Total Bank Facilities	193.80 (Rs. One Hundred Ninety-Three Crore and Eighty Lakhs Only)		

Details of instruments/facilities in Annexure-1

Detailed Rationale & Key Rating Drivers

The ratings assigned to the bank facilities of Mafatlal Industries Limited (MIL) continue to derive strength from the extensive experience of the promoters and the management in the textile business, wide product portfolio & geographical coverage and liquidity available through holding in shares of NOCIL Limited. The above strengths are constrained by weak operating performance of the company during FY21 due to Covid outbreak whereby the company continued to post losses, however the improvement has been seen in H1FY22. The rating strengths are further offset by the susceptibility to inherent cyclicality in the industry, exposed to volatility in the cotton price which is the main raw material and intense competition in the textile industry.

Rating Sensitivities

Positive Factors - Factors that could lead to positive rating action/upgrade:

- Increase in scale of business to Rs. 1,000 crore on a sustained basis
- The ability of the company to report PBILDT margins above 6% on a sustained basis

Negative Factors- Factors that could lead to negative rating action/downgrade:

- Deterioration of margins leading to losses at operating levels
- Delays in sale of non-core assets resulting in higher interest outflow/impacting liquidity

Outlook: Positive

The positive outlook reflects the company's recovery in the operating performance in H1FY22, liquidity available from sale of non core assets will help company to manage its working capital, which in turn will help the company to achieve better margins in the coming quarters. Positive outlook also factors in Expected recovery in the sale of school uniform (through dealer distributor network as well as direct sale to schools) and improved orders from tender business.

Detailed description of the key rating drivers

Key Rating Weaknesses

Deterioration of operational performance in FY21; Recovery seen in H1FY22:

For FY21, MIL's revenues declined by 40.67% on account of COVID 19 impact in Q1FY21 and Q2FY21, however there was recovery in second half of FY21. The company closed its operations of loss-making denim division at Navsari plant. The company has liquidated the stocks of finished goods, raw material and spares and other non-core assets at Navsari plant and has shifted the plant and machinery to Nadiad plant.

The textile division reported decline in volumes by 54.7% and realisation remained at the same in FY21 at compared to FY20, this resulted into overall decline in turnover by 54.5% in FY21 for textile division. The capacity utilisation of MIL's textile division in FY21 was 40.28%. One of the major streams of revenue is trading of school uniforms which contributed (~10% to total revenues in FY21, 20-21% for FY20) has been significantly impacted. However, reopening of schools in phased manner in second half of FY22, will add higher revenue to the books of company in FY22.

MIL achieved Total revenue of Rs. 454.52 crores in H1FY22 due to higher demand from government tendering segment. The company reported operating PBILDT (excluding revenue from sale of non core assets) of Rs. 5.44 crores in H1FY22. The company has reported profit on sale of asset of Rs. 36.29 crores in H1FY22, which have resulted into improved liquidity for

¹Complete definition of the ratings assigned are available at www.careratings.com and other CARE publications

the company. The company is expecting better margins in the coming quarters on account of complete shutdown of loss-making denim division, reducing permanent workforce at Nadiad plant which will help company reduce employee cost, higher revenue visibility in form of government tendering business and expected recovery in the sales of school uniform business.

Debt service coverage indicators continue to remain weak; albeit improvement in Overall gearing

During FY21, debt coverage ratios such as interest coverage and total debt to GCA deteriorated to -1.95x and -1.97x as on March 31, 2021 as against 0.54x and 43.35x as on March 31, 2020 respectively on account of company reporting loss at operating level in FY21. The PBILDT interest coverage indicators improved to 0.50x in H1FY22 on account of profit reported at operating level, however it still remains weak. The overall gearing of the company improved from 0.54x as on March 31, 2020 to 0.32x as on March 31, 2021 on account of reduced overall debt and improvement in the company networth due to increment in the value of investments (NOCIL) by Rs. 275.4 crores in FY21.

