AMID TURBULENCE

# SpiceJet gets over ₹900 cr funding

FE BUREAU  
New Delhi, January 29

WITH MORE THAN ₹900 crore funding coming in this month, SpiceJet will focus on upgradation of its fleet and cost-cutting measures, as the no-frills airline works on ways to come out of turbulent times.

In an internal note to the senior staff on Monday, the airline said it now has a substantial bank balance of more than ₹900 crore, including ₹160 crore received as an instalment under the government's emergency credit line guarantee scheme (ECLGS).

The latest instalment came recently after its chairman and managing director Ajay Singh infused funds into the airline. Singh has so far put in ₹200 crore out of the ₹500 crore fund infusion that he had announced last year.

Last week, the airline announced it has received the first tranche of ₹744 crore as part of the total ₹2,250 crore through mopped up through

TAKING OFF

SpiceJet has so far received around ₹1,000 crore under the emergency credit line guarantee scheme

Chairman and MD Ajay Singh has put in ₹200 crore of the ₹500 crore infusion he announced last year

Last week, SpiceJet got first tranche of ₹744 cr of ₹2,250 cr being mopped up via issuance of securities on a preferential basis

Around ₹900 cr current bank balance to be spent on fleet upgradation and cost-cutting measures

issuance of securities on a preferential basis.

On December 12, the airline said it would raise fresh capital of ₹2,250 crore through issuance of securities.

## Airline to pay \$4 mn to lessors by Feb 15

THE DELHI high court on Monday asked SpiceJet to pay \$4 million to its engine lessors Team France 01 SA and Sunbird France 02 SAS by February 15.

that it can pay \$1 million upfront and the balance in a staggered manner. SpiceJet is supposed to pay \$11 million to the lessors. The case will be next heard on February 22.

# Vodafone Idea Q3 loss narrows to ₹6,986 crore

JATIN GROVER  
New Delhi, January 29

VODAFONE IDEA'S NET LOSS for the October-December quarter narrowed to ₹6,986 crore from ₹8,738 crore in the preceding quarter.

This was owing to a fall in total expenses as well as one-time gain of ₹755.5 crore based on the recent order by the Telecom Disputes Settlement and Appellate Tribunal (TDSAT), which asked the department of telecommunications (DoT) to adjust the amount towards its licence fee and spectrum usage charges.

A reduction in the finance cost, which includes interest and charges on borrowings; network expenses, licence fee and spectrum usage charges, depreciation, among other expenses, also helped the company's losses to narrow during the quarter.

Bloomberg had estimated the company's net losses to narrow to ₹7,398 crore. Vodafone Idea's revenue from operations fell 0.4% q-o-q to ₹10,673.1 crore, missing the Bloomberg estimate of a sequential increase of 2.2% to ₹10,958 crore.

Revenue from operations

MAKING WAVES

rose 0.5% year-on-year, owing to improvement in subscriber mix, 4G subscriber additions and increase in entry level tariffs. The company lost 4.6 million mobile subscribers, taking its user base to 215.2 million at the end of December.

The blended churn of subscribers rose to 4.3% during the quarter compared to 4.1% in the July-September period.

Consolidated Ebitda surpassed the estimates at ₹4,350 crore and rose 1.6% sequentially due to a fall in operating expenses like network

expenses, roaming and access charges, and licence fee. Bloomberg had pegged the Ebitda at ₹4,233 crore. Ebitda margin expanded 80 basis points to 40.8% from 40% in the preceding quarter. Owing to weak financial performance during the quarter, high debt levels, muted cash flow position, the auditors of Vodafone Idea continue to flag uncertainty on the company's ability to continue as a going concern. The company's capex spend for the quarter stood at ₹330 crore.

# Airtel adds 4 million 4G/5G users in Nov, max in 2 years

JATIN GROVER  
New Delhi, January 29

INDIA'S SECOND LARGEST telecom operator Bharti Airtel has added 3.98 million 4G/5G users in November, the highest in 27 months, according to data from the Telecom Regulatory Authority of India (Trai). Out of the total 379.8 million subscribers, the company's wireless broadband, which largely includes 4G subscribers at the end of November were at 255.07 million, compared to 251.1 million in October, Trai data showed.

The trend assumes significance in the sense that in October, Airtel added only 520,000 4G/5G users, which were its lowest in 18 months. The increase in 4G additions in November can be attributed to the overall subscriber base additions in the industry, as well as migration from the low end or 2G subscribers to 4G/5G, which also means a feature phone to smartphone shift.

The company, however, continued to lose active subscribers for the second straight month in November. During the month, the company lost 432,941 subscribers, taking its active subscriber count to 374.52 million.

STRONG CONNECTION

4G/5G user additions

Month	Vodafone Idea	Bharti Airtel	Reliance Jio
November	126.63	255.07	455.82
October	125.67	251.09	452.37
September	126.5	250.57	449.21
August	125.54	246.99	445.73
July	124.27	244.41	442.69
June	124.89	241.52	438.58

Source: Trai \*Vodafone Idea has not launched 5G yet

In October, the telecom operator reported a 1.2 million dip in active subscribers, which was its highest in 18 months. At that time, analysts had said that it was a one-time phenomena and did not lead to concerns over the company's fundamentals.

