India GDP estimated at ₹147.5L cr in FY22

New Delhi: India's gross domestic product (GDP) is projected to grow at 9.2 per cent to Rs 147.5 lakh crore in 2021-22, Minister of State for Finance Pankaj Chaudhary said on Monday.

These include the change in the definition of MSMEs, new PSU policy, commercialisation of coal mining, higher FDI limits in defence and space sector, development of the Land Bank and Industrial Information System.

It also includes the revamp of the viability gap funding scheme for social infrastructure, new power tariff policy and incentivising states to undertake sector reforms, among others, he said.

The Emergency Credit Line Guarantee Scheme (ECLGS) was launched to provide collateral-free guaranteed loans for business enterprises in various sectors affected by COVID-19, he said.

Continuing with the growth supportive measures, he said the Union Budget 2022-23 has announced a 35.4 per cent increase in the outlay of capital expenditure, PM GatiShakti National Master Plan for seamless multimodal connectivity and logistics effi-

ciency, and expansion of guarantee cover for MSME, among others.

Ease of Doing Business 2.0 reforms, human capital formation through universalisation of quality education and the establishment of a digital university, urban development, export promotion, clean and sustainable mobility, extension of ECLGS by Rs 50,000 crore to Rs 5 lakh crore were also announced in the Budget, he said.

Replying to another question, Chaudhary said the number of persons living below the poverty line in India has been estimated at 27 crore in 2011-12. This estimation was based on erstwhile Planning Commission estimated poverty lines and poverty ratio in 2011-12, following the extant Tendulkar Committee methodology and released through a Press Note issued on July 22, 2013.

No estimates of poverty have been released by the government thereafter, he said.

Sensex nosedives 1,024 pts on rate hike fears; HDFC twins top drags

Mumbai: Equity benchmark Sensex crashed 1,024 points to end below the 58,000-level on Monday as investors fretted over policy tightening by central banks amid elevated inflation. Unabated foreign fund outflows added to the gloom, traders said.

Declining for the third straight session, the 30-share BSE Sensex plummeted 1,023.63 points or 1.75 per cent to finish at 57,621.19.

Similarly, the broader NSE Nifty slumped 302.70 points or 1.73 per cent to 17,213.60. The Sensex has now shed 1,937.14 points in three sessions, with the market capitalisation of BSE-listed firms plunging by over Rs 5.82 lakh crore during the period.

HDFC Bank was the top loser in the Sensex pack in Monday's session, tumbling 3.65 per cent, followed by L&T, Bajaj Finance, Bajaj Finserv, HDFC, Kotak Bank and Wipro.

Only five counters managed to close in the green --

PowerGrid, NTPC, Tata Steel, SBI and Ultratech Cement, climbing up to 1.88 per cent.

"Domestic markets are volatile ahead of the state elections, witnessing a steep fall led by FII selling and weak global cues. US bourses were under pressure as strong US jobs data gave rise to fears of sharper than expected Fed rate hikes, resulting in a spike in the bond yields."

"The volatility in the market is likely to continue due to high chances of interest rate lift-off by the RBI given domestic inflation and policy tightening by global central banks," said Vinod Nair, Head of Research at Geojit Financial Services. The Reserve Bank of India (RBI) on Sunday announced postponing the meeting of the rate-setting MPC by a day in view of Maharashtra declaring a public holiday on February 7 to mourn the death of legendary singer Lata Mangeshkar.
