**Vedantu's China Connection**  
In a sector starved of funding, the TAL's \$5 million investment in Vedantu will help the Bengaluru-based live-tutoring startup co-create content and strengthen its technology backbone. Beijing-based TAL gets to grow enrollments and geographical footprint.

**Powerless Solar**  
India's ambition of becoming a solar-power rich nation is in jeopardy, as a tariff cap on solar bids is forcing developers to abandon projects.

**Fintech Comes to the Fore**  
A supportive government, progressive regulator, and smart money on tap have made Singapore a fintech hub. In contrast, India's fintech ecosystem is over-regulated, with mounting compliance costs. Still, the consumer internet story in India has been compelling, and the country is a great market for innovative collections solutions.

# China's Fosun in Talks to Buy Medall Health

A US co had agreed to buy diagnostic chain, but deal fell through

Mohit Bhatta @timesgroup.com

**New Delhi:** China's Fosun International group is in talks to buy Chennai-based diagnostics and radiology labs chain Medall Healthcare after a deal between Nasdaq-listed Constellation Alpha and the PE-investor-owned healthcare company fell through in December because of failure to meet certain deal conditions, according to people in the know. The \$100-billion Chinese family-owned conglomerate is holding negotiations with Medall's investors, New York-based private equity fund Siguler Guff and homegrown Peepul Capital, according to the sources. Fosun is yet to make a formal financial offer for Medall but will do so in the coming weeks. Its offer is likely to be at a discount to the price that was offered by the Palm Beach, Florida-based Constellation Alpha, the sources said. The US company had announced in August last year that it had agreed to purchase a 93% stake in Medall for around

**Expanding Base**  
Fosun set to make a formal financial offer in coming weeks. The group bought Gland Pharma from KKR in a \$1.1-billion deal in 2017.

₹1,450 crore. The payout for the deal was to be staggered over a period of time but fell through in December as per a filing Constellation Alpha made with Nasdaq. Fosun has completed due diligence on the company, according to two people familiar with the matter. "Fosun would not be able to comment on specific opportunities," Navjeevan Khosla, managing director, healthcare holdings at Fosun international said in response to ET's queries. Mails sent to Medall's investors Siguler Guff and Peepul Capital's co-founder Sandeep Reddy did not elicit a response till press-time Tuesday. Medall was founded by serial entrepreneur Raju Venkatraman and is a dominant player in the South Indian market with nearly 185 labs. Unlike other pathology chains that offer only blood-based sample testing, Medall derives a substantial portion of its revenues from radiology services such as scans and MRI's.

# AI, Arm Set to Hire 250 Jet Staffers

Move comes as a relief for jobless employees of the grounded airline

Anirban Chowdhury @timesgroup.com

**Mumbai:** Air India and its subsidiary Air India Express are in the process of hiring 250 pilots and crew from grounded carrier Jet Airways, a senior executive said on Tuesday. "Air India Express is hiring close to 50 commanders for its Boeing 737 planes from Jet. We are in talks to hire about 200 cabin crew," said the executive, adding the crew and pilots would be paid as per Air India's salary levels. Air India Express operates mostly to neighbour-

ing international cities. The national carrier follows its peers in nibbling into bits of its financially distressed peer: Jet suspended all its flights on April 17 as it ran out of cash to run operations and failed to raise bank loans. It has close to 70 planes on ground - of which 50 have been deregistered due to non-payment of rentals to plane leasing companies - and more than 18,000 employees left in the lurch. More than 400 of its unused flight slots are being allocated to other airlines which are also leasing its deregistered planes and hiring its employees. SpiceJet, for instance, is leasing 40 Boeing 737 planes originally flown by Jet.
