Vaz, Mani and Gupta to head RIL-Disney JV

The ₹70,000-cr media giant is likely to transform entertainment in India

Lata Jha & Gaurav Laghate
MUMBAI & NEW DELHI

Mukesh Ambani's Reliance Industries Ltd (RIL) and The Walt Disney Co. announced on Thursday that they have completed the merger of their media arms.

The new joint venture (JV) will be spearheaded by three chief executives: Kevin Vaz will head the entertainment organization across platforms; Kiran Mani will take charge of the combined digital organization; and Sanjog Gupta will lead the combined sports organization.

The JV, or merger of Viacom18 Media Pvt. Ltd's media and JioCinema businesses into Star India Pvt. Ltd, has become effective, with RIL investing ₹11,500 crore in the JV for its growth, the two companies said in a statement. The JV has allotted shares to Viacom18 and RIL as consideration for the assets and cash, respectively.

The transaction values the new entity at ₹70,352 crore on a post-money basis, excluding synergies. At the closing of the transactions, the Reliance-controlled JV was owned by RIL at 16.34%, Viacom18 at 46.82%, and Disney at 36.84%. Nita M. Ambani will serve as the JV's chairperson, with Uday Shankar as vice chairperson offering strategic guidance.

In a separate transaction, RIL bought Paramount Global's 13.01% stake in Viacom18 for ₹ 4,286 crore. As a result, Viacom18 is owned 70.49% by RIL, 13.54% by Network18 Media & Investments Ltd, and 15.97% by Bodhi Tree Systems on a fully diluted basis.

The statement said the joint entity that would result in the combination of networks such as Star and Colors on the television front and JioCinema and Hotstar on the digital front will make for one of the largest media and entertainment companies in the country, with *pro forma* com-

combined revenue of approximately ₹26,000 crore for the year ended March.

The JV operates over 100 TV channels and annually produces over 30,000 hours of TV entertainment content. The JioCinema and Hotstar digital platforms have an aggregate subscription base of over 50 million. The JV holds a portfolio of sports rights across cricket, football, and other sports.

"With the formation of this JV, the Indian media and entertainment industry is entering a transformational era. Our deep creative expertise and relationship with Disney, along with our unmatched understanding of the Indian consumer, will ensure unparalleled content choices at affordable prices for Indian viewers," Mukesh Ambani, chairman and managing director of RIL, said in the statement.

The CCI approved the transaction on 27 August, subject to compliance with certain voluntary modifications offered by the parties. The companies said that in addition to the CCI, anti-trust authorities in the European Union, China, Turkey,

South Korea, and Ukraine have approved the transaction.

"This is an exciting moment for our two companies, as well as for India's consumers, as we create one of the top entertainment entities in the country through this JV," Robert A. Iger, chief executive of The Walt Disney Co., said in the statement.

The merger of Viacom18 and Star India offers a unique opportunity to reorient the industry to better serve diverse cohorts of consumers across the country. Uday Shankar, co-founder of Bodhi Tree Systems, said, "By joining forces with RIL, we are able to expand our presence in this important media market and deliver viewers an even more robust portfolio of entertainment, sports content, and digital services," Shankar added.

The combined might of Reliance and Disney could set competition up at a disadvantage as far as bargaining power for TV advertisement rates goes, considering that the new entity would have the biggest pie of the market at 40-45%, according to experts. The deal will give RIL access to Disney's massive libraries in English language, including its Marvel catalogue.

'Revised norms will benefit big auditors'

Gireesh Chandra Prasad
gireesh.p@livemint.com
NEW DELHI

Proposed revisions in the audit standard for consolidated financial statements of business groups could lead to the concentration of the audit market around big audit firms at the expense of other auditors, said an official of the Institute of Chartered Accountants of India (ICAI), the profession's self-regulator and rule maker.

A senior ICAI official said the existing standard framed by it, SA600, has served well for the last 22 years and a few corporate scandals cited in a public feedback note for a proposed revision are aberrations, and must not be a basis for change. Audit concentration refers to a big chunk of the audit market going to top firms, a trend seen in the US and the UK.

National Financial Reporting Authority's (NFRA) has decided to propose notification of 40 revised audit standards issued by ICAI, in spite of objections from the account-

The existing standard has served well for the past 22 years and scandals are aberrations, a senior ICAI official said. ISTOCKPHOTO

ants' body to the revisions to two of these—SA600 dealing with group financial statements and SA299 that deals with joint audits. Joint audits are done for public sector companies, state-run banks and large listed companies.

NFRA recommended the implementation of revisions to the government from 1 April 2026, the ministry of corporate affairs said in a statement.

NFRA wants the lead auditor to be responsible for the consolidated financial statements even if subsidiaries are

audited by others in order to improve accountability of auditors and to prevent instances of promoters siphoning off company funds.

Some in the audit and professional services industry supported NFRA's proposals. "SA600 will enhance reliability of financial statements by getting the principal auditor to take more responsibility, whoever that firm is big or small," said Vishesh C. Chandiook, CEO, Grant Thornton Bharat.

The current norm on joint audits issued by ICAI says that

work will be divided and individual auditors will be responsible for their respective work. Where there is joint work, they will be jointly responsible.

The revised standard recommended by NFRA to government suggests that each of the joint auditors will be responsible for the full work.

"This will lead to duplication of work and cost," said the ICAI official.

"In the case of SA600, our view is that the principal auditor (who audits the holding company) should not be responsible for the component auditor (who audits the subsidiary) even if the former can ask questions about the latter's work," said the official.

"Companies Act allows subsidiaries to be audited by any auditor. By making the principal auditor responsible for the subsidiary's audit, the most valuable companies in the country will be audited by top audit firms. We want a level-playing field, and all auditors should be equal. ICAI's mandate includes both regulation and development of the profession," he added.

CCPA orders investigation into Ola Electric

NEW DELHI

Signalling mounting trouble for Ola Electric, the Central Consumer Protection Authority (CCPA) has ordered a detailed probe into alleged "deficiencies" in the company's services and products, specifically regarding its scooters. This move follows Ola's response to earlier regulatory notices on unresolved customer grievances.

The top consumer rights regulator has directed the Bureau of Indian Standards (BIS) to verify the company's

claims regarding its resolution of customer grievances, consumer affairs secretary Nidhi Khare said on Thursday.

The BIS director general, who is the *ex-officio* director general of investigation, has been instructed to submit a report within 15 days, with the inquiry initiated on 6 November. Ola Electric did not immediately respond to requests for comment on Thursday.

The investigation was trig-

gered by a surge in complaints—10,644—against Ola Electric with the National Consumer Helpline (NCH) from September 2023 to August 2024.

Ola Electric, in a response dated 21 October, claimed that 99.1% of customers reported satisfaction with its complaint resolution process. The CCPA had then reached out to a sample of consumers to seek their feedback on grievance redressal.

"Of 287 consumers, the

NCH call agents called, 130 consumers were connected, and of which (79.2%) 103 were not satisfied with the company's response," said an official, requesting anonymity. "It was just a sample testing to verify the claims of Ola. If they are claiming 99% satisfaction, it should have also reflected in the cross-verification."

Many customers reported that issues persisted even after complaints were addressed, with some cases being closed prematurely without a satisfactory result, the official added.
