PRESS RELEASE

Infosys and AWS Enter Strategic Collaboration to Accelerate Financial Institutions' Cloud Transformation Across Europe, Middle East and Africa

London, United Kingdom – November 8, 2023: [Infosys](#) (NSE, BSE, NYSE: INFY), a global leader in next-generation digital services and consulting, today announced a new Strategic Collaboration Agreement (SCA) with [Amazon Web Services Inc \(AWS\)](#). The three-year collaboration will deliver technology transformation and industry specific solutions to financial organizations supported by joint investments into go-to-market and delivery capabilities across the EMEA region.

Working together, Infosys and AWS will support financial organizations, like retail banking at NatWest Group, in accelerating their cloud adoption journeys leveraging industry proven capabilities to deliver specialized end-to-end cloud migration and modernization services. Customers will receive transformative cloud services from AWS, domain knowledge and delivery from Infosys, and Infosys Capital Markets' expertise to transform business models and modernize applications, delivering operational efficiency.

As part of [Infosys Cobalt](#), a set of services, solutions, and platforms for enterprises to accelerate their cloud journey, the collaboration will deliver industry specific use cases that leverage AWS's cloud native innovation including generative AI and data analytics. Customers will also benefit from production-ready shared toolsets, certified architectural and security blueprints to accelerate adoption and ensure compliance.

Bringing together the synergies of Infosys and AWS will also ensure greater business agility reacting to rapidly evolving market conditions and regulatory change as organizations restructure their business models and accelerate their migration to the cloud away from conventional managed datacenters. The underpinning flow of skills sharing between AWS and Infosys will support the entire customer journey focusing on outcome-based delivery to ensure technical alignment and reduce business risk.

To catalyze growth across Europe, Middle East and Africa, Infosys and AWS will jointly create go-to-market strategies and make co-investments over the next three years. Key areas of collaboration include accelerating growth of existing large-scale transformations, collaborating with FinTech partners to bring new cloud-based solutions to the market, and investing in co-innovation to deliver new products and services.

Wendy Redshaw, CDIO, Retail NatWest Group, said, “We see collaboration, strategic alignment, and engineering excellence as essential elements of successful partnerships. This relationship between Infosys and AWS embodies these elements and will help us to better support and protect our customers by leveraging cloud reliability, security, and scalability.”

Dennis Gada, Executive Vice President, Global Head of Banking & Financial Services, Infosys, said, “AWS is a pioneer in cloud innovation, and by bringing together our expertise in delivering technology transformation at scale and our unwavering customer centric approach, we are excited to bring a comprehensive and industry-leading offering to our financial services clients in Europe, Middle East and Africa. By leveraging Infosys Cobalt's industry cloud solutions, assets and frameworks, we are committed to helping financial organizations accelerate their business outcomes.”

Mark Jopling, Director of GFS EMEA Sales, AWS, said, “Together with Infosys, we will extend the reach of our combined services and expertise to help financial institutions innovate more quickly and increase their agility as they continue facing rapidly changing economic conditions. Combining our cutting-edge cloud innovation with Infosys' technology transformation expertise, we now offer customers more capabilities and solutions to specific financial industry challenges at speed and scale.”

About Infosys

Infosys is a global leader in next-generation digital services and consulting. Over 300,000 of our people work to amplify human potential and create the next opportunity for people, businesses and communities.
