MARKETING INITIATIVES

Water conservation is one of the biggest issues facing humanity. And plumbers are the superheroes protecting our water systems. Plumber Song 2.0 is the second installment in our series celebrating plumbers. Following on the blockbuster first edition, the dynamic new track features engaging lyrics that highlight the crucial role plumbers play in ensuring the proper functioning of our water infrastructure. It honours their expertise in fixing leaks and maintaining piping systems, while also promoting awareness about water conservation. The upbeat rhythms, skilful choreography and eye catching video have come together to create a viral sensation, especially amongst the plumber community.

CHAIRMAN'S MESSAGE

MESSAGE FROM THE CHAIRMAN & MANAGING DIRECTOR

Dear Shareholders,

As we reflect on the past fiscal, I would like to thank all our stakeholders who have made valuable and lasting contributions during this period to Prince Pipes, as well as the Indian building materials industry.

This reporting period has been a unique and exciting phase in the growth trajectory of Prince Pipes as we accomplished two significant milestones. The first is the ongoing construction of our new integrated manufacturing facility in Begusarai, Bihar. This marks Prince Pipes' dynamic expansion in East India – which is a major frontier of growth for us; and the second is Prince Pipes' acquisition of the iconic Bathware brand Aqueel and its state-of-the-art manufacturing facilities, from Klaus Waren Fixtures Private Limited. This was undertaken with the strategic intent of consolidating our presence in the bathware segment to unlock greater value, as we focus on faster expansion and carve out a solid brand identity.

Several strategic initiatives were implemented during the fiscal toward Prince Pipes' long-term goal of strengthening our leadership position in the industry and our vision of bringing continued transformations to India's water infrastructure.

I am happy to share that, Prince Pipes has delivered consistent performance during the 2023-24 financial year that underscores our team's leadership, our strong brand equity, our agile execution, and our adaptability. Our revenues and margins have shown steady momentum across all divisions.

At the start of the fiscal our operations were materially disrupted, as we witnessed numerous ERP transitioning challenges as we upgraded processes, which had an impact on our volumes as well as our product mix and pipe-fitting ratios. As operations stabilized, we were quick to enhance focus on execution as we reported robust volume growth across our segments of plumbing, SWR, agriculture as well as infrastructure.

For the fiscal 2023-24, we achieved a 10% volume expansion, with EBITDA margins rebounding to 12% in the year. This success was driven by our operational assertiveness, efficient supply chain management, cost-effective measures, and a focused marketing strategy. Our resilient mindset allowed us to pursue growth, strengthen our business fundamentals, and implement strategic initiatives. We launched new products and aggressively expanded the new bathware segment, all aimed at propelling our business model forward. Simultaneously, we expanded our distribution network and enhanced brand visibility.

Robust economic growth potential

India's economic resilience is evident. It has risen to the fifth position as an investment destination for global CEOs, up from the ninth position in 2023. Various reports project that India could become the third-largest economy by 2030, with a projected GDP of USD 7.3 trillion. The underlying economic growth potential hence continues to be robust, as industries including real estate, infrastructure, and agriculture, report strong progression. Key themes of inclusive development, green growth, sanitation, health, and drinking water connections—all aimed at fostering comprehensive economic progress, continue to offer immense growth opportunities to be leveraged.

Emphasis on execution across verticals and expanding pan-India footprint.

With strong macroeconomic fundamentals in place, we remain committed to sharp execution. We are aggressively focusing on driving volume growth through various efforts aimed at expanding distribution and strengthening our channel network. We continue to build strong engagement with distributors across all product lines and have added new partners across India with a current network of over 1,500 distributors.

Aligned with our vision to expand, our new integrated manufacturing facility at Begusarai in Bihar is well underway. We conducted the ceremonial Bhoomi Pujan in December 2023 to mark the auspicious start of construction, which has already begun and is progressing well. This expansion when complete will be the company's 8th

state-of-art manufacturing plant and will cater to demand in East India, which is a core growth center for the nation and the pipes and fittings industry.

As we progress, we commenced the production of water tanks – which continues to be a fast-growing segment, at our Haridwar plant in Q4 of FY24 and Chennai plant in Q2 of FY25, in addition to the Dadra, Jaipur, and Telangana facilities, we will have five in-house water tank manufacturing locations.

We continued to build more depth into our product portfolio with the launch of several new products through the fiscal and introduced Terrafit-Subsurface drainage pipes and innovative solutions, addressing challenges related to excessive subsurface water, as well as the Duratap range, including faucets and showers. Duratap is manufactured with PTMT material offering great advantages over other materials in terms of functionality and longevity and is aimed at the cost-conscious mass market.

The bathware segment gathers strong momentum

Our bathware segment is progressing well as we make strong in-roads across key Tier-2 and 3 markets of Northern India including Srinagar, Punjab, Haryana, Delhi, Rajasthan, Uttar Pradesh Gujarat, and the rest of Maharashtra.

As we implement our expansion strategies, Prince Pipes' acquisition of the iconic bathware brand Aqueel and its manufacturing facility in Gujarat, is a significant development for us. This integration of the Aqueel brand creates a robust platform that aligns well strategically and financially - with Prince Pipes' ambitious growth framework, opening up substantial synergies and market prospects across our business segments.

In a fast-transforming market led by changing customer needs, sensibilities, design, style, and preferences, the Aqueel brand has established itself as a key player with its wide range of products and has a prominent identity in Western, Central, and parts of South India. It has built strong brand equity amongst homeowners, interior designers, architects, and builders, which augurs well for us as we expand our bathware presence in the real estate segment, where we already have strong brand equity. Aqueel brings an extensive range of scientifically engineered products encompassing faucets and bathroom accessories. It currently has 9 ranges and 250 SKUs which will be integrated into our existing ranges to have a formidable bathware portfolio at different price points.

The combination of Aqueel's state-of-the-art plant, modern manufacturing processes, and rigorous quality control infrastructure, along with Prince's operational prowess, brings great excitement as we sharpen our execution in this segment. The total built-up area is ~350,000 sq ft or about 8 acres, which could be used for future expansion.

Prince is in the process of building several levers of growth that will give greater play to our expansion strategies to become a stronger, greater, and more resilient enterprise. With this acquisition, the overall addressable market for Prince would be over ~Rs. 60,000 crores spread across Bathware, Pipes, and Water Tanks, as we take definite strides towards our vision of transforming our country's water infrastructure.

With several strategic initiatives in place to bolster Prince Pipes' market share, in-market execution is our key priority. By providing our sales teams with efficient marketing toolkits to optimize revenue growth, we are well-equipped to win in our markets. The focus now is to ensure we execute with excellence wherever we play.

Creating manufacturing excellence

India continues to bolster its manufacturing sector's competitiveness on a global scale. By adopting best practices, streamlining processes, and fostering innovation, Indian companies are standing out in the international market. Prince Pipes aligns with the same focus. We continue to maintain a strong emphasis on our manufacturing processes and our Dadra plant has been awarded IMEA's, India Manufacturing Excellence Award, Silver Certificate of Merit as part of the Frost & Sullivan India Manufacturing Excellence Awards 2023. As you are

aware, IMEA's assessment framework evaluates organizations on their manufacturing capability, supply chain reliability, and technology adoption. Our Athal plant won the IMEXI Commitment Prize for its continued excellence in operations. This is a premier program that recognizes efforts put into facilitating operational excellence and building a sustainable improvement culture.

Dedicated to fortifying India's water infrastructure.

India's plastic pipe market holds promising prospects across various sectors, including potable water supply, wastewater management, electrical and telecommunication cable protection, agriculture, chemicals and gas. According to estimates the industry is expected to grow ~10-12% in volume terms over the next 3-5 years considering affordable input prices, revival in the urban real estate cycle, and the government's focus on raising farm income and driving infrastructure development.

The government's proactive approach, backed by various schemes, sets the stage for further development. In this dynamic landscape, Prince Pipes, with its expertise, product range, and pan-India sales network, is well poised to leverage industry opportunities. Capitalizing on synergies and the trusted Prince brand, the company aims to create substantial value for stakeholders. As we move forward, continuous evaluation of trends and opportunities will guide our efforts in strengthening India's water infrastructure.

Ensuring Sustainable Growth

Our commitment to a sustainable business starts at our manufacturing plants and is integrated across the Company. Safeguarding the environment is an area of priority for us. Evolving our operations to reduce our environmental footprint is enabling us to build a more resilient business for the long term. Reduced water usage, CO2 emissions, and responsible waste management are focus areas where we have taken the right steps to ensure a positive change. We continued to witness growth in Renewable sources of energy by ~20% and CO2 per Kg of production was reduced by 8.4%. Our Haridwar plant achieved Greenhouse Gas Emission Certification as per ISO 14064-3:2019 (Scope-1, 2 & 3) for the year FY-23 from DQS India, reiterating the Company's commitment to ESG goals.

Our sincere efforts to create value in society progressed well as we implemented key initiatives benefitting the industry and larger society including Empower Pragati in Delhi and Solan, a special initiative was created towards plumber upskilling. The aim was to enhance plumbing skills while also providing them with essential healthcare services. We collaborated with Ambuja Cement Foundation in Chomu, Rajasthan, to facilitate access to safe drinking water and augment groundwater recharge while promoting efficient water usage for drinking and irrigation. We also worked with Mahita Organisation in Sangareddy, towards improving water access & farm livelihood.

Committed to delivering on our ambitions

As we step into a new fiscal, our resolve strengthens, equipping us for the journey ahead. Our purpose remains clear and compelling, unwavering in its direction. Our strategy, rooted in the robustness of our earnings model, stands firm. Delivery and execution now take center stage. In this dynamic landscape, we embrace agility, resilience, and unwavering commitment.

I would like to thank all members of our Prince Parivaar who work tirelessly to ensure that Prince Pipes further strengthens its leadership position in the industry. I also take this opportunity to thank you, our shareholders, for your continued involvement, trust, support, and confidence in Prince Pipes and Fittings Limited.

We look forward to your continued encouragement.

Sincerely,

Mr. Jayant S. Chheda
Chairman and Managing Director

MANAGEMENT DISCUSSION AND ANALYSIS

GLOBAL ECONOMY

The world economy is expected to continue to grow at 3.2% over 2024 and 2025, at a pace similar to 2023 according to a report by IMF. This is a mild acceleration for advanced economies, where growth is expected to increase from 1.6% in 2023 to 1.7% in 2024 and 1.8% in 2025. This will be offset by a slight slowdown in emerging markets and developing economies from 4.3% in 2023 to 4.2% in both 2024 and 2025.

