## Q4-FY22:

- The company achieved price increases for H1 FY22, however, the geopolitical developments in Europe and supply chain challenges from China once again pushed the company to the back seat, as most raw materials have either seen significant price increase or are showing signs of price increases
- Although EBITDA Margins for Q4-FY22 improved by 302 bps against Q3-FY22, this was dampened by further pricing pressures in raw materials, which started in February 2022 in some products

## FY22:

- During the year, the company witnessed steady demand across all product categories i.e. Aroma Chemicals, Flavours & Fragrances and Camphor.
- The production volume increased by 9% and sales volumes increased by 12%
- Company crossed pre pandemic levels of production volumes as well as sales volumes across all plants
- Sales realisations across all product categories except camphor improved on a Y-o-Y basis
- During the year, there was a substantial increase in the price of all input costs which has impacted the profitability for the year

## Capital Expenditure Update:

- During the quarter the company successfully commissioned the capacity expansion of Terpineol chemicals group at Bareilly
- Capital investments program in Baroda, Bareilly and Mahad are on track. However, they are facing moderate delays due to combination of factors which include residual covid – 19 impact, challenges in the global supply chains, steel prices and the current geo-political situation due to Russia-Ukraine crisis
