**Ladies and Gentlemen,**

It gives me great pleasure to welcome you to the 28<sup>th</sup> Annual General Meeting of your Company.

**Industry Outlook**

The IT industry is at an inflection point due to disruptive emerging technologies. This has resulted in IT companies getting opportunities for rapid growth.

As per a survey done in 2022 by a leading Indian IT industry body, FY 2022 is a tipping point for the IT industry – the year in which the industry crossed \$200 Bn in total revenue and 5 Mn in the total workforce. It also says the focus areas will be around customer service, supply chain, and sales & marketing. end-user enterprises are emerging as technology job creators – about 30% of respondents intend to increase their technology team by over 15%. The pandemic has further disrupted the entire world. The IT industry has provided innovative solutions to overcome this disruption by giving the WFH option.

FY 2023 growth opportunities: Infrastructure and managed services, consulting; Platform BPM, data management & RPA; ER&D will see deeper penetration of the engineering Cloud. The software product segment will see a greater offtake of productivity software and cybersecurity solutions. Finally, the eCommerce industry is set to get further disrupted by the fast-growing interest around metaverse, driven by the need for more personalized experiences.

**India Outlook**

India's GDP for FY2022 is estimated at 9.2% as per the Government of India's Economic Survey 2021-22.

As a result of the shifts forced by the pandemic, 2021 saw the emergence of six major global megatrends that will refocus policies, strategies, and investments on a global scale, not just in 2022, but for the coming 5-to 8 years and even beyond. These trends include Global Talent Pool Transformation, Global Supply Chain Replanning, Global Big Tech Regulation, ESG-Led Business Models, Formalization of Circular Economy, Industrial Revolution 4.0

**Company Outlook**

As stated earlier, Allied Digital has transformed, and we had envisaged a "Disruption Driven" model since January 2020 due to rapid change in emerging technologies. In March 2020 the world was affected by the Corona Pandemic which accelerated disruption in all business models.

Our philosophy of the "Remote First" model since 2007 has helped us in a big way.

When the industry was laying off people, we hired 1000+ employees during the pandemic. We believe in the adage "Small pain and long gain" and have undergone a complete internal transformation which has put our company on the fast growth path to address the newer challenges enforced by disruption.

Our financial results in the year in question have been stellar with a 217% increase in PAT on a Y-O-Y basis and EPS is ₹ 11.66 with face value of ₹ 5 per share.

Hence, I am pleased to announce a **20% dividend** to our shareholders.

We have restructured the company's Line of Business into 6 towers namely:

1. Cloud Services	4. Infrastructure Management Services
2. Cybersecurity	5. Software Solutions
3. Smart City Solutions	6. Workplace Management Services

**Cloud Services**

There is a megatrend to move technology platform from on-premises to cloud and from a CAPEX model to OPEX model, in this new trend one must pay on use basis which reduces CAPEX costs, Cloud technologies are very robust and mature now hence there is a mad rush to move most business to Cloud, Cloud technologies have also changed in an unprecedented way rapidly by creating Cloud-native platform.

Cloud-native has created humongous opportunities to re-write the software to modernize their applications and this change is

inevitable and unstoppable. We have fully geared up to address these new opportunities of Cloud migration and Managed services.

### Cybersecurity

Virtualization under Cloud and WFH has exposed all to cyberthreats. Threat actors are rapidly growing by creating the latest and very sophisticated attacks like ransomware to siphon off money and MSME/Large companies are also not spared. This has created big opportunities for IT companies like us to combat such threats by incorporating several measures starting from consulting audits, implementation of cybersecurity, and Managed security services from Security Operations Center (SOC). Your company is well-positioned by pre-empting this well in advance and had created SOC in 2007 and put itself ahead of its competition. There is a significant opportunity for everyone and there will be non-discretionary expenditure to avoid and combat cyberattacks. Your company is poised to have significant growth in this space with its readiness and by taking an early mover advantage.

### Smart City Solutions

Allied Digital has been reckoned as a Master Systems Integrator in this country and is also considered a pioneer and market leader. The 1<sup>st</sup> Safe/Smart city was implemented in 2014/15 by making the entire Pune & PCMC cities digital. The world-class state-of-the-art Command and control center (CCC) has been implemented to monitor the entire city.

We have created the best world-class practices and capacity to address several Smart City project opportunities under Central Government initiatives of making 100 Smart Cities. We have already bagged several Smart city projects till now and are on the verge of exponential growth.

### Infrastructure Management Services (IMS)

Allied Digital was incepted in 1984 and started supporting mainframe computers in the pre-PC era and was amongst the first 3 IT companies in India with a focus on IMS as a 3<sup>rd</sup> party support provider and created an annuity business model by signing multi-year contracts.

DNA of Allied Digital is technology, and it provides IT services which is a high-margin recurring revenue annuity business. Your company has already booked Rs.2000+ crore pure services revenue for the next 5 years across the globe. We have established NOC/SOC and a Global service delivery center in Mumbai to support companies. This is our legacy business since its inception. Currently, many large companies are consolidating their multiple service providers to a single service provider by novation of all existing contracts. We have bagged 1 very large contract in the USA to support one of the largest auto manufacturers across the globe by replacing hundreds of contractors. Similarly, we have also bagged a large multi-year contract of IMS of one of India's largest

conglomerates having 11 group companies.

Novation of several contracts has been done with Allied Digital as an IMS service provider. This trend is going to grow which will open large opportunities for your company to address this lucrative business. We have world best practices and service governance which is exemplary.

### Software Solutions

Today Allied Digital can boast to have created 2 large, patented platforms "ADiTaaS" and "FinoAllied".

ADiTaaS is a homegrown comprehensive service management platform that is used globally by many customers and certified by PinkVERIFY certifying authority and is part of an elite club of 53 global PinkVERIFY certified companies.

We have created a path-breaking FinoAllied platform by developing an innovative Conversational Banking platform in the fintech vertical. This platform can get extended to insurance and other industries where transactions could be done by using conversational bots. This platform uses emerging technologies like NLP, AI/ML, Blockchain, Data Analytics, and Data Science.

We are highly excited to look out for opportunities by using these disruptive technologies with its specially trained and reskilled teams. We will be a part of Industrial Revolution 4.0 to solve complex industry problems.

We have heavily invested in a skilled workforce and are very optimistic to reap the benefits by leveraging these disruptive digital technologies.

### Workplace Management Services

The pandemic has created a new normal and proved that the physical location from where you operate is no more important than it was earlier. The new norm of WFA has become the new normal.

Remote First concept which we created in 2007 has helped us to move the workforce to WFA seamlessly and our brilliant measures have also helped customers to move the workforce to WFA without any disruption. Allied Digital was amongst the first ones to understand this challenging environment during the pandemic to help address clients to work under "Zero trust", "PAC" privilege access rights, Single Sign-on (SSO) and endpoint security, etc. We believe that edge devices including Workplace management will not be owned by Cloud service providers and such business will always be taken care of by experienced companies like Allied Digital. We are very bullish about this tower and hence we have opened wholly-owned subsidiaries in the USA, Australia, Singapore, UK, Brazil, China, Ireland, and Japan.

We have a very strong belief to provide the best support since we have a direct presence. Effectively we have a direct footprint across the globe. This has created a pull model for us to be leveraged by multiple service providers.

## NEW CHAMPION at World Economic Forum

Allied Digital is now recognized under the New Champions program by the **World Economic Forum (WEF)**. The New Champions program is one of the latest initiatives of the Forum where technology companies like Allied Digital can make a difference in the world in the coming years. Several white papers created by us have been published by WEF. This will help us collaborate with players globally to penetrate the wider business opportunities and increase our global visibility.

## SDG and ESG

The Sustainable Development Goals (SDG) or Global Goals are a collection of 17 interlinked global goals designed to be a “blueprint to achieve a better and more sustainable future for all”. The SDGs were set up in 2015 by the United Nations General Assembly and are intended to be achieved by 2030.

Environmental, social, and corporate governance (ESG) is an approach to evaluating the extent to which a corporation works on behalf of social goals that go beyond the role of a corporation to maximize profits on behalf of the corporation’s shareholders.

**SDGs are global goals set out by the United Nations, whereas ESG is a rating system used by companies to measure their environmental and social credentials.**

As a Global Corporate Citizen, Allied Digital has been doing several such activities and has adopted fair governance as its core value in its value pyramid of 7 layers and plays an active role in public-facing technology projects such as smart cities. Your company has been listing these activities but from this year plans to formalize and report these activities under the global ESG metrics framework. To achieve Net Zero carbon emissions, we will be conscious to control carbon emissions to achieve our corporate goals.

## CSR

Your company firmly believes in its Corporate Social Responsibility and is helping the community with suitable donations and assistance towards needy causes like food, education, healthcare, religious nature, etc.

The Padma Pragna Private Trust set up in 2008, helps students from humble backgrounds get an education and offers healthcare facilities for the underprivileged. We ensure that 2% of our net profit is utilized for CSR as per government norms.

## Awards and Accolades

Our progress has been appreciated and has resulted in several awards and accolades being given to your company. (See details on Page No. 9)

## Outlook

The world is moving towards Digital which is reflected in our Company's name - **Allied Digital** and our genes giving us an early mover advantage for Digital Transformation. Metaverse is the exciting new phase that would help transition the world from physical to Digital. By providing various digital solutions to take care of client needs, we foresee a market leader status in the digital world.

We are thankful to all our investors for supporting our endeavours and are looking forward to continued support for our bright future.

With warm regards,

## Nitin Shah

Chairman and Managing Director

**Dear Investors,**

The financial year 2021-22 has been a high growth trajectory year for your company as earlier. The COVID-19 pandemic impact that we saw in the previous year continued in the current year with the global economies partially re-opening. This saw a transition from work-from-home culture to a hybrid environment. The reopening of businesses has led to a huge increase in demand for IT services and solutions globally. The IT industry is now considered a growth driver for businesses across all verticals. Digital Transformation is at the forefront priority of all CIOs, CTOs, and CFOs.

The direct global presence in multiple countries has started generating revenues and we foresee a huge opportunity for additional business. Our global footprint is pivotal in making us a preferred service provider to our clients having a multi-country presence.

India's business has also seen good traction this year. In the solutions vertical we have bagged 5 new cities in the Smart/Safe City domain. We are also the selected partner for providing Operations and Maintenance support for a large Emergency Response System in India. We are constantly striving to expand our solutions offerings in the enterprise vertical by targeting sectors like BFSI, Manufacturing, and Hospitality industries. Our partner-driven business in the managed services space has

opened various new avenues for us like application support services, cloud services, and cyber security.

I am pleased to highlight a very encouraging financial performance during the previous year, the overall consolidated top line increased by 35% in comparison to the earlier year's turnover. Corresponding to that we achieved a quantum jump in EBITDA margin of ₹ 72.61 Crs as against the previous year's amount of ₹ 48.73 Crs. PBT for the year was INR 73.52 Crs with a jump of 213% as against the previous year's number. PAT for the year increased by 217% as against the previous year's achievement. Even before the exceptional income of INR 23.80 Crs, our PAT jumped by 94%.

Further to highlight, your company granted ESOPs to its deserving employees and booked the notional loss of about INR 7 Crs. The above financial numbers are after booking of such notional expenses. The overall EPS also increased considerably to INR 11.66 per equity share of Rs. 5/- each in comparison to last year's EPS of INR 3.82 per share.

In our constant endeavor to reduce the debt and optimize the finance cost, we are pleased to inform you that presently we are an almost debt-free company and could reduce overall finance costs drastically.

Considering the strong order book position, above new wins, and its recently launched conventional banking tool "FinoAllied", your company expects to have promising financial results in upcoming years.

With warm regards,

**Prakash Shah**  
Whole-time Director

**Ladies and Gentlemen,**

It gives me great pleasure to welcome you to the 28th Annual General Meeting of your Company.

This year has been a one of the fantastic year where your company has achieved its best performance amid various global challenges.

**Outlook**

Your company is a well-established player in the IT Managed Services space and is a leading Master System Integrator in the country and globally. Digital Disruption is the way forward and your company is at the forefront with market-leading offerings. We are focusing on 6 key growth engines.

1. Infrastructure Management Services
2. Master System Integration
3. Workplace Management
4. Cloud Services
5. Cyber security
6. Software Services

This ensures our service offerings are future-proof. Our new offering in cybersecurity, "AIM 360" is fast gaining market attraction amid exploding demand for cybersecurity and governance.

Innovation, being an important pillar for growth, we have been hugely successful in developing our first conversational AI-based platform "FinoAllied." Your company got recognized for this product innovation by a major banking agency in India.

**Expansion**

Your company has extended its global footprint with our new offices in Japan, China and Brazil that has already started generating business, which we see as important markets for us. We are already well established across the Americas, Asia, Europe, the Middle East, and Australia.

**Financials**

The Operating revenue growth of the company has been stellar during the year in question and our revenue has grown to Rs.485 crores in 21-22. (35% growth on a Y-O-Y basis), with a very strong bottom line of 61 crore in year 2021 with a quantum jump of 217 % on Y-O-Y basis.

