्षपदी कार्यरत असलेल्या महिलांची संख्या कमी आहे, अशी माहिती 'डेलॉइट ग्लोबलच्या 'वुमन इन द वर्डोर्डूम' अहवालाच्या सातव्या आवृत्तीतून समोर आली आहे.

जागतिक पातळीवर कंपन्यांच्या संचालक मंडळांमध्ये १९.७ टक्के महिलांचा समावेश आहे, त्यामध्ये २०१८ च्या तुलनेत २.८ टक्क्यांनी वाढ झाली आहे. तर २०१६ च्या तुलनेत फक्त १.९ टक्क्यांची वाढ झाली आहे. मात्र २०१५ पर्यंत संचालक मंडळातील महिलांचा समावेश पुरुषांच्या बरोबरीने असेल, असे अहवालात नमूद करण्यात आले

आहे. ऑस्ट्रेऱ्या, कॅनडा, आयर्लंड, इटली, पोलंड, पोर्तुगाल, स्पेन, इंग्लंड आणि अमेरिकेमध्ये कंपन्यांच्या संचालक मंडळांमध्ये महिला सदस्यांचा मोठ्या प्रमाणावर समावेश झाला आहे.

डेलॉइट ग्लोबलच्या ह्युमन इन द वर्डोर्डूम अहवालासाठी भारतासह जगभरातील ७२ देशांतील परिस्थितीचे अध्ययन करण्यात आले आहे. भारतातील कंपन्यांच्या संचालक मंडळात १७.१ टक्के जागा महिलांकडे आहेत. भारतामध्ये कंपनी कायदा २०१३ नुसार, प्रत्येक कंपनीच्या संचालक मंडळात किमान एका महिलेचा समावेश असावा असा कायदा करण्यात आला आहे. मात्र संचालक मंडळाच्या नेतृत्वपद अर्थात कंपनीच्या अध्यक्षपदी फक्त ३.६ टक्के महिला कार्यरत आहेत. २०१८ पासून त्यात ०.९ टक्क्यांची घसरण

झाली आहे. भारतात सरलेल्या वर्षात म्हणजेच २०२१ मध्ये संचालक मंडळांमध्ये महिलांच्या टक्केवारीत घट झाली आहे. मात्र मुख्य कार्यकारी अधिकारी (सीईओ) म्हणून कार्यरत महिलांची टक्केवारी २०१८ मधील ३.४ टक्क्यांच्या तुलनेत सुधारून ४.७ टक्क्यांवर पोहोचली आहे.

याचबरोबर भारतात, महिला संचालकांचा सरासरी कार्यकाळ २०१८ मधील ५ वर्षांच्या तुलनेत किरकोळ वाढून २०२१ मध्ये सरासरी ५ वर्षे १ महिना असा आहे, असेही अहवालात म्हटले आहे. भारतीय नियामकांनी कंपन्यांमध्ये महत्त्वाच्या पदांवर महिलांच्या प्रतिनिधित्वाला प्रोत्साहन देण्यासाठी एक कायद्याने बंधनकारक चौकट तयार केली आहे. मात्र योजने गेलेले उपाय आणि प्रत्यक्ष परिस्थितीमध्ये खूप मोठे अंतर आहे.
