# Sundaram Finance net profit up by 12% at Rs. 402 cr

Chennai, Nov 9: Sundaram Finance Ltd.'s standalone net profit for the second quarter ended September 30, rose 10% to Rs.211 crore from the year-earlier period.

Total revenue increased to Rs.1,022 crore from Rs.993 crore, while other income contracted to Rs.3.35 crore from Rs.4.90 crore, the firm said in a regulatory filing.

Executive vice chairman Harsha Viji said that the second quarter saw improvement on both business growth and collections. However, overall recovery to a new normal would take time, he pointed out.

Customer sentiment had significantly improved, and the second half of the year would likely see broad-based recovery, he added.

"While stress continues in COVID-impacted sub-sectors, we remain focused on supporting our customers in resuming their business activity

the disruptions imposed by the pandemic. Despite supply challenges due to the global chip shortage, demand is improving across asset classes."

The second quarter witnessed recovery across most macro-economic indicators following the second wave of the Covid-19 pandemic, which significantly disrupted the economy in the first quarter. The pace of vaccination has remained good, and the risk of a third wave appears to have reduced. Despite fears of a rainfall deficit, a significantly above normal September monsoon season in 2021 concluded with a mere 1% deficit.

Gross and net NPAs rose to 3.85% (2.44%) and 2.48% (1.44%) respectively. The gross and net NPAs as of September 30, 2020 were in line with the interim order of the Supreme Court, which had directed that borrowers who had availed moratorium and were not declared as non-performing till August 31, 2020 shall not be declared as NPA till further orders. Had the company classified such borrower accounts as NPAs as on September 30, 2020, the gross and net NPAs would have been at 2.81% and 1.74% respectively.

Disbursements were up 14% at Rs.3,621 crore. Stage 3 assets stood at 3.45%. Assets under management (AUM) stood at Rs.29,811 crore. The company reported a capital adequacy ratio of 23.4%.

# Karur Vysya Bank reports 44% net profit, strong business growth

Chennai, Nov 9: Private lender Karur Vysya Bank (KVB) reported a 43.5 per cent jump in its net profit to Rs 165 crore in the quarter ended in September 2021 on improved credit off-take in retail and business segments as well as a fall in bad loan provisions.

The south-based lender had posted a net profit of Rs 115 crore in the same quarter a year ago.

The bank's total income from operations during the July-September quarter of 2021-22, however, was down at Rs 1,561.05 crore as against Rs 1,577.45 crore in the same period of 2020-21, KVB said in a release.

Improved credit off take in retail and business segments as well as jewel

"Jewel loan portfolio registered a year-on-year growth of Rs 2,319 crore (21 per cent) and stands at Rs 13,460 crore as on September 30, 2021," the bank said.

The interest income remained flat Rs 1,397.95 crore during the quarter, as compared with Rs 1,394.70 crore in the year-ago period.

The asset quality of the bank showed improvement, as the gross non-performing assets (NPAs) came down to 7.38 per cent of the gross advances as of September 30, 2021, from 7.93 per cent by year ago period.

**B. Ramesh Babu,**  
MD & CEO of KVB

In value terms, the gross NPAs of the bank stood at Rs 3,971.64 crore, down from Rs 3,998.43 crore.

However, the net NPA ratio was stable at 2.99 per cent. In absolute value, the amount was at Rs 1,537.71 crore by the end of Q2FY22, up from Rs 1,428.20 crore

by September 2020.

KVB said its total business at end-September 2021 stood at Rs 1,19,260 crore, registering a yearly growth of 7 per cent.

Gross advances grew by 7 per cent to Rs 53,850 crore. Total deposits also grew by 7 per cent to Rs 65,410 crore.

"Growth was aided through sustained improvement in CASA (current account savings account) portfolio and retail term deposits," it said.

Provision Coverage Ratio (PCR) stands at 76.28 per cent (75.19 per cent a year ago).