We have won large multi-year service deals from the World's leading German-based supplier of luxury cars and commercial vehicles and one of India's largest manufacturing conglomerates amongst others with annual price escalation to ensure healthy sales growth for the coming years. This stupendous performance has been also a result of keeping our operational expenses under strict control in these testing times and reducing our finance costs. We hope to achieve better results in the coming years and continue the growth path.

**Dividend**

Even as we focused on our employees' safety and customers' success, we drove focused action on deceleration in revenues in the hands of our stakeholders and thank them for being patient with our journey, accordingly your company has proposed its highest ever dividend of 20% on face value of INR 5/share.

**New systems and portals**

As your company is growing and adding more revenue, there are lot of new systems and processes being deployed to continuously better the governance. In this regards your company is moving to SAP HANA to manage and monitor day to day transactions for business continuity.

At Allied Digital we always believe in the fact that we succeed because of our employees, and they come FIRST. We have transformed our organization internally by making the employees "Future-ready" through motivation, training, and empowerment.

To enhance efficiency of the employees your company has invested in HRMS (Human Resources Management Software), which would help in managing manpower.

While industry attrition rates are in the range of more than 23-25%, we have a low attrition rate of 13 % and have added around 1000+ employees during the year in question.

### CSR

Your Company has taken up various CSR Activities which includes Employee's Vaccinations & Donations.

Vaccination drive took place at Allied's offices at Mumbai, Pune & Kolkata. Vaccine Doses 1&2 were given to ensure all the employees and their family members were vaccinated. Your company has also donated to multiple Charitable Trust for grain distributions to various under privileged.

### ESG

ESG is the acronym for Environmental, Social, and (Corporate) Governance.

This is an initiative a company adopts as a practice to support environmental issues, and social challenges as well as to monitor its ethical corporate governance. The initiative involves measurement and reporting of activities of the company to improve the environment, undertake social cause work, and ensure following ethical corporate governance practices.

ADSL has been doing several such activities and has adopted fair governance as its core value in its value pyramid of 7 layers and plays an active role in public-facing technology projects such as smart cities. Your company has been listing these activities but from this year plans to formalize and report these activities under the global ESG metrics framework.

ESG facilitates top-line growth overall, attracts talent, reduces costs, and forges a sense of trust amongst customers. Organizations with good ESG practices score higher in terms of reputation and carry less risk as sustainability is incorporated into their governance and core value.

### Future RoadMap

We have delivered record growth in revenues, and profits, as well as many customer logos, have been added. Our strategic investments in AI as early adoption have become a contributor to innovation. We have won several smart city projects. Our operational planning to scale the organization has resulted in a successful outcome. Lastly, our roadmap has ensured that we are firing indeed all six cylinders of our offerings. On the HR front there are going to be massive overall changes globally in the future with remote work practices becoming more relevant, AI and people analytics, gig economy taking centre stage. To sign off, the future of HR will depend on employee experience with a clear focus on cybersecurity considering remote working.

### Hybrid Work Environment

With the current scenario, knowledge workers have become accustomed to working remotely, and splitting time between the office and home is expected to become the new normal. Your company too believes that that in-person, being together, having a sense of community is super important and with the company has implemented the hybrid work environment which allows the employees to have work life balance.

### SDG-Sustainable Development Goals

With the worldwide acceptance of Sustainable Development Goals, your company is driven to put sustainability at the heart of its Business Strategy. Your Company is diligently working towards attaining the following goals.

- Good Health and Well being
- Gender Equality
- Industry, Innovation and Infrastructure
- Reduce Inequality
- Sustainable Cities and Infrastructure

With warm regards,

### Nehal Shah

Executive Director

### Hello Investors,

The financial year 2021-22 was exceedingly better than the previous year. We have witnessed outstanding growth in revenues and have also secured a strong booked revenue contracts for next 4+ years. This year we are busy delivering new business and experiencing new growth. Our clear roadmap is a major recipe for success. The ingredients to this recipe are, namely, sharpened delivery, geographic expansion, expanding relationships, increased leadership, and continuous learning.

Our financial highlights showed sharp improvements in all key parameters, namely Revenues, EBITDA, PBT and PAT. This fantastic growth, with some vision and continued guidance from our founders and board members has motivated us for larger ambitious contracts and projects in coming years.

This year, the macro-economic factors are putting some hurdles such as inflation and resource challenges. Overall IT industry growth will continue to accelerate. We are proactively also implementing operational optimization as well as strengthening our employee relationships to ensure seamless delivery to the customer. We are augmenting our leadership to ensure that execution of large contracts is seamless. We also continue our pursuit for break-through innovations to pump new growth avenues with our investments in AI and automation technologies. Our sparkling new Smart city wins of Lucknow, Amritsar, Ludhiana, Sultanpur have added the cream on the cake.

Some of the key business highlights this year are,

- Global digital workplace transformation for a global automotive company worth up to USD 100M being delivered in 35+ countries
- Total Infrastructure managed services, IT contracts outsourcing and digital transformation for one of India's largest manufacturing conglomerate worth Rs 250+ crores

- Large cloud migration and IT services integration project for one of large healthcare services mergers in the US
- Large Application support outsourcing of one of India's leading private bank.
- New smart city projects, namely, Lucknow, Solapur, Amritsar, Sultanpur and Jalandhar
- Several Cyber-Security solutions implementation and managed security services in India
- Large end user services outsourcing for medical services organization in the USA

### Some operational highlights

- Functional offices also now in Japan, China and Brazil
- Hired over 700 additional global workforce
- Nominated as "new champions" at World Economic Forum
- Pursuing ESG (Environment, Social and Governance) initiatives
- Won innovation award for FinoAllied product among other leadership awards
- Invested in new cybersecurity technology solutions to make organization more resilient.

Talking about areas of growth, we continue to see huge traction in cloud migration projects, cybersecurity, smart city as well as Artificial intelligence. Our pipeline looks very good also on enterprise managed IT services.

This year, we will continue our innovation and investments in building new center of excellence in cybersecurity, AI initiatives in FinoAllied product expansion, ADiTaaS enhancements and trainings in cloud and DevOps. We plan to expand our delivery centers to more locations in India. We are constantly building new partnerships across the globe as well. We are focused on improving our digital presence and visibility to customers, partners, vendors, investors and employees.

- Expansion to several countries such as Japan, China and Brazil apart from the US, Europe, Middle East, Singapore and Australia.
- Setting up of new large facility to scale business operations, drive innovative center of excellence, working with top recognized universities and incubating startups
- Invest into training for adopting trending technologies as well as building leadership
- Improving brand, building new face to the digital world.
- Adding new partners, building new relationships, and improving our cost of operations
- Constantly improving our corporate governance

We are an energized leadership and remain excited and committed to company's growth. We are working harder than ever to deliver enhanced digital customer experience, building transformative solutions, and taking up challenging projects to achieve new benchmarks. Continuous introspection with our feet on the ground is key today to jump to newer heights. We are embarked on a formalized ESG initiative to support a positive change to our environment and the society.

Your good wishes continue to ignite our passion, strengthen our team spirit, and fuel innovation.

With warm regards,

**Paresh Shah**  
Chief Executive Officer

### Annual Report Integrated Solutions Group

Allied Digital has been successful in winning the Lucknow Safe City Project as a single bidder, which is the first project under Nirbhaya Scheme with emphasis on women Safety. Hall mark of this project is the AI Based Video Analytics with 24 use cases that detects incidents such as acid throwing, street gambling, and eve teasing. ## Product Launch

### Digital Transformation for Banks

Leveraging Conversational AI Platforms Digital Fabric

Conversational AI is a type of artificial intelligence that facilitates the human like conversation between a human and a software system in real time. It is a piece of software that a person can talk to, like chatbot, social messaging app, interactive agent, or smart device. These applications enable users to ask questions, get opinions, find support, or complete tasks remotely.

## Rewards & Recognition

Allied Digital introduced the first ever Sparkle Awards, which were presented to the employees of our RMS department (Remote Management Services) for their exceptional achievement in operations, quality and commitment to continuous operational excellence. All winners received a framed certificate which was signed and presented by ADSL CMD: Nitin Shah in presence of Director: Prakash Shah, CEO: Pares B Shah, CIO: Manoj Shah, Executive Director: Nehal Shah, Vice President BD: Rohan Shah and Chief Digital Officer: Utpal Chakraborty

## Awards Received

Allied Digital is very proud to announce that our Justin Grote, Microsoft MVP and Datacenter Solutions Architect, presented "PowerShell Azure Functions - The Missing Manual" and "Optimizing Visual Studio Code for PowerShell Development" at the PowerShell Summit 2022.

We also congratulate Justin and his Daybreak team on winning the top prize in the Iron Scriptor Challenge!

## B. Communication in respect of deduction of tax at source on Final Dividend payout:

Pursuant to Finance Act 2020, dividend income is taxable in the hands of shareholders w.e.f. April 1, 2020 and the Company is required to deduct tax at source from dividend paid to shareholders at the prescribed rates. For the prescribed rates for various categories, the shareholders are requested to refer to the Finance Act, 2020 and amendments thereof.

No tax shall be deducted on the dividend payable to a resident individual shareholder if the total amount of dividend to be received from the Company during the Financial Year does not exceed Rs. 5,000/-.

A resident individual shareholder holding PAN and who is not liable to pay income tax can submit a yearly declaration in Form No. 15G/15H, to avail the benefit of non-deduction of tax at source.

Non-resident shareholders can avail beneficial rates under tax treaty between India and their country of residence, subject to providing necessary documents.

The shareholders are requested to update their PAN with the Company's Registrar and Transfer Agent (in case of shares held in physical mode) and with relevant depository participant (in case of shares held in demat mode). Shareholders are requested to note that in case their PAN is not registered, the tax will be deducted at a higher rate of 20%.

The tax exemption form can be downloaded from URL <https://www.linkintime.co.in/client-downloads.html> On this page select the General tab and the forms are available under the head "Form 15G/15H/10F"

The requisite tax exemption forms are required to be uploaded on the URL <https://linkintime.co.in/formsreg/submission-of-form-15g-15h.html>

### E-voting:

In compliance with the provisions of Section 108 of the Act read with Rule 20 of the Companies (Management and Administration) Rules, 2014, Regulation 44 of the Listing Regulations (including any statutory modification(s) and/ or re-enactment(s) thereof for the time being in force), MCA Circulars and the SEBI Circular, the Company is providing its members the facility to exercise their right to vote on resolutions proposed to be considered at the AGM by electronic means (by using the electronic voting system provided by NSDL) either by remote e-Voting prior to the AGM or by remote e-Voting during the AGM. Instructions for members for attending the AGM through VC/OAVM are explained below.

The members can opt for only one mode of e-Voting i.e. either prior to the AGM or during the AGM. The members present at the Meeting through VC/OAVM who have not already cast their vote by remote e-Voting prior to the Meeting shall be able to exercise their right to cast their vote by e-Voting during the Meeting. The members who have cast their vote by remote e-Voting prior to the AGM are eligible to attend the Meeting but shall not be entitled to cast their vote again.

The remote e-Voting period begins on **Monday, July 25, 2022 at 09:00 A.M. (IST) and ends on Wednesday, July 27, 2022 at 05:00 P.M. (IST)**. The remote e-Voting module shall be disabled by NSDL for voting thereafter. Once the vote on a resolution is cast by the member, the member shall not be allowed to change it subsequently.

The members, whose names appear in the Register of Members/Beneficial Owners as on the record date ("**cut-off date**") i.e. **Thursday, July 21, 2022**, may cast their vote electronically. The voting right of shareholders shall be in proportion to their share in the paid-up equity share capital of the Company as on the cut-off date, being **Thursday, July 21, 2022**.

The Board of Directors have appointed Mr. Himanshu S. Kamdar, (Membership No. FCS 5171 and CP No. 3030) of M/s. Rathi & Associates, Practicing Company Secretaries as the Scrutinizer to scrutinize the entire e-Voting process in a fair and transparent manner.

## MANAGEMENT DISCUSSION AND ANALYSIS REPORT

### A. Industry Overview

#### Global Overview

The world economy has dipped across the globe triggered by the Ukraine-Russia war and as the world comes out of the pandemic, Geopolitics is impacting the supply chain. We see a broader and deep impact on the economy. There is clear sign of a recession, resulting due to high rate of inflation across the globe. Currently, we are at the peak of inflation. Climate change may impact 2 degrees of increase in temperatures in coming few years which can lead to many floods and famines. The US financial markets are down on average of 25% as of now. India markets are down almost 20%. We could thus see a tougher business growth in mid part of this financial year.