The forecast for global growth five years down the line, at 3.1%, is at its lowest in decades. Worldwide inflation is anticipated to decline gradually, from 6.8% in 2023 to 5.9% in 2024 and 4.5% in 2025, as advanced economies come back to their inflation targets sooner than emerging markets and developing economies. The global economy has been remarkably resilient, despite significant central bank interest rate hikes to restore price constancy. The risks to the global outlook are broadly balanced. The downside could be stemming from geopolitical tensions, including the Ukraine war and the conflict in Gaza and Israel, along with persistent core inflation in some markets, which could raise interest rate expectations and put pressure on asset prices.

INDIAN ECONOMY

The Indian economy grew 8.2% in FY 2024 and averaged 8.3% in the last three financial years. The Reserve Bank of India has projected 7.2% GDP growth for the current financial year. In the financial year 2023-24, the Indian economy contributed 18.5% of global growth which has been a noteworthy achievement. India's current account registered a surplus in the final quarter of the previous financial year, primarily driven by higher services exports. For FY 2024, the current account deficit decreased significantly due to a lower merchandise trade deficit. The current account deficit fell to 0.7% of GDP, or \$23.2 billion, in FY 2024, down from 2% of GDP, or \$67 billion, in FY 2023.

The RBI attributed the main drivers for this growth in the last three years to the various structural reforms and policy initiatives. GST has stabilized much faster than other economies which is reflected in the fact that tax collections reported are Rs. 1.7 lakh crore per month. Additionally, the introduction of the Insolvency and Bankruptcy Code and Flexible Inflation Targeting Framework by way of amendment to the RBI Act in 2016 – have been instrumental in this growth.

OUTLOOK

India's growth story has been and will continue to be multi-sectoral. The RBI has outlined that as the fifth largest economy, with an expanding population of 1.4 billion, India aspires to become the third largest and an advanced economy by 2047. This can be achieved with multi-sectoral progress. With well-sustained growth, which is set to continue at 7.2% for the current fiscal, India's economic outlook is robust and broad-based to reach its aim of Viksit Bharat by 2047. On investment and consumption aspects, a gradual pick-up in the private sector capex will make investment growth more broad-based, and continued disinflation will support the purchasing power of consumers. While the country's structural foundation is strongly led by digital infrastructure, manufacturing, infrastructure, and technology, other key areas of progress and development are set to be climate change, healthcare, agriculture, income equality, and further reforms in GST, taxation, and urban infrastructure.

Indian Plastic Pipes and Fittings Market - Overview

Pipes and fittings – well placed for long-term growth

In India, the demand for water supply and water management infrastructure, with pipes as the primary component, is significantly high and has a vast scope for expansion.

In fiscal year 2023, India's plastic pipe industry is estimated to be around ₹470 billion. It reported a CAGR of 9.7% from FY 2015 to FY 2023.

Fig 14 – India's plastic pipe industry has grown at 9.7% CAGR over FY15-FY23

In FY 2023, organized players are believed to be growing their market share consistently from ~59% in FY15 to ~67% in FY 2023. Additionally, the volumes of the top 5 plastic pipe companies grew at a healthy 8.4% CAGR for FY 2015-FY 2023 despite a weak real estate cycle.

Fig 18 – Market seeing gradual shift from unorganised to organised players

Fig 17 – Volumes of top 5 plastic pipe companies grew at healthy 8.4% CAGR for FY15-FY23 despite weak real estate cycle

In terms of end use, plumbing and sewerage pipes constitute approximately 55% of the industry's total volume, followed by agriculture pipes (35%) and infrastructure & industrial pipes (10%). The infrastructure & industrial pipe segments are expected to witness the highest growth due to increased Government expenditure on the Jal Jeevan scheme which aims to provide rural drinking water connections and urban infrastructure. Plastic pipes still have low penetration in water supply management, an area currently dominated by expensive cement and steel pipes.

According to estimates, the plastic pipe industry is expected to report a volume CAGR of 10-12% between FY 2023 to FY 2028. This projection considers favorable resin prices, potential revival in the urban real estate sector, and the Government's emphasis on boosting farm income and advancing infrastructure development.

Real estate industry – A strong growth driver

The activity of new real estate launches has seen a significant increase over the last 2-3 years, which is expected to result in a robust demand for pipes.

India's population is expected to surge to 1.55 billion by 2034 with an estimated 42.5% of the population residing in urban centres. Consequently, India's existing rural and small towns are set to transform into mini-urban towns. The burgeoning urban population will generate the demand for housing in India, especially in cities. As per estimates, to accommodate the urban population, urban cities in India will require an additional 78 million housing units between 2024-34. Such demographics and movement in the real estate industry augur well for the Indian

pipes & fittings industry, expanding the industry's potential in the long term.

With growing customer awareness, durable, high-quality branded products will continue to gain mind share.

In recent years, companies specializing in pipes and fittings offering branded products have gained prominence within the industry, surpassing unorganized manufacturers and some larger regional players facing financial constraints. These brands strategically invest in building awareness, educating consumers, and engaging with local audiences, particularly in Tier 2 and 3 towns and cities. Their efforts have heightened awareness among plumbers and consumers regarding quality and adherence to BIS standards, especially in residential real estate projects.

The growth of organized players is further supported by their focus on value-added products, fittings, and expanded portfolios for channel partners. These organized players now serve as comprehensive solution providers for plumbing applications. Among various types of plastic pipes, UPVC and CPVC consistently experience demand due to their affordability, high quality, durability, and versatility.

However, unorganized manufacturers encounter challenges related to operating issues, tax compliance, and quality standards. Supply-side limitations and inflation in raw material costs also impact their profitability and financial stability. Legacy players prioritize building resilient brands, optimizing pricing, engaging with influencers, driving product innovation, and streamlining supply chain management, positioning themselves as leaders with strong recall among consumers.

INDIAN BATH & SANITARYWARE MARKET

The domestic bathware market is estimated at Rs 180 billion in FY 2023 (sanitaryware: Rs.60 billion; faucets: Rs 120 billion) and has posted a 7.9% CAGR over FY 2015-FY 2023. The bath fittings market is riding the wave of urbanization, consumer awareness, and real estate growth. As more households embrace modern amenities, the demand for stylish and functional bathroom fittings continue to rise.

Fig 31 – Indian bathware market expected to grow at 8-10% over FY23-FY28E

The Thriving Indian Sanitaryware and Faucet Industry

- **Sanitaryware Industry:**
 - India ranks as the world's second-largest sanitaryware manufacturer, following China.
 - The Indian sanitaryware industry is estimated to be around ₹ 60 billion in FY 2023, with approximately 75% of it constituting the organized market.
 - The industry is highly consolidated, with the top four players commanding ~60% of the total market share.
 - Morbi and neighboring areas in the state of Gujarat manufacture majority of India's total sanitaryware.
 - Easy availability of raw materials and a skilled labor force contribute to the industry's growth.

While sanitaryware is already highly penetrated in India, the industry still offers strong long-term growth potential. Currently, replacement demand accounts for only 15-20% of the domestic sanitaryware market (compared to 80% in developed countries).

- **Faucet Market:**
 - The faucet market in India is valued at over Rs. 120 billion, with approximately 60% being the organized market.
 - Unlike sanitaryware, the faucet industry is highly fragmented.
 - New real estate construction activity and a trend toward premiumization are the primary demand drivers for faucets.

Factors Driving Growth:

Urbanization: As urban areas expand, the demand for bathroom fittings increases. Having at least one bathroom has become a necessity in cities.

Consumer Awareness: With growing aspirations for a better lifestyle, people are becoming more conscious of new bath accessories, leading to a surge in demand.

Rise in the Housing Sector: Factors like increased purchasing power, population growth, and Government support for easy loans contribute to the housing sector's growth.

Real Estate Boom: The Indian real estate industry caters to various property segments, including residential, commercial, and hospitality. This fuels the demand for bath fittings as an integral part of modern infrastructure.

COMPANY OVERVIEW

Prince Pipes - Leading the transformation in India's water infrastructure

Over the last four decades, Prince Pipes has emerged as a leader in the Indian pipes and fittings industry, creating innovations in plumbing, irrigation, storage, and sewerage systems. With time, the journey has assumed a much larger scale.

Today Prince Pipes is one of India's largest integrated piping solutions providers. Our operations continue to expand across agriculture, plumbing, borewell categories, as the company continues to build an extensive range in sewerage and underground drainage solutions.

With a product portfolio of 7,200+ SKUs, Prince Pipes is well positioned as an end-to-end solutions provider. The Company has an extensive pan-India distribution network of over 1,500 channel partners. With seven manufacturing units and the 8th unit under construction in Begusari, Bihar; we are well-poised to address the growing potential of the Indian pipes and fittings industry.

VISION

To be an acknowledged leader in the Indian plastic piping industry by exceeding customers' expectations and maximizing the bottom line for all our stakeholders.

MISSION

Our mission is to bring a revolution in the plastic piping industry through innovative solutions that will create profitable growth and benefit our customers & the society at large.

Company Profile

Over the past four decades, Prince Pipes has emerged as a leader in the Indian pipes and fittings industry, driving innovations in plumbing, irrigation, storage, and sewerage systems. Prince is taking bold strides to strengthen its market and industry presence by diversifying into newer verticals, including Modern Plumbing and Bathware.

We are seizing every opportunity to push our limits further, expand our growth verticals, enhance efficiencies, and optimize capital productivity—all to create higher stakeholder value. Prince Pipes stands as one of India's largest integrated piping solutions providers, marketing products under the brand names of Prince Piping Systems and Trubore. Our operations span across agriculture, plumbing, and borewell categories, and we are actively building the widest range of sewage products and

underground drainage solutions.

In March 2024, Prince Pipes signed an Asset Purchase Agreement (APA) with Klaus Waren Fixtures Pvt Ltd., for the acquisition and assignment of identified assets including the Aquel brand and plant and machinery located in Bhuj, Gujarat. This transaction allows Prince to be able to increase its participation and contribution to the high-growth real estate market by being present across the plumbing and bathing segments. With the acquisition of the Aquel brand, Prince Pipes aims to become a prominent player in the Bathware segment, replicating the success it has achieved in its other segments.

Prince Pipes has an extensive pan-India distribution network of over 1,500 channel partners. With seven manufacturing units at Athal (Dadra and Nagar Haveli), Dadra (Dadra and Nagar Haveli), Haridwar (Uttarakhand), Kolhapur (Maharashtra), Chennai (Tamil Nadu), Jaipur (Rajasthan) and Sangareddy (Telangana), we are well positioned to actively address the growing potential of the Indian pipes and fittings industry. In line with our expansion goals, the construction of our Begusarai plant is progressing well on course marking Prince Pipes' dynamic expansion in East India

– which is a major frontier of growth. The proposed capital expenditure in the Bihar facility is approximately ₹220 crores for the proposed capacity of 48,000 MT of pipes and fittings.

