VC Funding Shows Revival Signs After 6 Qtrs Of Fall

After falling for six straight quarters, venture capital investments in India picked up during the April-June quarter, although the number of deals kept falling, **KPMG** said in a report. Globally, VCs chose to hold back on large deals in the wake of multiple uncertainties — geopolitical, inflation and interest rates

Cipla promoter family in talks with PE majors for stake sale

Reaches Out To Blackstone, Advent & KKR | Stock Jumps 10%

Rupali Mukherjee
@timesgroup.com

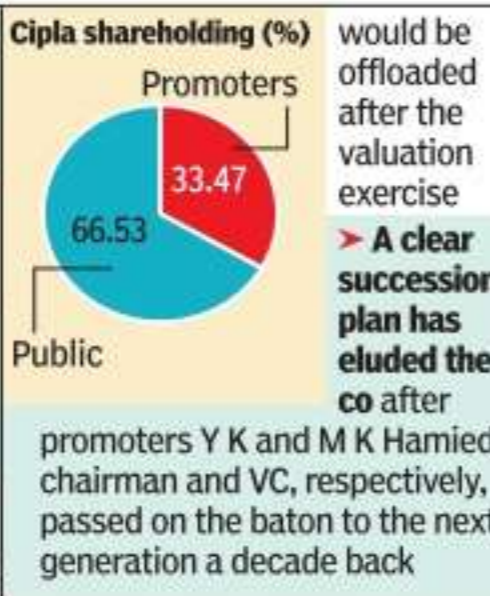

Mumbai: Drug major Cipla's promoters are in talks with private equity (PE) biggies, including Blackstone, Advent and KKR, to sell a part of their holding in the company. The promoters are believed to have mandated Kotak for the exercise, which could involve the sale of their entire 33.47% holding, sources told TOI.

After the valuation exercise, the promoter family is expected to take a decision on whether a part or the entire stake would be offloaded. "The deal is estimated to be a multi-billion one. Hence, a consortium of investors could be roped in if the promoters exit the company entirely," an industry expert said.

Reacting to the news, the company's scrip jumped nearly 10% to close at Rs 1,172 on the BSE Thursday. Cipla said in a statement to the exchange that it is not aware of

HOLDS 33.5% STAKE WORTH ₹31.7K CR

Cipla's promoters are in talks with private equity biggies including Blackstone, Advent and KKR. The sale could even involve the sale of their entire 33.47% holding, sources said. At the company's current market cap of ₹94,572cr, the promoters' stake is worth ₹31,653cr. The promoter family is expected to take a decision on whether a part or the entire stake

any event that requires disclosure under listing regulations. It "will make appropriate disclosure in compliance with the regulations as and when any such requirement arises", the statement added.

A clear succession plan has largely eluded the company after promoters, Y K and M K Hamied, chairman and vice-chairman, respectively, passed on the baton to the next generation a decade back. Y K Hamied's nephew

Kaamil and niece Samina — children of M K Hamied — were groomed for the role and joined the company's board. In 2016, after a leadership flux, Samina Vaziralli was elevated as its MD from the executive director role. Over the same time, the company also witnessed multiple changes with top-level managerial exits, including two CEOs, which impacted its business.

In an interview with TOI

in 2016 when Samina took over the company's helm as its executive vice-chairman, she said: "My elevation signals the family's decision towards this (succession planning), while the setting up of the bench (management council) is a step in the direction that Cipla will be led by professional management, with the promoters moving away from day to day management." The company's COO Umang Vohra was elevated as the CEO the same year.

Last year, the promoter family had offloaded around 2% through block deals for about Rs 1,830 crore. In the past, the promoter family had denied speculation of any stake sale, saying it was fully committed to the business.

On July 26, the company reported strong results buoyed by its US and India business. Net profit jumped 45% to Rs 996 crore on a higher turnover of Rs 6,329 crore for the June quarter.

Local FMCG brands pip giants in growth

Sales Resurge As Inflation Cools, Buyers Shift From Unbranded Products: Study

Namrata Singh
@timesgroup.com

Local FMCG brands have mushroomed amid cooling inflation and are growing faster than national brands in categories ranging from noodles to dishwash bars. Local dishwash brands Supremo 51 (Madhya Pradesh) and Reflect (Maharashtra) have seen over 100% growth in households over one year, while Balaji Gippi noodles in Gujarat has grown 58%, a report by Kantar showed.

