Ola Electric plans 50GWh battery plant in India

REUTERS
New Delhi, February 24

SOFTBANK GROUP-BACKED OLA Electric plans to build a battery cell-manufacturing plant in India with a capacity of up to 50 gigawatt hours (GWh), a source told Reuters, as part of its broader electrification push.

Ola will need 40Gwh of battery capacity to meet its annual target to produce 10 million electric scooters, and the remainder will be for electric cars, which it plans to manufacture in the future, said the person who has knowledge of the plans. The initial plan is to set up 1Gwh of battery capacity by 2023 and expand it to 20Gwh

over the next 3-4 years, said another source aware of the plans, adding that this alone will need an investment of up to \$1 billion.

Ola, which currently imports battery cells from South Korea, also plans to invest in companies with advanced cell and bat-

tery technology, and will set up a battery research and development facility in India, the sources said.

Battery cell manufacturing is dominated by a few Asian companies and Panasonic that supply to major automakers like Tesla and Volkswagen.

SC refuses to stay HC's order quashing MIHAN India's cancellation of GMR contract

INDU BHAN
New Delhi, February 24

THE SUPREME COURT (SC) on Thursday refused to stay the Bombay High Court's order that quashed state-owned MIHAN India's order cancelling a contract awarded to the GMR airports, to operate the Babasaheb Ambedkar International Airport in Nagpur.

A bench led by Justice Vineet Saran, however, sought a response from GMR Airports on a batch of appeals by various government entities, including the Central government, the Maharashtra government, the Airports Authority of India (AAI) and others against the HC's August 18 order last year, which asked MIHAN (the Multi-modal International Cargo Hub & Airport at Nagpur) to execute the agreement signed with the infrastructure company for the

upgradation and operation of the airport.

The HC had also quashed the March 19, 2020 letter issued by MIHAN India annulling the bidding process for the airport, and further directed the state-owned entity to take all steps in terms of the request for proposal (RFP) conditions, including signing of a concession agreement for the Nagpur Airport, within six weeks.

Challenging the setting aside of its decision to cancel the

tender process and retender the project, senior counsel Dushyant Dave, appearing for

MIHAN India, said that all the four government authorities were not in favour of continuing with the five-year old tender process, as the offers were financially low and a lot had changed in the interregnum, thus requiring fresh tendering with a new financial model.

The acceptance of the bid was conditional and required approval from the civil aviation ministry, MIHAN, a JV between Maharashtra Airport Development Co and the AAI, stated.
