History

Sheetal Cool Products Limited was pioneered by Mr. Jagadishbhai D. Bhuva, one of the four sons of Mr. Dhakubhai J. Bhuva, in 1987. It was in the form of a small cabin. In 1990 this cabin was demolished by the municipality in lieu of city development. With the collaboration of his three brothers in 1992, a new shop of 180 sq. ft was constructed in front of Amreli Bus Stand and was carried forward with the same business of little refreshments like Jamel Lassi, Flavoured milk etc.

The enduring perseverance along with the long strenuous effort evolved into a mind-blowing development of the humble establishment into an industrial unit as Sheetal Industries at GIDC, Amreli, came into existence in 1998 with 150ltrs. of milk processing capacity at an investment of 17 to 20 lakh. In 2000, the glory of the name was bit more legalised by Ms. Shree Sheetal Industries. It was a Herculean task brought under their complete domain by the siblings to compete with the established companies of the same products in Gujarat, India. Shree Sheetal Industries got converted into Sheetal Cool Products Private Limited in 2012. The small plant of a small city upgraded itself as the taste of the whole state of Gujarat. Sheetal Cool Products Limited initiated the production of Bakery products like Cookies, Rusk, Bread, Pav and many more In 2013.

In 2015, the company introduced the manufacturing of frozen products, ready to cook, like Parathas, Pizza, Vadapav, Pav Bhaji etc. as a norm for saving money and time for the busy rushing humanity. Sheetal Cool Products Private Limited extended its hold on a new venture of Ready to eat Savouries in 2016.

Various social welfare activities are organized by DJBS FOUNDATION which was established in 2016. The company put its imprint in IPO and hailed as Sheetal Cool Products Public Limited in 2017. Sheetal Cool Products Ltd. focussed on a new venture to make the premium life more elegant and ceremonial. On 28th December, 2019, J'adore premium ice cream brand was inaugurated.

In 2020, Sheetal Cool Products Limited has been certified by ISOQAR as one of the ten companies in India which manufacturers more than 8 food categories with BRCG - FSMA (U. S. FDA MODULE) under a single plant. By 2022 the company has set its foot on more than 10 major foreign countries like Australia, Indonesia, US, Africa, Nepal, etc. The voyage goes on with the great vision Sheetal has aimed at by 2030.

It's true that there has been a number of organisations that work for the welfare and upliftment of the women who have been suppressed by the distinguished socio-cultural impacts. The reality scares if we recognize this negativity to its real sense even now in the interior, remote villages of the globe. Sheetal concedes the responsibility to handle the situation nearby its existence by promoting women empowerment opportunities in the company and we are glad to announce that approximately eighty percent of our workforce consists women. We feel content and obliged to see the joy deriving from their self reliant attitude that helps them to raise their head always throughout their life.

Satisfaction, we ought to have at present, is derived when our desires, expectations and goals get identified with the reality of day-to-day life. If acceptance of reality through a positive approach governs us, we can, now and here, enjoy satisfaction in its fullness along with joy and bliss. Satisfaction doesn't become a barrier for further progress, but it helps one to achieve better and higher ends with absolute confirmation and determination. ANNEXURE A**MANAGEMENT DISCUSSION AND ANALYSIS REPORT
FOR THE FINANCIAL YEAR 2021-22****A. CAUTIONARY STATEMENT:**

The statements in the “Management Discussion and Analysis Report” describe the Company's objectives, projections, expectations, estimates or forecasts which may be “forward-looking statements” within the meaning of the applicable laws and regulations. Actual results may differ substantially or materially from those expressed or implied therein due to risks and uncertainties. Important factors that could influence the Company's operations, inter alia, include global and domestic demand and supply conditions affecting selling prices of finished goods, input availability and prices, changes in government regulations, tax laws, economic, political developments within the country and other factors such as litigations and industrial relations.

B. COMPANY OVERVIEW:

Sheetal Cool Products Limited has grown up and got its wings presently spread over 6 major states of India such as Gujarat, Rajasthan, Madhya Pradesh, Maharashtra, Kashmir and Noida (UP) and more than 10 nations abroad like USA, Switzerland, Singapore, Australia Africa, Nepal, etc. The company has acquired BRCS (Brand Reputation Compliance for Global Standard), FSMA (Food Safety Modernization Act) & EIC (The Export Inspection Council) certificates along with FSSAI, ISO 22000:2018, ISO 9001:2015 etc. For manufacturing more than eight categories of food products under a single plant. It is also counted, as per Economic Times, as one among the top 150 fastest growing companies in India. Sheetal is in the Top 500 High-Growth Companies of Asia-Pacific 2021 ranking created by The Financial Times, Nikkei, and Statista.

