Is the current reporate level high enough to bring inflation back to the sub-6% level and glide it to the 4% target? Will a rate hike at this juncture help ease

inflationary pressures?

The tightening effected since May last year is still working its way through the system and this is expected to maintain downward pressure on inflation over the next several quarters and bring it close to the band. While there is a great urgency to bring inflation within the tolerance band, it would not be appropriate to impose a very high growth sacrifice to hasten the glide path from there to the middle of the band. Therefore, I do not favour rate hikes at this point of time.

Do you think more needs to be done on the supply side to rein in inflation?

Coordination between monetary and fiscal policy has been excellent in the entire post-pandemic period. Monetary and fiscal policy act in complementary fashion in this kind of situation. Supply-side measures act quickly and protect the most vulnerable sections of the society while monetary policy acts over longer time horizons to ensure that supply shocks lead to changes only in relative prices and not in the general price level.

ENDING WITHOUT a joint communiqué, the two-day G20 Trade and Investment Ministerial Meeting endorsed an outcome document and Chair's summary, calling for measures to promote digitalisation of trade docu-

positions on the paragraph relating to geopolitical issues. Russia rejected the inclusion of geopolitical para in the Jaipur outcome document stating it does not conform to the G20 mandate. China stated that the G20 Trade Ministerial is not the right forum to discuss geopolitical issues.

The ministers recommended certain priority areas to the G20 leaders, who would meet on September 9-10 in New Delhi, to ensure that international trade and investment can effectively contribute to resilient GVCs, spur integration of MSMEs in global trade, and to advance WTO (World Trade Organisation) reforms.

On the WTO reform, the ministers reaffirmed their commitment to conduct discussions with a view to having a fully functioning Dispute Settlement System by 2024. Jaipur: India and the US are in the final stages of setting up a joint monitoring mechanism to enable domestic exports of certain steel and aluminium products to America without paying extra duties, an official said.

Indian exports of these products attract additional duties in the US as Washington, in 2018, imposed a 25 per cent import duty on steel products and 10 per cent on certain aluminium products on grounds of national security.

In retaliation, India in June 2019 imposed additional customs duties on 28 American products.

During the visit of Prime Minister Narendra Modi in June, the two countries decided to remove trade irritants and as part of that both sides agreed to end six trade disputes at the World Trade Organisation.

ZEPTO, A quick commerce startup, Friday turned a unicorn by raising \$200 million at a valuation of \$1.4 billion. The company's valuation jumped from \$900 million in May 2022, when it had last raised funds. The development assumes significance as it is the first unicorn to be born this calendar year and comes after a gap of 11 months. Molbio Diagnostics, in September 2022, was the last to achieve unicorn status.

Of the \$200 million raised, \$105 million came from StepStone Group (\$75 million) and Goodwater Capital (\$30 million). The remaining \$95 million came from existing investors Nexus Venture Partners, Glade Brook Capital and Lachy Groom.

Zepto said that it plans to launch an initial public offering by early 2025 and aims to turn

Ebitda positive in 12-15 months. "Operating in a bear market has forced us to be more disci-

plined. We were previously looking at a sea-saw between profitability and growth. However, we realise that there is no question of choosing one between growth or profit, it has to be both," Aadit Palicha, cofounder and CEO of Zepto, said. He added that the funding

validates the company's business model and the team's execution. "We are excited to use this capital to accelerate our growth and build the future of grocery delivery in India," Palicha said.

The funding will be used to expand Zepto's operations to more cities, build its dark store network and improve its technology. The company also plans to use the funds to hire more talent. Zepto competes with Zomato's Blinkit, Swiggy Instamart and Tata's BigBasket.

MUMBAI, AUGUST 25

SWIGGY, THE Softbank-backed food delivery company, is eyeing a 2024 stock market listing and has initiated talks with bankers to assess its valuation, three sources with direct knowledge

of the matter said.

Swiggy was valued at \$10.7 billion in its last fundraising in 2022 but like many startups put its IPO plans on hold amid a funding crunch and investor concerns about stretched valuations.

But as global and Indian markets have rebounded, Swiggy has restarted its IPO planning by

inviting eight investment banks to make pitches in early September to work on the IPO, including Morgan Stanley, JP Morgan and Bank of America, two of the sources said.

The sources said Swiggy is aiming to list between July-September 2024 which would be after general elections.
