Dear Sir/Madam,

Sub: BASF reiterates its commitment for Indian Farmers with its novel chemistry of Efficon® Insecticide – powered by Axalion® Active.

We wish to inform you that the Company's Agricultural Solutions business has today i.e., 6th May 2024 launched a new insecticide i.e., Efficon®, which is powered by BASF's new active ingredient, Axalion® in a specialized formulation.

Efficon® insecticide is among the first compounds in the market introduced under the new IRAC group 36 which represents a totally new class of insecticides (Group 36 — pyridazine) with novel mode of action for effective control of piercing and sucking pests.

A valuable aspect of Efficon® insecticide is its unique mode of action, which is highly effective on multiple life stages of target pests like Aphids, Jassids and White flies. Upon application, Efficon® quickly stops insects from feeding and plant injury and provides long lasting residual control due to its systemic properties.

Please treat the above information as intimation under Regulation 30 of the Securities & Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Thanking You,

Yours faithfully,
For BASF India Limited