Prince is building several levers of growth that will give greater play to the Company's expansion and growth strategies, transforming into a larger and more resilient enterprise building a strong presence across Pipes, Water tanks and Bathware.

The Company has been building a multilocation manufacturing network for the water tanks segment, to enable us to leverage its channel network for greater scale. The water tanks plant in Dadra was launched in July 2020, Jaipur in May 2022, Telangana in June 2022, Haridwar in February 2024, while the Chennai plant was launched in July 2024.

Prince Pipes is committed to and prides itself on its ability to address the needs of changing times. Our focus remains on meeting the evolving customer demands, building a robust and efficient supply chain, safeguarding the environment, and undertaking strategic initiatives that will give greater play to our business model.

New Addition

A strong platform, complementary to Prince's growth plans in the high-growth Indian bathware market

Prince Pipes signed an Asset Purchase Agreement with Klaus Waren Fixtures Pvt Ltd., for the acquisition and assignment of identified assets for Rs. 55 crores in March 2024.

The acquisition presents strong synergies and advantages:

- Direct access to an iconic brand along with a state-of-the-art facility.
- Increase presence in the plumbing and bathing segments enables Prince to expand its participation and contribution to the high-growth real estate sector.
- Access to distribution channels in major markets across India.
- Presents an opportunity to build greater depth for Prince's Bathware segment and leverage Aquel's iconic brand equity.

Fortifying key strengths

Agility and Resilience: Transforming Our Enterprise for the Future

With strong macroeconomic fundamentals in place, we are committed to sharpening our business execution and roll-out plans. We are focusing aggressively on driving volume growth through various efforts aimed at expanding distribution and strengthening our channel network.

At Prince Pipes, our rich industry heritage provides us with a robust knowledge advantage, enabling us to meet the ever-evolving needs of our customers. We continuously enhance our competitive strengths and operational efficiencies to thrive in an increasingly competitive business landscape. Our unwavering commitment to excellence and strategic initiatives positions us on a trajectory towards becoming an even more agile and resilient organization.

Strategic Transformation To Fulfil Our Mission To Enhance India's Water Infrastructure

As part of our commitment to being an end-to-end pipes and fittings solution provider, our Company has undergone deep, transformative changes. These changes enable us to establish a strong presence across the entire product value chain spanning Pipes, Water Tanks and Bathware, to play a leading role in strengthening India's water infrastructure. From an enterprise with modest beginnings, Prince Pipes has evolved into one of India's largest integrated pipe manufacturers, with presence across high-growth verticals to shape India's water infrastructure.

Bathware segment 'Aquel by Prince' propels Prince Pipes' growth trajectory

Our unwavering focus on innovation allows us to actively address the needs of consumers across pipes and now bathware products led by **Aquel by Prince**. With a robust portfolio encompassing pipes, water tanks and bathware, we look to not only consolidate our industry presence but are also excited to contribute to India's remarkable growth story.

Comprehensive Product Portfolio

We expanded our product portfolio by introducing several new offerings. Among these were the **TerraFit-Subsurface drainage pipes**, which provide innovative solutions for managing excessive subsurface water. We also launched the **Duratap range**, which includes faucets and showers. Duratap products are manufactured using PTMT material, offering significant advantages in terms of functionality and durability. These products are targeted at the cost-conscious mass market.

As part of our growth strategy, we consistently introduce cutting-

edge products in our piping division, aiming to bring innovative and globally competitive solutions to the domestic market.

Marketing efforts centered on expanding brand recall and target audience engagement

Marketing Transformation: We revamped our marketing strategy to focus on pushing the boundaries of category norms. Our goal is to create robust demand among customers, encouraging them to recognize and value the enhancements offered by Prince products. Exciting customer engagement campaigns included **"Paani ka muh todd jawab"** conducted through a housing society campaign in Ahmedabad engaged general audiences in the housing societies to engage with the Prince brand through this unique 'know your pipes' initiative.

Aggressive Campaigns: Through assertive campaigns, Prince Pipes tackle issues related to counterfeit products and duplicity. Our roadshows span across India, targeting specific customer segments based on industry requirements. We also conduct educational sessions for plumbers and raise awareness through various initiatives. Into the 7th year of launching the unique **Plumber song**, Prince Pipes once again celebrated the spirit of plumbers across India on World Plumbing Day. Prince has been taking the industry lead in commemorating World Plumbing Day on March 11 since 2018, and in March 2024, Prince Pipes launched a new song dedicated to plumber associates emphasizing on their role as **Paani ke Pehredaar**.

Channel Partner Engagement: Our active engagement with channel partners includes high-decibel below-the-line (BTL) branding through events, B2B exhibitions across India, and targeted digital marketing efforts, all aimed at achieving greater brand appreciation and marketing leverage.

Seamless Customer Experience:

As an end-to-end piping systems solutions provider, we offer customers a seamless experience. From plumbing and storage solutions to sewerage systems and product installations, we ensure a holistic approach that considers related products and plumber assistance. From operations that focused on 'behind-the-wall' products of pipes and fittings, Prince is now also present in the 'front-of-the-wall' category with Aquel by Prince bathware, sanitaryware and accessories range.

Forging Tomorrow: Strengthening Manufacturing Prowess

As we strive to become future-ready, we recognize that strengthening our manufacturing capabilities goes beyond mere production capacity. Our **8th manufacturing unit located at Begusarai in Bihar** is a new greenfield facility to enhance our presence in East India. Our continuous focus is improving

operations, reducing waste, enhancing production profitability, and achieving a competitive edge through quality and safety innovations. Our approach extends beyond maximizing production throughput. We are committed to building multiple pillars of our business, with the following key areas of emphasis:

Well-being & Safety: Safety is paramount for both our employees and product integrity. Our effective safety systems ensure that employees handle products in a secure environment.

Uncompromising Quality: Meeting customer expectations and consistently delivering high-quality products drive our success. We encourage employees to take ownership of product quality, fostering innovation and an effective quality management system.

Maximizing Yield: Profitability remains a strong focus. We take numerous steps to eliminate waste, minimize product loss, and continuously innovate our processes. Our yield systems closely track measurements and establish robust waste control mechanisms.

Boosting Productivity: We explore novel approaches to maximize throughput while maintaining safety, quality, and yield. Engaged employees on the plant floor contribute to overall efficiency.

Balancing Risks and Opportunities

A proven risk management system that monitors, identifies, and addresses both current and emerging risks.

Types of risks	Risk description	Mitigation
Industry Risks		
Raw material supply	The prices of inputs have undergone substantial fluctuations in recent years. Unanticipated changes in commodity prices will likely affect profitability and the ability to meet market demand. Additionally, any increase in crude oil prices directly impacts the cost of resins, which serve as a critical raw material for pipes.	Our company acquires commodities and raw materials based on our production needs and schedules. We follow strong guidelines and extensive plans to manage inventory positions strategically, mitigating the impact of price fluctuations.
Competition	As the industry moves towards consolidation, competitive branding, marketing, and pricing dynamics among other players may affect our market share.	Our company invests in diverse branding efforts to build high customer brand recognition. The company has been actively pursuing volume growth. Additionally, we have expanded our product range by entering additional segments like Modern Plumbing and Bathware, and we will continue to seek further opportunities for growth and advancement.
Operational Risks		
Safety risks	Our company's core business revolves around manufacturing processes. As part of this, some of our employees operate plant machinery and equipment, all of which carry inherent risks of injury or accidents.	The company follows high safety standards across plants designed to ensure inherent safety following various applicable standards. Regular safety audits, continuous monitoring, periodic review, and timely maintenance of equipment and infrastructure are conducted to prevent accidents and downtime to ensure good progress.
Logistic and Supply Chain	Supply chain disruptions or logistical challenges may arise. Additional concerns may involve material receipt and vendor payment challenges.	Regular reviews of processes assess inventory, invoicing, stock management, and dispatch of goods. We collaborate closely with suppliers to ensure high-quality supply, reliability, and business continuity.
Enterprise Risk Mgmt. covering anti-Fraud Control Framework	Addressing duplicity remains an ongoing challenge, with counterfeit goods prevalent in the markets. Additionally, channel partner credibility, without thorough due diligence, may present risks.	We actively address duplicity issues with decisive actions and unwavering commitment. We have established processes to assess the effectiveness of these actions and take corrective measures if needed. Additionally, we regularly conduct surprise raids on illegal premises where counterfeit products are manufactured and sold, with the assistance of relevant authorities.

Types of risks	Risk description	Mitigation
Financial Risks		
Foreign exchange	Certain imported raw materials and equipment are used in our manufacturing plants. Adverse exchange rate fluctuations could affect our overall performance.	As an essential aspect of our operations, we systematically assess exchange rate exposure resulting from foreign currency transactions to safeguard our financial well-being. We proactively utilize various financial instruments to mitigate this risk.
Changing regulations and policies	The Indian Government has imposed a five-year antidumping duty (ADD) on CPVC resin/compound imports from China and South Korea, valid until June 2029, unless revised earlier. The Government has also initiated anti-dumping investigation on (PVC) Resin (suspension grade) from China, Indonesia, Japan, South Korea, Taiwan, Thailand and the U.S.	Earlier, CPVC resin was sourced from various geographies, including Korea, China, Japan, and Europe. The Company now sources its CPVC compound from Lubrizol therefore we have been able to mitigate this risk. Procurement department works effectively to discover best prevailing price globally and procure from countries which would have low to nil duty. Domestic prices also adjust to global PVC prices over time.
Credit	Most of our sales to distributors occur on an open credit basis, with a standard payment period ranging from 15 to 30 days. Failure to collect receivables could have a negative impact on our performance.	Our company procures raw materials from domestic suppliers with credit terms of less than a week, while imported raw materials have credit terms of 90-150 days. However, our standard payment terms with distributors typically range from 15 to 30 days. To manage the timing difference between raw material payments and product receipts, we utilize working capital facilities. Additionally, we optimize working capital requirements and enhance collections by employing channel financing.
Regulatory Risks		
Regulatory/legal	The Company's performance may be affected by evolving regulatory changes in tax, legal, and industry scenarios.	Stringent governance practices are implemented across legal and regulatory matters, overseen by qualified and responsible professionals. Regular monitoring ensures compliance, and timely inputs are provided to the Company for prompt corrective action.

Sustainability

A force for good

At Prince Pipes, our commitment to ESG goes beyond mere metrics and statistics. It influences our daily habits, purchasing decisions, business strategies, and our role as a responsible corporate citizen. We are expanding and deepening our focus to create a more positive impact by providing opportunities, manufacturing responsibly, and approaching business conscientiously. In essence, we prioritize Environmental, Social & Governance (ESG) through sustained, environment-specific programs.

