RIL-BP boost: Domestic natural gas output up 19% y-o-y in May

FE BUREAU
New Delhi, June 21

DOMESTIC NATURAL GAS production increased 19.1% on year to 2,740 million standard cubic metre (mscm) in May, mainly due to higher production from Reliance Industries and BP's ultra-deep-waterfield in the KG-D6 Block of the Krishna Godavari basin on the east coast. The output had fallen 8.1% y-o-y to 28,670.6 mscm in FY21. RIL and BP's new field started production in December 2020 at 1.3 mscm per day (mscmd) and ramped up to 9.6 mscmd in March 2021.

Total consumption of 5,247 mscm of natural gas in May was 4.3% higher than the

corresponding month of the previous year. The 2,587 mscm of liquefied natural gas (LNG) imported in the month was 9.2% more than the import volumes of May 2020. The cumulative LNG import of 5,242 mscm in April-May, 2021 was higher by 24.9% compared with the corresponding period of the previous year. The value of LNG import in the first two months of FY22 was \$1.5 billion, about 67% higher annually.

Indigenous natural gas production caters to about 51% of the country's requirements, while around 85% of

the country's crude oil is imported. The 2.4 million tonne (MT) of crude oil produced in the country during the month was 7.7% lower than the production a year ago.

Crude oil import in May was 17.3 MT, recording an annual rise of 18.5%. Due to increase in global crude oil rates, the value of the import was \$8.3 billion, 261% higher than May, 2020. In the first two months of FY22, the value of crude import, at \$16.8 billion, was 217% higher than the same period last year though import volumes were up only 13.8% to 35.5 MT.

Ficci: Signs of recovery seen as states unlock

WITH STATES EASING lockdown curbs due to declining number of Covid cases, there are immediate signs of improvement in economic activity as companies are hopeful of better performance in the next 6 to 12 months, according to a survey. About 60% of 212 companies, which participated in the survey, said there was a high impact on their businesses due to the state-level lockdowns. — PTI

'Recent FAME II changes to boost EV demand' FICCI SAID THE recent changes in FAME II, including enhanced subsidies for electric two-wheelers, are expected to boost demand for EVs in the two-wheelers, three-wheelers and bus segments. Yet, it asked the Centre to also raise the incentive on electric three-wheelers too. — PTI

At \$64 bn, India 5th largest FDI recipient globally

United Nations, June 21

INDIA RECEIVED \$64 BILLION in FDI in 2020, the fifth largest recipient of inflows in the world, according to a UN report which said the second wave weighs heavily on India's overall economic activities but its strong fundamentals provide "optimism" for the medium term. The UNCTAD investment 2021 report said global FDI flows have been severely hit by the pandemic and plunged by 35% in 2020 to \$1 trillion from \$1.5 trillion the previous year. — PTI

What does privacy mean on social media?

Big Tech — WhatsApp and Twitter — and the Indian government are at war over the new Information Technology Rules that came into effect last month.

The government wants major social media platforms to appoint key officials in India, and to enable tracking the first originator of a message.

This, the government says, is to maintain law and order, ensure national security, and hold foreign entities accountable in India.

The platforms have argued that the demands encroach upon fundamental rights of free speech and privacy. Multiple issues are now under litigation.

There is another question: do citizens have the agency to keep both the state and Big Tech out of their personal space?

Listen to lawyer and public policy researcher Smriti Parsheera answer these questions and more at the next session of Explained.Live.

INSUFFICIENT DOSES FROM CENTRE: SISODIA

'At this pace, will take 15-16 months to vaccinate all'

EXPRESSNEWSERVICE
NEW DELHI, JUNE 21

IF THE distribution of vaccines by the central government continues at the current pace, it will take another 15-16 months to vaccinate Delhi's adult population, said Deputy Chief Minister Manish Sisodia on Monday.

Estimating that Delhi requires 2.94 crore vaccine doses to vaccinate the adult population — for 92 lakh people in the 18-44 age bracket and 57 lakh people over 45 — he said that Delhi still required another 2.3 crore doses to reach that target.

With the centralised vaccine policy having begun on Monday,

Deputy CM Manish Sisodia

Sisodia said that it has been communicated that in the month of July, the Centre will be distributing 15 lakh doses to Delhi.

"Whether the central gov-

ernment led vaccination drive is the world's largest drive or not, it is definitely India's longest vaccination drive. And the most mismanaged, derailed and messed up drive. It has completely botched the whole vaccination drive in the nation... When CM Arvind Kejriwal said that Delhi needed 2.94 crore vaccines to inoculate citizens within three months, why have we received only 57 lakh vaccines in total. Delhi still needs 2.3 crore doses of vaccines to inoculate all citizens. If we are going to receive only 15 lakh vaccines for next month, it indicates that we need approximately 15-16 more months to vaccinate all citizens in Delhi," he said.

According to him, the monthly break-up of vaccines received by Delhi is: 7.13 lakh doses for those above 45 in January, and 7.39 lakh in February. In April, 18.70 lakh doses were provided for those above 45 by the centre, and 4.5 lakh were procured by the Delhi government for the 18-45 bracket; in May, 9.56 lakh doses were provided for those above 45 by the centre, and 3.67 lakh were procured by the Delhi government for the 18-45 bracket; and in June, 8.21 lakh doses were provided for those above 45 by the Centre, and 46.20 lakh were procured by the Delhi government for the 18-45 bracket.

47% of Delhi's population over 45 receive at least one dose of vaccine

MALLICA JOSHI
NEW DELHI, JUNE 21

AS OF Monday, close to half of Delhi's population over the age of 45 has got at least one dose of the vaccine.

According to data shared by the Delhi government, 47% of the 57 lakh people that fall in the 45+ category have got one shot of the Covid vaccine. Close to 10 lakh people in this category have got both doses.

Overall in the city, over 65 lakh vaccine doses have been administered. Out of these, close to 50 lakh people have got at least one dose. Delhi's total population is estimated to be about 2 crore.

The vaccine procurement process in the country changed again on Monday, and states will no longer procure vaccines directly from manufacturers. Private hospitals, however, will

At a vaccination camp in New Delhi. Amit Mehra

still be allowed to procure vaccines directly from manufacturers. From Monday, vaccines at all state and central government centres will be provided by the Centre for free.

In Delhi, even prior to this change, vaccines were free at all government centres, and the cost for vaccinating those in the 18-44 age group was being borne by the state gov-

ernment. Vaccinations were first made available to healthcare workers and frontline workers in January. So far, however, only 83% of the estimated 3 lakh healthcare workers in Delhi have been vaccinated. Of these, only 62% have got both doses.

Out of the estimated 6 lakh frontline workers, about 73% have got at least one jab and 45% have got both jabs.

The one group where vaccination has been swift is the 18-44 age group, where at least 17% of the estimated 92 lakh population have got at least one dose of the vaccine. This is despite vaccination being opened for them only on May 3 in Delhi.

Only around 1.4 lakh people in this category have got both doses. These are people who have been inoculated with Covaxin.
