FPIs net sellers at ₹8,879 cr so far in Dec

PRESS TRUST OF INDIA
New Delhi, December 12

FOREIGN PORTFOLIO INVESTORS (FPIs) were net sellers in the Indian markets to the tune of ₹8,879 crore so far in December.

As per depositories' data, they took out ₹7,462 crore from equities, ₹1,272 crore from the debt segment and ₹145 crore from hybrid instruments during December 1-10.

This took the total net outflow to ₹8,879 crore during the period.

In November, FPIs were net sellers to the tune of ₹2,521 crore in Indian markets.

There continues to be concerns over the highly transmissible Omicron variant of coronavirus, which has impacted global growth outlook and could play a spoilsport, said Himanshu Srivastava, associate director (manager research) of Morningstar India.

This has already turned investors

risk-averse.

Adding to it, Shrikant Chouhan, head-equity research (retail) at Kotak Securities, said there is expectation of rising inflation and expectation of monetary tightening by the US Federal Reserve.

VK Vijayakumar, chief investment strategist at Geojit Financial Services, said

sustained selling has been witnessed in banking in which FPIs have the largest holding. They have been sellers in information technology (IT), too.

"Paradoxically, banking and IT are two segments that have good earnings visibility," he added.

The pace of selling is likely to come down if the markets remain resilient, he said.

For the debt segment, Srivastava said the flow has largely been driven by the direction of the US dollar and US treasury yields.

"The surge in the US treasury yields this week could have also triggered some outflows from the Indian bond market," he said.

So far in December, flows across emerging markets were mixed, with South Korea, Taiwan and Indonesia witnessing inflows to the tune of \$2,164 million, \$1,538 million and \$265 million, respectively, Chouhan noted.

Analysing customer feedback if Jimny brand can be introduced in India, says Maruti Suzuki

PRESS TRUST OF INDIA
New Delhi, December 12

THE COUNTRY'S LARGEST carmaker Maruti Suzuki India (MSI) is currently analysing customer feedback to ascertain if the Jimny brand could be introduced in India as part of its overall plan to strengthen the SUV portfolio, as per a senior company official.

The auto major currently manufactures three-door Jimny at its Gurugram plant and exports to Middle East and African markets. The model, though compact in size, is well known for its off-road prowess.

Jimny has been in the global market for over 50 years. "It is a segment worth looking into, that is the reason why we exhibited it in the Auto Expo 2020.

"We have collected some very good feedback from the customers. We are studying this feedback and we will definitely see if we can introduce the product here," MSI Senior Executive Director (Sales and Marketing) Shashank Srivastava told PTI in an interaction.

This lifestyle SUV segment is small but there is a class of customers who really want that kind of a vehicle, he noted.

"The volumes are less but such vehicles lift the image of an OEM. At the same time, it also helps support many customer aspirations," Srivastava said.

He noted that various aspects, from pricing to component supply etc, need to be evaluated for launching any kind of new product in a market.

"Due to Covid, there has been some delay regarding new product introductions. But now we are all set for new launches. We are looking at all segments where we think there are opportunities while strengthening our existing strong points," Srivastava stated.

MSI is looking to consolidate its position in the mid-SUV segment where its market share remains low as compared to the rivals, he noted.

"In the SUV segment our market share is around 13-14%. If we go into the details, in the entry SUV segment, Vitara Brezza is the number one selling vehicle despite new launches.

"But, if we look at the mid-SUV segment, which currently accounts for around 18% of the entire PV segment, our market share is very low. We have S-Cross in that space which is not giving enough volume. So clearly we have a low market share in a growing segment," Srivastava said.

The company is therefore looking at the mid-SUV segment very closely, he added.

"We need to strengthen our product portfolio in this particular segment.

"We are looking at those places where we have weakness in our product range, bigger SUV space is one of those areas," Srivastava noted.