Airtel overall added 1.7 million subscribers, which also includes 2G services, thereby taking its total base to 379.8 million at the end of November. Market leader Jio, whose network is completely on 4G/5G, continued to lead the subscriber additions in November. The telecom operator added 3.45 million subscribers during the month,

higher than 3.1 million in October. Its total subscriber base was at 455.81 million at the end of November.

Vodafone Idea too added 0.96 million 4G subscribers, compared to a loss of 830,000 4G subscribers in October. Its 4G base as of November end was at 126.6 million. The telecom operator, however, continued to lose overall net mobile additions for 32 months. In November, Vodafone Idea lost over 1 million users, taking its total base to 224.4 million.

The subscriber base overall rose by nearly 3.2 million to 1.154 billion, which is the highest increase in 2.5 years.

RESULTS CORNER

**BPCL profit up 82% despite revenue loss**

BHARAT PETROLEUM Corp on Monday posted a 82% rise in net profit to ₹3,181.42 crore in December quarter from ₹1,747.01 crore in the same quarter of last fiscal as the company's marketing margins improved due to softening crude oil prices. The net profit however fell sequentially by 61% from ₹8,243.55 crore in Q2 FY24 due to inventory losses and lower gross refining margins.

— FE BUREAU

**Q3: Godfrey Phillips profit slips 2.26%**

CIGARETTE MAKER Godfrey Phillips India on Monday reported a decline of 2.26% in its consolidated net profit to ₹182.80 crore in the third quarter of FY24. The company had posted a net profit of ₹187.04 crore during the December quarter of the previous fiscal. Godfrey Phillips India, the flagship company of Modi Enterprises, also operates convenience store chain 24Seven.

— PTI

**Mahindra Logistics profit drops 26%**

MAHINDRA LOGISTICS on Monday reported a 26% year-on-year fall in standalone profit after tax to ₹12.5 crore in three months to December. The logistics arm of the Mahindra Group had posted a standalone PAT of ₹16.8 crore in the December period of the previous fiscal had, according to a company statement. Revenue in Q3 rose to ₹1,160 crore from ₹1,140 crore in the Q3 of FY23.

— PTI

**Profit of Adani Green more than doubles**

ADANI GREEN Energy said on Monday that its third-quarter profit more than doubled from a year earlier, helped by robust power sales to customers and higher capacity utilisation. It said its consolidated profit rose to ₹23.6 crore in the December quarter from ₹10.3 crore in the year-earlier period. The firm's shares, which fell 17.3% in 2023, were up 4.8% after the results.

— FE BUREAU

**Adani Energy Solutions net down 27%**

ADANI ENERGY Solution (AEMM) on Monday posted over 27% decline in its consolidated net profit to ₹348.25 crore in the December quarter compared to the year-ago period. The company had reported a consolidated net profit of ₹478.07 crore in the December quarter of FY23, driven by a one-time regulatory income of ₹240 crore.

— PTI

CORRIGENDUM

Statement of unaudited financial results for the quarter and nine months ended 31/12/2023 of Hitachi Energy India Limited was not published on Thursday January 25, 2024 as scheduled due to technical error. Therefore, the same was published on Friday January 26, 2024.

# 'Auto-parts aftermarket presents over \$35-b export opportunity'

**THE ROAD AHEAD.** ACMA report says the Indian market will grow to \$14 billion by 2028

**Our Bureau**  
New Delhi

The Indian automotive component companies have a huge potential in the exports markets and even if they focus on just 10 major export markets, they can do over \$35 billion worth of export opportunities.

Five of these markets - Indonesia, Latin America, Poland, Brazil, Columbia and Bangladesh - are matured at markets with a substantial number of ageing vehicles while another five markets - North Africa, South Africa, East Africa, West Africa and the United Arab Emirates (UAE) - together provide a robust opportunity for component exporters according to a report released by Automotive Component Manufacturers Association of India (ACMA) in partnership with Ernst & Young on Monday.

The report titled Global Automotive Aftermarket Research focused on seven product categories namely engine parts, suspension & braking parts, transmission parts, braking parts, rubber components, cooling systems and filters.

The report estimated the size of the Indian automotive aftermarket at \$10 billion in 2023; it is expected to grow 1.4 times to \$14 billion by 2028. Tyres and consumables such as batteries, coolants and lubricants are, however, not covered in the study.

**BUILDING PARTNERSHIPS**

"We as a community need to work on quality, cost, scale and digitisation. We are all working on these four areas...the Indian components suppliers need to focus on building partnerships with international buying groups to gain market access, invest in marketing and branding, increase digital presence, and build collaboration amongst the industry players

to provide their joint offerings to tap the global market opportunities", Shashi Suni Marwah, President ACMA, Chairman and Managing Director, Subros, told reporters.

The growth of the aftermarket in India is fuelled by a steady increase in the vehicle parc (registered vehicles in the country), which currently stands at 340 million and is expected to

grow at a CAGR of over eight per cent for the next five years, the report said.

The two-wheelers and passenger vehicles parc are projected to show robust growth from 257 to 365 million units and from around 47 to over 72 million units respectively by 2028, it said.

Pre-owned cars sales are projected to grow at a CAGR of

around 17.5 per cent until FY28. The commercial vehicle parc is expected to grow from 13 million units to 19 million units in 2028.

The tractor segment currently contributes close to \$1 billion to the Indian aftermarket and the parc is expected to grow from 14 million units to over 19 million units during the 2023-28, the report said.