"The mix of purchases that are made by a household keeps shifting depending upon inflation or uncertainties. During Covid, we had a very poor presence of local brands for two reasons. One, in a situation of uncertainty consumers tend to gravitate towards familiar or known brands. Local brands suffered on account of that. Second, they faced logistical issues because of the lockdown," K Ramakrishnan,

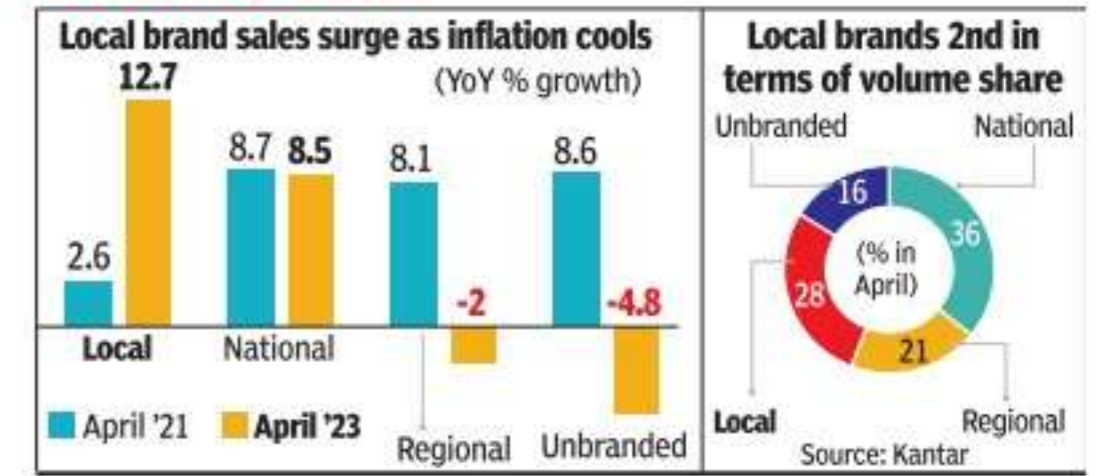

MD, south Asia, worldpanel division at Kantar, told TOI.

The advantage for national brands is that they become the preferred choice for consumers during a crisis like the pandemic, and they

are seeing a resurgence of the local brands," Ramakrishnan said.

Teju masala in Karnataka, which has a 37% penetration, is growing at 65%, and Challenge detergent bar,

CYCLICAL SHIFT IN SHOPPING CART

continue to grow even during inflationary times. On the flip side, local brands are unable to cope with the pricing pressures during inflation.

"Local brands as they couldn't take price increases when raw materials became expensive. After two years of suffering, local brands have grown more than the national brands. It's cyclical and this is the year in which we

which has a 20% penetration, is seeing 42% growth, the data showed. '103 Noodle' in Karnataka, with a 35% penetration, is growing at 113%.

Local brands have surpassed the growth of national brands by a significant margin. Their volume share has been rising over the last few years to reach 28% in MAT (moving annual total) April 2023, the data showed.

'Ecosystem, talent key to India's chip mission'

Parth Shastri & Niyati Parikh | TNN

Vinod Dham, known as the 'father of the Intel Pentium chip', has said design and manufacturing must go hand in hand for India's semiconductor campaign to succeed. The Indian-American technopreneur, who is on the advisory committee of the India Semiconductor Mission (ISM), stressed having an ecosystem and capacity building, adding that India can take the lead only when it has a talent pool. In the run-up to Semicon India 2023 in Gandhinagar, the technocrat spoke with TOI. Excerpt:

What is ISM's strategy to put India on the global semiconductor map?
Design and manufacturing must go hand in hand for ISM to succeed. The focal point is to have a full ecosystem —

Design and manufacturing must go hand in hand for India Semiconductor Mission (ISM) to succeed. The focal point is to have a full ecosystem. Design is a key element... The world order is favourable for India. The pandemic, Russia-Ukraine war and elevated tensions between the US & China and semiconductor shortage, collectively gave tailwinds to ISM. The timing is right...