Focusing on IT industry, due to the upswing in stock markets last calendar year, there has been good investments in transformation which has resulted in huge demand for IT resources in past 6 months. IT investments primarily across the US and India have been on major rise the entire last financial year. With inflation at the peak, the current financial year for IT across the globe can be a roller coaster ride, with the IT markets rising from the start of 2023. AI, Cybersecurity, and Cloud are at centerstage. Startups are strongly leveraging IT. Globally; in spite of impact due to macro-economic factors, this world will continue to witness a technology led revolution this decade.

### B. Our Business

For Allied Digital Services Limited (“ADSL”), we have delivered record growth in revenues, profits as well as many customer logos. As predicted in our last year insights, this year has been phenomenal. We have added over 700 employees last calendar year. Our strategic investments in AI as early adoption have become a contributor to innovation. We have won several smart city projects. Our operational planning to scale the organization has resulted in a successful outcome. Lastly, our roadmap has ensured that we are firing indeed all six cylinders of our offerings.

While the business team has been busy adding new customers, our delivery team has accurately executed major delivery actionables. In spite of global resource attrition and resource acquisition challenges, our support teams of HR and Finance have lifted themselves to deliver adequate staffing and cash flow to drive the projects. We are seeing the new service governance models in action and now see a leapfrog jump in our delivery operations too. We expanded in Japan, China and Brazil and are delivering projects optimally. These further yields more global avenues for growth for the company.

Our continued focus on introspection as well as skill upgrade trainings during peak covid times has helped us build a strong roadmap for coming years, with sufficient clarity on the business growth.

Last year, your company got nominated by World Economic Forum as a new champion and is actively participating in global sustainability initiatives. One important initiative we have taken up this year is to proactively measure ourselves on the Environment, Social and Governance (“ESG”) initiative. Hence, we will be actively monitoring respective attributes under ESG and intend to report our ESG work. Recently we had a representation at the global CEO strategy dialogue meet in Geneva.

Besides, our A.I. innovation “FinoAllied” in banking is fast catching attraction among banking segments and associated digital media and is proud winner of multiple innovation awards.

#### Managed IT Services Business

In India, our pipeline continues to be strong this year, as large customers are looking for high quality, comprehensive IT managed service providers and leading master system integrator. Several large projects are under execution and some in deal pipeline. Cloud transformation business is growing rapidly. Our new offerings in cybersecurity, “AIM 360” is fast gaining market attraction amid exploding demand for cybersecurity and governance.

Our global operations, especially the US have contributed to the growth in a big way. The completed financial year, we witnessed major cost inflation in the US, but due to our fine-tuned delivery models, have managed to deliver services very well. We are further tuning our business model to ensure continued growth in our business.

Some key customers added this year are,

- Global digital workplace transformation for a global automotive company worth up to USD 100M being delivered in 35+ countries
- Total Infrastructure managed services, IT contracts outsourcing and digital transformation for one of India’s largest manufacturing conglomerate worth Rs 250+ crores
- Large cloud migration and IT services integration project for one of large healthcare services mergers in the US
- Large Application support outsourcing of one of India’s leading private banks
- Five new smart city projects, namely, Lucknow, Solapur, Amritsar, Sultanpur and Jullundur

- Several Cyber-Security solutions implementation and managed security services in India
- Large end user services outsourcing for medical services organization in the USA

From our strategy perspective, we have continued our roadmap of six service and solutions offerings, namely.

- Cloud migration projects and cloud engineering
- Enterprise managed IT services
- Digital transformation – AI and Automation projects
- Smart city solutions
- Cybersecurity services and solutions
- Digital workplace services and solutions

### Master Systems Integration - Smart City Solutions

This has also been a blockbuster year for smart city business. We bagged several smart city orders for Punjab (Amritsar, Sultanpur and Jalandhar), Lucknow and are just declared winners for Solapur city.

While we continue to deliver Pune city project as an extension to our previous contract, new contract for 5 years is due. Also, we are in regular operational maintenance phase for Rajkot, Kalyan-Dombivli, Aurangabad and continue to work on Bidkin.

Our re-skilled engineering services division is also now bidding international IoT based system integration projects. Our current smart city pipeline is robust and is bidding also for enterprise IoT projects.

### Trending Transformation Technologies - Artificial Intelligence and DevOps

Innovation, being an important pillar for growth, we have been hugely successful in developing our first conversational AI based platform “FinoAllied.” Your company got recognized for this product innovation from major banking agency in India. This platform will enable small and midsize banks to quickly digitalize their traditional banking cost-effectively, making them on-par with few large private banks in India and be able to deliver a large spectrum of services to a larger urban/rural customer base. This is an innovative digital fabric, cloud native, with voice and multi-lingual support and available on “pay-as-you-use” basis with enhanced customer analytics and experience.

We have also transitioned our ADiTaaS platform as cloud-native platform due to increased focus on DevOps. We have taken up RPA projects to enhance our skills in automation. ADiTaaS, a “PinkVERIFY” certified product is already moving to an “AI based Service” platform, having many features such as smart routing, dynamic dashboard, and conversational AI.

In the current year, we have further envisaged growth in various data science and AI projects as we continue to invest into innovation that directly value-adds to our business growth.

This financial year, we have won the following awards:

Most promising Business Leader of Asia	Nitin Shah	Economic Times
Business Leader of the Year	Paresh Shah	World Leadership Congress
Technoviti Innovation Award	Allied Digital	Banking Frontiers
Best Digital Innovation of the Year	Allied Digital	UBS Forum

## C. Financial Highlights

The key financial highlights of the company for the financial year ended March 31, 2022 are given below

(₹ in Lakhs)

Particulars	Standalone			Consolidated		
	2021-22	2020-21	Y-o-Y Change	2021-22	2020-21	Y-o-Y Change
Revenue	12,258	9,619	27%	48,468	35,808	35%

- Debtors turnover and Inventory turnover ratios has improved marginally mainly due to higher turnover achieved during the year at standalone and consolidated level as well.
- Debt Equity and Interest Coverage Ratio has improved considerably mainly due to reduction in debt, corresponding reduced finance costs and improved profitability during the year.
- As explained above higher Return on Equity is on account of better profitability due to cost optimization, better operational efficiency and exceptional income during the year.

## D. Key Drivers of Growth

### Innovation and Adaptability

Innovation plays key role in our IT business, as IT is the key enabler for every industry. We are early adopters of trending technologies. This also helps us guide the customer roadmap. Last financial year, we did several transformation projects such as cloud migration, multi-cloud applications. This year, we will continue to invest in areas such as AI, RPA, Cybersecurity, and certain startup incubation. Every business is adopting AI as primary technology to sharpen their business products and services as AI has become mainstream and easy enabler to build strong prescriptive and predictive analytics. As you may know, cybersecurity is in extremely high demand; more digitalization is also attracting frauds and every organization must be proactive to ensure resilience to cyberattacks and incidents.

We have reached new horizons in leveraging latest trending industry tools and platforms in cybersecurity which has further helped in getting some exceptionally good projects. We have attained tremendous expertise in various aspects of cybersecurity. We have also embarked on initiative of supporting some prestigious universities in India to setup a center of excellence in IoT and smart cities.

Our company is actively promoting startups in their new innovations as well as in supporting certain non-profit organizations to drive their modern technology enabled initiatives.

Putting Design Thinking methodologies in practice within the company, the leadership continues to ideate and build new customer solutions for newly defined problems.

### New markets/Opportunities

In these tough competition times, technology is now proven to be the key enabler for bringing business resilience as well as drive new initiatives. As we predicted ourselves to be at a threshold for massive growth last year, the same is coming true. We see new opportunities of growth in countries like Japan, Germany, UK, and Latin America.

As we see the situation of pandemic improving, ADSL will soon invest resources into building new partnerships for business growth strategically in Europe as well as rest of the world. Our new partnerships are also flourishing, while the older partnerships are yielding us exceptionally large and strategic business opportunities.

### Human Resource

Human resource practices have been hugely instrumental in the company's growth. On all counts, be it managing resources efficiently, hiring new resources for rapidly scaling existing or new projects, the human resource division has been a pillar of strength. During the growing covid-19 pandemic, the team has played a leadership role in ensuring smooth service delivery by driving "Work from home" policies as well as motivating employees yet ensuring compliance. The department has been driving continuous communication and providing extra care to support and field staff across the globe.

HR has been leading big initiatives such as vaccination for the employees as well as their families. Another area where our global HR has exceeded expectations is in hiring new leadership roles and massive hiring scalability; Your company is in process of hiring over 500 employees this year. The total permanent employee strength as on March 31, 2022 stood at 1450.

**Government Initiatives**

In the financial year gone by, Government of India has announced major initiatives to leverage technology as an enabler for India's growth. The US government too has announced a major investment of up to 1 trillion dollars to revamp the infrastructure. India is seen globally as fore runner for growth and IT is going to play a pivotal role. Allied Digital perceives this as major opportunity to fuel growth in digitalization across all sectors. Your company has thus uplifted its HR policies for continuous training and working with universities to attract new talent.

**E. The ESG Initiative**

ESG is the acronym for **E**nvironmental, **S**ocial, and (Corporate) **G**overnance.

This is an initiative a company adopts as a practice to support environmental issues, social challenges as well as to monitor its own ethical corporate governance. The initiative involves measurement and reporting of activities of the company to improve the environment, undertake social cause work and ensure follow ethical corporate governance practices.

ADSL has been doing several such activities and has adopted fair governance as its core value in its value pyramid of 7 layers and plays active role in public facing technology projects such as smart cities. Your company has been listing these activities but from this year plans to formalize and report these activities under the global ESG metrics framework.

ESG facilitates top-line growth overall, attracts talent, reduces costs, and forge a sense of trust amongst customers. Organizations with good ESG practices score higher in terms of reputation and carry less risk as sustainability is incorporated in their governance and core value.

The current financial year has been challenging due to various recent and ongoing global challenges including, geopolitical stability (like Ukraine-Russia war, US-China relationship), climate change, unethical business practices. food, energy shortage, soil pollution and hunger. All this is leading to more economic disparity, sustainability challenges and long-term planet impact. Hence there is dire need for adoption of ESG to do a bit for the current and future well-being of this planet, the community around us and ensure fairness in running the organization.

For investors, it enhances their confidence on how the company is planning long term sustainability and to determine any unforeseen risks.

ESG reports include qualitative and quantitative information pertaining to its three key topics.

**Environmental:** What is an organization doing to be a steward of the environment? The environmental umbrella covers:

Examples	ADSL Initiatives
How a company is combatting climate change	Several energy saving activities in premises ADSL is involved with Microsoft and Deloitte to work on Wildfire prediction and situation management
What a company is doing to reduce carbon emissions	ADSL supports car-pool and work from home
How the company is preserving biodiversity, improving air and water quality, combatting deforestation, or responsibly managing its waste	ADSL plans to support tree plantation activities ADSL globally adopts practices of filtered water and restricts use of bottled water discouraging use of plastic. ADSL is engaging NGO agencies to drive e-waste management
How the company is responsibly using resources and its supply chain	ADSL is proactively monitoring its resource usage including electricity bills, supply chain risks on various electronic goods with OEMs

**Social:** What is an organization doing to improve lives? The social umbrella covers:

Examples	ADSL Initiative
How a company nurtures its people and workplace	ADSL has documented comprehensive HR policies and made them available online. Besides, HR frequently updates employees on pandemic. Also rewards and recognition programs are conducted. ADSL believes in "Employee nurturing as everyday's role of a manager"

Examples	ADSL Initiative
Gender, disability parity initiatives	ADSL adheres to its policy of being gender neutral and support opportunity for disabled
The company's employee engagement	The company has been globally promoting equal opportunity and diversity. It has strong "Core Value Pyramid" where Ethics and Integrity is at top and believes in "walk the talk." Company also publishes periodic newsletters to employees
Data Protection and privacy	ADSL drives a huge practice on cybersecurity for customers and follows similar practices internally, including ISO 27001, 20000 and SOC 2 compliance. It has also set up a "Center of Excellence" to drive by example. There is frequent campaign on Data protection, privacy, and cybersecurity awareness
Community involvement	Several CSR activities such as Padma Pragna Private Trust Women empowerment initiatives Free Covid vaccination drives
Human Rights and labor standards	ADSL complies to statutory regulations and labor laws.

**Governance:** What is an organization doing to stay ahead of corruption and ensure its investments remain sustainable in the future?  
The governance umbrella covers:

Examples	ADSL initiative
A company's internal controls	Internal controls at ADSL include Whistle blower policy Employee grievance and support services online and offline Open door policy Mandatory onboarding procedures to communicate policies, code of conduct and "Core Value Pyramid" Continuous communication during leadership town hall sessions
Policies, principles, and procedures governing leadership, board composition, executive compensation, audit committee structure, shareholder rights, bribe	Being a public listed company, all required statutory and regulatory compliances are in place.

Your company this year plans to actively formalize these initiatives in a global measurable report.

