# Uber, Ola face DG-GST probe for alleged tax evasion

The liability of Uber has been fixed at ₹800 cr, Ola's at ₹300 cr

PEERZADA AARAR  
Bengaluru, 11 January

The Directorate General of Goods and Services Tax Intelligence (DGGI) has launched an investigation into ride-hailing aggregators Uber India and Ola Cabs. The DGGI has issued summons to officials of the two companies related to alleged tax evasion worth hundreds of crores, according to sources.

The tax liability dues for Uber India has reportedly been calculated at ₹800 crore, set at around ₹800 crore. However, according to industry sources, two different tax intelligence teams based in different cities have calculated the dues for the companies and sent notices based on their interpretation. "This has resulted in the calculation of the tax at the rate of 15 per cent for Uber and 6 per cent for Ola," said an industry source. Industry sources said these tax dues are related to the 2015-17 period before GST (goods and services tax) kicked in, and deal with service tax.

Both Ola and Uber confirmed that an investigation is being conducted by the DGGI, but did not share comments related to the tax liability. "We are in receipt of a notice from the tax department relating to certain matters prior to 2017 in our mobility business. These pertain to the erstwhile service

For several years now, the cab aggregators are alleged to have refrained from paying GST on the incentives they pay drivers. In addition, they have allegedly not paid GST on ride cancellations despite charging customers for the same

tax regime," said an Ola spokesperson on Monday evening. The SoftBank-backed company said it has been actively engaged with the department and is cooperating with tax authorities and confident about resolving this satisfactorily. "Ola is a proud taxpayer. We comply with all our tax obligations and have contributed several thousand crores in taxes over the past four years," said a spokesperson for Ola. "Uber is a law-abiding and compliant company. We are working closely with the authorities and will respond accordingly," said a spokesperson for Uber.

For several years now, the cab aggregators are alleged to have refrained from paying GST on the incentives they pay drivers. In addition, they have allegedly not paid

GST on ride cancellations despite charging customers for the same. Besides Ola and Uber, many technology companies have come on the radar of the Income Tax (IT) department. The IT department recently conducted surveys at Instakart, a group company of e-commerce giant Flipkart, and food delivery firm Swiggy in Bengaluru. The surveys are related to an alleged bogus input tax credit connected to the external vendors of these firms, according to sources. Last week, a team of IT department officials reached the office of Instakart, located on the Flipkart campus in Bengaluru. They were investigating Merlin and Surya Services, which are the third-party vendors for Instakart. An IT department team also landed at the office of Swiggy to conduct the survey.

# KKR raises \$3.9 bn in biggest infrastructure fund in Asia

Firm sees lots of opportunities in India, Korea and the Philippines

GATHY CHAN  
7 January

KKR & Co. raised \$3.9 billion for its first Asia-Pacific infrastructure fund, amassing the largest pool of cash in the region for investments in everything from waste management to renewable energy to communication towers.

In the process of raising funds, the firm boosted its initial target from \$3 billion and stepped fundraising after reaching its cap. It tapped three dozen investors in the US, Europe, the Middle East and Asia-Pacific, said Alisa Amosova, Head of KKR's Private Markets Product Group.

KKR and its employees contributed about \$300 million. Accelerating its expansion across a region that has emerged from the pandemic and bolstered by a growing middle class, the firm is also in the midst of raising at least \$12.5 billion in a fourth private equity fund and planning its first real estate and credit funds in Asia. KKR declined to comment on the other fundings.

Institutional investors are increasingly looking for a "one-stop shop" with deal-making, operational and capital market expertise, favoring assets with a lower-risk profile that aren't tied to public market indexes. Wood said, "Investors are looking for a safe pair of hands," she said in an interview.

KKR established its global infrastructure team and strategy in 2008 and has since invested more than \$24 billion in 40 assets around the world. It hired David Luboff away from Macquarie Group in 2019 to build a platform in Asia, where it now has a 11-member team with plans to add more in Japan. The firm has already committed over \$1.8 billion in six infrastructure investments in Asia, which added to investor

confidence and led to a "considerably shorter" fundraising. Luboff said in an interview. Three investment areas include India Grid Trust and renewable energy Virecent Energy Infrastructure in India, two waste management companies in South Korea and First Gen Corp. and Hinnack Towers, the telecommunication provider in the Philippines, respectively.

Active and passive funds based in the region, including China, brought in \$5.8 billion in the three months through September, according to Morningstar data. Flows nearly quadrupled from the previous period in Australia and New Zealand, which were launched in Japan's restricted markets.

Luboff said the firm will focus on brownfield, cash yield investments with downside protection and sees lots of opportunities in India, Korea and Philippines. The firm is "very optimistic" about Japan, while Australia is a very deep and mature market that is generally well covered. China has high levels of domestic capital providers so returns there have been competitive in certain sectors, he said.

# Park Hotels signs on 320 rooms under management contract

ISHITA AYAN DUTT  
Kolkata, 8 January

Apexcity Starwood Park Hotels (ASPH) has signed on 320 rooms under management contract across its brands — The Park Collection, Zone by The Park, and the newly launched Zone Connect.

ASPH has four brands: The Park Hotels, The Park Collection, Zone by The Park, and Zone Connect. Zone Connect, a limited service brand under its Zone by The Park portfolio, has been launched with four under managed hotels under management contract in three cities — Coimbatore, Goa, and

ASPH now operates 1,937 keys. Another 320 will get added in 2021, but ASPH will still be building hotels. In a sign of better market conditions, the company plans to restart its project in Pune, which was suspended during the Covid period. "It's a 200-room hotel, which will take 18-24 months to get completed," added Dewan.

The hospitality industry, which has been hugely impacted by Covid-19 restrictions, is now slowly limping back. Occupancy improved over the last quarter; in October, it was 66 per cent, which climbed up to 70 per cent in November. In December, it went up to 88 per cent. We have had a significant comeback on the occupancy front," said Dewan. Its three hotels in Kolkata, New Delhi, and Visakhapatnam had, in fact, clocked more than 90 per cent occupancy. In managed portfolio, its two properties in Goa had 95 per cent occupancy. "In resort destinations, businesses are coming back. The leisure business is looking promising," said Dewan.

ASPH is going asset light. At present, the ratio between owned and managed properties is 60:40. In three years, the plan is to reverse it in favour of more owned assets. "As we move towards more managed properties, the ratio will get reversed over a period of three years. So, 60 per cent will be managed, 40 per cent owned," said Dewan.

# DoT says BSNL and MTNL turned Ebitda-positive in first half of FY21

State-owned telecom companies BSNL and MTNL turned Ebitda positive in the first half of financial year 2020-21, DoT said on Monday. The Department of Telecom (DoT) also said that the process for spectrum allocation for 4G services to Bharat Sanchar Nigam on pan-Indian basis, including Delhi and Mumbai, has been initiated and fundings have been provided in FY20-21. Summing up the developments in the sector in its year-end review for 2020, the DoT in a release said that overall

92,956 employees of both the public sector companies who opted for voluntary retirement scheme have retired on January 31, 2021. The salary expenditure in BSNL and MTNL (Maharashtra Telephone Nigam) has reduced by 50 per cent (about ₹600 crore per month), respectively. Ebitda (earnings before interest, taxes, depreciation and amortisation) have become positive in first half of FY20-21 in both BSNL and MTNL," it said.