Vinod Dham | MEMBER, ADVISORY COMMITTEE OF INDIA SEMICONDUCTOR MISSION

from beginning to end. Design is a key element in chip manufacturing. We must ensure that the technology is compatible with the rest of the world. Investing in 28 nanometre chips, and gradually transitioning to 14 nanometre chips will help build a lot of self-sufficiency in India to cater to industries such as automotive and appliances, even the defence sector which is crucial. Over the next decade, this will build a foundation for more indigenisation into chip design and innovation.

Do we have the workforce

to meet the goals? Capacity building is extremely important. According to a recent report, over 1.1 lakh jobs will be added in the Western world alone by 2030 and labour shortages are threatening expansion plans in the semiconductor sector. India can take the lead here only when it has a talent pool. Today, we don't have anything tangible to offer apart from money. I have thus been emphasising on capacity building. The ministry is already working on skill development initiatives to be able to groom 1 lakh engineers in the

next 5-7 years. Back in the '90s, the IT giants of the world turned to India because of its tech talent pool and that's where Indian IT industry's growth began.

What are the other challenges that need to be addressed promptly?

Semiconductors is a capital-intensive industry. Technology businesses, however, require a risk appetite. While the government has stepped in to take that risk, domestic industry captains must shoulder responsibilities to invest and build on this. We must focus on innovation and R&D. We must develop new IP domestically.

Where does ISM position India in the world order?

The world order is favourable for India. The pandemic, Russia-Ukraine war and elevated tensions between US & China and semiconductor shortage,

collectively gave the tailwinds to ISM. The timing is right and we must focus to overcome challenges.

Does Gujarat have the first mover advantage in ISM?

It certainly does. The state government here is pro-business which is a big plus point. Moreover, people of Gujarat are enterprising. This is a great combination. At the same time, the government and bureaucracy moves faster in terms of getting the infrastructure right to put an ecosystem in place. In case of semiconductors, there is a dedicated policy in place in Gujarat, land acquisition has been prompt, necessary clearances from customs are in place. There is an airport and port connectivity in close proximity, water availability is ensured and there's a dedicated power plant for industries to ensure uninterrupted electricity supply.

Sony weighs making audio devices in India

Pankaj Doval | timesgroup.com

New Delhi: Sony is witnessing strong growth in the audio business in India and has started "discussions" internally to understand the prospects of making the products in India. If approved, this would see the company expand its manufacturing engagement in the country further as it witnesses a revival in its core televisions business, while also charting out a healthy trajectory in audio, gaming, and camera categories.

Sources said the company has started "exploratory work" on getting audio devices made in India, in line with government's push, but added that it is "still some distance away" from a final decision.

Sunil Nayyar, MD of Sony in India, refused to comment on the local manufacturing plans, but added that the audio category — comprising TWS (truly wireless) devices, noise-cancellation and other headphones, sound bars, and home speakers — is growing strongly.

"I cannot make any specific comment on making audios in India at this time, even as our televisions are now locally made by contract manufacturers. However, we are enthused by the growth in our audio business, which is nearly 20% of our revenues now against a lower contribution earlier," Nayyar said.

He said the premium market for audio products has seen a surge post the pandemic, which made the company expand its range. "The growth for us was 30% last year, and we expect to further move up by 40% this year."

Funding delay at Voda Idea under govt lens

Pankaj Doval | timesgroup.com

New Delhi: Nearly six months after picking up a 33% equity in Vodafone Idea in lieu of interest payouts, the government seems to be losing patience with delays in fund infusion by the promoters. It has put the company on watch as the telco reels under financial stress, which is affecting 5G launch plans.

The company, though, remains hopeful and is understood to be stitching up a plan to infuse funds "as early as possible", according to insiders. Top sources said both DoT and the finance ministry are watching developments at Vodafone Idea with concern over inability of promoters to bring in fresh funding.