### ADSL active role in global ESG initiatives

Your company, as you would know is nominated "new champion" at world economic forum. It actively participates in the global forum meetings. Your company is proud to inform that various blogs written by our leaders on technology related ESG are published in the global forum. Some of the listings are as followsn

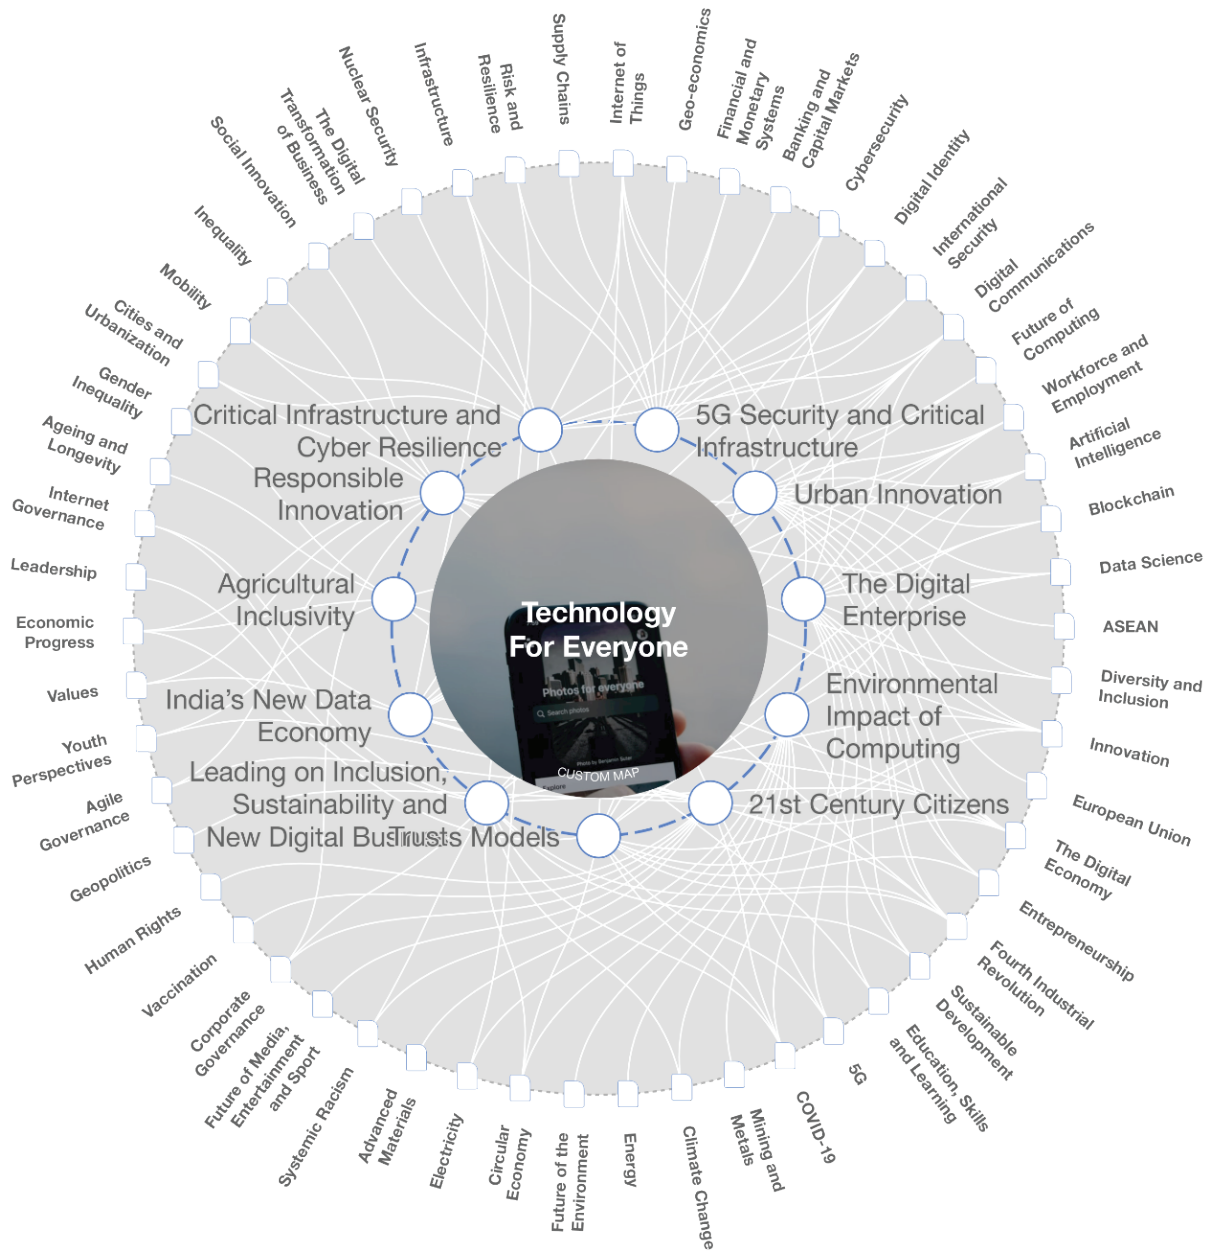

1. Artificial empathy: The upgrade AI needs to speak to consumers
2. Should cybersecurity be made part of the school curriculum?
3. The talent pipeline: Keeping pace with emerging technologies

The company is actively involved in supporting an "AI based prediction model" along with organizations like Microsoft and Deloitte for wildfires that destroys large forest every year.

Our company has adopted a slogan of "Technology for Everyone."

- Being a leading master systems integrator for smart city projects, it is already playing a leading role in enabling technology for broader sections of the society. Improving the quality of life for urban population. This implies safety and security for the citizens, citizen centric services, water and waste management, transportation etc.
- Also, our new innovative product "FinoAllied" is promising major financial inclusion initiatives as per the new initiative of Digital India, to ensure small and medium banks can digitalize and take services to the rural population in India and global.
- Besides, our company is actively implementing cloud migration projects to ensure efficient, cost-effective and energy saving use of technology for the customers.

Below is the map of Allied Digital depicted in World Economic Forum

## F. Risks, Concerns and Threats

### Volatile Global Outlook

Like any other corporate with global presence, the company is exposed to interest rate risk, currency fluctuations, credit risk and regulatory risks. In the US, the inflation increases, and war related fears has put some challenges in workforce shortage as well as pressure on attrition and even bring some recession challenges. However, our HR is pro-actively working to ensure the business growth is not hampered. Company's internal audits ensures a robust risk management readiness. Risks are reviewed on the quarterly basis by the management. This year, too some global and India related macro-economic risks are posing challenges due to imposing war related issues, climate change and post-pandemic economic changes. With some proactive measures such as adopting ESG initiatives, thus de-risking the supply chain we are further controlling these risks.

## Technology

Technology is related to innovation and change imminent. This means we must be in forward adoption mode for modern technologies and promote innovative solutions, thus enhancing the potential to tap new business opportunities. The company continuously engages in training and skill development programs to update the knowledge base. Allied Digital has clearly defined its six technology towers to do business. It now has a clear roadmap for next three years of its operation and will focus on new opportunities. It will continue to invest into R&D to develop new offerings across the geographies.

Today the most growing risk for managed service providers and industry is cybersecurity. In the last financial year, we have spent additional resources to revamp our internal operations with enhanced IT security. This is the need of the hour and due to large new business contracts being executed this year, we have also enhanced our cybersecurity insurance limits.

We believe in leveraging technologies like AI and block-chain to benefit of an enterprise that improves sustainability of the customer's organization as well as the community.

## Compliance Risk

Company's operations are spread across the globe and hence it becomes imperative for the organization to comply with legal and regulatory laws of various countries. Failing to comply with the specific country's laws and regulation may expose the company to legal and financial penalties and dilute the brand image. Identified key stakeholders across sales and business units and corporate functions ensure compliance of all applicable laws on a continuous basis. Any changes in the applicable regulations are updated and monitored by respective departments. The company has also appointed third-party agencies, to support standard compliance in certain countries, for reducing local statutory risks.

As per every year, from operations perspective, we ensure our compliances, such as ISO, CMMI, PinkVERIFY remain active and intact. This year we are adding new metrics on ESG.

## Delivery Risk

As there is immense competition in standard core services, there is a constant risk of losing the customer or incurring penalties when not delivered to topmost standards. Customers are looking for continuous value augmentation from service providers. Especially in India, the enterprises put constant pressure to not just exceed the KPI but also give discounts because of the pandemic and a value-add with some free project delivery. Such pressure on margins is well understood. Your company has supported some discounts and done some value-additions to the customers. We address this situation in two parts. One is through shift-left automation, which implies routine tasks get automated. For example, our managed services team has built smart dashboard analytics for customers and partners. About 300 different daily routine tasks are digitalized and automated. The other approach is to take care of increased operational costs in our pricing to new prospects.

This year, to counter inflation challenges, your company has also approached existing global and large Indian customers for a rate increase to best sustain our profitability.

Payment delays are frequent challenges, at various levels across the globe. In India, government payments do get delayed. However, our finance team does rigorous follow-ups to get the receivables and has been successful in managing this risk. Of course, in covid times, this has been more painful, but our finance has managed to maintain the cash flow seamlessly, without taking additional debt pinches.

## Contract Management

Sometimes ambiguities are created in the scope of work which leads to unaligned expectations from the parties involved in the project. We have standardized certain contracts and are constantly putting efforts into stronger contract management and building deeper insights into customers' environments to avoid risks of service failure at desired levels. Our contracts team is constantly fine-tuning new and renewal contracts in the current business context.

## Employee Related Risk

As a service-centric, talent-driven organization, one of our key strategies, is to have the best talent, with highly specialized skills in each part of our business. We balance the right levels at the right locations, and at the appropriate time, to enhance our differentiation and competitiveness.

Our attrition rate has reduced over the last year in India, though some challenges have emerged in the US, as the local inflation is higher than in the past few years. Allied Digital is mitigating risks by cross-training and working diligently with in-house as well as third-party recruiters. In Europe, due to immigration law changes, there are attrition issues, but Allied has developed a constant vigilance in its delivery operations so that the customer deliverables are never affected.

Due to active HR and leadership roles, we have been able to keep the morale of employees high as ever. We are also embarking on a larger pool of fresh workforce from institutions, giving them training and doing internal promotions. This helps in managing attrition as well as keeps the cost of new lateral hiring in control. Adequate business insurance policies are also in place on errors, omissions, and general liability.

### Internal Control systems

Adequate internal controls ensure that transactions are authorized, recorded, and reported correctly and assets are safeguarded against loss from unauthorized use or disposition. In addition, operational controls, and fraud risk controls, cover the entire spectrum of internal financial controls. Your company has put a lot of emphasis on improving the internal control systems in multiple areas such as Finance, Sales, Legal and HR.

- In finance, the internal checks and balances are managed by a formal system of internal audits. The alert mechanism is in place for regulatory changes. The transition to GST-compliant processes was smooth. The Company has appointed, M/s. S.P. Natani, Chartered Accountants, Mumbai as Internal Auditors of the Company to conduct the Internal Audit.
- On the sales front, more emphasis is given to customer credit checks, profitability, and sales closures.
- On the delivery and operations end, we improved on alerts communication, automation, and customer systems health checks. This has vastly improved the overall quality of delivery, reducing customer concerns.
- In the US, new software has been implemented for managing contracts. We plan to implement the same in India. This software will enable us to reduce business risk and improve compliance by bringing best practices in contract management.
- We have embarked on a major initiative of CMMI Level 3 compliance this year. The work is in the last stage for achieving the certification before this year-end.

Other initiatives such as management performance audits were also successfully implemented last year. The quality management system of the company is ISO certified each year.

### Disclosure of Accounting Treatment :

The Financial Statements of the Company have been prepared in accordance with the procedure/process provided for in the applicable Accounting Standards. There is no alternative treatment adopted in preparation of the Financial Statements during the year under review.

## G. Way Forward

- Our clear roadmap is showing remarkable success. We would continue to achieve new business growth by fine-tuning our operational models to take care of global inflationary risks.
- We see big growth in AI and automation, which is gradually becoming a mainstream business.
- We have many smart city projects implementation underway, so are active in delivering the order books but the pipeline looks good for growth.
- Our new partnerships and geographical expansion continue. This will result in new business wins across the globe.
- The finance and HR support teams are doing a spectacular job in managing the cost of operations.
- Our new ESG initiative will play a crucial role in improving our company's brand, and our global business context and win more trust in our existing customers and prospective customers as well.
- We continue to improve on our service governance scale to new heights as a strong differentiator.

The management is currently looking at various alternatives to monetize the Hard Assets (Real Estate) of the company as the real estate market has been sluggish during the pandemic but is on an upward trend.

In summary, the last year has been phenomenal in revenues. Moreover, the number of customers and partnerships is growing across the globe. This financial year is a busy delivery year, with plenty of projects in hand, bringing booked revenues for the next 3-4 years. We may see certain new business growth impact for a quarter or two this year due to macro-economic impact, but continue to see an upward growth, with increasing brand value and continue to deliver some pioneering projects in trending technologies. Your company is continuously growing in its brand value and its achievements are increasingly noticed in digital media year after year.

