### BUSINESS/FUTURE OUTLOOK:

Company encountered many challenges during the year under review like: economic sluggishness that affected consumer sentiment; suspension of work due to labour unrest; the relatively low scale

of operations made it difficult to cover overheads, interest and depreciation. The Central Government implemented the GST in July 2017. Even as the implementation of GST was perhaps the most significant taxation reform in the history of independent India, the resultant teething issues impacted the textile sector unfavorably initially. Besides, synthetic yarn was earlier subject to a countervailing duty. Moreover due to continuous pandemic of Covid-19 growth of the textiles sector has been deeply affected due to fall in global as well as local demand of products. Work at Company's plant at Raipur remains suspended due to industrial unrest and violence.

Dispute arose between ARCIL and Indoworth India Limited (IWIL) which lead to filing of a Suit for specific performance for sale of Assets of the company by IWIL before the Hon'ble High Court of Calcutta wherein Company was also impleaded as a party. Besides the said Suit, various other proceedings were also initiated before the other forums. ARCIL, IWIL and the Company have arrived at settlement and after making payment as per the Agreement by IWIL through its nominee and the partial balance payment to be made as per the Agreement, the said Suit has been disposed in terms of settlement Agreement. In view of the settlement between the parties, IWIL being in possession of the assets pursuant to the Agreement between the parties, continues to hold the assets having been transferred to it. ## **MANAGEMENT DISCUSSION & ANALYSIS REPORT**

### **INDUSTRY STRUCTURE & DEVELOPMENT**

The global economy has witnessed uncertain times with geopolitical uncertainty, lingering supply chain disruption, a high inflationary scenario, spikes in commodity prices, and unexpected failures of major banks. It remains entangled between the cross-currents of slowing growth and high inflation. As per latest estimates from the International Monetary Fund, global growth will bottom out at 2.8% in 2023 as compared to 3.4% in 2022. The International Monetary Fund's latest estimates indicate that India is expected to maintain its position as a favorable contributor to the global economic expansion, despite the global headwinds.

This optimistic growth projection is partly due to the economy's resilience, as evidenced by the smooth shift of private consumption becoming the primary growth driver, dislodging the export stimuli. This boost in private consumption has additionally fueled production activity, resulting in enhanced capacity utilization across various sectors. Despite its relative outperformance compared to other developing economies, the country faces several challenges. These challenges include adverse geopolitical developments, rising global financial instability, elevated inflation, and financial tightening impacting the cost of capital.

### **OPPORTUNITIES AND THREATS**

The textile sector largely depends on discretionary spending of the consumer, and consumer spending was severely affected during the fiscal year 2022-23 in the wake of the pandemic. The industry witnessed significant contraction of demand in both domestic and international markets, till the second quarter. However, consumption and production improved during the latter half of the year on account of the pent-up demand as economy started to revive. The year 2022-23 also witnessed the US - China trade disputes, worldwide anti-China sentiments and ban of Xinjiang (China) Cotton and cotton made products over violation of human rights. This development created some space in the global textiles market, primarily in the home furnishings category. This provided a boost to the yarn and cotton players in India as well.

### **SEGMENT WISE PERFORMANCE**

The Company's business activities fall within a single primary segment of Textile Yarns, viz. Wool/Worsted/Silk/Silk Spun/Noil Yarns etc.

### **FINANCIAL PERFORMANCE**

Turnover of the Company during the year was Rs. NIL as against Rs. NIL in the previous year. There was a loss of Rs. 256.99 Lakhs before Interest, Depreciation and Taxes against Loss of Rs. 361.25 Lakhs in the previous year. Plant closure due to violent labour unrest has led to temporary suspension at the Company's plant at Raipur resulting into no turnover during the year.

### **OPERATIONS, MANAGEMENT DISCUSSION AND ANALYSIS**

There was a Cash loss to the tune of Rs. 256.99 Lakhs as against Cash Loss of Rs. 361.25 Lakhs before interest & depreciation in the previous year. Overall performance of the Company has been impacted by the temporary suspension at Company's plant at Raipur.

## **BUSINESS OUTLOOK**

Demand for textile products have been on the fall for the higher end products like Silk & Wool rich products due to global recession and have been the reason for reduction in top line. Coupled with this, high inflation costs and sporadic fiscal instability in certain global markets was a cause of concern. Overall performance of the Company has been impacted by the temporary suspension at Company's plant at Raipur. However, the Company is hopeful of managing these challenges and continuing its vigorous efforts to do better in the current financial year.