Susceptible to volatility in prices of key raw material:

Cotton and cotton yarn are the key raw materials for MIL. Cotton prices have exhibited considerable volatility in the recent past due to various reasons, such as government policies, effects of monsoon, demand-supply scenario, etc. Profitability margins of textile manufacturers are exposed to adverse movement in cotton prices thus any unprecedented increase in the raw material going forward, may impact the profitability margins of MIL.

Key Rating Strengths

Experienced promoters and management along with long track record of the company:

The promoters of Mafatlal Industries Limited (MIL) i.e. the Mafatlal family have over ten decades of experience in the textile industry and has been closely involved in the management of business and in defining & monitoring the business strategy for the company. Mr. H. A. Mafatlal the chairman of MIL, a graduate from Harvard Business School of U.S.A. has more than 40 years of experience in areas like textile, petrochemicals and chemicals. MIL is professionally managed with the members of the Board comprising of eminent professionals having wide experience and business acumen and well supported by the key management personnel having good experience in the industry.

Integrated presence across the textile value chain:

MIL has presence across the entire textile value chain. The company has integrated nature of operations comprising of manufacture of yarn, dyeing, processing and finishing for shirting/bottom ware fabric. Apart from the diversified product range the company also has well diversified customers and markets.

Established brand image and wide geographical coverage:

MIL's more than 100 years of presence in the textile industry has helped the company to build a brand image for itself. The products of the company are principally marketed under the "Mafatlal" brand. MIL has a wide distribution network with 400 dealers and 35,000 retailers making the company's brands available across India. The company exports to 18 countries and exports contributed to ~7% of gross sales in FY21 (~7% in FY20). Further, the company's customers are well spread across India with top 5 customers accounting for 33% of total gross sales.

Liquidity: Adequate

For FY22, MIL is looking to repay debt of ~Rs.26 crores against expected GCA of Rs.45-50 crores in FY22. As on November 18, 2021, Company has unencumbered bank balances of Rs. 17.00 crores. The company has average Utilized fund based limits of Rs. 21.37 crores for past 12 months ending September 2021.

The company has entered into MoUs to sell non-core assets amounting to Rs. 85.00 crore (as on November 2021) and has received Rs. 36.00 crore through sale/advances. MIL expects another 14-15 crores to be received in H2FY22 from sale of assets. Proceeds from the sale of non-core assets will be used for scheduled repayments of debt and to support business growth

MIL also holds 2.53 crore shares of NOCIL Ltd., of which 0.57 crore shares have been pledged. As on November 22, 2021, the market value of 1.96 crore unencumbered shares is over Rs. 470 crores. While these shares are part of promoters holding in NOCIL, the said shareholding is available to MIL for monetisation.

About CARE Ratings:

CARE Ratings commenced operations in April 1993 and over two decades, it has established itself as one of the leading credit rating agencies in India. CARE is registered with the Securities and Exchange Board of India (SEBI) and also recognized as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). CARE Ratings is proud of its rightful place in the Indian capital market built around investor confidence. CARE Ratings provides the entire spectrum of credit rating that helps the corporates to raise capital for their various requirements and assists the investors to form an informed investment decision based on the credit risk and their own risk-return expectations. Our rating and grading service offerings leverage our domain and analytical expertise backed by the methodologies congruent with the international best practices.

Disclaimer

CARE's ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. CARE's ratings do not convey suitability or price for the investor. CARE's ratings do not constitute an audit on the rated entity. CARE has based its ratings/outlooks on information obtained from sources believed by it to be accurate and reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE or its subsidiaries/associates may also have other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating /outlook assigned by CARE is, inter-alia, based on the capital deployed by the partners/proprietor and the financial strength of the firm at present. The rating/outlook may undergo change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors. CARE is not responsible for any errors and states that it has no financial liability whatsoever to the users of CARE's rating. Our ratings do not factor in any rating related trigger clauses as per the terms of the facility/instrument, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and if triggered, the ratings may see volatility and sharp downgrades.