C. COVID-19 UPDATE:

A tentative recovery in 2021 has been followed by increasingly gloomy developments in 2022 as risks began to materialize. Global output contracted in the second quarter of this year, owing to downturns in China and Russia, while US consumer spending undershot expectations. Several shocks have hit the world economy already weakened by the pandemic: higher-than-expected inflation worldwide – especially in the United States and major European economies – triggering tighter financial conditions; a worse-than-anticipated slowdown in China, reflecting COVID-19 outbreaks and lockdowns; and further negative spillovers from the war in Ukraine.

At Sheetal Cool Products Limited, the management and the employees worked with effective co-ordination and agility to adjust to the changing and the evolving situation. The Company ensured that manufacturing plants were well-equipped with requisite protective equipments, and high level of safety measures were followed. The Company also efficiently leveraged technology for seamless interactions and conducted business through virtual meetings with multiple stakeholders including distributors, vendors and dealers.

D. GLOBAL ECONOMY:

The Global Economy forecast is for growth to slow from 6.1 percent last year to 3.2 percent in 2022, 0.4 percentage point lower than in the April 2022 World Economic Outlook. Lower growth earlier this year reduced household purchasing power, and tighter monetary policy drove a downward revision of 1.4 percentage points in the United States. In China, further lockdowns and the deepening real estate crisis have led growth to be revised down by 1.1 percentage points, with major global spillovers. And in Europe, significant downgrades reflect spillovers from the war in Ukraine and tighter monetary policy. Global inflation has been revised up due to food and energy prices as well as lingering supply-demand imbalances and is anticipated to reach 6.6 percent in advanced economies and 9.5 percent in emerging market and developing economies this year—upward revisions of 0.9 and 0.8 percentage point, respectively. In 2023, disinflationary monetary policy is expected to bite with global output growing by just 2.9 percent.

The risks to the outlook are overwhelmingly tilted to the downside. The war in Ukraine could lead to a sudden stop of European gas imports from Russia; inflation could be harder to bring down than anticipated either if labour markets are tighter than expected or inflation expectations unanchor; tighter global financial conditions could induce debt distress in emerging market and developing economies; renewed COVID-19 outbreaks and lockdowns as well as a further escalation of the property sector crisis might further suppress Chinese growth; and geopolitical fragmentation could impede global trade and cooperation. A plausible alternative scenario in which risks

materialize, inflation rises further and global growth declines to about 2.6 percent and 2.0 percent in 2022 and 2023, respectively, would put growth in the bottom 10 percent of outcomes since 1970.

With increasing prices continuing to squeeze living standards worldwide, taming inflation should be the first priority for policymakers. Tighter monetary policy will inevitably have real economic costs, but delay will only exacerbate them. Targeted fiscal support can help cushion the impact on the most vulnerable, but with government budgets stretched by the pandemic and the need for a disinflationary overall macroeconomic policy stance, such policies will need to be offset by increased taxes or lower government spending. Tighter monetary conditions will also affect financial stability, requiring judicious use of macroprudential tools and making reforms to debt resolution frameworks all the more necessary. Policies to address specific impacts on energy and food prices should focus on those most affected without distorting prices. And as the pandemic continues, vaccination rates must rise to guard against future variants. Finally, mitigating climate change continues to require urgent multilateral action to limit emissions and raise investments to hasten the green transition.

E. INDIAN ECONOMY:

In 2021-22, India renewed its tryst with the recovery that had commenced in the second half of 2020-21 with the abatement of the first wave. The second wave took a grievous toll, however, pushing the nation into arguably the worst health crisis the country had ever faced. Supported by continuing fiscal measures and congenial financial conditions engendered by monetary, regulatory and liquidity initiatives undertaken by the Reserve Bank, including some unconventional ones, the real GDP bounced back in Q2:2021-22 and grew at 1.3 per cent over Q2:2019-20. The recovery was further entrenched in Q3:2021-22 with GDP exceeding the corresponding pre-pandemic quarter by 6.2 per cent. In Q4, however, the third wave of the pandemic driven by the Omicron variant and more recently, geopolitical conflict has caused a loss of pace in the recovery and darkened the outlook.

The National Statistical Office (NSO) on February 28, 2022 indicated that aggregate demand, measured by real GDP, registered a growth of 8.9 per cent in 2021-22, up from a contraction of 6.6 per cent in the previous year.

In the first half of 2021-22, real GDP registered double-digit growth which tapered in the second half due to the gradual waning of base effects. The underlying momentum remained strong, however, as evident in a sharp rebound in the seasonally adjusted annualised growth rate (SAAR) in Q2:2021-22 that appears to have been sustained in subsequent quarters.