## **RISK & CONCERNS**

The primary risk for the Company is with the volatile Export markets and the uncertainty prevailing in the Global Economy. Having to compete with low cost producers from countries like China and Korea is always a concern. There are no significant current borrowings and thus the company seems isolated from financial risks and concerns, especially in the face of increasing interest rates and cost of Capital.

## **INTERNAL CONTROL SYSTEM**

The Company has adequate system of internal controls to ensure that all assets are safeguarded and protected against loss and that all transactions are authorized, recorded and reported correctly. The systems are designed to support the reliability of the financial and other records for preparing financial statements and other data. ## Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. Our opinion is modified in respect of these matters.

### **Information Other than the Financial Statements and Auditor's Report Thereon**

The Company's Management and Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information we are required to report that fact. We have nothing to report in this regard.

## **Management's Responsibility for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, (changes in equity) and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high label of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatement can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has

adequate internal financial controls system in place and the operating effectiveness of such controls.

□ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

□ Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

□ Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

#### **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Qualified Opinion**

According to the available books of account prepared by the Company, stated in Note No.46 of the financial statement and information and explanations given to us and based on our audit, the following material weaknesses have been identified in the operating effectiveness of the Company's internal financial controls over financial reporting as at March 31, 2023.

1. The Company's internal financial controls over customer acceptance, credit evaluation and establishing credit limits for sales in respect of certain very old debts were not operating effectively which could potentially result in the Company's recognising revenue without establishing reasonable certainty of ultimate collection;
2. The Company's internal financial controls over payment of certain long outstanding advances to parties particularly with regard to the terms and conditions of making such advance payments by the Company were not operating effectively which could potentially result in materially affecting the Company's working capital and expense account balances.
3. The Company's internal financial controls over certain long outstanding creditors for expenses particularly with regard to the adequacy for such expenses as also obtaining confirmations from the creditors were not operating effectively which could potentially result in materially affecting the Company's working capital and expense account balances.

### Notes to the financial statements for the year ended 31st March, 2023

#### 1. BASIS OF PREPARATION, MEASUREMENT AND SIGNIFICANT ACCOUNTING POLICIES

##### 1.1 BASIS OF PREPARATION AND MEASUREMENT

###### (a) Basis of preparation

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

The financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently presented in the financial statements. All assets and liabilities have been classified as current or non current as per the Company's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

Transactions and balances with values below the rounding off norm adopted by the Company have been reflected as "0" in the relevant notes in these financial statements.

The financial statements of the Company for the year ended 31st March, 2023 were approved for issue in accordance with the resolution of the Board of Directors on 30th May, 2023.

###### (b) Basis of measurement

These financial statements are prepared under the historical cost convention unless otherwise indicated.

##### 1.2 KEY ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively.

Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are included in the following notes:

- (a) Measurement and likelihood of occurrence of provisions and contingencies – Note-31.and
- (b) Recognition of deferred tax assets – Note-38

### **1.3 SIGNIFICANT ACCOUNTING POLICIES:**

#### **a) Recognition of Income &Expenditure:**

Income and Expenditure are recognised on accrual basis.

#### **b) Property, Plant and Equipment:**

Property, plant and equipment are stated at acquisition cost net of accumulated depreciation and accumulated impairment losses, if any. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Statement of Profit and Loss during the period in which they are incurred.

Gains or losses arising on retirement or disposal of property, plant and equipment are recognised in the Statement of Profit and Loss.

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress".

Depreciation is provided on a pro-rata basis on the straight line method based on estimated useful life prescribed under Schedule II to the Companies Act, 2013.

- Assets costing ` 5,000 or less are fully depreciated in the year of purchase.

Freehold land is not depreciated.

Leasehold land: Cost of Leasehold Land and installation and other expenses incurred on Machineries taken on lease are amortized over the period of the respective lease.

The residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each financial year end and adjusted prospectively, if appropriate.

#### **c) Intangible Assets:**

Separately purchased intangible assets are initially measured at cost. Intangible assets acquired in a business combination are recognized at fair value at the acquisition date. Subsequently, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any.

The useful lives of intangible assets are assessed as either finite or indefinite. Finite-life intangible assets are amortized on a straight-line basis over the period of their expected useful lives. Estimated useful lives by major class of finite-life intangible assets is as follows:

Computer software - 3 years

The amortization period and the amortization method for finite-life intangible assets is reviewed at each financial year end and adjusted prospectively, if appropriate.

Indefinite life intangibles mainly consist of patents. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues, if not, it is impaired or changed prospectively based on revised estimates.

**d) Inventories:**

Inventories are stated at 'cost or net realisable value, whichever is lower'. Cost comprises all cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost formulae used are 'Weighted Average Cost'.