***Our motto of "Passion, Teamwork and Innovation" continues to drive us along with your good wishes.***

## Independent Auditor's Report

To The Members of Allied Digital Services Limited

### Report on the Audit of Standalone Financial Statements

#### Opinion

We have audited the standalone financial statements of Allied Digital Services Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

#### Basis for opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

#### Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

SR NO	KEY AUDIT MATTERS	AUDITOR'S RESPONSE
1.	<p><b>Revenue recognition</b></p> <p><b>Fixed price contracts</b></p> <p>The Company engages in Fixed price contracts, including contracts with multiple performance obligations. Revenue recognition in such contracts involves judgments relating to identification of distinct performance obligations, determination of transaction price for such performance obligations and the appropriateness of the basis used to measure revenue recognised over a period.</p>	<p><b>Principal Audit Procedures</b></p> <p>Our audit procedures included;</p> <ul style="list-style-type: none"> <li>Obtained an understanding of the systems, processes and controls for evaluation of fixed price contracts to identify distinct performance obligations and recognition of revenue. Evaluated the design and operating effectiveness of internal controls including IT controls relating to recording of the contract value, determining the transaction price, allocation of consideration to different performance obligations, measurement of efforts incurred and process around estimation of efforts required to complete the performance obligations and the most appropriate method to recognise revenue.</li> </ul>

SR NO	KEY AUDIT MATTERS	AUDITOR'S RESPONSE
	<p>In case of Fixed price contracts where performance obligations are satisfied over a period of time, revenue is recognised using the percentage of completion method based on management's estimate of contract efforts. The estimation of total efforts or costs involves significant judgement and is assessed throughout the period of the contract to reflect any changes based on the latest available information. These contracts may also involve recognizing onerous obligations that require critical estimates to be made by the management. In case of Fixed price maintenance contracts, revenue is recognised either on a straight line basis or using the percentage of completion method or at an amount equal to sums billed to customer, depending on the most appropriate method that depicts the value of service delivered to the customer.</p>	<ul style="list-style-type: none"> <li>▪ On selected sample of contracts, we tested that the revenue recognised is in accordance with the revenue recognition accounting standard. We - evaluated the identification of performance obligations; - considered the terms of the contracts to determine the transaction price, - determined if the Company's evaluation of the method used for recognition of revenue is appropriate; - tested the Company's calculation of efforts incurred, estimation of contract efforts including estimation of onerous obligation, through a retrospective review of efforts incurred with estimated efforts; - assessed appropriateness of contract assets/ unbilled revenue on balance sheet date by evaluating underlying documentation.</li> <li>▪ Tested aged contract assets to assess possible delays in achieving milestones, which may require a change in estimated efforts to complete the remaining performance obligations.</li> <li>▪ Performed analytical procedures over revenue and receivables.</li> </ul>
2	<p><b>Evaluation of tax positions and litigations</b></p> <p>The Group operates in multiple global jurisdictions which requires it to estimate its income tax liabilities according to the tax laws of the respective tax jurisdictions. Further, there are matters of interpretation in terms of application of tax laws and related rules to determine current tax provision and deferred taxes. The Group has material tax positions and litigations on a range of tax matters primarily in India. This requires management to make significant judgments to determine the possible outcome of uncertain tax positions and litigations and their consequent impact on related accounting and disclosures in the consolidated financial statements.</p>	<p>In view of the significance of the matter we applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence:</p> <ul style="list-style-type: none"> <li>▪ Testing the design, implementation and operating effectiveness of the Group's key controls over identifying uncertain tax positions and matters involving litigations/disputes.</li> <li>▪ Obtaining details of tax positions and tax litigations for the year and as at 31 March 2022 and holding discussions with designated management personnel.</li> <li>▪ Assessing and analysing select key correspondences with tax authorities and inspecting external legal opinions obtained by management for key uncertain tax positions and tax litigations.</li> <li>▪ Evaluating underlying evidence and documentation to determine whether the information provides a basis for amounts reserved/not reserved in the books of account.</li> <li>▪ Involving our internal tax specialists and evaluating management's underlying key assumptions in estimating the tax provisions and estimate of the possible outcome of significant tax litigations; and</li> <li>▪ In respect of tax positions and litigations, assessing the computation of provisions and consequent impact on related accounting and disclosures in the financial statements.</li> </ul>

### Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon. The Company's annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the relevant laws and regulations. We have nothing to report in this regard.

### Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation. Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the order.

    - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the company.
    - iv. a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall:
      - directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Company or
      - provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.

- b) The management has represented, that, to the best of its knowledge and belief, no funds have been received by the Company from any persons or entities, including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall:
- directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever (“Ultimate Beneficiaries”) by or on behalf of the Funding Party or
  - provide any guarantee, security or the like from or on behalf of the Ultimate Beneficiaries; and
- c) Based on such audit procedures as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under subclause (iv) (i) and (iv) (ii) contain any material misstatement.
- i) The dividend declared or paid during the year by the Company is in compliance with Section 123 of the Act.

Interest Due upto 31.03.2022

Total Dues as at 31.03.2022

₹ 5.61 Lakhs

Rs 1.05 Lakhs

Rs 6.67 Lakhs

To the best of our knowledge and as per the information and explanations provided to us by the management, during the year no order has been passed by Company Law Board or National Company Law Tribunal or Reserve Bank of India or any court or any other tribunal.

- (vi) According to the information and explanations given to us, the Central Government has not prescribed the maintenance of cost records under Section 148(1) of the Companies Act, 2013 for the services provided by the Company. Accordingly, clause 3(vi) of the Order is not applicable.
- (vii) According to the information and explanations given to us, in respect of statutory dues:
- (a) The Company has been regular in depositing undisputed statutory dues, including Provident Fund, Employees' State Insurance, Income Tax, Goods and Service Tax, Customs Duty, Cess and other material statutory dues applicable to it with the appropriate authorities. There were no undisputed amounts payable in respect of Provident Fund, Employees' State Insurance, Income Tax, Goods and Service Tax, Customs Duty, Cess and other material statutory dues in arrears as at March 31, 2022 for a period of more than six months from the date they became payable.
- (b) According to the information and explanations given to us there were no dues of Provident Fund, Employees' State Insurance, Income Tax, Goods and Service Tax, Customs Duty, Cess and other material statutory dues which have not been deposited by the Company on account of disputes, except as mentioned hereunder:

Name of the Statute	Nature of Dues	Amount (₹ In lakhs)	Period to which the amount relates	Forum where dispute is Pending
Income Tax Act, 1961	Penalty u/s 271(1)(c)	Rs 32.82 Lakhs	AY 2006-07	Commissioner of Income Tax Appeals, Mumbai
Income Tax Act, 1961	Penalty u/s 271(1)(c)	Rs 18.22 Lakhs	AY 2010-11	Commissioner of Income Tax Appeals, Mumbai

- (viii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not surrendered or disclosed any transactions, previously unrecorded as income in the books of account, in the tax assessments under the Income Tax Act 1961 as income during the year.
- (ix) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not defaulted in repayment of any loans or other borrowings or in the payment of interest thereon to any lender.
- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not been declared a wilful defaulter by any bank or financial institution or government or government authority.
- (c) According to the information and explanations given to us by the management, the Company has obtained term loans during the year and have been applied for the purposes for which those were raised.
- (d) Based upon the audit procedures performed and the information and explanations given by the management, no funds raised on short term basis have been utilised by the Company for long term purposes.
- (e) According to the information and explanations given to us and on an overall examination of the financial statements of the Company, we report that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries or associates as defined under the Companies Act, 2013. Accordingly, clause 3(ix)(e) of the Order is not applicable.
- (f) According to the information and explanations given to us and procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiaries or associates as defined under the Companies Act, 2013. Accordingly, clause 3(ix)(f) of the Order is not applicable.
- (x) (a) The company did not raise any money by way of initial public offer or further public offer including debt instruments. Accordingly, clause 3(x)(a) of the Order is not applicable.
- (b) During the year, the company has made preferential allotment of shares. The requirements of section 42 and section 62 of the Companies Act, 2013 have been complied with and the funds raised have been used for the purposes for which the funds were raised
- (xi) (a) Based on examination of the books and records of the Company and according to the information and explanations given to us, considering the principles of materiality outlined in Standards on Auditing, we report that no fraud by the Company or on the Company has been noticed or reported during the course of the audit.
- (b) According to the information and explanations given to us, no report under sub-section (12) of Section 143 of the Companies Act, 2013 has been filed by the auditors in Form ADT-4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.
- (c) There were no whistle blower complaints received during the year. Accordingly clause 3(xi)(c) of the Order is not applicable.

- (xii) According to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, clause 3(xii) of the Order is not applicable.
- (xiii) In our opinion and according to the information and explanations given to us, the transactions with related parties are in compliance with Sections 177 and 188 of the Companies Act, 2013, where applicable, and the details of the related party transactions have been disclosed in the standalone financial statements as required by the applicable Indian Accounting Standards.
- (xiv) (a) Based on information and explanation provided to us and our audit procedures, in our opinion, the Company has an internal audit system commensurate with the size and nature of its business.  
(b) We have considered the internal audit reports of the Company issued till date for the period under audit.
- (xv) In our opinion and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or persons connected to its directors and hence, provisions of Section 192 of the Companies Act, 2013 are not applicable to the Company.
- (xvi) (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(a) and (b) of the Order is not applicable.  
(b) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, clause 3(xvi)(c) of the Order is not applicable.  
(c) According to the information and explanations provided to us during the course of audit, the Group does not have any CIC. Accordingly, the requirements of clause 3(xvi)(d) are not applicable.
- (xvii) The Company has not incurred cash losses in the current and in the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors during the year. Accordingly, clause 3(xviii) of the Order is not applicable.
- (xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- (xx) In our opinion and according to the information and explanations given to us, there is no unspent amount under sub-section (5) of Section 135 of the Companies Act, 2013 pursuant to any project. Accordingly, clauses 3(xx)(a) and 3(xx)(b) of the Order are not applicable.
- (xxi) The reporting under clause (xxi) is not applicable in respect of audit of standalone financial statements of the Company. Accordingly, no comment has been included in respect of said clause under this report.

## Annexure “B” to the Independent Auditor’s Report

*(Referred to in paragraph 2(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of Allied Digital Services Limited of even date)*

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting with reference to the standalone financial statements of Allied Digital Services Limited (“the Company”) as of March 31, 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

### Management’s and Board of Director’s Responsibility for Internal Financial Controls

The Company’s management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

### Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

### Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

It provides wide range of information technology and consultancy services including Infrastructure Services, End user IT Support, IT asset life cycle, enterprise applications and integrated solutions.

The Company is a public limited company incorporated and domiciled in India and has its registered office in Mumbai, India. The Company has its primary listings on the BSE and NSE in India. The company has presence in pan India and it has Subsidiary companies in USA, UK, Singapore, Australia, Ireland, Brazil, Japan and China.

### 2) Significant Accounting Policies

#### Basis of preparation and presentation

##### a) Statement of compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (“Ind AS”) notified under the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016 as applicable.

##### b) Basis of measurement

The financial statements have been prepared on a historical cost convention and on an accrual basis, except for the following material items that have been measured at fair value as required by relevant Ind AS:

1. Derivative financial instruments;
2. Certain financial assets and liabilities measured at fair value (refer accounting policy on financial instruments);
3. Share based payment transactions and
4. Defined benefit and other long-term employee benefits

Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The financial statements are presented in ₹, the functional currency of the Company. All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

##### c) Use of estimates and judgment

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses and the disclosures of contingent assets and liabilities at the date of the financial statements. The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed under “**Summary of significant accounting policies**”. Accounting estimates could change from period to period. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is included in the following notes:

#### Summary of significant accounting policies

- (i) Functional and presentation currency Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which these entities operate (i.e. the “functional currency”). The financial statements are presented in Indian Rupee, the national currency of India, which is the functional currency of the Company.

- (ii) Foreign currency transactions and balances are translated into the functional currency of the company, using the exchange rates prevailing at the dates of the respective transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at the exchange rates prevailing at reporting date of monetary assets and liabilities denominated in foreign currencies, are recognized in the statement of profit and loss and reported within foreign exchange gains/ (losses). Non-monetary assets and liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.
- (iii) Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.
- (iv) Investment in subsidiaries: Investment in subsidiaries is measured at cost.

(v) **Current v/s Non-current classification**

The company presents assets and liabilities in the balance sheet based on current / non-current classification.

An asset /liability is current when it is:

- Expected to be realised/settled or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised / settled within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period
- All other assets/ liabilities are classified as non-current.
- Deferred tax assets and liabilities are classified as non-current assets and liabilities.