- Carbon footprint: CO2 per Kg of production reduced from 0.394 in FY 2023 to 0.361 in FY 2024, i.e., a reduction of 8.4%.
- Renewable sources of energy increased by ~20% YoY in FY 2024
- The Haridwar plant achieved Greenhouse Gas Emission Certification done as per ISO 14064-3:2019 (Scope-1, 2 & 3) for the year FY-23 from DQS India, reiterating the company's commitment to ESG goals.

Environment

Prince Pipes remains a committed steward of our natural environment. Our endeavors revolve around conserving natural resources, minimizing pollution, safeguarding biodiversity, and ensuring a sustainable future for generations to come. We proactively take decisive steps to address the visible impacts of climate change, including increased adoption of renewable energy and our commitment to carbon neutrality. Additionally, we enhance water recycling efforts and uphold stringent quality standards, earning us multiple safety awards. Our business decisions consistently prioritize sustainable development.

Social

Prince Pipes and Fittings has consistently demonstrated socially responsible behavior towards employees and the community. Our commitment extends to creating and maintaining a diverse, vibrant, and merit-based work environment. Our CSR policy focuses on social investments, empowering the plumbing community, and educational initiatives. Some of our key initiatives along with our implementation partners benefitting the industry and larger society undertaken this fiscal, are as follows:

- **Empower Pragati:** In Delhi and Solan, a special initiative was created for plumber upskilling. The aim was to enhance plumbing skills while also providing them with essential healthcare services.
- **Ambuja Cement Foundation:** Implemented in Chomu, Rajasthan, this initiative was taken to facilitate access to safe drinking water and augment groundwater recharge while promoting efficient water usage for drinking and irrigation.
- **Mahita Organisation:** Undertaken in Sangareddy, Telangana, this effort was aimed at improving water access & farm livelihood. Efforts were concentrated on enhancing communities' quality of life through water access to farmers, education support for girls, and entrepreneurship skills for women.
- **United Way of Mumbai:** Implemented in Jaipur and Sangareddy, the effort helped enhance communities' well-being by improving water access, boosting farm-based livelihoods, facilitating access to Government schemes, and promoting ongoing education.

Governance

Prince Pipes is committed to values and ethical business conduct in letter and spirit. We have maintained high standards of governance that guide us to achieve strong, balanced, and sustainable growth for all stakeholders. Our experienced Board of Directors, supported by robust risk management and compliance

processes, plays a key role in ensuring the highest standards of governance and disciplined oversight in our corporate activities.

People

At Prince Pipes, our people are the cornerstone of progress. Our comprehensive people management approach encompasses employee development, safety, leadership training, and family well-being. Our policies foster operational democracy, ensuring that employees feel heard and take ownership.

Key aspects of our HR policy include:

- ✓ **Skill Enhancement Programs:** We regularly conduct specialized training programs, including Six Sigma, to enhance employee skills and support career development.
- ✓ **People-Centric Culture:** We prioritize talent attraction, nurturing, and retention. Inclusivity, diversity, and transparency are integral to our organizational culture.
- ✓ **Human Rights:** We respect and promote human rights, conducting due diligence to prevent adverse impacts from our business activities.
- ✓ **Safe and Hygienic Workplace:** Our workplace environment upholds employee dignity, safety, and well-being. We comply with statutory provisions related to health and safety.
- ✓ **Training Opportunities:** We provide internal and external training to upskill the Company's 1,913 employees, contributing to organizational vision and growth.
- ✓ **Employee engagement and welfare initiatives** include health-related programs such as weight loss competitions, health webinars, yoga and meditation sessions, and emotional health discussions with experts.

Health, Wellness, and Safety

Our unwavering commitment to workplace safety ensures that we report no incidents that could lead to legal actions, compensation claims, increased insurance premiums, reduced productivity, or reputational damage. Responsible health and safety practices are fundamental for our long-term sustainability.

Creating a safety-conscious culture among employees is our priority:

- ✓ **Occupational Health and Safety (OHSMS):** Our OHSMS certification process, supplemented by plant Safety Committees, governs safety practices. Specially trained safety professionals and line management contribute to our safety initiatives.
- ✓ **Safety Performance Metrics:** We measure safety performance using metrics such as Lost Time Injury (LTI)

and Accident-Free Days (AFD), benchmarked against global industry standards.

- ✓ Behavior-Based Safety (BBS): Our BBS initiative fosters a zero-accident culture by identifying hidden habits and environmental factors. Employees actively participate in hazard identification and risk assessment.
- ✓ Employee Training: We provide regular safety and skill-upgradation training, including:
 - o Daily Toolbox Talks (TBT) on relevant topics
 - o First aid training by St. John Ambulance
 - o BBS training by external experts
 - o EHS awareness training for new employees
 - o Hazard Identification and Risk Assessment (HIRA) training
 - o Safety auditor training
 - o Practical training on fire safety equipment
 - o Quarterly mock drills
 - o Environment and safety awareness events, including tree plantation drives.
 - o Our commitment to safety extends beyond compliance — it is ingrained in our organizational culture

Innovation

Innovation remains a cornerstone of Prince Pipes' success, allowing us to establish strong product differentiation and achieve top-of-mind recall. With a 40-year legacy, our unwavering passion for impacting India's water infrastructure has been a constant driving force. We take immense pride in our industry leadership, which enables us to understand evolving needs and anticipate future trends.

Leveraging this strength, Prince Pipes consistently introduces new products aligned with evolving industry trends, changing customer needs and international modern technologies in water management. Our commitment to innovation drives sustained investments in manufacturing, research and development, information technology, and sustainability.

As part of our goal to be an end-to-end pipes and fittings solution provider, we continuously enhance our comprehensive product portfolio. Notably, we have recently launched the following products:

Pipes & fittings:

- **Duratap in Polytetra Methylene Terephthalate (PTMT)** combines the advantages of both plastics and metals. Aimed at the cost-conscious, mass market.

- Duratap range includes faucets and showers – the product has been introduced in key markets across all zones in India
- Being a specially engineered plastic, PTMT has several advantages over other materials in terms of functionality and longevity.
- **TerraFit** – Subsurface Drainage Pipes - an innovative solution, addressing challenges related to excessive subsurface water in agriculture.
 - Also plays a pivotal role in modern infrastructure development by regulating and maintaining water tables. Ideal for maintaining stability in Agriculture & Airports.

Internal Control

Prince Pipes has implemented a robust internal control system, supported by well-documented procedures across all corporate functions. These internal controls provide evidence-based assurance regarding operational effectiveness, efficiency, financial controls, and compliance with legal requirements.

Our policies and procedures are regularly updated under the supervision of the Internal Auditor. We align all processes and controls with industry standards and regulations. The Board and the Audit Committee oversee the adequacy of internal controls by monitoring the implementation of internal audit recommendations through compliance reports. Independent auditors have also verified the adequacy of our reporting.

PART – B

Policy for appointment and removal of Director, KMPs and Senior Management

a. Appointment criteria and qualifications

1. The Committee shall identify and ascertain the integrity, qualification, expertise and experience of the person for appointment as Director, KMP or senior management level and recommend to the Board his / her appointment.
2. A person to be appointed as Director, KMP or senior management level should possess adequate qualification, expertise and experience for the position he / she is considered for

appointment. The Committee has discretion to decide whether qualification, expertise and experience possessed by a person is sufficient / satisfactory for the concerned position.

3. A person, to be appointed as Director, should possess impeccable reputation for integrity, deep expertise and insights in sectors / areas relevant to the Company, ability to contribute to the Company's growth, complementary skills in relation to the other Board members.
4. The Company shall appoint or continue the employment of any person as Managing Director / Executive Director who has attained the age of seventy years as per the provisions of the Companies Act, 2013.
5. A whole-time KMP of the Company shall not hold office in more than one company except in its subsidiary company at the same time. However, a whole-time KMP can be appointed as a Director in any company, with the permission of the Board of Directors of the Company.

b. Term / Tenure

1. Managing Director / Whole-time Director

The Company shall appoint or re-appoint any person as its Managing Director or Whole-time Director for a term not exceeding five years at a time. No re-appointment shall be made earlier than one year before the expiry of term.

2. Independent Director:

An Independent Director shall hold office for a term up to five consecutive years on the Board of the Company and will be eligible for re-appointment on passing of a special resolution by the Company and disclosure of such appointment in the Board's report.

No Independent Director shall hold office for more than two consecutive terms, but such Independent Director shall be eligible for appointment after expiry of three years of ceasing to become an Independent Director. Provided that an Independent Director shall not, during the said period of three years, be appointed in or be associated with the Company in any other capacity, either directly or indirectly. However, if a person who has already served as an Independent Director for five years or more in the Company as on April 1, 2014, or such other date as may be determined by the Committee as per regulatory requirement, he / she shall be eligible for appointment for one more term of five years only.

At the time of appointment of Independent Director, it should be ensured that number of Boards on which such Independent Director Serves is restricted to

seven listed companies as an Independent Director and three listed companies as an Independent Director in case such person is serving as a Whole-time (Executive) Director of a listed company.

c. Removal

Due to reasons for any disqualification mentioned in the Companies Act, 2013, rules made thereunder or under any other applicable Act, rules and regulations, the Committee may recommend to the Board with reasons recorded in writing, removal of a Director or KMP subject to the provisions and compliance of the said Act, rules and regulations.

d. Retirement

The Whole-time Directors, KMP and senior management personnel shall retire as per the applicable provisions of the Companies Act, 2013 and the prevailing policy of the Company. The Board will have the discretion to retain the Whole-time Directors, KMP and senior management personnel in the same position/ remuneration or otherwise, even after attaining the retirement age, for the benefit of the Company.

PART – C

Policy relating to the remuneration for Directors, KMPs and senior management:

General

1. The remuneration / compensation / commission etc. to Directors will be determined by the Committee and recommended to the Board for approval.
2. The remuneration and commission to be paid to the Managing Director/ other Executive Directors shall be in accordance with the provisions of the Companies Act, 2013, and the rules made thereunder.
3. Increments to the existing remuneration/ compensation structure may be recommended by the Committee to the Board which should be within the limits approved by the Shareholders in the case of Managing Director.
4. Where any insurance is taken by the Company on behalf of its Managing Director, Chief Financial Officer, the Company Secretary and other senior management for indemnifying them against any liability, the premium paid on such insurance shall not be treated as part of the remuneration payable to any such personnel. Provided that if such person is proved to be guilty, the premium paid on such insurance shall be treated as part of the remuneration.

Remuneration to Directors, KMPs and senior management:

The policy on remuneration for KMPs and other senior management is as below:-

1. Fixed pay

The remuneration and reward structure for senior management comprises two broad components — annual remuneration and long-term rewards. The Committee would determine the remuneration of the Directors & KMP and formulate guidelines for remuneration payable to the senior management.