**e) Financial Instruments:**

**Financial Assets:**

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instrument. On initial recognition, a financial asset is recognised at fair value, in case of financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction costs are recognised in the statement of profit and loss. In other cases, the transaction cost is attributed to the acquisition value of the financial asset.

Financial assets are subsequently classified as measured at

- amortized cost
- fair value through profit and loss (FVTPL)
- fair value through other comprehensive income (FVOCI).

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Company changes its business model for managing financial assets.

**Cash and Cash Equivalents:**

Cash and cash equivalents are short-term (twelve months or less from the date of acquisition), highly liquid investments that are readily convertible into cash and which are subject to an insignificant risk of changes in value.

**Investments:**

Long Term Investments are carried at cost and Provision for impairment is made to recognise a decline, other than temporary, in the value of long term investments, script wise.

**Trade Receivables and Loans:**

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortized cost, using the effective interest rate (EIR) method net of any expected credit losses.

The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

### **Debt Instruments:**

Debt instruments are initially measured at amortized cost, fair value through other comprehensive income ('FVOCI') or fair value through profit or loss ('FVTPL') till derecognition on the basis of (i) the entity's business model for managing the financial assets and (ii) the contractual cash flow characteristics of the financial asset.

#### **a) Measured at amortized cost:**

Financial assets that are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows that are solely payments of principal and interest, are subsequently measured at amortized cost using the effective interest rate ('EIR') method less impairment, if any. The amortization of EIR and loss arising from impairment, if any is recognised in the Statement of Profit and Loss.

#### **b) Measured at fair value through other comprehensive income:**

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognized in the other comprehensive income (OCI). Interest income measured using the EIR method and impairment losses, if any are recognised in the Statement of Profit and Loss. On derecognition, cumulative gain or loss previously recognised in OCI is reclassified from the equity to 'other income' in the Statement of Profit and Loss.

#### **c) Measured at fair value through profit or loss:**

A financial asset not classified as either amortized cost or FVOCI, is classified as FVTPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised as 'other income' in the Statement of Profit and Loss.

### **Equity Instruments:**

All investments in equity instruments classified under financial assets are initially measured at fair value; the Company may, on initial recognition, irrevocably elect to measure the same either at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument are recognised as other income in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognized in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'other income' in the Statement of Profit and Loss.

### **Derecognition:**

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the contractual rights to receive the cash flows from the asset.

**Impairment of Financial Asset:**

Expected credit losses are recognized for all financial assets subsequent to initial recognition other than financial assets in FVTPL category. For financial assets other than trade receivables, as per Ind AS 109, the Company recognises 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. The Company's trade receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall. The impairment losses and reversals are recognised in Statement of Profit and Loss.

**Financial Liabilities:**

**Initial recognition and measurement**

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortized cost unless at initial recognition, they are classified as fair value through profit and loss. In case of trade payables, they are initially recognised at fair value and subsequently, these liabilities are held at amortized cost, using the effective interest method.

**Subsequent measurement**

Financial liabilities are subsequently measured at amortized cost using the EIR method. Financial liabilities carried at fair value through profit or loss and are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

**Derecognition**

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

**f) Provisions, Contingent Liabilities and Contingent Assets:**

Provisions are recognised in respect of obligations where, based on the evidence available, their existence at the Balance Sheet date is considered probable. Contingent Liabilities are shown by way of Notes to Accounts in respect of obligations where, based on the evidence available, their existence at the Balance Sheet date is not considered probable, hence not provided for. Contingent assets are not recognised in the accounts.

**g) Revenue Recognition:**

Revenue from sale of goods is recognized inclusive of Job Processing charges and exclude Inter Unit transfer when all the significant risks and rewards of ownership in the goods are transferred to the buyer as per the terms of the contract, there is no continuing managerial

involvement with the goods and the amount of revenue can be measured reliably. The Company retains no effective control of the goods transferred to a degree usually associated with ownership and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods. Revenue is measured at fair value of the consideration received or receivable, after deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government which are levied on sales such as sales tax, value added tax, etc.

Income from export incentives such as duty drawback and premium on sale of import licenses, and lease license fee are recognised on accrual basis.

Income from services rendered is recognised based on agreements/arrangements with the customers as the service is performed in proportion to the stage of completion of the transaction at the reporting date and the amount of revenue can be measured reliably.