Overview of Global Dairy Industry

Market Overview:

“Dairy Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2022-2027,” the global dairy market is expected to exhibit a CAGR of 5.09% during 2022-2027. Dairy products are produced by using milk harvested from animals. Some of the common dairy items include cheese, ice cream, butter, and yogurt. Dairy production plants employ two types of processing, namely heat treatment and dehydration. These processes help to extend the shelf life and ensure the safety of the end-product for human consumption. Dairy products are rich in carbohydrates, protein, calcium, potassium, phosphorus, riboflavin, and vitamins A, D, and B12. These compounds offer several health benefits, like supporting body growth, building and repairing muscle tissues, maintaining strong bones, and regulating blood pressure.

There has been an increase in the demand for ready-to-eat (RTE) products, such as butter, frozen desserts, milk powder, and yogurt, which is contributing to the market growth. Subsequently, evolving food habits have further led to the establishment of fast-food chains and quick service restaurants (QSR), wherein different varieties of cheese, condensed milk, buttermilk, and sour milk are employed as major ingredients. Moreover, the rising availability of flavored milk and ice creams in innovative flavors, such as chocolate, strawberry, vanilla, and almond, is acting as a growth-inducing factor. Apart from this, key players in developing regions are consistently investing in improving the milk procurement network and promote domestic dairy farming practices, which is creating a positive outlook for the market. In addition to this, the advent of modern retail facilities and improvement in cold chain logistics, particularly in emerging economies, are further supporting the market growth. A significant increase in research and development (R&D) activities in the dairy industry to introduce novel product variants and expand existing product portfolios is fueling the market growth further. Other factors, such as rising health concerns, increasing population and rapid urbanization and industrialization, are also driving the global dairy market growth.

Overview of Dairy Industry in India:

The dairy market in India reached a value of INR 13,174 Billion in 2021. Looking forward, IMARC Group expects the market to reach INR 30,840 Billion by 2027, exhibiting at a CAGR of 14.98% during 2022-2027. Keeping in mind the uncertainties of COVID-19, we are continuously tracking and evaluating the direct as well as the indirect influence of the pandemic. These insights are included in the report as a major market contributor.

India has been the leading producer and consumer of dairy products worldwide since 1998 with a sustained growth in the availability of milk and milk products. Dairy activities form an essential part of the rural Indian economy, serving as an important source of employment and income. India also has the largest bovine population in the world. However, the milk production per animal is significantly low as compared to the other major dairy producers. Moreover, nearly all of the dairy produce in India is consumed domestically, with the majority of it being sold as fluid milk. On account of this, the Indian dairy industry holds tremendous potential for value-addition and overall development.

Independent Auditor's Report

To the Members of Sheetal Cool Products Limited

Report on the Financial Statements

Opinion

We have audited the accompanying financial statements of Sheetal Cool Products Limited ("the Company") which comprises the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss, and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, and profit, and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to be communicated in our report except as stated in the Emphasis of Matter para below.

Emphasis of Matter

The Company's management is responsible for carrying out the balance confirmation and reconciliations with various debtors, creditors and advances. These have not been independently verified by us during the year under review. Any adjustment to the value of such balances as appearing in the balance sheet of the Company may have an effect on the profit and net assets of the Company for the period and year ended March 31, 2022.

Our opinion is not modified in respect of this matter.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position,

financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(l) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be

thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure B

Referred to in point f. of the section Report on Other Legal and Regulatory Requirements of the Independent Auditors' Report of even date to the members of Sheetal Cool Products Limited on the financial statements for the year ended March 31, 2022

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

In conjunction with our audit of the financial statements of the Company as of and for the year ended March 31, 2022, we have audited the internal financial controls over the financial reporting of Sheetal Cool Products Limited ("the Company") as of that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on assessed risk. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial control over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and services and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current/non-current classification of assets and liabilities.

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known/materialise.

For the purposes of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a cash generating unit. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the Statement of Profit and Loss. If at the Balance Sheet date there is an indication that if a previously assessed impairment loss no longer exists or may have decreased, the recoverable amount is reassessed, and the asset is reflected at the recoverable amount.

Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets are recognised for timing differences of items other than unabsorbed depreciation and carry forward losses only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. However, if there is unabsorbed depreciation and carry forward of losses, deferred tax assets are recognised only if there is virtual certainty that there will be sufficient future taxable income available to realise the assets. Deferred tax assets are reviewed at each balance sheet date for their realisability.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and the liability on a net basis. Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off assets against liabilities representing current tax and where the deferred tax assets and the deferred tax liabilities relate to taxes on income levied by the same governing taxation laws.