These guidelines are as under:**a. Annual remuneration:**

Annual remuneration refers to the annual compensation payable to the senior management of the Company. This comprises two parts - a fixed component, and a performance-linked variable component based on the extent of achievement of the individual's objectives and performance of the organization/ business unit. The performance-linked variable pay will be directly linked to the performance on individual components and the overall performance of the organization. A senior management employee's variable pay would, therefore, be directly dependent on key performance measures that represent the best interests of organization.

The objective is to set the total remuneration at levels to attract, motivate, and retain high-caliber, and high potential personnel in a competitive global market. The total remuneration level is to be reset annually based on a comparison with the relevant peer group globally, established through independent compensation surveys, from time to time.

b. Long-term rewards:

Long-term rewards may include Long-Term Incentive Plans (LTIP) under which incentives would be granted to eligible key senior management employees based on their contribution to the performance of the Company, relative position in the organisation, and length of service under the supervision and approval of the Committee. The company could implement various long-term awards schemes that could include Long Term Incentive Programme (LTIP) spread over several years with payouts in multiple tranches linked to Company's performance. Another form of long term awards could be in the nature of stock options of the company. Stock Options may be granted to key senior management and high performers in the organisation who would be selected by the Committee based on their criticality, past performance and potential. The grant, vesting and other scheme details would be formulated from time to time.

These long-term reward schemes are implemented to attract and retain key talent in the industry.

2. Minimum remuneration to Managing Director

If, in any financial year, the Company has no profits or its profits are inadequate, the Company shall pay remuneration to its Managing Director/ Executive Directors in accordance with the provisions of the Companies Act, 2013.

Remuneration to Non-Executive / Independent Directors Remuneration

The remuneration payable to each Non-Executive Director is based on the remuneration structure as determined by the Board, and is revised from time to time, depending on individual contribution, the Company's performance, and the provisions of the Companies Act, 2013 and the rules made thereunder.

The remuneration to the Non-executive Directors (including Independent Directors) may be paid within the monetary limit approved by the shareholders as per the applicable provisions of the Companies Act, 2013.

3. Stock options

The Independent Directors shall not be entitled to any stock option of the Company.

Policy review

This policy is framed based on the provisions of the Companies Act, 2013 and rules thereunder and the requirements of the SEBI LODR Regulations.

In case of any subsequent changes in the provisions of the Companies Act, 2013 or any other regulations which makes any of the provisions in the policy inconsistent with the Act or regulations, then the provisions of the Act or regulations would prevail over the policy and the provisions in the policy would be modified in due course to make it consistent with law.

This policy shall be reviewed by the Nomination and Remuneration Committee as and when any changes are to be incorporated in the policy due to change in regulations or as may be felt appropriate by the Committee. Any changes or modifications on the policy as recommended by the Committee would be given for approval of the Board of Directors.

7. MEANS OF COMMUNICATION

Subsequent to the listing of the Company on December 30, 2019, the Company has been undertaking dissemination of information in line with the Listing Regulations on its website at www.princepipes.com. The information is also filed by the Company on the BSE Limited and National Stock Exchange of India Ltd. The Company interacts on a regular basis with its stakeholders through results, announcements, annual report, press releases and Company's website.

Green Initiative:

The Ministry of Corporate Affairs ("MCA") had taken a "Green Initiative in Corporate Governance" by allowing paperless compliances by the companies through electronic mode. The Act and the Listing Regulations have also allowed the Company to serve notice/documents/Annual Report to its shareholders through electronic mode.

The Company whole-heartedly appreciates this initiative

taken by MCA, being an ardent supporter of pro-environment causes. Not only will such a move benefit the environment but it will also enhance shareholder experience by enabling the Company to deliver communications promptly and securely and avoid losses/delays in postal transit. It is a step in the right direction being efficient both, economically and ergonomically.

As a part of this, the Company is sending notices/documents such as Annual Reports and notices by e-mail to the members who have registered their e-mail addresses. To support this credible move of the Government, the members who have not registered their e-mail addresses requested to do so at the earliest, in respect of Demat holding through their respective Depository Participant (DP) and in respect of physical holding through the RTA.

We wish to inform our members that in addition to receiving the documents through your registered e-mail, you can also access the same through the Company's website: www.princepipes.com. While every notice/document will be sent through e-mail address registered with the Company, in case you desire to receive any notice/document in physical form, please intimate the same by an e-mail to investor@princepipes.com and the same shall be sent to your address registered with the Company/DP. We solicit your patronage and support in joining hands with the Company to implement the Green Initiative.

Prince Pipes and Fittings Limited

Report on the Audit of Ind AS financial statements

Opinion

We have audited the accompanying Ind AS financial statements of **Prince Pipes and Fittings Limited** ("the Company"), which comprise the Balance Sheet as at 31st March 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the Ind AS financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the Ind AS financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2024, its profit including other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Ind AS financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the Ind AS financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Ind AS financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Ind AS financial statements of the current period. These matters were addressed in the context of our audit of the Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Description of Key Audit Matters

Key Audit Matters	How the matter was addressed in our Audit
<p>Provision for Discount & Incentives</p> <ul style="list-style-type: none"> Revenue is measured net of discounts, incentives and rebates given to the customers on the Company's sales. The Company's presence across different marketing regions within the country and the competitive business environment makes the assessment of various type of discounts, incentives and rebates as complex and judgmental. Given the complexity and judgement required to assess the year end provision for discounts, incentives and rebates given to customers, this is a key audit matter. 	<p>Our audit procedures included:</p> <ul style="list-style-type: none"> We have assessed the Company's accounting policies relating to revenue, discounts, incentives and rebate by comparing with applicable Ind AS. We have assessed the Company's computations and internal controls for accrual of discounts incentives and rebates. On a sample basis, checked the accruals made with the approved schemes and underlying documents. <p>We have compared the historical trend of discounts and incentives to provisions made to assess the current year accruals.</p>

Key Audit Matters	How the matter was addressed in our Audit
<p>Comprehensive coverage and valuation of inventories</p> <ul style="list-style-type: none"> Inventories constitute significant portion of current assets of the Company as at 31st March 2024. Further, the inventories are lying at various locations including at third party premises. Considering the overall amounts involved, inventory existence and its valuation is considered as key audit matter. 	<p>Our audit procedures included:</p> <ul style="list-style-type: none"> Assessment of the design, implementation and operational effectiveness of the relevant controls in place in the inventory management and measurement process. Review of outcome of physical verification of inventories undertaken by the Company across the locations including goods in transit and its impact on inventory valuation. Evaluation of the inventory costing methodology and valuation policy established by the management, including compliance with Ind AS 2 Inventories.
<p>Migration to new information systems</p> <ul style="list-style-type: none"> During the year, the Company has upgraded its ERP system from 'Microsoft Dynamics Navision' to 'Microsoft Dynamics 365'. Such significant system change increases the risk to the internal financial controls environment. These changes represent a financial reporting risk while migration takes place as controls and processes that have been established over a number of years are updated and migrated into a new environment. Hence, considering the significance of the activity and the pervasive impact on the financial statements, this matter has been determined as a key audit matter for current year audit. 	<p>Our audit work included, but was not limited to, the following procedures:</p> <ul style="list-style-type: none"> Obtained the understanding of the process followed by the Company for implementing the new IT system and migration of data from erstwhile IT systems into Microsoft Dynamics 365, including proper authorization, completeness, accuracy and manual / alternate controls put in place till the new systems are streamlined and stabilized. Tested the migrated balances, for completeness and accuracy. Discussion with the IT team and Internal Auditors of the Company about the implementation of new ERP, IT General Controls, and on-going improvements in the system. Extended our sample sizes (i.e. substantive test) to obtain sufficient and appropriate audit evidence.

Information Other than the Ind AS financial statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility and Sustainability Reporting, Corporate Governance and Shareholder's Information, but does not include the Ind AS financial statements and our auditor's report thereon.

Our opinion on the accompanying Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the accompanying Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information obtained prior to the date of this report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the Ind AS financial statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standard) Rules, 2015 as amended from time to time.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS financial statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As a part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Ind AS financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure I, a statement on the matters specified in paragraphs 3 and 4 of the Order.

 - f. Our comments relating to the maintenance of accounts and other matters connected therewith are as stated in paragraph 2(i)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
 - g. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure "II".
 - h. With respect to the matter to be included in the Auditors' Report under Section 197(16) of the Act, in our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act; and
 - i. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us
 - i. The Company has disclosed the impact of pending litigations on its financial position in its Ind AS financial statements - Refer 34(i) to the Ind AS financial statements.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. During the year, there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv. The management has represented that,
 - no funds have been advanced or loaned or invested by the Company to or in any other person(s) or entities, including foreign entities ("Intermediaries"), with the understanding that the intermediary shall whether directly or indirectly lend or invest in other persons or entities identified in any manner by or on behalf of the Company (Ultimate Beneficiaries) or provide any guarantee, security or the like on behalf of ultimate beneficiaries.
 - no funds have been received by the Company from any person(s) or entities including foreign entities ("Funding Parties") with the understanding that such Company shall whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the funding party (ultimate beneficiaries) or provide guarantee, security or the like on behalf of the Ultimate beneficiaries.

Based on the audit procedures performed as considered reasonable and appropriate in the circumstances, nothing has come to our notice that causes us to believe that the above representations given by the management contain any material mis-statement. Also refer note 49 of Ind AS financial statement.
 - v. As stated in note 45 to the financial statements, the Board of Directors of the Company has proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend

declared is in accordance with Section 123 of the Act to the extent it applies to declaration of dividend.

- vi. The reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 is applicable from 1 April 2023.

Based on our examination which included test checks, the Company has used accounting software (i.e. ERP) for maintaining its books of account, which have a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all transactions recorded in the software except for non-transactional activities for which the Company is in the process to enable a feature of recording audit trail (edit log) facility pursuant to migration to new accounting software.

Further, for the periods where audit trail (edit log) facility was enabled and operated throughout the year for the accounting software, we did not come across any instance of the audit trail feature being tampered with. Also refer note 53 to the financial statements.

As per proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from April 1, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended March 31, 2024.