Government is also worried about Vodafone Idea's prospects as the company continues to reel under heavy losses and debt

FACING FIN STRESS

DoT and finance ministry are watching developments at Vodafone Idea with concern over inability of promoters to bring in fresh funding. Government is also worried about Vodafone Idea's prospects as the company continues to reel under heavy losses and debt

(in the fund raise) so far. We have been assured, and re-assured, multiple times by the company's management over the funding matter, but still there has been no movement. This is disturbing and frustrating," one of the sources said. A detailed questionnaire sent to Vodafone Idea on the issue remained unanswered at the time of going to the press. Along with DoT, the finance ministry, which had given the final approval to a mega telecom relief package, is unhappy with the progress so far.

ONGC offers one-time settlement to end disputes

TIMES NEWS NETWORK

New Delhi: ONGC has launched a one-time settlement (OTS) scheme under the Centre's 'Vivad se Vishwas-2' initiative for resolving pending contractual disputes, a move that could end nearly 100 cases involving Rs 1,000 crore in stuck payments for India's flagship explorer.

The settlement criteria envisages 85% of the net amount to be awarded in disputes where court order has been passed on or before April 30 this year. In cases where an arbitral award has been passed on or before January, the settlement amount is set at 65% of the net amount to be awarded.

ONGC awards contracts worth over Rs 30,000 crore annually. It has constituted an internal task force for fast-track clearance of applications under the OTS scheme. The scheme is open till October 31. Settlement applications are to be made by the contractors through the government's GeM portal. The move is being seen as a win-win for both ONGC and contractors.

Govt appoints 21 members on insolvency case benches

Sidhartha | timesgroup.com

New Delhi: In one of the biggest batch of appointments to the National Company Law Tribunal (NCLT), the government has appointed 21 members for the benches that deal with insolvency and company law related matters. At least one of the candidates selected is unlikely to join but the appointments are meant to ensure that the number of mem-

bers across benches will be near 60, against the sanctioned strength of 63, which many believe is way short of the requirement.

The government is, however, keen that the vacancies remain as low as possible. The ministry of corporate affairs is closely coordinating with NCLT and the Insolvency and Bankruptcy Board of India (IBBI) to smoothen the implementation of the Insolvency and Bankruptcy Code

(IBC). Sources told TOI that the ministry is planning to begin the process of appointing another set of members by August or September. A shortage of members in the tribunal is seen as one of the factors for delay in decisions under the IBC, which prescribes that insolvency cases should be decided within 270 days at the most. Till the end of March, over 6,500 cases had been filed under IBC.

आमदार प्रवीण आर्लेकर यांचे आवाहन; कोरगाव पंचायतीचा स्थापना दिन उत्साहात; माजी सरपंच, पंच सदस्यांचा गौरव

विरोधकांनी विकासकामांना विरोध करू नये

पेडणे (न. प्र.)

कोरगाव पंचायतक्षेत्रात सध्या अनेक विकासकामे सुरु आहेत. मात्र, काहीजण विरोधाला विरोध म्हणून विकासकामांत अडथळे आणण्याचा प्रयत्न करीत आहेत. मात्र, गावाचा विकास साधायचा असेल तर पंचायत मंडळाने एकसंध राहून तसेच माजी सरपंच, पंच सदस्यांना युद्धा विश्वात घेऊन कार्य करा. विकासकामात अडथळा आणू नका, असे आवाहन आमदार प्रवीण आर्लेकर यांनी केले.

कोरगाव पंचायतीच्या ६१ व्या स्थापनादिनानिमित्त योजित केलेल्या कार्यक्रमात ते बोलत होते. यावेळी व्यासपीठावर सरपंच समील भाटलेकर, उपसरपंच कल्पिता कलशावकर, पंच सदस्य देविदास नागवेकर, पंच अब्दुल नाईक, पंच अनुराधा कोरगावकर, पंच

सत्कारपूर्तीसोबत पेडण्याचे आमदार प्रवीण आर्लेकर. सोबत इतर.

तृती नसें, पंच लौकिक शेठ्ठे, पंच उमेश च्यारी, पंच दिवाकर जाधव आदी उपस्थित होते. पुढे बोलताना आर्लेकर म्हणाले की, सरकारच्या माध्यमातून कोरगाव पंचायत क्षेत्रात अनेक विकासकामे सुरु आहेत. काही कामे पूर्ण होण्याचा मार्गावर आहेत. तर काही कामे पावसामुळे बंद असून पाऊस कमी झाल्यानंतर पूर्ण होतील.