(vi) **Financial instruments**

All financial instruments are recognised initially at fair value. Transaction costs that are attributable to the acquisition of the financial asset (other than financial assets recorded at fair value through profit or loss) are included in the fair value of the financial assets. Purchase or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place are recognised on trade date. While, loans and borrowings and payables are recognised net of directly attributable transaction costs. For the purpose of subsequent measurement, financial instruments of the Company are classified in the following categories: non-derivative financial assets comprising amortised cost, debt instruments at fair value through other comprehensive income (FVTOCI), equity instruments at FVTOCI or fair value through profit and loss account (FVTPL), non-derivative financial liabilities at amortised cost or FVTPL and derivative financial instruments (under the category of financial assets or financial liabilities) at FVTPL. The classification of financial instruments depends on the objective of the business model for which it is held. Management determines the classification of its financial instruments at initial recognition.

(vii) **Debt instruments at FVTOCI**

A debt instrument shall be measured at fair value through other comprehensive income if both of the following conditions are met:

- (a) the objective of the business model is achieved by both collecting contractual cash flows and selling financial assets and
- (b) the asset's contractual cash flow represent Solely Payments of Principal and Interest(SPPI)

Debt instruments included within FVTOCI category are measured initially as well as at each reporting period at fair value plus transaction costs. Fair value movements are recognised in other comprehensive income (OCI). However, the Company recognises interest income, impairment losses & reversals and foreign exchange gain/(loss) in statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from equity to profit and loss. Interest earned is recognised under the effective interest rate (EIR) model.

**(viii) Equity instruments at FVTOCI**

All equity instruments are measured at fair value. Equity instruments held for trading is classified as FVTPL. For all other equity instruments, the Company may make an irrevocable election to present subsequent changes in the fair value in OCI. The Company makes such election on an instrument-by-instrument basis. If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividend are recognised in OCI which is not subsequently recycled to statement of profit and loss.

**(ix) Financial assets at FVTPL**

FVTPL is a residual category for financial assets. Any financial asset which does not meet the criteria for categorization as at amortised cost or as FVTOCI, is classified as FVTPL.

In addition the Company may elect to designate the financial asset, which otherwise meets amortised cost or FVTOCI criteria, as FVTPL if doing so eliminates or significantly reduces a measurement or recognition inconsistency. The Company has not designated any financial asset as FVTPL.

Financial assets included within the FVTPL category are measured at fair values with all changes in the statement of profit and loss.

- a) Non-derivative financial liabilities
  - (i) Financial liabilities at amortised cost: Financial liabilities at amortised cost represented by borrowings, trade and other payables are initially recognized at fair value, and subsequently carried at amortized cost using the effective interest rate method.
  - (ii) Financial liabilities at FVTPL: Financial liabilities at FVTPL represented by contingent consideration are measured at fair value with all changes recognised in the statement of profit and loss.
- b) Derivative financial instruments: Derivatives are recognized and measured at fair value. Attributable transaction costs are recognized in statement of profit and loss.

**(x) Property, plant and equipment**

- a) **Recognition and measurement:** Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses, if any. Cost includes expenditures directly attributable to the acquisition of the asset.
- b) **Depreciation:** The Company depreciates property, plant and equipment over the estimated useful life on a straight-line basis from the date the assets are ready for intended use. Assets acquired under finance lease if any and leasehold improvements are amortized over the lower of estimated useful life and lease term. The estimated useful lives for the current and comparative period of significant items of property, plant and equipment are as follows

Type of Asset	Method	Estimated useful life
Leasehold Land	Straight line	99 Years
Freehold & Leasehold Buildings	Straight line	60 Years
Furniture and Fixtures	Straight line	10 Years
Computers and IT Equipment's	Straight line	3 Years
Servers	Straight line	6 Years
Motor Vehicles	Straight line	8 Years
Office Equipment's	Straight line	5 years
Civil and Plumbing Work	Straight line	60 Years

Depreciation methods, useful lives and residual values are reviewed at each reporting date. When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment. Subsequent expenditure relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the statement of profit and loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or disposition of the asset and the resultant gains or losses are recognized in the statement of profit and loss. Amounts paid towards the acquisition of property, plant and equipment outstanding as of each reporting date and the cost of property, plant and equipment not ready for intended use before such date are disclosed under capital work- in-progress ( if any).

- c) Impairment:** Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated depreciation) had no impairment loss been recognized for the asset in prior years

**(xi) Intangible assets**

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset. The estimated useful lives of intangibles are as follows:

Type of Asset	Method	Estimated useful life
Intellectual Property	Straight line	10 Years

**(xii) Impairment**

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss. The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivable.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

**(xiii) Inventories**

Inventory comprising traded hardware and software are valued at lower of cost and net realisable value. Costs comprise cost of purchase and directly attributable costs incurred in bringing the inventories to their present location and condition. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

**(xiv) Cash and Cash Equivalents:**

Cash and Cash equivalents include cash and Cheque in hand, bank balances, demand deposits with banks and other short-term highly liquid investments that are readily convertible to known amounts of cash & which are subject to an insignificant risk of changes in value where original maturity is three months or less.

**(xv) Provisions, Contingent Liabilities and Contingent Assets:**

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract.

A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources or an obligation for which the future outcome cannot be ascertained with reasonable certainty. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are neither recognized nor disclosed in financial statements.

**(xvi) Employee benefits**

The Company participates in various employee benefit plans. Post-employment benefits are classified as either defined contribution plans or defined benefit plans. Under a defined contribution plan, the Company's only obligation is to pay a fixed amount with no obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits. The related actuarial and investment risks fall on the employee.

The expenditure for defined contribution plans is recognized as expense during the period when the employee provides service. Under a defined benefit plan, it is the Company's obligation to provide agreed benefits to the employees. The related actuarial and investment risks fall on the Company. The present value of the defined benefit obligations is calculated using the projected unit credit method.

**Gratuity:**

The Company provides for gratuity, a defined benefit retirement plan ("the Gratuity Plan") covering eligible employees. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Company.

Liabilities with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each Balance Sheet date using the projected unit credit method.

The Company recognizes the net obligation of a defined benefit plan in its Balance Sheet as an asset or liability. Gains and losses through re-measurements of the net defined benefit liability / (asset) are recognized in other comprehensive income and are not reclassified to profit or loss in subsequent periods. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognized in other comprehensive income. The effect of any plan amendments are recognized in net profit in the Statement of Profit and Loss.

**Provident Fund:**

Eligible employees of the company receive benefits from employee's provident fund Organisation, which is a defined benefit plan. Both the eligible employee and the Company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employee's salary. The remaining portion is contributed to the government-administered pension fund.

**(xvii) Share based payments**

Employees of the Company receive remuneration in the form of equity settled instruments, for rendering services over a defined vesting period. Equity instruments granted are measured by reference to the fair value of the instrument at the date of grant. The expense is recognized in the statement of profit and loss with a corresponding increase to the share based payment reserve, a component of equity. The equity instruments generally vest in a graded manner over the vesting period. The fair value determined at the grant date is expensed over the vesting period of the respective tranches of such grants (accelerated amortization). The stock compensation expense is determined based on the Company's estimate of equity instruments that will eventually vest. The fair value of the amount payable to the employees in respect of phantom stocks, which are settled in cash, is recognized as an expense with a corresponding increase in liabilities, over the period during which the employees become unconditionally entitled to payment. The liability is remeasured at each reporting date and at settlement date based on the fair value of the phantom stock options plan. Any changes in the liability are recognized in statement of profit and loss.

**(xviii) Revenue**

The Company derives revenue primarily from IT Infrastructure Services, Enterprise Application & Integrated Solutions and related services. The Company recognizes revenue when the significant terms of the arrangement are enforceable, services have been delivered and the collectability is reasonably assured.

Revenue on time-and-material contracts is recognized as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue. Revenue from fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to the measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Maintenance revenue is recognized ratably over the term of the underlying maintenance arrangement. Revenues in excess of invoicing are classified as contract assets (which we refer to as unbilled revenue)

In arrangements for IT and ITeS related services and maintenance services, the Company has applied the guidance in Ind AS 115, Revenue from Contracts with Customers, by applying the revenue recognition criteria for each distinct performance obligation. The arrangements with customers generally meet the criteria for considering IT and ITeS related services as distinct performance obligations. For allocating the transaction price, the Company has measured the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In cases where the Company is unable to determine the standalone selling price, the Company uses the expected cost plus margin approach in estimating the standalone selling price. For IT and ITeS and related services, the performance obligations are satisfied as and when the services are rendered since the customer generally obtains control of the work as it progresses. Revenue from licenses where the customer obtains a “right to use” the licenses is available to the customer. Revenue from licenses where the customer obtains a “right to access” is recognized over the access period. The Company has applied the principles under Ind AS 115 to account for revenues from these performance obligations. When implementation services are provided in conjunction with the licensing arrangement and the license and implementation have been identified as two separate performance obligations, the transaction price for such contracts are allocated to each performance obligation of the contract based on their relative standalone selling prices. In the absence of standalone selling price for implementation, the performance obligation is estimated using the expected cost plus margin approach. Where the license is required to be substantially customized as part of the implementation service, the entire arrangement fee for license and implementation is considered to be a single performance obligation and the revenue is recognized using the percentage-of-completion method as the implementation is performed. Deferred contract costs are incremental costs of obtaining a contract which are recognized as assets and amortized over the term of the contract.

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch-up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

The Company presents revenues net of indirect taxes in its Statement of Profit and Loss.

Revenues for the years ended March 31, 2022 and March 31, 2021 are as follows :

(₹ in Lakhs)

Particulars	Year ended	
	31 <sup>st</sup> March 2022	31 <sup>st</sup> March 2021
Revenue from Services	11,789	9,138
Revenue from products	469	472
Other Operating Income	0	9
<b>Total revenue from operations</b>	<b>12,258</b>	<b>9,619</b>

‘0’, it denotes value less than ₹50,000/- as all value is rounded off to the nearest ₹ 1 Lakh.

#### Disaggregate revenue information

The table below presents disaggregated revenues from contracts with customers for the year ended March 31, 2022 by offerings and contract-type. The Company believes that this disaggregation best depicts how the nature, amount, timing and uncertainty of our revenues and cash flows are affected by industry, market and other economic factors.

(₹ in Lakhs)

Revenue by Offerings	Year ended 31 <sup>st</sup> March 2022	Year ended 31 <sup>st</sup> March 2021
Infrastructure Management Services	3,923	2,886
End User Services	8,335	6,733
<b>Total</b>	<b>12,258</b>	<b>9,619</b>

(₹ in Lakhs)

Revenue by Geography	Year ended 31st March 2022	Year ended 31st March 2021
India	6,435	5,897
USA	5,787	3,684
UK	36	38
<b>Total</b>	<b>12,258</b>	<b>9,619</b>

#### Infrastructure Management services

Infrastructure Management services comprise service and solution offerings of the Company that enable our clients to transform their businesses. We have added many medium enterprises government businesses for Network Operations Centre (NOC) and Security Operations Centre (SOC) services along with traditional Managed Services business.

#### End user services

Core services comprise traditional offerings of the Company that have scaled and industrialized over a number of years. These primarily include application management services, proprietary application development services, independent validation solutions, product engineering and management, facility management services, traditional enterprise application implementation, support and integration services and Annual Maintenance Contracts.

#### Trade receivables and contract balances

The Company classifies the right to consideration in exchange for deliverables as either a receivable or as unbilled revenue.

A receivable is a right to consideration that is unconditional upon passage of time. Revenue for fixed-price maintenance contracts is recognized on a straight-line basis over the period of the contract. Revenues in excess of billings is recorded as unbilled revenue and is classified as a financial asset for these cases as right to consideration is unconditional upon passage of time.

Revenue recognition for fixed-price development contracts is based on percentage-of-completion method. Invoicing to the clients is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers. Unbilled revenue for fixed-price development contracts is classified as non-financial asset as the contractual right to consideration is dependent on completion of contractual milestones.

Trade receivable and unbilled revenues are presented net of impairment in the Balance Sheet.

During the year ended March 31, 2022, the Company recognized revenue of ₹1095 Lakh from Opening unearned revenue as of April 1, 2021.

#### Performance Obligations and Remaining Performance Obligations

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the Company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance obligation related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time-and-material basis. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustment for revenue that has not materialized and adjustments for currency.

#### (xix) Income taxes

Income tax comprises current and deferred tax. Income tax expense is recognized in the statement of profit and loss except to the extent it relates to items directly recognized in equity or in other comprehensive income.

##### a) Current income tax

Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for the period. The tax rates and tax laws used to compute the current tax amount are those that are enacted or substantively enacted by the reporting date and applicable for the period. The Company off sets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis or to realize the asset and liability simultaneously.

**b) Deferred income tax**

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary difference arising between the tax base of assets and liabilities and their carrying amount in financial statements, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profits or loss at the time of the transaction. Deferred income tax asset is recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary difference, and the carry forward of unused tax credits and unused tax losses can be utilized. Deferred income tax liabilities are recognized for all taxable temporary difference. The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

**c) Minimum Alternate Tax**

Minimum Alternate Tax is in the nature of unused tax credit which can be carried forward and utilised when the company will pay normal income tax during the specified period. Deferred tax assets on such tax credit is recognized to the extent that is probable that the unused tax credit can be utilised in the specified future period.