Annexure I to the Independent Auditors' Report for the year ended 31st March 2024

(REFERRED TO IN 'OTHER LEGAL AND REGULATORY REQUIREMENTS OF OUR REPORT OF EVEN DATE')

- (i) In respect of Property, Plant and Equipment, intangible assets and right of use assets:
 - (a) (A) The Company has maintained proper records showing full particulars including quantitative details and situation of property, plant and equipment and relevant details of right of use assets.
 - (B) The Company has maintained proper records showing full particulars of intangible assets.
 - (b) The Company has a regular programme of physical verification of its Property, Plant and Equipment and right of use assets by which all Property, Plant and Equipment and right of use assets are verified in a phased manner which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
 - (c) In our opinion and according to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties (other than properties where the company is the lessee and the lease agreements are duly executed in favour of the lessee) are held in the name of the Company.
 - (d) During the year, the Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets.
 - (e) In our opinion and according to the information and explanations given to us, no proceedings have been initiated or are pending against the Company as at 31st March 2024 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.
- (ii) In respect of Inventory:
 - a) Physical verification of inventory has been conducted at reasonable intervals by the management and in our opinion, the coverage and procedure of such verification by the management is appropriate. The discrepancies noticed on verification between the physical stocks and the book records were less than 10% in aggregate for each class of inventory.
 - b) The Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks on the basis of security of current assets; and the Company has filed quarterly returns or statements with the banks which are in agreement with the books of accounts. Also, there are no borrowings from financial institutions.
- (iii) During the year, the Company has not made investments in, provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, limited liability partnerships or any other parties. Accordingly, no further comments are required on paragraph 3(iii)(a) to f) of the Order.
- (iv) In our opinion and according to the information and explanation given to us, the Company has not granted any loans or provided any guarantees or security to the parties covered under section 185 of the Act and the Company has complied with the provisions of Section 186 of the Act, with respect to the loans given, investments made, guarantees given and security provided.
- (v) The Company has not accepted any deposits or amounts which are deemed to be deposits from public within the meaning of the directives issued by the Reserve Bank of India, provisions of Section 73 to 76 of the Act, any other relevant provisions of the Act and the relevant rules made thereunder. We are informed that no order relating to the Company has been passed by the Company Law Board or National Company Law Tribunal or Reserve Bank of India or any Court or any other Tribunal.
- (vi) We have broadly reviewed the books of account and records maintained by the Company pursuant to the Companies (Cost Records and Audit) Rules, 2014 as prescribed by the Central Government for the maintenance of cost records under Section 148 (1) of the Act and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have, however, not made a detailed examination of the said records with a view to determine whether they are accurate or complete.
- (vii) In respect of statutory dues:
 - (a) According to the information and explanations given to us and on the basis of our examination of records of the Company, in respect of amounts deducted / accrued in the books of account, the Company has been generally regular in depositing undisputed statutory dues including provident fund, employees' state insurance, income-tax, goods and services tax, duty of customs, duty of excise, value added tax, cess and any other statutory dues, as applicable to the Company, during the year

with the appropriate authorities. There are no undisputed statutory dues payable in respect to above statutes, outstanding as at 31st March, 2024, for a period of more than six months from the date they became payable.

- (b) According to information and explanations given to us and on the basis of our examination of the records of the Company, details of dues of Income-tax, Sales-tax, Service tax, Duty of Customs, Duty of Excise and Value added tax which have not been deposited as on March 31, 2024 on account of disputes are given below:

Name of statutes	Nature of dues	Amount (Rs.) in Millions	Period to which it relates	Forum where dispute is pending

		1.52	F.Y. 2010-11	Gujrat Sales Tax Dept
	GST and Penalty	3.50	2017-18 to 2019-20	Chennai Appeals II - Commissionerate
	GST and Penalty	1.06	2017-18 to 2019-20	Chennai Appeals II - Commissionerate
Central Excise Act, 1944	Excise Duty	0.37	A.Y. 2008-09	Assistant Commissioner of CEC

- (viii) In our opinion and according to the information and explanations given to us by the management, there are no transactions which are not recorded in the books of account have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961). Accordingly, no further comments are required on paragraph 3(viii) of the Order.
- (ix) Based on our audit procedures and as per the information and explanations given by the management, we are of the opinion that—
- The Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender.
 - The Company has not been declared wilful defaulter by any bank or financial institution or other lender.
 - The Company has utilized the money obtained by way of term loans during the year for the purposes for which they were obtained.
 - According to the information and explanations given to us, and the procedures performed by us, and on an overall examination of the financial statements of the company, we report that no funds raised on short-term basis have been used for long-term purposes by the Company.
 - The Company does not have any subsidiary, associate or joint venture and hence the provisions of clause (ix) (e) and (f) of paragraph 3 of the Order are not applicable to the Company.
- (x) In our opinion and according to the information and explanations given to us by the management of the Company:
- During the year the Company has not raised any money by way of public offer or further public offer (including debt instruments). Therefore, reporting under clause (x)(a) of paragraph 3 of the order is not applicable to the Company.
 - The Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) during the year. Therefore, reporting under clause (x)(b) of paragraph 3 of the order is not applicable to the Company.
- (xi) In our opinion and according to the information and explanations given to us by the management of the Company:
- No fraud by the Company or any material fraud on the Company has been noticed or reported during the year.
 - No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
 - No whistle-blower complaints received during the year and upto the date of this report by the Company.

- (xii) The Company is not a Nidhi Company. Therefore, the provisions of clause (xii) of paragraph 3 of the Order are not applicable to the Company.
- (xiii) According to the information and explanation given to us and based on our examination of the records, transactions with the related parties are in compliance with Section 177 and 188 of the Act where applicable and the details of such transactions have been disclosed in the Ind AS financial statements as required by the applicable accounting standards.
- (xiv) In regard to internal audit:
- a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
 - b) We have considered, the internal audit reports for the year under audit, issued to the Company during the year and till date of this report, in determining the nature, timing and extent of our audit procedures.
- (xv) According to the information and explanation given to us and based on our examination of the records, the Company has not entered into any non-cash transactions with directors or persons connected with him. Therefore, question of our comment on compliance with provisions of Section 192 of the Act does not arise.
- (xvi) According to the information and explanation given to us and based on our examination of the records,
- a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(a), (b) and (c) of the Order is not applicable.
 - b) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.
- (xvii) The Company has not incurred cash losses during the financial year and in the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors during the year. Therefore, the paragraph 3(xviii) of the Order is not applicable.
- (xix) On the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- (xx) According to the information and explanations given to us and based on our examination of the records, during the year there are no unspent amounts towards Corporate Social Responsibility (CSR). Accordingly, reporting under clause 3(xx)(a) and (b) of the Order is not applicable for the year.
- (xxi) The Company is not required to prepare consolidated Ind AS financial statement. Therefore, paragraph 3(xxi) of the Order is not applicable to the Company.

Annexure “II” to Independent Auditor’s Report for the year ended 31st March 2024

[Referred to in paragraph 2 (f) under the heading “Report on other legal and regulatory requirements” of our report of even date]

Report on the Internal Financial Controls over Financial Reporting under section 143(3)(i) of the Companies Act, 2013 (“the Act”)

Opinion

We have audited the internal financial controls over financial reporting of **Prince Pipes and Fittings Limited** (“the Company”), as of 31st March 2024, in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). Also refer to our comments in audit report under section ‘Report on other Legal and Regulatory Requirements’ in the para 2 (i)(vi) about audit trail and edit log.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls over Financial Reporting

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit issued by ICAI. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of the Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company’s assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Company Overview and Material Accounting Policies

1. Company Overview:

Prince Pipes and Fittings Limited ("the Company") is a limited company domiciled in India and incorporated under the provision of the Companies Act, 1956. The Company was converted into public company with effect from 11 August 2017 and consequently the name of the Company has changed from Prince Pipes and Fittings Private Limited to Prince Pipes and Fittings Limited. The Company's operation comprises manufacturing and selling of plastic pipes and fittings. The equity shares of the Company have got listed on BSE limited and NSE limited on December 30, 2019.

2. Material Accounting Policies:

(a) Statement of Compliance:

The financial statements of the Company are prepared in accordance with the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 with relevant amendment rules issued thereafter and guidelines issued by the Securities and Exchange Board of India.

The financial statements are authorized for issue by the Board of Directors of the Company at their meeting held on May 16th, 2024

(b) Basis of Preparation and Presentation:

Basis of Preparation:

The financial statements have been prepared on the historical cost basis except for following assets and liabilities:

- (i) Financial Instruments measured at fair value.
- (ii) Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments).
- (iii) Employee's Defined Benefit Plan as per actuarial valuation.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristic into account when pricing the asset or liability at the measurement date. Further, in accordance with the amendments to the Companies (Indian Accounting Standards) Rules, 2023, the company has disclosed material accounting policies as against the significant accounting policies. Considering

the nature of transactions and business operation of the Company, accounting policies related to 'Non-current assets (or disposal groups) classified as held for disposal' and 'Government Grants' are not forming part of material accounting policies.

Functional and Presentation Currency:

The financial statements are presented in Indian Rupees, which is the functional currency of the Company and currency of primary economic environment in which company operates. All amounts disclosed in financial statements which also include the accompanying notes have been rounded off to nearest million as per the requirement of Schedule III (Division II) to the Companies Act 2013, unless otherwise stated.

Operating Cycle :

The Company has ascertained its operating cycle as twelve months for the purpose of Current / Non-Current classification of its Assets and Liabilities. An asset is treated as current when it is:

- (i) Expected to be realized or intended to be sold or consumed in normal operating cycle;
- (ii) Held primarily for the purpose of trading, or
- (iii) Expected to be realized within twelve months after the reporting period, or
- (iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

(c) Property, plant and equipment (PPE) :

The initial cost of PPE comprises its purchase price, including import duties and non-refundable purchase taxes, and any directly attributable costs of bringing an asset to working condition and location for its intended use, including relevant borrowing costs and any expected costs of decommissioning. Subsequent expenditures related to an item of Property, plant and equipment are added to its book value only if they meet the definition of PPE as specified in Ind AS 16 – Property, Plant and Equipment.

Expenditure/ Income during construction period (including financing cost related to borrowed funds for construction or acquisition of qualifying PPE) is included under Capital Work-in-Progress, and the same is allocated to the respective PPE on the completion of their construction. Advances given towards acquisition or construction of PPE outstanding at each reporting date are disclosed as Capital Advances under "Other non-current Assets".

The cost of an item of PPE is recognised as an asset if, and only if, it is probable that the economic benefits associated

with the item will flow to the Company in future periods and the cost of the item can be measured reliably. Expenditure incurred after the PPE have been put into operations, such as repairs and maintenance expenses, are charged to the Standalone Statement of Profit and Loss during the year in which they are incurred.

An item of PPE is de-recognised upon disposal or when no future economic benefits are expected to arise from the continued use of the assets. Any gain or loss arising on the disposal or retirement of an item of PPE, is determined as the difference between the sales proceeds and the carrying amount of the asset, and is recognised in Statement of Profit and Loss

Material items such as spare parts, stand-by equipment and service equipment are classified as PPE when they meet the definition of PPE as specified in Ind AS 16 – Property, Plant and Equipment.

