## **RattanIndia's Revolt Motors reopens booking of electric bikes**

- New bookings reopen on 15<sup>th</sup> July, 12 noon after an overwhelming response to its last round of bookings

**New Delhi July 13, 2021:** RattanIndia's Revolt Motors, the market leader in EV bikes in the country, today announced the re-opening of bookings for its state of the art, AI enabled electric bikes. Revolt had last opened bookings in mid June but had to close the bookings with all bikes being sold out within 2 hours. Revolt is reopening bookings after a hiatus of almost a month with all sales completely booked for the period and company being focused on making deliveries to its booked customers.

During this time the company has also worked to shore up its production capacities at its world class manufacturing plant at auto hub of Manesar in Haryana. Revolt has a completely contactless online booking system and customers can register for bookings through the "**Notify Me**" tab on its website [www.revoltmotors.com](http://www.revoltmotors.com).

Revolt is witnessing a robust demand for its electric bikes particularly with rising petrol prices. Revolt electric bikes provides great savings for its customers with running cost as low as Rs. 9 per 100 kms compared to Rs. 250 per 100 kms for petrol bikes. Also, a number of State Govts. are offering direct cash transfers of amounts upto Rs. 20,000 for purchase these electric bikes.

The RV400 comes with a 3KW (Mid Drive) motor, powered by a 72V, 3.24KWh Lithium-Ion battery that can churn out a top speed of 85km/h. The bike can be operated through MyRevolt App, which offers connectivity features such as bike locator/Geo fencing, customised sounds that you can change with just a tap on the screen, complete bike diagnostics, battery status, historical data on your rides and KMs done, and also the option of locating the nearest Revolt Switch Station to swap your Revolt's battery at, and be on-the-move in less than 60 seconds. Revolt RV300 features a 1.5KW (Hub Motor), 60-volt, 2.7 kWh lithium-ion battery which delivers the longest range of 180km. It comes with Upside Down (USD) forks up-front and a fully-adjustable monoshock at the rear.

Both the models feature three riding modes - Eco, Normal and Sport – each suiting to the riding style and needs of the driver. Both RV400 and RV300 come with USD forks up-front and a fully-adjustable monoshock at the rear to give an unparalleled riding experience.

### **Revolt Intellicorp**

Revolt Intellicorp is the next-gen mobility company, created for the smart world. Revolt is working with a vision of democratizing clean commutes using next-gen mobility solutions and a mission to create a future of next-gen mobility with 100% accessibility and 0% fuel residue. With technology at its roots and class-apart products, Revolt has introduced India's first AI-enabled motorcycle without compromising on the performance or aesthetics of a regular ride.

Revolt Intellicorp commenced operations in 2019. The company offers two EV models in India currently, in addition to a full range of genuine parts and accessories available through its authorized dealerships.