**(xx) Borrowing Costs**

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets are capitalized as a part of Cost of that assets, during the period till all the activities necessary to prepare the Qualifying assets for its intended use or sale are complete during the period of time that is required to complete and prepare the assets for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Other borrowing costs are recognized as an expense in the period in which they are incurred.

**(xxi) Earnings per share**

Basic earnings per share is computed using the weighted average number of equity shares outstanding during the period. Diluted EPS is computed by dividing the net profit after tax by the weighted average number of equity shares considered for deriving basic EPS and also weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for bonus shares, as appropriate.

**(xxii) Foreign Currency Transactions:**

**a) Initial Recognition**

Transactions in foreign currency are recorded at the exchange rate prevailing on the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss.

**b) Measurement of Foreign Currency Items at the Balance Sheet Date**

Foreign currency monetary items of the Company are restated at the closing exchange rates. Non-monetary items are recorded at the exchange rate prevailing on the date of the transaction. Exchange differences arising out of these transactions are charged to the Statement of Profit and Loss.

**(xxiii) Leases**

**i) The Company as a Lessor:**

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.  
The lease rentals charged during the period are as follows

(₹ in Lakhs)

Particulars	Year ended 31st March 2022	Year ended 31st March 2021
Lease rentals recognized during the period	10	26

**ii) The Company as a Lessee:**

The Company, as a lessee, recognises a right-of-use asset and a lease liability for its leasing arrangements, if the contract conveys the right to control the use of an identified asset. The contract conveys the right to control the use of an identified asset, if it involves the use of an identified asset and the Company has substantially all of the economic benefits from use of the asset and has right to direct the use of the identified asset. The cost of the right-of-use asset shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date plus any initial direct costs incurred. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate.

For short-term and low value leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the lease term.

## Independent Auditors' Report

To The Members of Allied Digital Services Limited

### Report on the Audit of the Consolidated Financial Statements

#### Opinion

We have audited the consolidated financial statements of Allied Digital Services Limited ("the Holding Company") and its subsidiaries and its associate (the Holding Company, its subsidiaries and associate together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at March 31, 2022, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year ended on that date, and notes to the consolidated financial statements, including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2022, the consolidated profit, consolidated total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

#### Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group and its associate in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

#### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

SR NO	KEY AUDIT MATTERS	AUDITOR'S RESPONSE
1.	<p><b>Revenue recognition</b></p> <p><b>Fixed price contracts</b></p> <p>The Company engages in Fixed price contracts, including contracts with multiple performance obligations. Revenue recognition in such contracts involves judgments relating to identification of distinct performance obligations, determination of transaction price for such performance obligations and the appropriateness of the basis used to measure revenue recognised over a period.</p>	<p><b>Principal Audit Procedures</b></p> <p>Our audit procedures included;</p> <ul style="list-style-type: none"> <li>Obtained an understanding of the systems, processes and controls for evaluation of fixed price contracts to identify distinct performance obligations and recognition of revenue. Evaluated the design and operating effectiveness of internal controls including IT controls relating to recording of the contract value, determining the transaction price, allocation of consideration to different performance obligations, measurement of efforts incurred and process around estimation of efforts required to complete the performance obligations and the most appropriate method to recognise revenue.</li> </ul>

SR NO	KEY AUDIT MATTERS	AUDITOR'S RESPONSE
	<p>In case of Fixed price contracts where performance obligations are satisfied over a period of time, revenue is recognised using the percentage of completion method based on management's estimate of contract efforts. The estimation of total efforts or costs involves significant judgement and is assessed throughout the period of the contract to reflect any changes based on the latest available information. These contracts may also involve recognizing onerous obligations that require critical estimates to be made by the management. In case of Fixed price maintenance contracts, revenue is recognised either on a straight line basis or using the percentage of completion method or at an amount equal to sums billed to customer, depending on the most appropriate method that depicts the value of service delivered to the customer.</p>	<ul style="list-style-type: none"> <li>▪ On selected sample of contracts, we tested that the revenue recognised is in accordance with the revenue recognition accounting standard. We - evaluated the identification of performance obligations; - considered the terms of the contracts to determine the transaction price, - determined if the Company's evaluation of the method used for recognition of revenue is appropriate; - tested the Company's calculation of efforts incurred, estimation of contract efforts including estimation of onerous obligation, through a retrospective review of efforts incurred with estimated efforts; - assessed appropriateness of contract assets/ unbilled revenue on balance sheet date by evaluating underlying documentation.</li> <li>▪ Tested aged contract assets to assess possible delays in achieving milestones, which may require a change in estimated efforts to complete the remaining performance obligations.</li> <li>▪ Performed analytical procedures over revenue and receivables.</li> </ul>
2	<p><b>Evaluation of tax positions and litigations</b></p> <p>The Group operates in multiple global jurisdictions which requires it to estimate its income tax liabilities according to the tax laws of the respective tax jurisdictions. Further, there are matters of interpretation in terms of application of tax laws and related rules to determine current tax provision and deferred taxes. The Group has material tax positions and litigations on a range of tax matters primarily in India. This requires management to make significant judgments to determine the possible outcome of uncertain tax positions and litigations and their consequent impact on related accounting and disclosures in the consolidated financial statements.</p>	<p>In view of the significance of the matter we applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence:</p> <ul style="list-style-type: none"> <li>▪ Testing the design, implementation and operating effectiveness of the Group's key controls over identifying uncertain tax positions and matters involving litigations/disputes.</li> <li>▪ Obtaining details of tax positions and tax litigations for the year and as at 31 March 2022 and holding discussions with designated management personnel.</li> <li>▪ Assessing and analysing select key correspondences with tax authorities and inspecting external legal opinions obtained by management for key uncertain tax positions and tax litigations.</li> <li>▪ Evaluating underlying evidence and documentation to determine whether the information provides a basis for amounts reserved/not reserved in the books of account.</li> <li>▪ Involving our internal tax specialists and evaluating management's underlying key assumptions in estimating the tax provisions and estimate of the possible outcome of significant tax litigations; and</li> <li>▪ In respect of tax positions and litigations, assessing the computation of provisions and consequent impact on related accounting and disclosures in the consolidated financial statements.</li> </ul>

**Information other than the Financial Statements and Auditor's Report thereon**

The Holding Company's management and the Board of Directors are responsible for the preparation of the other information. The other information in the Annual Report of the Company comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated

financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If based on the work we have performed, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the relevant laws and regulations. We have nothing to report in this regard.

### Management Responsibilities for the Consolidated Financial Statements

The Holding Company's management and the Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated total comprehensive income, consolidated changes in equity and consolidated cash flows of the Group including its associate in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Management and the Board of Directors of the companies included in the Group are responsible for maintenance of the adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company as aforesaid.

In preparing the consolidated financial statements, the respective Management and the Board of Directors of the companies included in the Group and of its associate are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

### Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company and its subsidiary companies which are companies incorporated in India, has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management and Board of Directors.
- Conclude on the appropriateness of management's and Board of Director's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associate to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associate to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associate to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance of the Holding Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, based on our audit we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
  - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
  - c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
  - d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
  - e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2022 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies and associates incorporated in India, none of the directors of the Group companies and associates incorporated in India is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164(2) of the Act.
  - f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
  - g) With respect to the matter to be included in the Auditor's Report under Section 197(16) of the Act;
 

In our opinion and according to the information and explanation given to us, the remuneration paid during the current year by the holding company is in accordance with the provisions of Section 197 of the Act.
  - h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
    - i. The consolidated financial statements disclose impact of pending litigations on the consolidated financial position of the Group – Refer Note No 32 to the consolidated financial statements.
    - ii. The Group did not have any material foreseeable losses on long term contracts including derivatives contracts during the year ended 31<sup>st</sup> March, 2022.

- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the holding company and its subsidiaries incorporated in India during the year ended 31<sup>st</sup> March, 2022.
  - iv. a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or its subsidiary companies incorporated in India to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall:
    - directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Holding Company or its subsidiary companies incorporated in India or
    - provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.
  - b) The management has represented, that, to the best of its knowledge and belief, no funds have been received by the Holding Company or its subsidiary companies incorporated in India from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or its subsidiary companies incorporated in India shall:
    - directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Funding Parties or
    - provide any guarantee, security or the like from or on behalf of the Ultimate Beneficiaries
  - c) Based on such audit procedures as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under subclause (iv)(i) and (iv)(ii) contain any material mis-statement.
- i) The dividend declared or paid during the year by the Holding Company are in compliance with section 123 of the Act.

## Annexure “B” to the Independent Auditor’s Report

*(Referred to in paragraph 2 (f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of Allied Digital Services Limited of even date)*

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2022, we have audited the internal financial controls over financial reporting of Allied Digital Services Limited (hereinafter referred to as “Company”) and its subsidiary companies and its associate, which are companies incorporated in India, as of that date.

### Management’s Responsibility for Internal Financial Controls

The respective company’s management and the Board of Directors of the respective Companies are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (“the ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

### Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company and its subsidiary companies and its associate, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting with reference to the Consolidated Financial Statements.

### Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

### Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Holding Company and its subsidiary companies and its associate, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The company has presence in pan India and it has Subsidiary companies in USA, UK, Singapore, Australia, Ireland, Brazil, Japan and China.

### 2) Significant Accounting Policies

#### 2.1 Basis of preparation of consolidated financial statements

These consolidated financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on an accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act, 2013 (‘Act’) (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

The financial statements have been prepared on a historical cost basis, except for the following ;

Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments),

The financial statements are presented in Indian Rupee (₹) which is also the Group’s functional currency and all values are rounded to the nearest lakhs, except when otherwise indicated.

#### 2.2 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company, its subsidiaries and associate as at March 31, 2022.

**Subsidiaries:** Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

**Equity accounted investees:** The Group’s interests in equity accounted investees comprise interests in associate. An associate is an entity in which the Group has significant influence, but not control or joint control, over the financial and operating policies. Interests in associate are accounted for using the equity method. They are initially recognised at cost which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group’s share of profit or loss and OCI of equity accounted investees until the date on which significant influence ceases.

Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary. Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member’s financial statements in preparing the consolidated financial statements to ensure conformity with the group’s accounting policies.

The financial statements of each of the subsidiaries and associate used for the purpose of consolidation are drawn up to same reporting date as that of the Company, i.e., year ended on March 31.

#### 2.3 Consolidation procedure:

- a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.
- b) Offset (eliminate) the carrying amount of the parent’s investment in each subsidiary and the parent’s portion of equity of each subsidiary.

- c) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group. Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation. When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interest and other components of equity. Any interest retained in the form of subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognised in the statement of profit and loss.

The consolidated financial statements comprise the financial statements of the Company, and its subsidiaries and associate as disclosed below :

Sr. No.	Name of Company	Relationship
1.	Allied Digital Services, LLC (USA)	Subsidiary
2.	Allied Digital INC (USA)	Subsidiary

#### Summary of significant accounting policies

- (i) Functional and presentation currency Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which these entities operate (i.e. the "functional currency"). The financial statements are presented in Indian Rupee, the national currency of India, which is the functional currency of the Company.
- (ii) Foreign currency transactions and balances are translated into the functional currency of the company, using the exchange rates prevailing at the dates of the respective transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at the exchange rates prevailing at reporting date of monetary assets and liabilities denominated in foreign currencies, are recognized in the statement of profit and loss and reported within foreign exchange gains/ (losses). Non-monetary assets and liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.
- (iii) Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.
- (iv) Effective April 1, 2018, the Company has prospectively adopted Appendix B to Ind AS 21, Foreign Currency Transactions and Advance Consideration which clarifies the date of transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income when an entity has received or paid advance consideration in a foreign currency.
- (v) Investment in subsidiaries: Investment in subsidiaries is measured at cost.
- (vi) Current v/s Non-current classification

The company presents assets and liabilities in the balance sheet based on current / non-current classification.

An asset /liability is current when it is:

- Expected to be realised/settled or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised / settled within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period
- All other assets/ liabilities are classified as non-current.
- Deferred tax assets and liabilities are classified as non-current assets and liabilities.

**(vii) Financial instruments**

All financial instruments are recognised initially at fair value. Transaction costs that are attributable to the acquisition of the financial asset (other than financial assets recorded at fair value through profit or loss) are included in the fair value of the financial assets. Purchase or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place are recognised on trade date. While, loans and borrowings and payables are recognised net of directly attributable transaction costs. For the purpose of subsequent measurement, financial instruments of the Company are classified in the following categories: non-derivative financial assets comprising amortised cost, debt instruments at fair value through other comprehensive income (FVTOCI), equity instruments at FVTOCI or fair value through profit and loss account (FVTPL), non-derivative financial liabilities at amortised cost or FVTPL and derivative financial instruments (under the category of financial assets or financial liabilities) at FVTPL. The classification of financial instruments depends on the objective of the business model for which it is held. Management determines the classification of its financial instruments at initial recognition.