मात्र, काहीजण या विकासकामांत अडथळा आणण्याचे प्रयत्न करीत आहेत. मात्र, जर गावाचा विकास साधायचा असेल तर प्रत्येकाने सहकार्य केले पाहिजे. कोणतेही विकासकाम हे वैयक्तिक नसून ते सार्वजनिक असते. त्यामुळे सर्वांनी याचा विचार करायला हवा. तसेच पंचायतीचे माजी सरपंच, पंच सदस्य आहेत, त्यांनाही या

विकासकामांच्या प्रक्रियेत सहभागी करून घ्यायला हवे. त्यांचा अनुभव गावाच्या विकासासाठी लाभदायक ठरू शकतो. तेव्हा वादविवाद न करता आणि विकासकामांत राजकारण न आणता सर्वांनी एकसंध राहून काम करा, असा सल्ला यावेळी आर्लेकर यांनी दिला. पुढे बोलताना कोरगाव पंचायत क्षेत्र हे पेडणे मतदारसंघात सर्वांत

मोठे पंचायत क्षेत्र म्हणून ओळखले जाते. या भागातील विकास कामाचे प्रस्ताव पंचायत मंडळाने आपल्याकडे आणावे तसेच या प्रस्तावासाठी जे कागदपत्र सोपस्कार हे पूर्ण करावे जेणेकरून लोकांची विकास कामे करता येणार. आपसातील वैयक्तिक मतभेद बाजूला ठेवून सर्वांनी एक संघ राहून विकास केल्यास निश्चितच

शिक्षणमंत्र्यांच्या मतदारसंघात शिक्षकांसाठी विद्यार्थ्यांचे आंदोलन

शिक्षक मिळावा यासाठी आंदोलन करताना विद्यार्थी आणि पालक.

सावंतवाडी (न. प्र.)

वीस दिवसांसाठी अन्य शाळेत पाठवलेल्या शिक्षिकेला परत न आणल्याच्या

निषेधार्थ सावंतवाडी तालुक्यातील आंबेगाव गावातील पालकांनी शाळा बंद आंदोलन सुरु केले आहे. मात्र, मुलांचे शैक्षणिक नुकसान होऊ नये म्हणून शाळेच्या अंगणत मुलांना

बसवण्यात येत आहे. शिक्षणमंत्री दीपक केसरकर यांच्या मतदारसंघात विद्यार्थ्यांना शिक्षणासाठी आंदोलन करावे लागत असल्याने राज्यातील इतर शाळांची काय

(छाया : हरिश्चंद्र पवार)

परिस्थिती असणार असा सवाल येथील पालकांनी उपस्थित केला असून जोपर्यंत शिक्षक उपलब्ध होत नाही, तोपर्यंत शाळा सुरु करू देणार नाही, असा आक्रमक पवित्रा पालकांनी घेतला आहे. याबाबत अधिक माहिती अशी की, जिल्हा परिषद पूर्ण प्राथमिक शाळा आंबेगाव न.१ येथे काल शिक्षक मिळावा यासाठी विद्यार्थ्यांनी आंदोलन छेडले.

शिक्षक विभागाने या शाळेतिल एका शिक्षिकेची २० दिवसांसाठी दुसऱ्या शाळेत बदली केली होती. मात्र, २० दिवस झाल्यानंतरही त्या शिक्षिकेला पुन्हा शाळेत पाठवण्यात आलेले नाही. त्यामुळे शिक्षकांअभावी मुलांचे शैक्षणिक

नुकसान होत आहे. तसेच हा प्रकार शिक्षणमंत्री दीपक केसरकर यांच्या मतदारसंघातील असल्याने पालकांनी अधिक संताप व्यक्त केला आहे.

पालकमंत्री केसरकर हे या भागाचे आमदार असून ते शिक्षणमंत्री आहेत.

त्यामुळे त्यांनी या प्रकरणात तातडीने लक्ष घालून ही समस्या सोडवावी आणि संबंधित शिक्षिकेला या शाळेत परत रुजू करावे. अन्यथा शिक्षक शाळेत रुजू होत नाही, तोपर्यंत शाळाबंद आंदोलन करण्यात येणार असल्याचे पालकांनी सांगितले.