If significant part of an item of PPE have different useful life, then they are accounted for as separate items of PPE.

(d) Depreciation:

Depreciable amount for PPE is the cost of an PPE less its estimated residual value. Depreciation on PPE are charged based on straight line method on an estimated useful life as prescribed in Schedule II to the Companies Act, 2013 or as per technical assessment.

Depreciation on items of property, plant and equipment acquired / disposed off during the year is provided on pro-rata basis with reference to the date of addition / disposal.

In certain classes of PPE, the Company uses different useful lives than those prescribed in Schedule II to the Act. The useful lives have been assessed based on technical advice, taking into account the nature of the PPE and the estimated usage of the PPE on the management's estimation of obtaining economic benefits from those classes of assets.

I Assets where useful life is same as Schedule II :-

Assets	Useful Life as Prescribed by Schedule II to the Companies Act, 2013
Factory Building including Compounding Wall	30 years
Other Building	60 years
RCC Roads	10 years
Office Equipment	5 years
Vehicles - Two Wheeler	10 years
Vehicles - Four Wheeler	8 years
Furniture & Fixtures	10 years
Computer Hardware (Others)	3 years

II Assets where useful life differ from Schedule II :-

Assets	Estimated Useful Life
Buildings (Temporary structures)	5 years
Plant & Machinery (including Double and Triple Shift)	7.5 years - 10 years
Plant & Machinery (Screw & Barrel)	3 years
Solar Equipment	10 years - 25 years
Computer Hardware (Servers)	3 years - 6 years
Moulds & Dies	4 years - 7.5 years
Electrical Installation	15 years
Stores & Spares in the nature of PPE	10 years

Residual value of Plant and Machinery is considered as 5% of the cost.

(e) Intangible assets :

Intangible assets acquired separately

Intangible assets that are acquired separately with finite useful lives are carried at cost less accumulated amortisation and accumulated impairment, if any. The Company determines the amortisation period as the period over which the future economic benefits will flow to the Company after taking into account all relevant facts and circumstances. The estimated useful life and amortisation method are reviewed periodically, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level.

Derecognition of intangible assets

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset are recognized in the statement of profit and loss when the asset is derecognized.

Internally generated Intangible assets (Research and Development expenditure)

Expenditure pertaining to research is expensed as incurred. Expenditure incurred on development is capitalised if such expenditure leads to creation of an asset, otherwise such expenditure is charged to the Statement of Profit and Loss.

Useful lives of intangible assets are as under:

Assets	Estimated Useful Life
Computer Software	3 years
Brands/Trademarks	10 years

(f) Impairment of Non-Financial Assets :

At the end of each reporting period, the Company reviews the carrying amounts of non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in Statement of Profit and Loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the Statement of Profit and Loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

(g) Inventories :**Raw materials, stores & spare parts and packing materials:**

Valued at lower of cost and net realisable value (NRV). However, these items are considered to be realisable at cost, if the finished products, in which they will be used, are expected to be sold at or above cost. Cost is determined on first-in-first-out (FIFO) basis. The cost of inventory comprises its purchase price, including non-refundable purchase taxes, and any directly attributable costs related to the inventories.

Work-in- progress (WIP), finished goods, stock-in-trade :

Valued at lower of cost and NRV. Cost of Finished goods and WIP includes cost of raw materials, direct labour, other direct costs and related production overheads upto the relevant stage of completion.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

(h) Employee Benefits :

Employee benefits include Gratuity, Provident Fund, Employee Family Pension, Employee State Insurance Scheme, Compensated Absences and share based payments.

Defined benefit plans:

For defined benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the Balance Sheet with a charge or credit recognised in Other Comprehensive Income (OCI) in the period in which they occur. Re-measurement recognised in OCI is reflected immediately in retained earnings and will not be reclassified to Statement of Profit and Loss. Past service cost is recognised in the Statement of Profit and Loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- (i) service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- (ii) net interest expense or income; and
- (iii) re-measurement

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.

The defined benefit obligation recognised in the Balance Sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

Defined Contribution Plan:

The Company's contribution to Provident Fund and Pension

Fund is considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made and when services are rendered by the employees. Company has no further obligation beyond its contributions

Short-term employee benefits:

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the service. These benefits include compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

Long-term employee benefits:

Accumulated compensated absences, which are expected to be availed or encashed beyond 12 months from the end of the year are treated as other long-term employee benefits. The company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/gains are recognised in the Statement of Profit and Loss in the year in which they arise.

Employee Share based payment:

Equity settled share based payments to employees are measured at the fair value of the equity instruments at the grant date.

The fair value determined at the grant date of the equity settled share based payments is amortised on a straight line basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity.

At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in the Statement of Profit and Loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the equity-settled employee benefits reserve.

(i) Borrowing costs :

Borrowing cost (General and Specific) includes interest (calculated as per effective interest method), amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily takes a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognized in the statement of profit and loss in the period in which they are incurred.

(j) Foreign Currencies :

In preparing the financial statements of the Company, transactions in currencies other than the Company's functional currency (i.e. foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are translated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of initial transactions.

Exchange differences on monetary items are recognised in the Statement of Profit and Loss in the period in which they arise except for, exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings.

(k) Revenue Recognition :

a Revenue from operations

Revenue is recognized on the basis of approved contracts regarding the transfer of goods or services to a customer for an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Revenue is measured at the fair value of consideration received or receivable taking into account the amount of discounts, rebates, outgoing taxes on sales of goods or services.

Revenue from contract with customer are recognised when goods are dispatched and the control over the goods sold are transferred to customers.

Revenue from turnkey contracts having performance obligation to be fulfilled over the time are recognised measuring the progress towards complete satisfaction of that performance obligation. The Company measures the progress using the Output method.

Costs to fulfill a contract which is directly related to a contract or to an anticipated contract, generates or enhance resources of the Company that will be used in satisfying performance obligations in the future and

expected to be recovered are recognised as an Asset.

Variable consideration includes discounts and incentives provided to the customers. It is estimated at contract inception considering the terms of contract with customers and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. It is reassessed at end of each reporting period.

Generally, the Company receives short-term advances from its customers. The Company does not expect to have any contracts where the period between the transfer of goods and payment by customer exceeds one year. Hence, the Company does not adjust revenue for the time value of money.

Other Income

- (i) Dividend Income is accounted for when the right to receive the income is established.
- (ii) Interest income is recognized on time proportion basis taking into account the amount outstanding on effective interest rate.
- (iii) Difference between the sale price and carrying value of investment is recognised as profit or loss on sale / redemption on investment on trade date of transaction.

(l) Lease:

L.1 The Company as a Lessee:

The Company, at the inception of a contract, assesses whether the contract is a lease or not lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a time in exchange for a consideration. The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received. The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term. The right-of-use asset is periodically reviewed for impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the

present value of the lease payments that are not paid at the commencement date, discounted using the the Company's incremental borrowing rate. Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the company is reasonably certain to exercise, lease payments in an optional renewal period if the company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the company is reasonably certain not to terminate early

It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

L.2 Short-term leases and leases of low-value assets

The Company has chosen not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Company recognises the lease payments associated with these leases as an expense over the lease term.

(m) Income Taxes:

Tax expense represents the sum of the current tax and deferred tax.

Current Tax

The tax currently payable is based on taxable profit for the year. Current tax is measured at the amount expected to be paid to the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemption in accordance with the local tax laws. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax is provided, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax assets and liabilities are measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted at the reporting date. Tax relating to items recognised directly in equity or OCI is recognised in equity or OCI and not in the Statement Profit and Loss.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable.

(n) Earnings per share :

A basic earnings per share is computed by dividing the profit/(loss) after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit/(loss) after tax for the year attributable to equity shareholders by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented.

(o) Provisions, Contingent Liabilities and Contingent Assets and Commitments :

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the

risks and uncertainties surrounding the obligations. When a provision is measured using the cash flow estimated to settle the present obligation, its carrying amount is the present obligations of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably. Contingent liabilities and Contingent assets are not recognized in the financial statements.

Contingent assets are not recognised in financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognised. A contingent asset is disclosed, in financial statements, where an inflow of economic benefits is probable.

(p) Financial Instruments:

Financial assets and financial liabilities are recognized when a Company becomes a party to the contractual provisions of the instruments.

Initial Recognition

Financial assets and financial liabilities are initially measured at fair value (except Trade Receivable which is at transaction price). Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss and ancillary costs related to borrowings) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in Statement of Profit and Loss.

Classification and Subsequent Measurement: Financial Assets

The Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income ("FVOCI") or fair value through profit or loss ("FVTPL") on the basis of following:

- (i) the entity's business model for managing the financial assets and
- (ii) the contractual cash flow characteristics of the financial asset.

Amortised Cost

A financial asset shall be classified and measured at amortised cost if both of the following conditions are met:

- (i) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- (ii) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

In case of financial asset classified and measured at amortised cost, any interest income, foreign exchange gains/ losses and impairment are recognised in the Statement of Profit and Loss.

Fair Value through OCI

A financial asset shall be classified and measured at fair value through OCI if both of the following conditions are met:

- (i) the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- (ii) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Where the Company has elected to present the fair value gain on equity instruments in other comprehensive income, there is no subsequent classification of fair value gain or losses to profit and loss account. Dividend from such instruments is recognized in profit and loss account as other income where right to receive is established.

Fair Value through Profit or Loss

A financial asset shall be classified and measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through OCI. All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets. For financial assets at fair value through profit or loss, net gain or losses, including any interest or dividend income are recognised in the Statement of Profit and Loss.

Classification and Subsequent Measurement: Financial liabilities

Financial liabilities are classified as either financial liabilities at FVTPL or 'other financial liabilities'.

Financial Liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is held for trading or are designated upon initial recognition as FVTPL. Gains or Losses on liabilities held for trading are recognised in the Statement of Profit and Loss.

Other Financial Liabilities

Other financial liabilities (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method. Interest expense (based on effective interest method), foreign exchange gains and losses and any gain or loss on derecognition is recognised in the Statement of Profit and Loss.

Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. The Company recognises a loss allowance for expected credit losses on financial asset. In case of trade receivables, the Company follows the simplified approach permitted by Ind AS 109 – Financial Instruments for recognition of impairment loss allowance. The application of simplified approach does not require the Company to track changes in credit risk. The Company calculates the expected credit losses on trade receivables using a provision matrix on the basis of its historical credit loss experience.

Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of the asset or if, the Company has neither transferred nor retained substantially all risk and reward of the asset, but has transferred control of the asset to another party.

On derecognition of a financial asset, other than investments classified as FVOCI, in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

On derecognition of equity investments classified as FVOCI, accumulated gains or loss recognised in OCI is transferred to retained earnings.