Effective from 1<sup>st</sup> April, 2018 the Company has adopted Ind AS 115 “**Revenue from Contracts with Customers**”

#### **h) Employee Benefits:**

##### **Defined benefit plans**

- i) Defined benefit plans, the amount recognised as ‘Employee benefit expenses’ in the Statement of Profit and Loss is the cost of accruing employee benefits promised to employees over the year and the cost of individual events such as past/future service benefit changes and settlements (such events are recognised immediately in the Statement of Profit and Loss). The amount of net interest expense calculated by applying the liability discount rate to the net defined benefit liability or asset is charged or credited to ‘Finance costs’ in the Statement of Profit and Loss. Any differences between the interest income on plan assets and the return actually achieved, and any changes in the liabilities over the year due to changes in actuarial assumptions or experience adjustments within the plans, are recognised immediately in ‘Other comprehensive income’ and subsequently not reclassified to the Statement of Profit and Loss.

The defined benefit plan surplus or deficit on the Balance Sheet comprises the total for each plan of the fair value of plan assets less the present value of the defined benefit liabilities (using a discount rate by reference to market yields on government bonds at the end of the reporting period).

All defined benefit plans obligations are determined based on valuations, as at the Balance Sheet date, made by independent actuary using the projected unit credit method. The classification of the Company’s net obligation into current and non-current is as per the actuarial valuation report.

- ii) Leave encashment is determined on accrual basis.

#### **i) Foreign Currency Transactions:**

- a) Transactions in Foreign currency are initially recorded at the exchange rate at which the transaction is carried out.
- b) Monetary Financial Assets and Liabilities related to foreign currency transactions remaining outstanding at the year end are translated at the year end rates. However during the year the Company has changed its accounting policy for accounting of Trade Receivables in foreign currency remaining outstanding at the year end as those are not translated at the year-end rates. Refer to Note No. 9(4)(v)
- c) Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.
- d) Any income or expense on account of exchange difference either on settlement or on translation at the year end is recognized in the Statement of Profit & Loss.
- e) In case of items which are covered by forward exchange contracts, the difference between the yearend rate and the rate on the date of the contract is recognized as exchange difference. The premium or discount on forward exchange contracts is recognized over the period of the respective contract.

#### **j) Borrowing Costs:**

Borrowing Costs that are attributable to the acquisition or construction of qualifying non financial assets are capitalised as part of the cost of such assets. A qualifying such asset is one that necessarily takes a substantial period of time to get ready for intended use. All other borrowing costs are charged to Statement of Profit and Loss in the period in which they are incurred.

#### **k) Income Taxes:**

Income-tax expense comprises Current tax and Deferred tax charge or credit. Provision for current tax is made on the assessable income at the tax rate applicable to the relevant assessment year. The Deferred tax Asset and Deferred tax Liability is calculated by applying tax rate and tax laws that have been applicable to the relevant assessment year. The Deferred tax Asset and Deferred tax Liability is calculated by applying tax rate and tax laws that have been depreciation under tax laws, are recognised only if there is a virtual certainty of its realization, supported by convincing evidence. Deferred tax Assets on account of other timing differences are recognised only to the extent there is a reasonable certainty that the assets can be realized in future.

#### **l) Impairment of Non Financial Assets:**

Impairment loss, if any, is recognised to the extent, the carrying amount of assets exceed their recoverable amount. Recoverable amount is higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life.

Impairment losses recognised in prior years are reversed when there is an indication that the impairment losses recognised no longer exist or have decreased. Such reversals are recognised as an increase in carrying amount of assets to the extent that it does not exceed

the carrying amount that would have been determined (net of amortization or depreciation) had no impairment loss been recognised in previous years.

After impairment, depreciation or amortization on assets is provided on the revised carrying amount of the respective asset over its remaining useful life.

**m) Operating Cycle:**

All Financial Assets and Liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies' Act, 2013. Based on the nature of services provided and time between the rendering of services and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as less than 12 months for the purpose of current and non-current classification of financial assets and liabilities.

**n) Cash flow statement:**

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing flows. The cash flows from operating, investing and financing activities of the Company are segregated.

**o) Segment Reporting:**

Segments are identified based on the dominant source and nature of risks and returns and the internal organization and management structure. The accounting policies adopted for segment reporting are in line with the accounting policies of the Company. In addition, the following specific accounting policies have been followed for segment reporting:

- (a) Inter segment revenue is accounted for based on the transaction price agreed to between segments which is primarily market led.
- (b) Revenue and expenses are identified to segments on the basis of their relationship to the operating activities of the segment. Revenue and expenses, which relate to the enterprise as a whole and are not allocable to segments on a reasonable basis, have been disclosed as "Un-allocable".

**p) Earning Per Share:**

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for the events, such as bonus share, other than conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating, diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.
