# CIDCO completes 12-storey tower in Mumbai with advanced precast tech

**FE BUREAU**  
New Delhi, July 25

CIDCO HAS COMPLETED the construction of a 12-storey residential tower with 96 tenements at Bamandongri in Navi Mumbai in just 96 days using world renowned advanced precast technology.

The precast technology is touted as the future of residential towers for mechanised rapid construction with superior quality based on controlled manufacturing in a factory environment. With this achievement, CIDCO has set a new landmark in mass housing, thereby fulfilling the motto of PMAY scheme 'housing for all' in a speediest way.

CIDCO had set a target of 'Mission 96', of completing the construction in short time. Accordingly, contractor Larsen & Toubro used precast technology for ultra-rapid construction to build safe and durable homes.

# Aspire for 50% female directors at firms: Goyal

**FE BUREAU**  
New Delhi, July 25

COMPANIES SHOULD ASPIRE to have as many as 50% female directors on their boards, commerce and industry minister Piyush Goyal said on Monday, even as he argued against any reservation policy based solely on gender.

"Unless we set ambitious goals, we are not going to achieve much. We should be aspiring for 50% of directors of companies to be women, not by reservation but by their merit, by choice. We should also be aspiring for 50% of businesses to be owned by women, through the sheer dint of their capabilities," Goyal said.

Speaking at an event organised by the FICCI Ladies' Organisation, Goyal said reservations based on gender won't take the country further. "That will only mean a sarpanch making his

wife a sarpanch, or a chief minister — as we have seen in the past — making his wife a dummy chief minister," he said.

"We should rather have the Sushma Swarajs of the world as role models for women, or Smriti Irani in our times or a

finance minister like Nirmala Sitharaman becoming a role model, who didn't come through reservations but through sheer dint of their hard work, dedication, commitment and capabilities. That's the women of tomorrow," Goyal added.

According to the seventh edition of Deloitte Global's Women in the Boardroom report released earlier this year, women held 17.1% of the board seats in India. The number has risen by 9.4 percentage points from the 2014 edition, the year when the Companies Act made it mandatory to have one woman member on every board.

Goyal said India will emerge as a \$30-trillion economy in the next 30 years, compared with over \$3 trillion now.

He said the government is working actively with different countries to finalise free trade agreement (FTA) and talks with the UK are in final stages.

# IARI introduces 3 new basmati rice varieties

**SANDIP DAS**  
New Delhi, July 25

TO BOOST EXPORT prospects and reduce pesticide usage, the Indian Agricultural Research Institute (IARI) has this kharif season distributed seeds of three new varieties of basmati rice, which possess inbuilt resistance to bacterial blight and blast diseases.

IARI, Pusa, Delhi, an institute affiliated to the Indian Council for Agricultural Research, has supplied seeds to farmers of improved PB1847, PB1885 and PB1886 rice varieties, in which two genes have been inserted, which could withstand the attack of bacterial blight and blast diseases that adversely impact the crop yield.

According to AK Singh, director, IARI, three varieties would gradually replace the existing basmati rice varieties PB1121, PB1509 and PB6, which are cultivated in more than 90% of the about 2 million hectares of aromatic and long-grain rice-grown area.

"Existing key varieties over the years have developed resistance to bacterial blight and blast diseases, leading to excessive use of pesticides by farmers, thus increasing reports of rejection of export consignments due to presence of pesticide residue," Singh told FE.

He said field trials of new varieties were conducted at select farmers' fields last year and after getting encouraging results, the seeds for new varieties have been given to farmers for further multiplication this kharif season in key growing areas of Punjab, Haryana and western Uttar Pradesh.

Scientists say that for managing bacterial blight disease and blast, farmers use antibiotics and fungicides, which is not a sustainable approach. There are several instances of consignments of India's basmati rice being rejected by importing countries due to presence of pesticide residue in the crop. While the high-yielding and larger-grained PB1121 variety was certified as basmati rice in 2008, the PB1509, which takes fewer weeks to mature, was released in 2013. PB6 was released in 2008.

The PB1121 and PB1509 varieties have a share of 70% in India's basmati rice exports.

"Newly-introduced basmati rice varieties are expected to hugely reduce pesticide consumption and improve the quality of rice," Vijay Setia, former president of the All India Rice Exporters Association and an exporter, said.

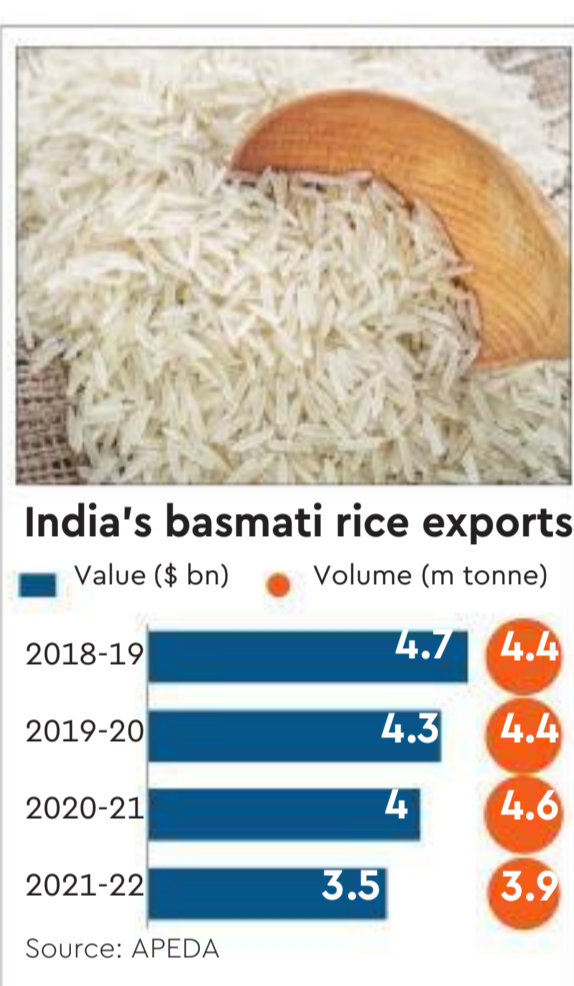

Basmati rice exporters in association with the Agricultural and Processed Food Products Development Authority, have initiated outreach programmes to optimise use of pesticides by farmers.

India exported 3.9 million tonne of Basmati rice worth \$ 3.54 billion in 2021-22. Shipments to the top 10 countries — Iran, Saudi Arabia, Iraq, the United Arab Emirates, the US, Yemen, Kuwait, the UK, Oman and Qatar have a share of more than 81% in India's volume of exports of basmati rice.

According to an analysis by IARI of the economic value accrued because of basmati rice, ₹1.66 trillion worth of export earnings between 2010 and 2019 were from the shipments of PB1121 and PB1509 rice varieties, while domestic sales were to the tune of ₹51,501 crore in the same period.