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset, other than investments classified as FVOCI, in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

On derecognition of equity investments classified as FVOCI, accumulated gains or loss recognised in OCI is transferred to retained earnings.

Financial liabilities and equity instruments:

(i) Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

(ii) Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Company are recognised at the proceeds received.

(q) Cash and cash equivalents :

Cash and cash equivalents in the Balance Sheet comprise cash at bank, Cash in hand and short-term deposits with banks that are readily convertible into cash which are subject to insignificant risk of changes in value and are held for the purpose of meeting short-term cash commitments.

(r) Derivative financial instruments :

The Company enters into derivative financial instruments viz. foreign exchange forward contracts and cross currency swaps to manage its exposure to interest rate, foreign exchange rate risks and commodity prices. The Company does not hold derivative financial instruments for speculative purposes.

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in profit or loss immediately excluding derivatives designated as cash flow hedge.

(s) Hedge accounting:

The Company designates certain hedging instruments in respect of foreign currency risk and interest rate risk price risk as cash flow hedges. At the inception of the hedge relationship, the entity documents the relationship between the hedging instrument and the hedged item,

along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Company documents whether the hedging instrument is highly effective in offsetting changes in fair values or cash flows of the hedged item attributable to the hedged risk.

The effective portion of changes in the fair value of the designated portion of derivatives that qualify as cash flow hedges is recognised in other comprehensive income and accumulated under equity. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss.

Amounts previously recognised in other comprehensive income and accumulated in equity relating to effective portion as described above are reclassified to profit or loss in the periods when the hedged item affects profit or loss, in the same line as the recognised hedged item. However, when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, such gains and losses are transferred from equity and included in the initial measurement of the cost of the non-financial asset or non-financial liability.

Hedge accounting is discontinued prospectively when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. Any gain or loss recognised in other comprehensive income and accumulated in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in profit or loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognised immediately in profit or loss.

(t) Cash Flow Statement:

Cash flows are reported using the indirect method, whereby the net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

(u) Segment Reporting:

Operating segments are defined as components of an enterprise for which discrete financial information is available that is evaluated regularly by the chief operating decision maker, in deciding how to allocate resources and assessing performance. The Companies chief operating decision maker is the Managing Director.

3. Critical accounting judgements and key sources of estimation uncertainty

The preparation of the Company's financial statements

requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

(i) Useful lives of property, plant and equipment :

The Company uses its technical expertise along with historical and industry trends for determining the economic life of an asset/component of an asset. The useful lives are reviewed by management periodically and revised, if appropriate. In case of a revision, the unamortised depreciable amount is charged over the remaining useful life of the assets.

(ii) Defined benefit obligation :

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(iii) Fair value measurement of Financial Instruments :

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques

including the Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.

(iv) Income taxes :

Significant judgements are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

(v) Revenue from turnkey project :

The Company has recognised revenue and cost from this project. Due to the nature of the project, recognition of revenue and cost involves usage of percentage of completion method which is determined based on the progress towards complete satisfaction of that performance obligation, which involves significant judgments, identification of contractual obligations and the Company's rights to receive payments for performance completed till date.

(vi) Leases :

The Company considers all the extension-options under the commercial contract for determining the lease-term which forms the basis for the measurement of right-of-use asset and the corresponding lease-liability.

(vii) Discount, Incentives & Rebates :

Revenue is measured net of discounts, incentives, rebates etc. given to the customers on the Company's sales. The Company's presence across different marketing regions within the country and the competitive business environment makes the assessment of various type of discounts, incentives and rebates as complex and judgmental.

4. Recent pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2024, MCA has not notified any new standards or amendments to the existing standards applicable to the company.

32B Financial Risk Management Objectives (Ind AS 107)

The Company's principal financial liabilities, other than derivatives, comprises of borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The company's principal financial assets, other than derivatives include trade and other receivables, investments and cash and cash equivalents that derive directly from its operations

The Company's activities expose it to market risk, liquidity risk and credit risk. The Company's overall risk management focuses on the unpredictability of financial markets and seek to minimise potential adverse effects on the financial performance of the Company. The company uses derivative financial instruments, such as foreign exchange forward contracts, cross currency swaps that are entered to hedge foreign currency risk exposure and hedge interest rate exposure. Derivatives are used exclusively for hedging purposes and not as trading or speculative instruments.

Notes to the Financial Statements

For The Year Ended 31st March, 2024

The sources of risks which the company is exposed to and their management is given below:

Risk	Exposure Arising From	Measurement	Management
A. Market Risk			
1) Foreign Exchange Risk	Committed commercial transaction	Cash Flow Forecasting	(a) Forward foreign exchange contracts (b) Foreign currency options (c) Principal only/Currency swaps
	Financial Instruments not denominated in INR	Sensitivity Analysis	
2) Interest Rate	Borrowings at variable rates	Sensitivity Analysis, Interest rate movements	Monitoring of limits of fund based and non fund based facilities, diversification of borrowing portfolio
3) Commodity Price Risk	Movement in prices of commodities	Sensitivity Analysis, Commodity price tracking	Active inventory management, Sales Price linked to purchase price
B. Credit Risk	Trade receivables, Investments, Derivative financial instruments, loans	Ageing analysis, Credit Rating	Credit limit and credit worthiness monitoring, Criteria based approval process
C. Liquidity Risks	Borrowings and Other Liabilities and Liquid investments	Rolling cash flow forecasts	Monitoring of credit lines and borrowing limits, channel finance arrangement, Adequate unused credit lines and borrowing facilities

The Company has policies, procedures and authorisation matrix for utilisation of funds, which ensures deployment of fund in prudent manner and the availability of funding through an adequate amount of credit facilities to meet obligation when due. The Company on periodical basis reviews implementation and execution of above policies.

A. Market Risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, commodity prices, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and borrowings.

1) Foreign Currency risk

Foreign currency risk is the risk of impact related to fair value or future cash flows of an exposure in foreign currency, which fluctuate due to changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to import of raw materials, capital expenditure and exports. When a derivative is entered for the purpose of being a hedge, the Company negotiates the terms of those derivatives to match the terms of the hedged exposure.

The Company evaluates exchange rate exposure arising from foreign currency transactions. The Company follows established risk management policies and procedures. It uses derivative instruments like foreign currency forwards and cross currency swaps to hedge exposure to foreign currency risk.

2) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The company's exposure to the risk of changes in market interest rates relates primarily to the company's term loans and short term borrowing with floating interest rate. For foreign currency loan with floating rate, the risk of variation in interest rate is mitigated through cross currency swap. The company constantly monitors the credit markets and rebalances its financing strategies to achieve an optimal maturity profile and financing cost.

(a) Forward contracts outstanding are as under:

Particular	Purpose	Currency	As at 31-03-2024	As at 31-03-2023
Forward Contracts	Imports	USD (in million)	15.89	17.07

3) Commodity Price Risk

Commodity price risk for the Company is mainly related to fluctuations in raw material prices linked to various external factors, which can affect the production cost of the Company. To manage this risk, the Company monitors factors affecting prices, identifies new sources of supply of raw material, monitors inventory level, etc.

B. Credit Risk Management

Credit risk arises when a customer or counterparty does not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing / investing activities, including deposits with banks, foreign exchange transactions and financial guarantees. The Company has no significant concentration of credit risk with any counterparty.

Trade Receivable

Trade receivables are consisting of a large number of customers / distributors. The Company has credit evaluation policy for each customer / distributor and based on the evaluation credit limit of each customer / distributor is defined.

Total trade receivable as on 31st March, 2024 Rs. 5,848.72 million (31st March, 2023 is Rs. 4,150.24 million). There are no customers which account for more than 10% of the company's total revenue from operations for the year ended 31st March, 2024 and 31st March, 2023.

As per simplified approach, the Company makes provision of expected credit losses on trade receivables using a provision matrix to mitigate the risk of default payments and makes appropriate provision at each reporting date wherever outstanding is for longer period and involves higher risk. The policy for creating provision for credit losses on trade receivables is as per following provision matrix:-

Particular	Loss Allowance Provision
0 to 275 days	Nil
Above 275 days and less than one year	0.75%
Above one year and less than two year	20%
Above two year and less than three year	40%

Investments, Derivative Instruments, Cash and Cash Equivalent and Bank Deposit:

Credit Risk on cash and cash equivalent, deposits with the banks / financial institutions is generally low as the said deposits have been made with the banks / financial institutions who have been assigned high credit rating by international and domestic rating agencies.

Credit Risk on Derivative Instruments are generally low as Company enters into the Derivative Contracts with the reputed Banks and Financial Institutions.

C. Liquidity Risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at reasonable price. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of credit facilities to meet obligations when due. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Company's liquidity position through rolling forecasts on the basis of expected cash flows.

33 Fair Value measurements (Ind AS 113)

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in an orderly transaction in the principal (or most advantageous) market at measurement date under the current market condition regardless of whether that price is directly observable or estimated using other valuation techniques. The Company has established the following fair value hierarchy that categorises the values into 3 levels. The inputs to valuation techniques used to measure fair value of financial instruments are:

Level 1: This hierarchy uses quoted (unadjusted) prices in active markets for identical assets or liabilities. The fair value of all quoted investments which are traded in the stock exchanges is valued using the closing price or dealer quotations as at the reporting date.

Notes to the Financial Statements

For The Year Ended 31st March, 2024

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on company specific estimates. Unquoted investments are valued using the closing Net Asset Value. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

The management assessed that cash and bank balances, trade receivables, trade payables, cash credits and other financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

Notes to the Financial Statements

For The Year Ended 31st March, 2024

The following methods and assumptions were used to estimate the fair values:

- The fair values of the quoted investments are based on market price/net asset value at the reporting date.
- The fair value of unquoted investments is based on closing Net Assets Value.
- The fair value of forward foreign exchange contracts is calculated as the present value determined using forward exchange rates and interest rate curve of the respective currencies.
- The fair value of currency swap is calculated as the present value determined using forward exchange rates, currency basis spreads between the respective currencies, interest rate curves and an appropriate discount factor.
- The fair value of the remaining financial instruments is determined using discounted cash flow analysis. The discount rates used is based on management estimates.

xiii) Asset Liability matching strategy:

The money contributed by the Company to the Gratuity fund to finance the liabilities of the plan has to be invested for funded gratuity plan. The Company has outsourced the investment management of the fund to an Insurance Company. The Insurance Company in turn manages these funds as per the permissible limits prescribed in the insurance regulation. Due to the restriction in the type of investment that can be held by the fund, it is not possible to explicitly follow an asset liability matching strategy. There is no compulsion on the part of the Company to fully prefund the liability of the Plan.

xiv) The Company's expected contribution during next year is ₹ NIL (31st March, 2023 of ₹ NIL).
