## Manipur deluge

Thousands of houses all over the state were inundated by flood as Cyclone Remal hit Manipur since Monday.

The historic Kangla fort was also flooded as police, volunteers took out the aged and children from the affected houses towards safe place.

Over a lakh people were taking shelters at relief centres according to a volunteer, who was taking out infants to safer places. Cyclone Remal has left a trail of disaster, fallen trees, uprooted houses, landslides. All the rivers flowing in the state specially Nambul, Iril, Imphal were all flowing at the danger levels.

Manipur Governor Anusuiya Uikey said incessant rainfall due to cyclone Remal over the past 48 hours has severely disturbed the lives of people of Manipur. The low-lying areas of Valley and Hill Districts have been heavily submerged. Additionally, landslides on state and National Highways 37 and 2 have disrupted the main routes for transporting essential commodities, severely affecting their supply across

the state.

She said, "Deeply concerned and saddened by the damage to homes and properties in both the Valley and Hills Districts. In light of these events, I urge all citizens to remain calm and refrain from panicking. The State Government is committed to taking all necessary measures to prevent the situation from worsening and to extend all possible assistance to those affected. All citizens are requested to stay informed through official channels for updates and follow the guidance provided by local authorities. Together, we will overcome these challenges." A high alert has been sounded and all working in essential services were asked not to take leave to meet any eventuality. To maintain water level a gate of the Ethai Barrage was opened.

Chief Minister N. Biren Singh said in a social media platform. "We are closely monitoring the situation, and any further openings will be done in consultation with the Water Resources Department (WRD) and the National Hydroelectric

Power Corporation (NHPC). Our official teams are working tirelessly around the clock to manage this situation effectively and ensure the safety of the people." As the water levels of the rivers were increasing gradually, thousands of people living beside Imphal, Nambul, Iril rivers were evacuated to safer places. Local clubs and youth bodies arranged sandbags to protect the river walls from breaking.

Both national highways were completely cut off. The Imphal Mao was earlier cut off since May 2023 by various Kuki organizations while the other highway Imphal Jiribam was cut off on Tuesday due to landslide and a truck fell into a gorge as the highway was washed off at Sinam village. The driver had managed to jump down.

State highways connecting Imphal to the districts were also affected as landslides were reported in most parts of the state highways. The Government has ordered closure of all educational institutes from May 29 to 31.

Kathmandu, May 30: The Chinese Ambassador in Nepal has courted controversy after demanding a public apology from a journalist over an X post.

The post claimed that Nepal had taken a loan from China at an interest rate of five per cent, contrary to earlier reports of two per cent, *MyRepublica* reported.

Ambassador Chen Song sought a public apology on X, asserting that the information was misleading.

This demand came after journalist Gajendra Budhathoki, an editor at *Taksar Magazine*, wrote on X on May 27 that the interest rate on the loan that Nepal had taken from China to build

the Pokhara Regional International Airport was five percent.

"We demand a formal apology from you and whoever you represent," Ambassador Chen wrote on X. "If you have the document, publish it. If you don't and need time to find proof, then what kind of intention is this? Spreading lies first, then waiting for the tide to subside, and spreading them again," he added.

Journalist Budhathoki responded on X, saying, "Do not intimidate me. Know your boundaries, Mr. Chen. I have evidence from the Nepal Government." The Chinese Envoy's sharp remarks have been criticised by journalists and diplomats in Nepal,

with many saying that they went beyond the norms of standard diplomatic conduct.

"It is unusual for a foreign ambassador to demand an apology from a host country journalist for a social media post. He could refute or ask the government to clarify. The foreign ministry should remind the ambassador of the limits of 'public diplomacy' and the risks of direct engagement," former Foreign Secretary and Ambassador Madhu Raman Acharya wrote on X. Former editor of *The Kathmandu Post*, Sanjeev Satginya, also criticized Ambassador Chen. "What @PRCAmbNepal needs to understand is that Nepal is a free country

where people are free to have and express their views. The ambassador is also free NOT to like some views, but it doesn't mean threatening the public on social media like in the case of @gbdhathoki," he wrote on X.

Former editor of *The Himalayan Times*, Ajaya Bhadra Khanal, also joined in criticizing Ambassador Chen. "The @PRCAmbNepal could have just said the information is wrong instead of overreacting to @gbdhathoki and threatening him. It just displays the Chinese ambassador's arrogance and his overbearing mentality," he wrote on X.

Several other

journalists and diplomats have also joined in criticizing Ambassador Chen's move to seek a public apology on the social media platform over the post made by the journalist.

In March this year, Nepal's Prime Minister Pushpa Kamal Dahal said that diplomatic efforts had been initiated with China to convert the loan for Pokhara International Airport into a grant as the airport had failed to garner income, and had instead piled up more debt. Pokhara International Airport, which was opened on January 1, 2023, hasn't seen any frequent international flights except for some chartered Chinese flights.

## DRDO successfully tests air-to-surface missile

New Delhi, May 30: The Defence Research & Development Organisation (DRDO) on Wednesday successfully flight-tested the RudraM-II Air-to-Surface missile from Su-30 MK-I platform of the Indian Air Force (IAF) off the coast of Odisha at around 1130 hours. The flight-test met all the trial objectives, validating the propulsion system and control and guidance algorithm, a Defence

Ministry statement said. The performance of the missile has been validated from the flight data captured by range tracking instruments like electro-optical systems, radar and telemetry stations deployed by Integrated Test Range, Chandipur at various locations, including the on-board ship. RudraM-II is an indigenously developed solid-propelled air-launched missile system meant

for air-to-surface role to neutralise many types of enemy assets. A number of state-of-the-art indigenous technologies developed by various DRDO laboratories have been incorporated in the missile system.

Meanwhile, Defence

Minister Rajnath Singh congratulated DRDO, IAF and industry on the successful test-flight of RudraM-II. The successful test has consolidated the role of the RudraM-II system as a force multiplier to the Armed Forces,

he said. Secretary, Department of Defence R&D and Chairman DRDO Samir V Kamat also complimented the DRDO team for their untiring efforts and contribution culminating into the successful flight test.
