Harris cautions fresh graduates at West Point against Russian agression

AP / New York

Vice President Kamala Harris, the first woman to deliver a commencement speech at West Point, lauded graduating cadets on Saturday for their noble sacrifice in serving their country, but noted they were entering an "unsettled world" because of Russian aggression and the rising threats from China.

"The world has drastically changed." Harris told the roughly 950 graduating cadets. She referred to the global pandemic that took millions of lives and the fraught shifts in global politics in Europe and in Asia.

"It is clear you graduate into an increasingly unsettled world where long-standing principles are at risk,' she said.

crisis. In her speech, Harris touched on the importance of having institutions reflect the diversity of the broader United States, making the comment at an institution that has made slow progress diversifying its ranks in the four decades since the first class of female cadets graduated.

Today, about one quarter of the student body are women. Only a few dozen graduates each year are Black women, like Harris, though the number has ticked up in recent years. The academy didn't admit women until 1976 and had its first female graduates in 1980. Upon graduation, the cadets will be commissioned as Army second lieutenants.

Iran-Taliban exchange gunfire over water rights

The Taliban and Iran exchanged heavy gunfire on Saturday on the Islamic Republic's border Afghanistan, killing and wounding troops while sharply escalating rising tensions between the two countries amid a dispute over water rights.

Iran's state-run IRNA news agency quoted the country's deputy police chief, General Qassem Rezaei, accusing the Taliban of opening fire first on Saturday morning on the border of Iran's Sistan and Baluchestan province and the Afghan province of Nim-

'Russia plotting provocation at N plant'

Ukraine's military intelligence has claimed, without offering evidence, that Russia is plotting a "largescale provocation" at a nuclear power plant it occupies in the southeast of the country with the aim of disrupting a looming Ukrainian counteroffensive.

statement intelligence directorate of Ukraine's Defence Ministry claimed that Russian forces would strike the Zaporizhzhia nuclear power plant, the biggest in Europe, and

In order to make that happen, Russia "disrupted the rotation of personnel of the permanent monitoring mission" of the UN's International Atomic Energy Agency that was scheduled for Saturday, the statement said. It didn't offer evidence to back up any of the claims.

The IAEA said in an emailed response to the AP

that it did not have any im mediate comment on the allegations and Russian officials did not immediately comment on Ukrainian claims.

The White House said it is watching the situation close ly and has seen no indication that radioactive material has been leaked.

The claim mirrors similar statements Moscow regularly makes, alleging without evidence that Kyiv is plotting provocations involving various dangerous weapons or substances in or der to then accuse Russia of

b. As indicated in the prior reporting periods, the Company engaged a leading professional services firm to assist it in undertaking a review of its loan portfolio. The final findings of this review were submitted to the Audit Committee on August 5, 2022. The Company made incremental ECL provisions based, among others, on the findings of this review in its financial results for the quarter and financial year ended March 31, 2022. (also refer note 9 to the financial results).

The Company subsequently engaged a leading law firm, to carry out a review for undertaking root cause analysis of deviations to policies and gaps in the internal financial controls and systems (including of control gap/control override and individuals involved) focusing on the Company's commercial vehicles and SME businesses ("Conduct Review"). The final findings of this review were submitted to the Audit Committee.

The Company, under the guidance and supervision of the Audit Committee, has completed its review of the findings thereon, and has taken necessary remedial and accountability measures. Among others, the Company has initiated measures to strengthen controls and improve the process and control environment of the Company including by way of senior managerial level changes and appointments, improving entity level controls, policy related changes, process improvements and technological enhancements. The Company has also concluded that with respect to the findings in the Conduct Review Report, there is no further reporting requirement under the Companies Act, 2013.

During the quarter ended 31st March 2023, certain employees to whom stock options issued in accordance with ESOP plans disassociated from the Company. Accordingly, unvested and vested but not exercised options granted to these employees were cancelled. Employee cost includes effect of reversal of such cost of unvested options aggregating to Rs. 5,054.50 lakh for the quarter ended 31 March 2023 and Rs 4,421.94 lakh for the year ended 31 March 2023.

d. In the financial results for the quarter and year ended 31 March 2022, the Company had made incremental provision for expected credit loss (ECL) allowances on account of certain deficiencies in the Company's internal controls that were identified during this period. Considering that these control deficiencies have since been remediated during the current year and the findings of the Conduct Review have been adequately evaluated (refer note 7), no incremental provisioning is considered necessary during the quarter and year ended

Although the possibility that the control deficiencies that were identified could potentially have had an impact on the financial statements for periods ending prior to 1 April, 2021, the Company had concluded that it was impracticable to determine the prior period – specific effects, if any, in respect of the charge to the Statement of Profit and Loss on account of the following:

impairment allowance on loan assets and investment in security receipts;

loan assets written off; and

(iii) changes in fair value of financial guarantee contracts

comparable to the current periods / year presentation.

when it finalised its financial results for the quarter and year ended 31 March 2022 because significant judgements had been applied in determining the staging of the loan assets and the related impairment allowance for events and conditions which existed as on 31 March 2022. The Company believes it is not practicable to apply the same judgement without hindsight for the prior period(s). Consequent to the above, in respect of such account balances, related income and the related disclosures, the figures for the guarter

and year ended 31 March 2023 may not be strictly comparable with the figures for the quarter and year ended 31 March 2022. e. The figures for the last quarter of the current year and of the previous year are the balancing figures between audited figures in respect of

the full financial year and the published year-to-date unaudited figures upto third quarter of the respective financial years Figures for the previous periods / year have been regrouped, and / or reclassified wherever considered necessary to make them
