MINUTE BOOK

In FY 2018-19, India's economy grew by 6.8%, as compared to 7.1% during FY 2017-18. Slowdown signs have been visible since last year, with GDP growing 6.6 percent in October-December 2018. The International Monetary Fund (IMF), Asian Development Bank (ADB) and the Economy Survey, have cut their projection for India's economic growth to 7 per cent for 2019-20 due to subdued domestic demand and for the next financial year to 7.2 per cent.

However, the World Bank is still projecting India's GDP growth rate at 7.5 per cent for the next three financial years, including the current one.

While India's economy is growing at more than 7%, at the same time Indian auto industry has been passing through very tough times. A set of wide-ranging factors — from industry-specific challenges to policy resets and macro-economic factors to poor consumer sentiments, have converged to dent sales. Tight liquidity in the NBFC sector made things more difficult in an industry where financing plays a critical role — 80% of new cars and Tractors being sold are financed.

Multiple policy shocks have impacted sales. Some like demonetisation and GST affected India Inc at large and the NDA Government decision to jump from BS-IV to BS-VI emission norms by April 1, 2020.

The Auto Sector is investing over ₹ 70,000 Cr. to comply with the new Emission norms of BS-VI.

Further, the government announced that India will go 100% EV by 2030, sending shivers through the auto industry.

The new emission norms will push up prices across the board, making it tougher for consumers to buy.

The road ahead looks bleak. But it is also true that consumer sentiment, the biggest catalyst for consumption is so much more a matter of the heart than the hard reality of purchasing power. And that really is the best hope for Motown India that a stable government and rising economic sentiment could just reverse the tide for the industry.

Your Company in the last year had done remarkably well, the gross turnover of the company increased by 16.40% from ₹ 514.74 Crores in FY 2018 to ₹ 599.15 Crores in FY 2019. The Company has achieved a net profit of ₹ 12.53 Crores, as compared to a net profit of ₹ 6.30 Crores in the previous year.

Considering the last year results, your Company has recommended a dividend of 10% to the shareholders of the Company.

Further, a proposal has been made to acquire Xlerate Driveline India Limited, a Group Company in the business of Automotive clutches. The acquisition will give the Company an established setup for a clutch manufacturing capacity which is adequate for the future projected growth of the Company.

We continue to focus on our investment in technology upgradation and process innovations and adopting the latest technology in gear manufacturing. Through retro-fitting and re-furbishing of machines, we enhanced our productivity and improved efficiency in order to cater to the demand both domestically and internationally. We have taken up significant capital expansion programme over the last two fiscals.
