Commenting on the business, **Mr. Kayum Dhanani**, Managing Director, said:

*“We are happy to announce yet another remarkable quarterly operating performance at Barbeque Nation. The quarter started with a strong Omicron wave leading to dine-in operating restrictions. However, recovery post the 3<sup>rd</sup> wave was equally steep, leading to strong revenue growth during the quarter. Over last two and half years, the business has effectively sailed through 3 Covid waves led by strong resilience of the brand and the team. The business has structurally become more robust with strong Balance sheet, diversified revenue streams and profitable presence across multiple geographies and brands. We also ramped up our expansion with 12 new restaurants, taking overall store count to 185 restaurants. With various strategic initiatives envisaged during the current financial year, we are well poised to continue our growth trajectory in the future.”*

Commenting on the performance, **Mr. Rahul Agrawal**, CEO, said:

*“The dominance of Omicron wave, multiyear high inflation and challenges in supply chain had led to challenging operating environment during the quarter. Despite these challenges, Barbeque Nation has continued its growth journey with strong y-o-y annual growth in its dine-in & delivery revenues and margins. We continue to invest in expanding our restaurant network and have reached 185 restaurants as on March 2022. We intend to continue this momentum and expect to add 35-40 new restaurants during FY23 and another 80 restaurants by FY25. Over the last two years, the Company has demonstrated strong track record of new business verticals like UBQ, BBQ International and Toscano. With a strong balance sheet and operating strength, our prime focus will be to continue our expansion and provide best-in-class dining & delivery experience to our guests whilst creating value for all our stakeholders.”*