**(viii) Debt instruments at FVTOCI**

A debt instrument shall be measured at fair value through other comprehensive income if both of the following conditions are met:

- (a) the objective of the business model is achieved by both collecting contractual cash flows and selling financial assets and
- (b) the asset's contractual cash flow represent Solely Payments of Principal and Interest (SPPI)

Debt instruments included within FVTOCI category are measured initially as well as at each reporting period at fair value plus transaction costs. Fair value movements are recognised in other comprehensive income (OCI). However, the Company recognises interest income, impairment losses & reversals and foreign exchange gain/(loss) in statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from equity to profit and loss. Interest earned is recognised under the effective interest rate (EIR) model.

**(ix) Equity instruments at FVTOCI**

All equity instruments are measured at fair value. Equity instruments held for trading is classified as FVTPL. For all other equity instruments, the Company may make an irrevocable election to present subsequent changes in the fair value in OCI. The Company makes such election on an instrument-by-instrument basis. If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividend are recognised in OCI which is not subsequently recycled to statement of profit and loss.

**(x) Financial assets at FVTPL**

FVTPL is a residual category for financial assets. Any financial asset which does not meet the criteria for categorization as at amortised cost or as FVTOCI, is classified as FVTPL.

In addition the Company may elect to designate the financial asset, which otherwise meets amortised cost or FVTOCI criteria, as FVTPL if doing so eliminates or significantly reduces a measurement or recognition inconsistency. The Company has not designated any financial asset as FVTPL.

Financial assets included within the FVTPL category are measured at fair values with all changes in the statement of profit and loss.

- a) Non-derivative financial liabilities
  - (i) Financial liabilities at amortised cost: Financial liabilities at amortised cost represented by borrowings, trade and other payables are initially recognized at fair value, and subsequently carried at amortized cost using the effective interest rate method.
  - (ii) Financial liabilities at FVTPL: Financial liabilities at FVTPL represented by contingent consideration are measured at fair value with all changes recognised in the statement of profit and loss.
- b) Derivative financial instruments: Derivatives are recognized and measured at fair value. Attributable transaction costs are recognized in statement of profit and loss.

**(xi) Property, plant and equipment**

- a) **Recognition and measurement:** Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses, if any. Cost includes expenditures directly attributable to the acquisition of the asset.
- b) **Depreciation:** The Company depreciates property, plant and equipment over the estimated useful life on a straight-line basis from the date the assets are ready for intended use. Assets acquired under finance lease if any and leasehold improvements are amortized over the lower of estimated useful life and lease term. The estimated useful lives for the current and comparative period of significant items of property, plant and equipment are as follows

Type of Asset	Method	Estimated useful life
Leasehold Land	Straight line	99 Years
Freehold & Leasehold Buildings	Straight line	60 Years
Furniture and Fixtures	Straight line	10 Years
Computers and IT Equipment's	Straight line	3 Years
Servers	Straight line	6 Years
Motor Vehicles	Straight line	8 Years
Office Equipment's	Straight line	5 years
Civil and Plumbing Work	Straight line	60 Years

Depreciation methods, useful lives and residual values are reviewed at each reporting date. When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment. Subsequent expenditure relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the statement of profit and loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or disposition of the asset and the resultant gains or losses are recognized in the statement of profit and loss. Amounts paid towards the acquisition of property, plant and equipment outstanding as of each reporting date and the cost of property, plant and equipment not ready for intended use before such date are disclosed under capital work- in-progress (if any).

- c) **Impairment:** Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated depreciation) had no impairment loss been recognized for the asset in prior years.

**(xii) Intangible assets**

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on the number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset. The estimated useful lives of intangibles are as follows:

Type of Asset	Method	Estimated useful life
Intellectual Property	Straight line	10 Years

**(xiii) Impairment**

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss. The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivable.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

**(xiv) Inventories**

Inventory comprising traded hardware and software are valued at lower of cost and net realisable value. Costs comprise cost of purchase and directly attributable costs incurred in bringing the inventories to their present location and condition. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

**(xv) Cash and Cash Equivalents:**

Cash and Cash equivalents include cash and Cheque in hand, bank balances, demand deposits with banks and other short-term highly liquid investments that are readily convertible to known amounts of cash & which are subject to an insignificant risk of changes in value where original maturity is three months or less.

**(xvi) Provisions, Contingent Liabilities and Contingent Assets:**

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract.

A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources or an obligation for which the future outcome cannot be ascertained with reasonable certainty. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are neither recognized nor disclosed in financial statements.

**(xvii) Employee benefits**

The Company participates in various employee benefit plans. Post-employment benefits are classified as either defined contribution plans or defined benefit plans. Under a defined contribution plan, the Company's only obligation is to pay a fixed amount with no obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits. The related actuarial and investment risks fall on the employee.

The expenditure for defined contribution plans is recognized as expense during the period when the employee provides service. Under a defined benefit plan, it is the Company's obligation to provide agreed benefits to the employees. The related actuarial and investment risks fall on the Company. The present value of the defined benefit obligations is calculated using the projected unit credit method.

**Gratuity :**

The Company provides for gratuity, a defined benefit retirement plan ("the Gratuity Plan") covering eligible employees. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Company.

Liabilities with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each Balance Sheet date using the projected unit credit method.

The Company recognizes the net obligation of a defined benefit plan in its Balance Sheet as an asset or liability. Gains and losses through remeasurements of the net defined benefit liability / (asset) are recognized in other comprehensive income and are not reclassified to profit or loss in subsequent periods. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognized in other comprehensive income. The effect of any plan amendments are recognized in net profit in the Statement of Profit and Loss.

**Provident Fund :**

Eligible employees of the company receive benefits from employees provident fund organisation, which is a defined benefit plan. Both the eligible employee and the Company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employee's salary. The remaining portion is contributed to the government-administered pension fund.

**(xviii) Share based payments**

Employees of the Company receive remuneration in the form of equity settled instruments, for rendering services over a defined vesting period. Equity instruments granted are measured by reference to the fair value of the instrument at the date of grant. The expense is recognized in the statement of profit and loss with a corresponding increase to the share based payment reserve, a component of equity. The equity instruments generally vest in a graded manner over the vesting period. The fair value determined at the grant date is expensed over the vesting period of the respective tranches of such grants (accelerated amortization). The

stock compensation expense is determined based on the Company's estimate of equity instruments that will eventually vest. The fair value of the amount payable to the employees in respect of phantom stocks, which are settled in cash, is recognized as an expense with a corresponding increase in liabilities, over the period during which the employees become unconditionally entitled to payment. The liability is remeasured at each reporting date and at settlement date based on the fair value of the phantom stock options plan. Any changes in the liability are recognized in statement of profit and loss.

#### **(xix) Revenue**

The Group derives revenues primarily from business of IT and ITES services, consulting and implementing smart city projects as a master system integrator (MSI).

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

Revenue on time-and-material contracts is recognized as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue. Revenue from fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to the measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Maintenance revenue is recognized ratably over the term of the underlying maintenance arrangement.

Revenues in excess of invoicing are classified as contract assets (which we refer to as unbilled revenue)

In arrangements for IT and ITeS related services and maintenance services, the Group has applied the guidance in Ind AS 115, Revenue from Contracts with Customers, by applying the revenue recognition criteria for each distinct performance obligation. The arrangements with customers generally meet the criteria for considering IT and ITeS related services as distinct performance obligations. For allocating the transaction price, the Company has measured the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In cases where the Company is unable to determine the standalone selling price, the Company uses the expected cost plus margin approach in estimating the standalone selling price. For IT and ITeS and related services, the performance obligations are satisfied as and when the services are rendered since the customer generally obtains control of the work as it progresses. Revenue from licenses where the customer obtains a "right to use" the licenses is available to the customer. Revenue from licenses where the customer obtains a "right to access" is recognized over the access period. The Company has applied the principles under Ind AS 115 to account for revenues from these performance obligations. When implementation services are provided in conjunction with the licensing arrangement and the license and implementation have been identified as two separate performance obligations, the transaction price for such contracts are allocated to each performance obligation of the contract based on their relative standalone selling prices. In the absence of standalone selling price for implementation, the performance obligation is estimated using the expected cost plus margin approach. Where the license is required to be substantially customized as part of the implementation service, the entire arrangement fee for license and implementation is considered to be a single performance obligation and the revenue is recognized using the percentage-of-completion method as the implementation is performed.

Deferred contract costs are incremental costs of obtaining a contract which are recognized as assets and amortized over the term of the contract.

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch-up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

#### **Management services**

Infrastructure Management services comprise service and solution offerings of the Group that enable our clients to transform their businesses. We have added many medium enterprises government businesses for Network operations centre (NOC) and Security operations centre (SOC) services along with traditional Managed Services business.

#### **End user services**

Core services comprise traditional offerings of the Group that have scaled and industrialized over a number of years. These primarily include application management services, proprietary application development services, independent validation solutions, product engineering and management, facility management services, traditional enterprise application implementation, support and integration services and Annual Maintenance Contracts.

### Trade receivables and contract balances

The Group classifies the right to consideration in exchange for deliverables as either a receivable or as unbilled revenue.

A receivable is a right to consideration that is unconditional upon passage of time. Revenue for fixed-price maintenance contracts is recognized on a straight-line basis over the period of the contract. Revenues in excess of billings is recorded as unbilled revenue and is classified as a financial asset for these cases as right to consideration is unconditional upon passage of time.

Revenue recognition for fixed-price development contracts is based on percentage-of-completion method. Invoicing to the clients is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers. Unbilled revenue for fixed-price development contracts is classified as non-financial asset as the contractual right to consideration is dependent on completion of contractual milestones.

Trade receivable and unbilled revenues are presented net of impairment in the Balance Sheet.

During the year ended March 31, 2022, the Company recognized revenue of ₹ 1,095 Lakh from Opening unearned revenue as of April 1, 2021.

### Performance obligations and remaining performance obligations

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the Company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Group has not disclosed the remaining performance obligation related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time-and-material basis. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revaluations, adjustment for revenue that has not materialized and adjustments for currency.

### (xx) Income taxes

Income tax comprises current and deferred tax. Income tax expense is recognized in the statement of profit and loss except to the extent it relates to items directly recognized in equity or in other comprehensive income.

#### a) Current income tax

Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for the period. The tax rates and tax laws used to compute the current tax amount are those that are enacted or substantively enacted by the reporting date and applicable for the period. The Company off sets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis or to realize the asset and liability simultaneously

#### b) Deferred income tax

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary difference arising between the tax base of assets and liabilities and their carrying amount in financial statements, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profits or loss at the time of the transaction. Deferred income tax asset is recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary difference, and the carry forward of unused tax credits and unused tax losses can be utilized. Deferred income tax liabilities are recognized for all taxable temporary difference. The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

#### c) Minimum Alternate Tax

Minimum Alternate Tax is in the nature of unused tax credit which can be carried forward and utilised when the company will pay normal income tax during the specified period. Deferred tax assets on such tax credit is recognized to the extent that is probable that the unused tax credit can be utilised in the specified future period.

### (xxi) Borrowing Costs:

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets are capitalized as a part of Cost of that assets, during the period till all the activities necessary to prepare the Qualifying assets for its intended use or sale are complete during the period of time that is required to complete and prepare the assets for its

intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Other borrowing costs are recognized as an expense in the period in which they are incurred.

**(xxii) Earnings per share**

Basic earnings per share is computed using the weighted average number of equity shares outstanding during the period. Diluted EPS is computed by dividing the net profit after tax by the weighted average number of equity shares considered for deriving basic EPS and also weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for bonus shares, as appropriate.

**(xxiii) Foreign Currency Transactions:**

**a) Initial Recognition**

Transactions in foreign currency are recorded at the exchange rate prevailing on the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss.

**b) Measurement of Foreign Currency Items at the Balance Sheet Date**

Foreign currency monetary items of the Company are restated at the closing exchange rates. Non monetary items are recorded at the exchange rate prevailing on the date of the transaction. Exchange differences arising out of these transactions are charged to the Statement of Profit and Loss.

**(xxiv) Adoption of Ind AS 116 – Leases**

**i) The Company as a Lessor:**

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

The lease rentals charged during the period are as follows

Particulars	₹ in Lakhs	
	Year ended March 31 <sup>st</sup> ,2022	Year ended March 31 <sup>st</sup> ,2021
Lease rentals recognized during the period	10	26

**ii) The Company as a Lessee:**

The Company, as a lessee, recognises a right-of-use asset and a lease liability for its leasing arrangements, if the contract conveys the right to control the use of an identified asset. The contract conveys the right to control the use of an identified asset, if it involves the use of an identified asset and the Company has substantially all of the economic benefits from use of the asset and has right to direct the use of the identified asset. The cost of the right-of use asset shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date plus any initial direct costs incurred. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate.

For short-term and low value leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the lease term.
